GUIDELINES AHEAD OF EXPORTS TO S'PORE, HONG KONG

Testing of EtO residue in all spice shipments must: Govt

ENS ECONOMIC BUREAU
New Delhi, May 15

INDIA HAS MADE the testing and sampling of Ethylene Oxide (EtO) residue for all spice shipments to Singapore and Hong Kong mandatory from May 7, the commerce and industry ministry said on Wednesday. The ministry said that a techno scientific committee conducted a root cause analysis, inspected processing facilities and collected samples for testing in accredited labs after reports on recall of India spice products from Singapore and Hong Kong.

"The Spice Board India has taken steps to ensure the safety and quality of Indian spice exports to Singapore and Hong Kong. The Board organised a stakeholder consultation involving over 130 exports and associations such as All India Spices Exporters Forum and the Indian Spice and Foodstuff Exporters' Association," the commerce and industry ministry said in a statement. The

New Zealand looking into Indian spice brands over contamination

NEW ZEALAND'S FOOD SAFETY regulator on Wednesday said it is investigating possible contamination in spice products of top Indian brands MDH and Everest after they faced scrutiny in other countries. The US and Australia have been looking into contamination after Hong Kong last month suspended sales

of three spice blends of MDH and one of Everest, saying they contained high levels of a cancer-causing pesticide, ethylene oxide. Singapore ordered a recall of the Everest spice mix. In a statement to Reuters, the regulator, New Zealand Food Safety, said it is aware of the overseas recalls. —REUTERS

ministry added that guidelines for EtO treatment has also been "reiterated" to all exporters.

A government official said that rejection rates of spices are low and that export sample failures are one off in nature. "The rejection rate of spices is less than 1 per cent of the total quantity exported by us to major jurisdictions. India exported about 14.15 million

tonne of spices in FY24 and 200 kg is a small quantity that has been recalled," a commerce ministry official said.

The official added that the sample failure for Indian exports remains low at 0.1% to 0.2% while sample failure for imports from other countries is at 0.73%. "One sample being impacted is not a big issue," the official said, adding

that India also rejects samples from many countries at times.

The official added that EtO is a fumigant type of product that is used during transportation and that some amount of pesticide is allowed in the process of food management. Different countries also have prescribed varying limits of chemicals that can be present in food, the official said.

India-UK FTA: Negotiators make significant progress

MUKESH JAGOTA
New Delhi, May 15

NEGOTIATORS FOR THE India-UK free trade agreement (FTA) have made substantial progress and the work is on to resolve pending issues as early as possible, a senior official said Wednesday.

Officials from both sides had met last month in London and chapterwise textual negotiations are nearly closed and schedules on goods and services are in an advanced stage of negotiations, he said. "Work is in progress on resolving pending issues."

The India-UK FTA has 26 chapters or policy areas and the schedules in FTA deal with tariffs which each side will impose on goods from other countries under the agreement. So far India and UK have held 13 rounds of negotiations on the FTA and the 14th round which started in January is in progress.

On the India-European Union (EU) trade pact, the official said that the eighth round of talks is scheduled from June 24-28 in Brussels. Before the 8th round of talks both sides have decided to meet virtual meetings on some of the chapters that are part of the proposed agreement. The India-EU FTA has 23 chapters.

On May 7, the stocktaking

RESOLVING PENDING ISSUES

Officials from both sides had met last month in London and chapterwise textual negotiations are nearly closed and schedules on goods and services are in an advanced stage of negotiations

The FTA has 26 policy

areas and the schedules in the deal with tariffs which each side will impose on goods from other countries under the agreement

So far India and UK have held 13 rounds of negotiations on the FTA

meeting was held on the agreement between the Indian commerce secretary and EU director General. The last round of talks were completed in February.

The official said that the 8th round of talks on India-Peru FTA is expected to take place in July. The seventh round of talks were held in New Delhi in April. In between

the two meetings. Officials from both sides will engage virtually to take the negotiations forward.

Before the 8th round both sides are aiming to exchange offers on goods and services that will give speed to the conclusion of the talks. "Stakeholder consultation is in progress for the same," the official added.

Delay in IBC eroding asset value: IBBI chairman

PRIYANSH VERMA
New Delhi, May 15

THE DELAY IN the corporate insolvency resolution process (CIRP) under the insolvency and bankruptcy code (IBC) erodes the stressed-asset's value and minimises recovery for the creditors; hence, it's important for all the stakeholders to expedite decision making, said Ravi Mittal, chairperson, Insolvency and Bankruptcy Board of India (IBBI).

