Management Discussion and Analysis Report:-

➤ **Global Economic Overview**

In 2023, global economic growth slowed to 3.1% from 3.5% in 2022, with Asia contributing disproportionately despite challenges like a weak Chinese recovery, sustained weakness in the USA, higher energy costs in Europe, and global consumer sentiment dampened by conflicts like the Ukraine-Russia war and the Red Sea crisis. Monetary policy tightening led to increased policy and interest rates for new loans. Advanced economies saw growth slow from 2.6% in 2022 to 1.5% in 2023 and 1.4% in 2024 due to policy tightening. Emerging markets and developing economies also experienced a modest growth decline from 4.1% in 2022 to 4.0% in 2023 and 2024. Global inflation is projected to decrease steadily from 8.7% in 2022 to 6.9% in 2023 and 5.8% in 2024, aided by tighter monetary policy and lower international commodity prices, though core inflation decline is expected to be gradual. The US Federal Reserve raised interest rates significantly, reaching the highest level in over 22 years. Global trade in goods declined by nearly US\$ 2 Trillion in 2023, while trade in services expanded by US\$ 500 Billion. The cost of Brent crude oil averaged US\$ 83 per barrel in 2023, down from US\$ 101 in 2022, partly due to Russian crude oil finding new markets outside the EU and global demand falling short of expectations. Despite challenges, global equity markets ended 2023 positively, with major benchmarks delivering double-digit returns, driven by declining inflation, a slide in the dollar index, falling crude prices, and expectations of rate cuts by central banks

➤ **Indian Economic Overview**

The Indian economy was estimated to grow 7.6% in the 2023-24 fiscal against 7.2% in 2022-23 mainly on account of the improved performance in the mining and quarrying, manufacturing and certain segments of the services sector. India retained its position as the fifth largest economy. The Indian rupee displayed relative resilience compared to the previous year; the rupee opened at H82.66 against the US dollar on the first trading day of 2023 and on 27 December was H83.35 versus the greenback, a depreciation of 0.8%. In the 11 months of FY 2023-24, the CPI inflation averaged 5.4% with rural inflation exceeding urban inflation. Lower production and erratic weather led to a spike in food inflation. In contrast, core inflation averaged at 4.5%, a sharp decline from 6.2% in FY 2022-23. The softening of global commodity prices led to a moderation in core inflation. The nation's foreign exchange reserves achieved a historic milestone, reaching US\$ 645.6 Billion. The credit quality of Indian companies remained

strong between October 2023 and March 2024 following deleveraged Balance Sheets, sustained domestic demand and government-led capital expenditure. Rating upgrades continued to surpass rating downgrades in H2 FY 2023-24. UPI transactions in India posted a record 56% rise in volume and 43% rise in value in FY24.

Growth of the Indian economy

	F21	F22	F23	F24
Real GDP growth (%)	-6.6%	8.7	7.2	7.8E

Growth of the Indian economy quarter by quarter, FY 2023-24

	Q1 F24	Q2 F24	Q3 F24	Q4 F24E
Real GDP growth (%)	8.2	8.1	8.4	8E

In 2023, India faced a challenging monsoon, experiencing a five-year low in rainfall, with August being exceptionally dry, receiving only 94% of its long-term average rainfall. Despite this, wheat production was anticipated to reach a record 114 million tonnes in the 2023-24 crop year, while rice production was expected to decline to 106 million metric tonnes due to adverse weather. Kharif pulses production was estimated lower than the previous year due to climatic conditions. Economically, India saw growth across various sectors. The manufacturing sector output was projected to grow by 6.5%, compared to 1.3% in the previous year, and the mining sector by 8.1%. Financial services, real estate, and professional services were estimated to grow by 8.9%. Real GDP was estimated at H171.79 Lakh Cr, with a growth rate of 7.3%, while nominal GDP was at H296.58 Lakh Cr. Nonperforming assets in scheduled commercial banks decreased to 3.2%. India’s exports stood at US\$ 778 Billion, with increases in direct tax and GST collections. Despite challenges, the agriculture sector’s growth was projected at 1.8%. Other sectors, like trade, hotel, transport, communication, and broadcasting, were expected to grow at a slower pace compared to the previous year. (Source: Business Standard) India achieved significant milestones, emerging as the fifth largest economy with a GDP of US\$ 3.6 Trillion and a nominal per capita income of INR 123,945. Its stock market grew, becoming the world’s fourth-largest, and foreign investment in Indian government bonds surged. India maintained its ease of doing business ranking and saw a decline in unemployment to 3.2% from 6.1% in 2018.

