DRIVEN BY CEMENT, FINANCIAL SERVICES

Grasim Industries Q2 profit up 15%

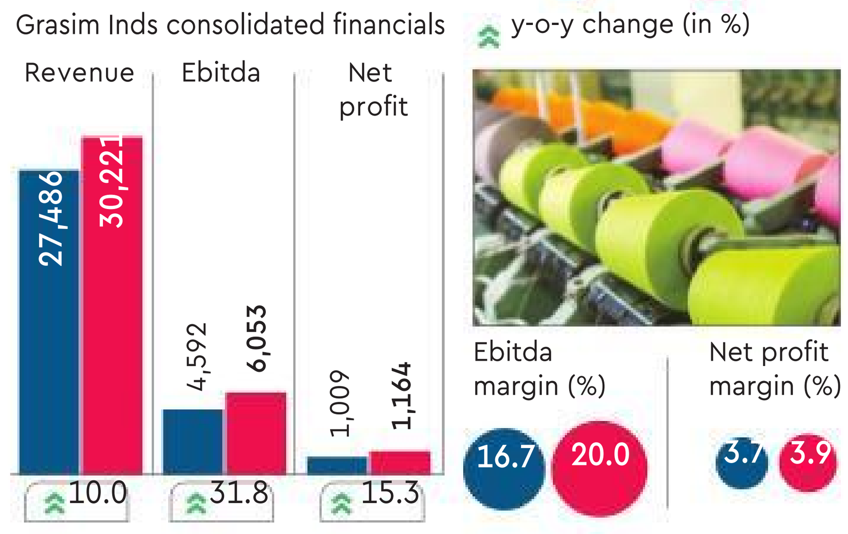
RAJESH KURUP
Mumbai, November 13

GRASIM INDUSTRIES, AN Aditya Birla group company, has posted a 15.3% rise in net profit at ₹1,164 crore for the quarter ended September, driven by the performance of its cement and financial services subsidiaries. In comparison, the company had posted a net profit of ₹1,009 crore during the same period a year ago.

During the quarter under review, the company's revenue rose 10% to ₹30,221 crore, compared with ₹27,486 crore recorded during the same period a year ago, Grasim Industries said in a statement, adding the revenue increase was due to the performance of key subsidiaries - UltraTech Cement and Aditya Birla Capital (ABCL).

Its Ebitda rose 31.8% to ₹6,053 crore from ₹4,592 crore recorded during the same period a year ago.

In Q2, UltraTech Cement's sales volume rose 16% on a year-on-year basis to 26.69 million tonne per annum (MTPA), while consolidated net sales rose by 15% to ₹16,012 crore over the corresponding period of the previous year. The company had earlier announced an investment of ₹13,000 crore to hike capacity by another 21.9 MTPA through a mix of brownfield and greenfield projects.



Its financial services subsidiary ABCL's consolidated revenue rose 13% to ₹7,721 crore, while it posted a 44% rise in net profit at ₹705 crore. The momentum across businesses led to a 41% YoY and 8% sequential growth in the overall lending portfolio to ₹1,08,961 crore as of September 30, it added. However, on a standalone basis, Grasim Industries' net profit fell 24% to ₹795 crore, impacted by lower realisations in the caustic soda business, which was in line with a sharp decline in global prices. Its revenue fell 4% to ₹6,442 crore, while Ebitda declined 21% to ₹1,354 crore.

Grasim Industries' total capex outlay for the quarter was at ₹1,650 crore, of which ₹1,269 crore was for its paints business. The company's board on Monday approved an additional capex of ₹144 crore for different businesses, and another ₹138 crore for the current fiscal. The budgeted spend for FY24 stands revised at ₹5,929 crore, it added. Grasim Industries had spent ₹4,307 crore as capex in FY23.

The company's Viscose Staple Fibre (VSF) volumes grew by 24% YoY and over 12% QoQ to reach 210 kilo tonne (KT). The Viscose business reported revenue of ₹3,889 crore and EBITDA of ₹468 crore for the quarter, marking a sequential increase of 9% and 20%, respectively.

The chemicals business revenue stood at ₹1,988 crore, down 7% QoQ and 27% YoY, primarily due to lower caustic soda realisations.

