distancing at all work places, enforcing wearing of masks and regular cleaning of hands.

5. Estimation of the future impact of COVID-19 on its operations:

The company is presently running its business with 33% of its total capacity. The company is trying to fulfil most of its orders and requirements of the customers because of underutilized production capacity. This has caused tremendous production shortages and supply chain issues leading to revenue losses to the business. Thus, resulting in huge losses to the company during the current quarter which may continue for the next few quarters also.

6. Details of impact of COVID-19 on the Company

The procurement of raw material has been heavily interrupted due to lockdown. The company is not able to timely deliver its products to the customers. The profitability of the Company is quite low at the moment as the company is not able to utilise its resources to the fullest resulting in which the Company is not able to meet its commitments timely.

The Company is also facing the liquidity issue at the moment due to non-receipt of funds from its customers. The Company is facing heavy difficulties in paying off its debt and other financial obligations well in time.

7. Existing contract/agreements where non-fulfilment of the obligations by any party will have significant impact on the listed entity's business:

The Company is not facing that much difficulties in procuring raw materials from the suppliers, the Company is able to fulfil its commitments related to timely delivery of goods to the customers.