Mittal's comments were part of the IBBI's January-March 2024 newsletter. The IBBI Chairman said that, on an average, the CIRP is taking 679 days to conclude as against the standard timeline of 330 days. Data of 947 resolved cases as of March 2024 indicates a direct correlation between the length of the CIRP and the recovery rate, he said. As per the data, the recovery rate for creditors stands at 49.2% if the CIRP is concluded within 330 days. It reduces to 36%, if the CIRP process concludes between 330-599 days; and beyond 600 days, the recovery rate stands at mere 26.1%.

Mittal highlighted that the insolvency regulator has taken various measures to reduce delays in CIRP such as putting a cap on number of modifications in the resolution plan.

Unemployment rate in urban areas declines

"THE LEAN SEASON in agriculture exacerbated the rural-urban migration process and that led to higher levels in urban unemployment," said Lekha Chakraborty, professor, National Institute of Public Finance and Policy. "As December-June is in between harvest' season in India, workers go to the cities looking for jobs," she said.

Typically, unemployment in urban areas rises in Q4 from Q3 in any financial year.

Finance minister Nirmala Sitharaman's Office said on X: "The quarterly bulletin (January-March 2024) of Periodic Labour Force Survey released today shows a consistent increase in labour force participation rate (LFPR) and worker population ratio (WPR) and decreasing unemployment rates (UR) in urban areas." The comparison was made on a year-on-year basis.

The FM's office highlighted that the female unemployment rate decreased from 9.2% in Q4FY23 to 8.4% in Q4FY24. In Q3FY24, the female unemploy-

ment was 8.6%. "The increased access to basic amenities such as piped drinking water under the Jal Jeevan Mission, clean cooking fuel under Ujjwala (no collecting or burning firewood), sanitation, etc, is freeing up women's time from domestic duties, enabling them to undertake work and employment opportunities," the FM's office said.

The WPR, which shows the percentage of workers in the population, rose to 36.9% in Q4FY24 from 36.7% in Q3FY24, possibly due to rural workers migrating to urban areas. The WPR in Q4FY24 is at the highest since the start of

the survey in 2018. The labour force participation rate (LFPR) - the part of the population which supplies or offers to supply labour for pursuing economic activities - rose slightly to 39.5% in Q4FY24, up from 39.2% in Q3FY24. The LFPR comprises both employed and unemployed persons.

The unemployment rate, as per the PLFS, is defined as the percentage of unemployed persons in the labour force. The estimates of unemployment are as per the current weekly status (CWS) approach. According to the CWS approach, a person is considered unemployed in a week if he/she did not work even for 1 hour on any day during the reference week but sought or was available for work at least for 1 hour on any day during the reference week.

The statistics ministry surveyed 169,459 persons and 44,598 households for the PLFS survey of Q4 FY24. For Q3FY24 PLFS, 169,209 persons and 44,544 households were surveyed.

Foreign investors most short on India stocks since 2012

MODI IS STILL widely expected to secure a third successive five-year term with the leader having predicted that the BJP and its allies will win more than 400 of the 543 seats up for grabs.

The dip in voter turnout has raised concerns about the BJP's support. While there are no definite reasons for the slide, analysts and poll watchers ascribe the trend to several factors, including an ongoing heatwave across the country and the lack of an overarching emotive issue to rally voters.

Sanford C Bernstein strategists expect Modi's party "to sail through -- with some possibility of repeating 2019 or even going slightly above" despite concerns over muted voter turnout.

Still, investor anxiety is reflected in the so-called fear gauge, which measures likely market swings over the next 30 days. —BLOOMBERG

Green power on super-fast track

PRAVEER SINHA, MANAGING director and CEO at Tata Power, said the industry has added a total of 18 GW in FY24 against 12 GW in FY23. "We will reach the target (the country's RE target of 500 GW by 2030). All players have a significant role to play. It is about sustainability and future of the earth," Sinha said.

A senior consultant at an audit and consulting firm said companies took 10 years to reach 10 GW but will reach the next 10 GW much faster due to increasing funding options such as listing, private equity and so on. "Larger players have sufficient play for their portfolios. Adani, for instance, wants to do 35-40 GW in the next five years. That is in line with country's target. That is very much doable,"

said a senior consultant at a audit firm who did not want to be quoted.