➤ **Outlook**

India withstood global headwinds in 2023 and is likely to remain the world’s fastest-growing major economy on the back of growing demand, moderate inflation, stable interest rates and robust foreign exchange reserves. The Indian economy is anticipated to surpass US\$ 4 Trillion in 2024-25.

Union Budget FY 2024-25

The Interim Union Budget 2024- 25 retained its focus on capital expenditure spending, comprising investments in infrastructure, solar energy, tourism, medical ecosystem and technology. In 2024-25, the top 13 ministries in terms of allocations accounted for 54% of the estimated total expenditure. Of these, the Ministry of Defense reported the highest allocation at Rs. 6,21,541 Cr, accounting for 13% of the total budgeted expenditure of the central government. Other ministries with high allocation included Road transport and highways (5.8%), Railways (5.4%) and Consumer Affairs, food and public distribution (4.5%).

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report which are expected to be made available to us after the date of this auditors' report, but does not include the Financial Statements and our Auditor's report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the such other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. we are required to communicate the matter to those charged with governance and take appropriate actions, if required.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity

and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to the Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1. Basis of preparation

Statement of compliance

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ("the Act") (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

(i) Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. Details of Companies Accounting Policies are included in Note 3

(ii) Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the Rupees, unless otherwise indicated.

(iii) Basis of Measurement

The financial statements have been prepared on a historical cost basis, except for the certain Financial Assets and Liabilities which are measured at Fair Value.

(iv) Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make estimates, judgments, and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of financial statements and the reported amounts of revenue and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an on going basis and could change from period to period. Appropriate changes in estimates are recognized in the period in which the Company becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods. The estimates and judgments that have significant impact on carrying amount of assets and liabilities at each balance sheet date are discussed at note 3.

I. Determination of the estimated useful lives of tangible assets

Useful lives of property, plant and equipment are taken as prescribed in Schedule II of the Act.

II. Recognition of deferred tax assets / liabilities

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized. Further details are disclosed in note 32.

III. Recognition and measurement of provision and contingencies

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the reporting date. The actual outflow of resources at a future date may therefore, vary from the amount included in other provisions.

IV. Impairment of financial assets

The Company recognizes loss allowances for expected credit losses on its financial assets measured at amortized cost. At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

2. Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for, both financial and non-financial assets and liabilities.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

3. Material accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all

the years presented, unless otherwise stated.

Revenue Recognition

Revenue is recognized when it is probable that the economic benefits will flow to the Company and it can be reliably measured. Revenue is measured at the fair value of the consideration received/receivable net of rebate and taxes. The Company applies the revenue recognition criteria to each nature of revenue transaction as set-out below.

(i) Fees and commission income

Fees for subscription based services are received periodically but are recognised as earned on a pro-rata basis over the term of the contract. Commissions and fees recognised as aforesaid are exclusive of goods and service tax.

(ii) Other income

Interest income is recognized on accrual basis.

Dividend income is recognised when the right to receive the dividend is established.

Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition and installation of the assets. Items of Property, plant and equipment that have been retired from active use and are held for disposal are stated at the lower of their net book value or net realisable value and are shown separately in the financial statements. Gains or losses arising from disposal or retirement of tangible Property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised net, within "Other Income" or "Other Expenses", as the case maybe, in the Statement of Profit and Loss in the year of disposal or retirement. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

1. Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful life prescribed under Schedule II to the Companies Act, 2013. The Company provides pro-rata depreciation from the date of installation till date the assets are sold or disposed.

2. Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

Intangible assets

3. Measurement at recognition:

Intangible assets are recognized where it is probable that the future economic benefit attributable to the assets will flow to the Company and its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment, if any. Cost of an intangible asset includes purchase price, non-refundable taxes and duties and any other directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible asset is charged to the Statement of Profit and Loss as an expense unless it is probable that such expenditure will enable the intangible asset increase the future benefits from the existing asset beyond its previously assessed standard of performance and such expenditure can be measured and attributed to the intangible asset reliably, in which case, such expenditure is capitalised

4. Amortisation methods, estimated useful lives and residual value

Intangible assets are amortised on a straightline basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at each reporting date.

