## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

Management's discussion and analysis of the financial condition and results of operations include forward looking statements based on certain assumptions and expectations of future events. The Company cannot assure that these assumptions and expectations are accurate. Although the Management has considered future risks as part of the discussions, future uncertainties are not limited to Management perceptions.

### **1. Review Of Indian Economy:**

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships. India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 232.15 trillion (US\$ 3.12 trillion) in FY22. India is the third-largest unicorn base in the world with over 100 unicorns with a total valuation of US\$ 332.7 billion. India needs to increase its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030s, for productivity and economic growth according to McKinsey Global Institute. The net employment rate needs to grow by 1.5% per year from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030. According to data from the Department of Economic Affairs, as of January 28, 2022, foreign exchange reserves in India reached the US\$ 634.287 billion mark.

### **2. Industry Structure and developments:**

The electronics industry has seen sweeping changes over the last two decades. These have primarily been in the product domain (across technologies, formats and design), the evolution of the retail environment (from traditional to large-format specialised stores and e-commerce), and an evolving regulatory landscape. The requirements of both the consumers and businesses have evolved, leading to a demand for more innovative products.

The industry's ecosystem has undergone drastic changes to keep pace with the changing demand patterns. The supply chains are now far more complex, diverse, and optimised to meet the new industry structure. Currently, a significant share of Indian demand is met by imports. But the Indian electronics industry is being ushered into an era wherein the manufacture of several components will be indigenised through regulatory support and incentivised production from the government of India.

Specific to the electronics sector, several policies such as Make in India, National Policy of Electronics, Net Zero Imports in Electronics, and Zero Defect Zero Effect, augur well for the industry, as they signal a commitment to growth in domestic manufacturing, lowering import dependence, energising exports, and environmentally-conscious manufacturing. Incentives to attract capital and measures to develop the component supply base (applying the Phased Manufacturing Plan for mobiles to other categories) will have to be sustained at the supply side, while also correcting aberrations in GST on the demand side. Furthermore, despite the lockdown, the government of India has been consistently expanding incentives through the three major schemes it launched in April 2020 with an outlay of ₹ 500 billion.

### 3. Strength, Opportunities, Threats

#### **Strength:**

Growth in the Indian economy and demand creates unprecedented opportunities for company to invest significantly in each of its core businesses. Outlook for the overall industries is positive. In keeping with the philosophy of continuous consumer centric approach which is the hall mark of any organization, several developmental activities have been planned for the next fiscal year.

#### **Opportunities:**

- Vast Industrial Presence in both Public and Private Sectors
- Huge demand for Domestic Industrial goods.
- Avail of Low-cost, Skilled Human Resources.
- Proactive government continued thrust on reforms- Further liberalization under process.
- Increasing investment in real assets (Capacity Expanding), Inflow of FDI (Foreign Direct Investment) across Industrial sector.

#### **Threats:**

Indian electronics industry may face following possible threats.

- **Tough Competition from Global Players:**

The Indian industries possesses major threat of established manufacturing ecosystems in China, Japan, Taiwan, South Korea, etc. Also, the emergence of low cost manufacturing destinations, like Vietnam, has created the tough competition. Inadequate testing facilities, delayed policy implementations are some of the major inhibitors of our competitiveness in global manufacturing sector.

- **Infrastructural inadequacy:**

Infrastructural and other facilities in our country are inadequate to cater the demands of the Goods and Products. We are lacking in building and developing indigenous manufacturing plants, semiconductor fabrication units, and adequately equipped laboratories for testing and measuring facilities. These barriers are diverting the business related to other destinations rather than from India.

- **A complex value chain:**

The electronics industry is constantly changing due to disruptive innovation, thereby increasing the pressure on the value chain to upgrade continuously. The sourcing and contractual interdependencies between OEMs and suppliers are now more complex due to the highly advanced technology of the components, the number of components required for a single finished product, the level of aggregation or assembly required, and the need to adapt to changes in product design. The Indian ecosystem for electronic components is still evolving and has a long way to go.

- **Other Risk:**

Risk in cost of raw materials, environmental liabilities, tax laws, labour relations, litigation and significant changes in the Global political and economical environment exert tremendous

influence on the performance of the company. The Company has laid down procedures to inform Board Members about the risk assessment and minimization procedures.

#### **4. Segment Wise- Product wise performance:**

It expects to improve its position in the market by focusing in the technologically advanced and more profitable Product and market segment and working aggressively in the area of productivity, efficiency and cost reduction.

#### **6. Risks and Concerns**

The Industry is exposed to the following risk and concerns:

- **Complex Global Supply-Chain:**  
Companies have to juggle internal and external resources while staying within international standards. Issues such as traceability and compliance are increasing operational burdens. It is not unusual for components and sub-components to embark on a journey that touches three or more continents before reaching the end-consumer.
- **Uncertain Demand:**  
Aggregately, economic volatility and cyclical demand cause fluctuations in production. On a more granular level, consumer preference can cause spikes in demand for an individual products or company. Efficient lean capabilities must be in place to keep inventory aligned with demand.
- **Management Of Inventories And Prices Of Raw Materials:**  
In order to manage the inventories efficiently, we generally plan the purchase of raw materials and components in advance. In some cases, after the receipt of the customers confirmed orders, (except for materials which we purchase in bulk or purchases based on prevailing and forecast material price and as per customer specifications); we then proceed to purchase the raw materials. Since we do not maintain long term inventories of raw materials and components, we may also be exposed to price risks should the cost of the components we require increase due to market conditions or any other factors which we may not be able to

control. Shortages of raw materials could result in reduced production or delays in production, which may restrict our capacity to fulfil large orders at short notice or prevent us from making scheduled shipments to customers. The raw materials that we import are subject to currency rate fluctuations which may have an impact on our profitability.

- **Sustainability:**

Emerging regulations and standards for cleaner and greener technology are forcing companies to be accountable for the manufacturing process as well as the final product. The entire recycling and disposal process for electronics needs to be considered as a vital part of the product life cycle.

## **INDEPENDENT AUDITOR'S REPORT**

To the Members of **Mehai Technology Limited**

### **Report on the Audit of the Standalone Financial Statements**

#### **Opinion**

We have audited the financial statements of Mehai Technology Limited ("the Company"), which comprise the balance sheet as at 31st March 2022, and the statement of profit and loss, (statement of changes in equity) and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the company as at March 31, 2022, and its profit/loss, (changes in equity) and its cash flows for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### **Other Information**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the standalone financial statements and our auditor's report thereon. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Due to outbreak of COVID-19 globally and in India, the company's management has made initial assessment of likely adverse impact on business and financial risks, and believes that the impact is likely to be short term in nature. The management does not see any medium to long term risks in the company's ability to continue as a going concern and meeting its liabilities as and when they fall due.

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on its operations. In developing the assumptions relating to the possible future uncertainties in the economic conditions because of this pandemic, the company, as at the date of approval of these financials statements has used internal sources of information and market base intelligence to arrive at its estimate.

### **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **“Annexure A” to the Independent Auditor’s Report of even date on the Financial Statements of Mehai Technology Limited**

### **Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of **Mehai Technology Limited** (“the Company”) as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### **Management’s Responsibility for Internal Financial Controls**

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by ICAI on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

## **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

## **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