FROM THE FRONT PAGE

Interim CEO may save $10-bn Zee-Sony deal

Valued at $10-billion, the merger, amongst the largest in the domestic media and entertainment industry, will see the coming together of over 70 TV channels, two video streaming services (Zee5 and SonyLiv) and two film studios (Zee Studios and Sony Pictures Films India), sector experts said.

Sony is pushing for its long-time India MD & CEO NP Singh to take over as the head of the merged entity. Well-regarded in the industry for his "clean" image, Singh has steered Sony as its India CEO for a decade and prefers keeping a low profile.

"It would be a tragedy if the merger process is called off due to the issue concerning leadership. As the competitive intensity in the industry has increased, it would be a lose-lose situation for both if issues are not sorted out quickly. Both parties therefore will have to find a way to make things work," says Shriram Subramanian, founder & MD of InGovern, a proxy advisory firm.

Last week, Goenka said in an earnings call that Zee understood the value of the merger and the opportunities it would unlock for shareholders. "We are in active engagement with Sony on various parts of the scheme to be finally implemented after getting all the approvals," he said. As per the scheme of arrangement, Zee will be delisted from the stock exchanges. The merged company will be relisted as Sony-Zee, wherein 100 shares of Zee will enable shareholders to get 85 shares of the merged entity.

Tata Steel to slash 800 jobs at its Dutch subsidiary

These steps are also in the interest of transforming into a cleaner, greener and more circular steel company, it said, adding substantial investments are also being made.

However, with the need remaining for technically trained personnel, such as in production, there will not be a complete hiring freeze.

For the quarter ended September, Tata Steel posted a surprising net loss of ₹6,196 crore on a consolidated basis, missing Street estimates, impacted by weak performance of its European operations.

In comparison, the steel major had posted a net profit of ₹1,514.42 crore in the comparable year-ago period. During the quarter under review, the Tata Group firm's consolidated revenue fell 7% to ₹55,682 crore from ₹59,878 crore recorded in the year-ago quarter. Its Ebitda also fell 29.6% to ₹4,268 crore from ₹6,060 crore.

Retail inflation in Oct falls to 4.87%

"Edible oils provided a major decline to the inflation number at 13.7%. If this component is excluded, CPI would be as high as 5.6%," he said.

The vegetables index in October rose 3.4% on month, as compared to a fall of 15.8% in September. This was due to a sharp rise in onion prices. The onion inflation came in at 35.88% in October as compared to 23.29% the previous month. As onion prices began rising from the third week of October, the full impact of the price rise will be reflected in the November CPI print.

In October, the RBI's Monetary Policy Committee had observed that the unprecedented food price shocks are impinging on the evolving trajectory of inflation and that recurring incidence of such overlapping shocks can impart generalisation and persistence.

'Fuel and light' remained deflationary for the second consecutive month in October at (-)0.39%. The deflationary print is largely due to the cut in LPG prices that took place at the end of August. Also, the ongoing war in Israel-Gaza has not yet led to a massive spike in global crude oil prices, which otherwise, would've raised the risk of hike in retail pump prices.

Rajani Sinha, chief economist, CareEdge said, "We expect CPI inflation to remain range-bound around 5.3-5.4% in the next two quarters. However, with risks tilted to the upside, the central bank (RBI) is expected to remain vigilant and maintain its hawkish policy tone in the upcoming policy meeting."

The RBI has projected CPI inflation to average 5.4% in FY24, with Q3 and Q4 at 5.6% and 5.2%, respectively.

Capacity hike rider likely for RINL bids

Vizag-based RINL incurred a loss of ₹3,049 crore in FY23 and its plant is running at around 5MT as against its 7MT capacity, the source said, adding that the cost of production of the plant is also not competitive. The company is now facing a severe working capital crunch.

In January 2022, Tata Group bought Odisha-based ailing NINL — jointly owned by four central PSUs and two Odisha government PSUs — for ₹12,100 crore. Besides reviving the plant and protecting jobs, the Tatas are expanding the capacity of the plant with fresh investments.

In line with the Centre's new Public Sector Enterprise (PSE) Policy, the Union Cabinet, in January 2021, had given in-principle approval for 100% disinvestment of the government's shareholding in RINL, along with the company's stake in its subsidiaries or joint ventures, through strategic disinvestment. RINL's disinvestment will take two to three years to fructify because the asset has to be structured first to bring out an expression of interest (EoI), another official said.