5. Derecognition:

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

3. Financial Instruments :

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency forward contracts. Financial instruments also covers contracts to buy or sell a non-financial item that can be settled net in cash or another financial instrument, or by exchanging financial instruments, as if the contracts were financial instruments, with the exception of contracts that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the entity's expected purchase, sale or usage requirements. Trade receivables, Loans and deposits are initially recognised when they are originated. All other financial assets and liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss ('FVTPL'), transaction costs that are directly attributable to its acquisition or issued.

3.1. Financial assets

(i) Initial recognition and measurement

On initial recognition, a financial asset is classified as measured at :

- . Amortised cost;
- . Fair value through other comprehensive income ('FVOCI');
- . Fair value through profit and loss ('FVTPL');

1. Financial assets measured at amortized cost

A financial asset that meets the following two conditions is measured at amortized cost (net of any written down for impairment) unless the asset is designated at FVTPL under the fair value option. **Business model test:** The objective of the Company's business model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes).

Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

2. Financial assets measured at Fair value

A financial asset which is not classified at amortized cost is subsequently measured at fair value. Where assets are measured at fair value, gains and losses are either recognized entirely in the statement of profit and loss (i.e. fair value through profit or loss), or recognized in Other Comprehensive Income (i.e. fair value through other comprehensive income).

The assets classified in the aforementioned categories are subsequently measured as follows:

a) Financial assets at Fair Value Through Profit or Loss (FVTPL): These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in the statement of profit and loss. Financial assets that are held for trading and whose performance is evaluated on a fair value basis are measured at FVTPL.

b) Financial assets at Fair Value Through Other Comprehensive Income (FVOCI): These assets are subsequently measured at fair value. Interest income under the effective interest method, dividends (unless the dividend clearly represents a recovery of part of the cost of the investment), foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

(ii) Derecognition

A financial asset is derecognised only when :

The Company has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

4. Financial Liabilities

(i) Initial recognition and measurement

Financial liabilities are classified at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in Statement of Profit or loss.

(ii) Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

(i). Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(ii). Employee benefits

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss for the year in which the related services are rendered. The Company recognises the costs of bonus payments when it has a present obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. The Company does not have any post employment benefit obligation.

5. Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

1. Current Tax

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current Tax assets and Current Tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

6. Deferred Tax

Deferred Tax is provided in full, using the liability method, on temporary differences arising between the Tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred Tax is determined using Tax rates (and Laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related Deferred Income Tax asset is realized or the Deferred Income Tax liability is settled. Deferred Tax assets are recognized for all deductible temporary differences and unused Tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses. Deferred Tax liabilities are recognized for temporary differences between the carrying amount and Tax bases of investments where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

7. Current Tax Asset and Current Tax Liabilities

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

Provisions and contingencies:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the reporting date. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Earnings per share

(a) Basic earnings per share

Basic earnings per share is calculated by dividing the net profit for the period (excluding other comprehensive income) attributable to equity share holders of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year.

(b) Diluted earnings per share

Diluted earnings per share is computed by dividing the net profit for the period attributable to equity shareholders by the weighted average number of shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

Segment Reporting

As such, there are no reportable segments that need to be reported separately as defined in Ind AS 108, Operating Segments.

Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

Key accounting estimates and judgement

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on ongoing basis. Any changes to accounting estimates are recognized prospectively. Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect on the amounts recognised in the financial statements are included in the following notes:

(a) Provision and contingent liability: On an ongoing basis, Company reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

(b) Allowance for impairment of financial asset: Judgements are required in assessing the recoverability of overdue loans and determining whether a provision against those loans is required. Factors considered include the aging of past dues, value of collateral and any possible actions that can be taken to mitigate the risk of non-payment.

© Recognition of Deferred Tax Assets: Deferred Tax Assets are recognised for unused Tax-loss carry forwards and unused tax credits to the extent that realisation of the related Tax benefit is probable. The assessment of the probability with regard to the realisation of the Tax benefit involves assumptions based on the history of the entity and budgeted data for the future.

(d) Property, plant and equipment and Intangible Assets: Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.
