BUDGET 2022-23

# Weak demand-led rural stress to continue for FMCG firms

SHARLEEN D'SOUZA  
Mumbai, 2 February

Fast-moving consumer goods companies expect demand to remain under pressure as the government did not announce any direct initiatives in the Budget for 2022-23 to ease the pain of weak demand amid persisting cost pressures.

While the government announced initiatives like PM Gati Shakti, which will increase employment, it will take a while for the money to reach the hands of the consumer, according to consumer companies. Also, the MNREGA allocation did not come on expected lines but companies expect it to get revised during the

year. "One can not expect rural demand to increase from March as there was no immediate relief announced by the government to increase money in the hands of the consumer, especially in rural areas," Angshu Mallick, the managing director and chief executive officer of Adani Wilmar, told Business Standard.

Mallick, however, added that rural demand will eventually increase as the government's emphasis on infrastructure will lead to employment and higher income. Factors such as good crops of wheat, mustard and chana will generate better income for farmers and improve consumption, which will revive demand,

he said. Mayank Shah, the category head at Parle Products, said, "The bigger evil is inflation compared to rural demand". terms of reviving demand. High inputs costs have led to price hikes and impacted demand. He said that MNREGA allocation could have been higher, and expects it to get revised going forward.

"Putting money in the hands of consumers really helps... The industry expected direct benefit transfer either by tax cut, or by increasing slabs of the tax brackets or by probably increasing the standard deduction limit. Not much has been done there," Shah said.

you're talking about putting money into the hands of rural consumers by increasing MSP (minimum support prices), it is also going to have an impact on inflation."

Rural demand has been under pressure for the last two quarters. While value growth in rural areas is positive, volume growth is negative.

Venkatesh Vijayaraghavan, the chief executive officer, CavinKare, said, "the government's view on investment in capex will cause the economy to improve in the long term, which augurs well as overall demand will rise". However, none of the Budget announcements will have an impact on addressing rural demand, which he expects will revive only by March-end.

## ONGC, IOC, others to spend ₹1.1 trillion as capex in FY23

PRESS TRUST OF INDIA  
NEW DELHI, 2 February

State-owned oil firms will invest over ₹1.11 trillion in the next fiscal year as they supplement the government's massive spending programme to spur economic growth.

Oil and Natural Gas Corporation (ONGC), Indian Oil Corporation (IOC), GAIL (India), Bharat Petroleum Corporation (BPCL), Hindustan Petroleum Corporation (HPCL) and Oil India (OIL) will together make a 7.4 per cent higher capital

expenditure (capex) in FY23. The capex spending of ₹1.11 trillion in FY23 compares with a revised estimate of ₹1.04 trillion for FY22.

ONGC has planned a capex of ₹29,950 crore in FY23, marginally lower than the revised estimates expenditure of ₹30,500 crore in FY22. IOC has an outlay of ₹28,549 crore for the next year, almost the same as FY22. GAIL will invest ₹7,500 crore in the expansion of pipeline grid and petrochemical plants, up from ₹7,160 crore revised expenditure in FY22.