He said if 425 GW is the target, including solar, wind and others for supplying to utilities, another 120 to 130 GW can be directly sold to consumers and industrial and group captive projects. "All this will create additional demand and green hydrogen will create additional demand of 120 to 150 GW," he said.

However, a recent report by SBICaps said more needs to be done in the renewables space. "A run rate of 50 GW per year renewables addition needed to meet FY30 targets. Pickup is needed beyond current level and the improved awarding is expected to meet requirement," the report said.

Winning bidder of Jet planes may fly away

THE JKC CONSORTIUM is the successful applicant for the bankrupt Jet Airways, but the handover of the airline by the lenders to it is yet to happen due to opposition of the lenders over some payment issues. However, these aircraft were not part of the revival plan.

The Challenge Group would have acquired them and put them in operation elsewhere. The Malta-based company had paid \$4.6 million (10% of the total deal size) for the three planes in Mumbai and \$1 million as part of the bid process for two such planes stationed in Delhi. The company has filed an appeal in the National Company Law Tribunal (NCLT), which has directed the monitoring committee to file a response to the plea on May 17.

"If JKC had given its go-ahead, this sale process would

have closed long ago. The India courts took their time but eventually they delivered judgments correctly," said a lawyer tracking the Jet Airways case closely.

Source said JKC does not have any intention to keep the Jet aircraft inventory with itself, including the 777s that have been sold to Challenge Group.

The Mumbai aircraft are now in a far worse technical condition than they were when the bidding started for them. To make them airworthy again would be time-consuming and involve high costs.

"They have now been grounded and not properly preserved for five years. India generally, and Mumbai in particular, are considered bad places for storing idle aircraft and engines because of the extreme levels of humidity and pollution in the air there," Koish added.

CIL, NMDC exploring lithium mines overseas: Mines secy

NEHA ARORA
New Delhi, May 15

STATE-RUN MINERS Coal India and NMDC are exploring lithium mines in Chile and Australia, Secretary of Mines VL Kantha Rao said on Wednesday.

The Indian mines ministry is also encouraging other state-owned companies, such as ONGC Videsh, to scout for critical minerals overseas, Rao told reporters at the sidelines of an industry conference in New Delhi.

"We are looking at four state-owned companies to become active," he said. Last June, NMDC's unit Legacy Iron Ore had signed a lithium exploration pact with Australia's Hancock Prospecting.

India will additionally take a delegation to Zambia in June, with executives from the Tata Group and Vedanta, the secretary said. The two governments will discuss the joint exploration of critical minerals such as lithium. A separate delegation will head to Congo, he added.

An India is analysing whether an existing trade pact with Chile can be expanded to include critical minerals for government access, Rao said, as well as studying trade routes with Mongolia. —REUTERS

NOTICE
TRANSFER OF EQUITY SHARES OF THE COMPANY TO INVESTOR EDUCATION AND PROTECTION FUND (IEPF)

Notice is hereby published pursuant to the provisions of Section 124(6) of the Companies Act, 2013 read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("the Rules") notified by Ministry of Corporate Affairs as amended from time-to-time, the shares in respect of which dividend has not been paid or claimed for seven consecutive years or more are required to be transferred in the name of Investor Education and Protection Fund (IEPF).

In compliance with the Rules, shareholders are hereby informed that the final dividend declared for the financial year 2016-17 which remained unclaimed for a period of seven years will be credited to the IEPF within 30 days from the due date i.e. **October 06, 2024**. The corresponding shares on which dividend was unclaimed for seven consecutive years will also be transferred as per the procedure set out in the Rules.

Adhering to the various requirements set out in the Rules, the Company has communicated individually to the concerned shareholders vide letter dated **May 15, 2024** whose shares are liable to be transferred to demat account of the IEPF Authority for taking appropriate action.

The Company has uploaded the details of such shareholders and shares due for transfer to IEPF on its website at: www.balajitelefilms.com at the link: <https://ris.kfintech.com/services/IEPF/IEPFInfo.aspx?q=OQ8HMfJouy4%3d>

Concerned shareholders holding shares in physical form and whose shares are liable to be transferred to demat account of the IEPF Authority, may note that the Company would be issuing new share certificate(s) in lieu of the original held by them for the purpose of transfer of shares to demat account of the IEPF Authority and upon such issue, the Company shall inform the depository by way of corporate action to convert the new share certificate(s) into DEMAT form and transfer in favour of IEPF Authority. The original share certificate(s) which are registered in the name of original shareholders will stand automatically cancelled and be deemed non-negotiable. Concerned shareholders holding shares in dematerialized form may note that the Company shall inform the depository by way of corporate action for transfer of shares in favour of the DEMAT account of the IEPF Authority.

