Sub- Recommencement of Operational Activities of the Company.

**Ref- Disclosure under Regulation 30 of Securities and Exchange Board of India
(Listing Obligations and Disclosure Requirements) Regulations, 2015**

Dear Sir,

In light of the exemptions granted by the government in the nationwide lockdown for activities related to agriculture, farming and allied activities, the Company has recommenced its seed manufacturing and packaging units located in Aurangabad and Andhra Pradesh. The management expects the production targets to remain intact as the exemption shall facilitate unhindered activities related to agriculture and farming and ensure that the farmers do not face any difficulty during the lockdown.

The Company has been taking various precautionary measures to protect employees and workmen, their families, and the eco system in which they interact, while at the same time ensuring business continuity. The Company has seed processing facilities and plants in Maharashtra and Andhra Pradesh besides multiple processing arrangements across the country which run on custom basis. In addition, the Company has modern laboratories located at the Head Office in Aurangabad, three major R&D Farms located in the vicinity of the Head Office and three R&D sub-stations across the country. The company is closely monitoring the situation given its dynamic nature and will take all necessary steps as per the the Central and State Government directives.

Thanking You,

Yours Faithfully,
For Nath Bio-Genes (India) Ltd

Devinder Khurana
Chief Financial Officer