Shareholders are requested to claim the final dividend declared for the financial year 2016-17 by **October 06, 2024**, failing which the Company shall transfer the shares on which dividend has remained unclaimed for seven consecutive years as on **October 06, 2024** to the demat account of the IEPF Authority by **November 05, 2024**.

Please note that no claim shall lie against the Company in respect of unclaimed dividend amount and shares transferred to IEPF. Shareholders may claim the dividend and corresponding shares transferred to IEPF including all benefits accruing on such shares, if any, from the IEPF authorities after following the procedure prescribed in the Rules.

For any queries on the above matter, shareholders are requested to contact the Company's Registrar and Share Transfer Agent viz. Unemployment rate in urban areas declines

“THE LEAN SEASON in agriculture exacerbated the rural-urban migration process and that led to higher levels in urban unemployment,” said Lekha Chakraborty, professor, National Institute of Public Finance and Policy. “As December-June is ‘in between harvest’ season in India, workers go to the cities looking for jobs,” she said.

Typically, unemployment in urban areas rises in Q4 from Q3 in any financial year.

Finance minister Nirmala Sitharaman’s Office said on X: “The quarterly bulletin (January-March 2024) of Periodic Labour Force Survey released today shows a consistent increase in labour force participation rate (LFPR) and worker population ratio (WPR) and decreasing unemployment rates (UR) in urban areas.” The comparison was made on a year-on-year basis. The FM’s office highlighted that the female unemployment rate decreased from 9.2% in Q4FY23 to 8.4% in Q4FY24. In Q3FY24, the female unemployment was 8.6%. “The increased access to basic ameni-

ties such as piped drinking water under the Jal Jeevan Mission, clean cooking fuel under Ujjwala (no collecting or burning firewood), sanitation, etc, is freeing up women’s time from domestic duties, enabling them to undertake work and employment opportunities,” the FM’s office said.

The WPR, which shows the percentage of workers in the population, rose to 36.9% in Q4FY24 from 36.7% in Q3FY24, possibly due to rural workers migrating to urban areas. The WPR in Q4FY24 is at the highest since the start of the survey in 2018. The labour force participation rate (LFPR) – the

part of the population which supplies or offers to supply labour for pursuing economic activities – rose slightly to 39.5% in Q4FY24, up from 39.2% in Q3FY24. The LFPR comprises both employed and unemployed persons.

The unemployment rate, as per the PLFS, is defined as the percentage of unemployed persons in the labour force. The estimates of unemployment are as per the current weekly status (CWS) approach. According to the CWS approach, a person is considered unemployed in a week if he/she did not work even for 1 hour on any day during the reference week but sought or was available for work at least for 1 hour on any day during the reference week.

The statistics ministry surveyed 169,459 persons and 44,598 households for the PLFS survey of Q4 FY24. For Q3FY24 PLFS, 169,209 persons and 44,544 households were surveyed.

Green power on super-fast track

PRAVEERSINHA, MANAGING director and CEO at Tata Power, said the industry has added a total of 18 GW in FY24 against 12 GW in FY23. “We will reach the target (the country’s RE target of 500 GW by 2030). All players have a significant role to play. It is about sustainability and future of the earth,” Sinha said.

A senior consultant at an audit and consulting firm said companies took 10 years to reach 10 GW but will reach the next 10 GW much faster due to increasing funding options such as listing, private equity and so on. “Larger players have sufficient play for their portfolios. Adani, for instance, wants to do 35-40 GW in the next five years. That is in line with country’s target. That is very much doable,” said a senior consultant at an audit firm who did not want to be quoted.

He said if 425 GW is the target, including solar, wind and

others for supplying to utilities, another 120 to 130 GW can be directly sold to consumers and industrial and group captive projects. “All this will create additional demand and green hydrogen will create additional demand of 120 to 150 GW,” he said.

However, a recent report by SBI Caps said more needs to be done in the renewables space. “A run rate of 50 GW per year renewables addition needed to meet FY30 targets. Pickup is needed beyond current level and the improved awarding is expected to meet requirement,” the report said.

Winning bidder of Jet planes may fly away

THE JKC CONSORTIUM is the successful applicant for the bankrupt Jet Airways, but the handover of the airline by the lenders to it is yet to happen due to opposition of the lenders over some payment issues. However, these aircraft were not part of the revival plan.

The Challenge Group would have acquired them and put them in operation elsewhere. The Malta-based company had paid \$4.6 million (10% of the total deal size) for the three planes in Mumbai and \$1 million as part of the bid process for two such planes stationed in Delhi. The company has filed an appeal in the National Company Law Tribunal (NCLT), which has directed the monitoring committee to file a response to the plea on May 17.

“If JKC had given its go-ahead, this sale process would have closed long ago. The India courts took their time but eventually they delivered judgments

correctly,” said a lawyer tracking the Jet Airways case closely.

Source said JKC does not have any intention to keep the Jet aircraft inventory with itself, including the 777s that have been sold to Challenge Group.

The Mumbai aircraft are now in a far worse technical condition than they were when the bidding started for them. To make them airworthy again

would be time-consuming and involve high costs.

“They have now been grounded and not properly preserved for five years. India generally, and Mumbai in particular, are considered bad places for storing idle aircraft and engines because of the extreme levels of humidity and pollution in the air there,” Koish added.

Foreign investors most short on India stocks since 2012

MODI IS STILL widely expected to secure a third successive five-year term with the leader having predicted that the BJP and its allies will win more than 400 of the 543 seats up for grabs.

The dip in voter turnout has raised concerns about the BJP’s support. While there are no definite reasons for the slide, analysts and poll watchers ascribe the trend to several factors, including an ongoing heatwave across the country and the lack of an overarching emotive issue to rally voters.

Sanford C Bernstein strategists expect Modi’s party “to sail through — with some possibility of repeating 2019 or even going slightly above” despite concerns over muted voter turnout. Still, investor anxiety is reflected in the so-called fear gauge, which measures likely market swings over the next 30 days.

Implied volatility for options expiring June 27 — the closest monthly expiry following the counting of the votes on June 4 — jumped to over 20% on Tuesday from less than 15% when polling began on April 19, data compiled by Bloomberg show.

Notes:

- The above is an extract of the detailed audited financial results for the quarter ended and year ended 31 March 2024 filed with Stock Exchange under Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. Full format of Standalone and Consolidated financial results for the quarter and year ended 31 March 2024 is available on the Stock Exchange website (www.bseindia.com and www.nseindia.com) and on the Company’s website.
- Subsequent to receiving Environmental Clearance on 25 April 2023 from Ministry of Environment, Forest & Climate Change (MoEFCC) and Consent For Establishment (CFE) and Consent For Operation (CFO) from Karnataka State Pollution Control Board (KSPCB) on 4 September 2023 and February 2024 respectively, the Company has on 16 February 2024, received the Maximum Permissible Annual Production (MPAP) from Monitoring Committee to operate at the enhanced levels. The total MPAP allocated is 3.81 MMT of iron ore and 0.462 MMT of manganese ore. Considering the pro-rata allocation, the MPAP for financial year 2023-24 is 1.9684 MMT for iron ore and 0.315 MMT for manganese ore.
- The Board of Directors of the Company and the shareholders of the Company in their meeting held on 18 December 2023 and 20 January 2024 respectively have recommended and approved the issuance of 5 (five) fully paid-up bonus shares of ₹ 10/- each for every 1 (one) fully paid-up equity share held as on the record date i.e. 2 February 2024. Subsequently, on 5 February 2024, the Company allotted 13,50,29,115 equity shares of ₹ 10/- each to shareholders who held equity shares as on the record date. The newly issued bonus shares were listed and admitted to dealings on the Exchanges from 15 February 2024. Earnings per Equity Share has been calculated for the current period and restated for all the previous period(s) after considering the total number of equity shares post-issue of bonus shares as per the provisions of the applicable Ind AS.
- Subsequent to the year end, on 25 April 2024, the Company has signed a definitive agreement for strategic business acquisition to acquire 80% equity stake in Arjas Steel Private Limited (ASPL) at an Enterprise value of ₹ 3,00,000 lakh. The said strategic business acquisition will help the Company to accelerate its journey of forward integration into steel, value-added products and unlock potential for numerous synergies. The acquisition of ASPL is expected to be completed within seven months, subject to customary closing conditions and approval of the Competition Commission of India as per the Share Purchase Agreement (SPA).
- The Board of Directors at the meeting held on 15 May 2024 has recommended a final dividend of ₹ 1/- per equity share of ₹ 10/- each for the financial year 2023-24. The same is subject to shareholders approval in the ensuing Annual General Meeting.