"Some conditions have to be kept for post-privatisation that the 7 MT plant has to expand further given the potential of 17 MT capacity... the justification of privatisation is to bring growth and investment," another official said. The cooperation of the state government in terms of various approvals is crucial for the transaction given that Visakhapatnam City was created because of the RINL steel plant. Investors also need the comfort of the state government to put their money.

TV ad rates up 15% as India looks to rewrite semi-final script

Quoting BARC data, Disney Star said the total watch time (consumption) on television for the live broadcast of the tournament had witnessed a 10% increase compared to the 2019 edition so far. The average time spent per viewer for the tournament had increased by 18% versus the 2019 edition.

"All India matches have registered peak live concurrency of more than 50 million viewers with the highest peak concurrency being 80 million viewers for the India vs New Zealand match (on October 22)," the broadcaster said.

BSNL follows govt norms for tenders: CMD

JATIN GROVER
New Delhi, November 13

AMID THE CONTROVERSY over BSNL awarding a ₹1,000 crore tender for supply of optical transport network (OTN) equipment to Nokia, BSNL CMD PK Purwar on Monday told *FE* that the company has strictly followed the government guidelines in reference to the Make in India procurement policy for the tender process.

"The company has not flouted any policy and is strictly in line with the Make in India vision," Purwar said, adding that the tender is yet to be given.

Purwar, however, refused to share more details on the tender as it is under consideration at present. Under the Make in India public procurement policy, the Department for Promotion of Industry and Internal Trade has notified that all PSUs as well as government departments must give certain preference to local companies in terms of procuring the supplies.

PK Purwar, BSNL CMD

Official sources said that when a tender has an order value of above ₹200 crore, DPIIT guidelines suggest that both Indian and Foreign companies products can be there.

However, with regard to he current BSNL tender, HFCL, which is a homegrown equipment supplier, is the lowest bidder and it will be fulfilling the order with Nokia India once awarded, a senior government official said on the condition of anonymity.

Lately, major telecom companies such as Reliance Jio and Airtel have been using equipments from equipment makers like Nokia for their network connectivity. With regard to the BSNL tender, Delhi-based Voice of Indian Communication Technology Enterprises (VoICE) consortium has also written to communications minister Ashwini Vaishnaw expressing concern over how local equipment suppliers are being ruled out in such tender processes.

Broadcasting Bill: TV-like norms may affect OTT growth

JATIN GROVER
New Delhi, November 13

THE GOVERNMENT'S MOVE to regulate OTT video streaming apps like Netflix, Disney+Hotstar, SonyLiv, etc., under the Broadcasting Services (Regulation) Bill, 2023, could affect content innovation and autonomy, derailing the growth path, experts said. Content on OTTs works on a "pull model", wherein consumers choose the content.

As such, any stringent programme and advertisement codes might lead to content censorship and affect the audience experience. Another area of concern experts cite is whether the government will bring in a pricing regime for OTT content, much like it has for television channels. The Bill also contains a provision for a Content Evaluation Committee (CEC), a self-certification body that will certify the content of broadcasters.

"While they have brought OTTs under regulation, they have not specified how a self-certification model will work and what role the government will play," an executive at a media and entertainment company said. He added that once the Bill becomes an Act, the Telecom Regulatory Authority of India (Trai) will be the regulator for these streaming platforms as well. As per the Bill, the government may prescribe the number of members in the CEC, the quorum required, and such other details to facilitate the formation of CEC and its smooth functioning. Besides, there will also be a government appointed body, the Broadcast Advisory Council, that will have five government members and five government-nominated independent people from media, entertainment, broadcasting, child rights, disability rights, etc., to advise the government on orders to be issued to the broadcaster or the broadcasting network operator.

"In light of increasing scrutiny of streaming platforms, powers assigned to the government, specifically with respect to the size, quorum, & operational details of the Content Evaluation Committee, raise censorship concerns," said policy advocacy group Internet Freedom Foundation (IFF) in a post on X (formerly Twitter). Currently, the OTT platforms are regulated by the IT Rules, 2021, with guidelines for self-regulation as well as code of ethics for digital content. Such platforms do not require any licence from the government, as they are classified as TV channels and have a different model.

AREAS OF CONCERN

- OTT content is driven by user demand and any censorship may affect the audience experience
- It's not clear if the govt will bring a pricing regime for OTT content, like it has for TV channels
- It's not clear how a self-certification model will work and what role the govt will play
- Experts stressed that for the sake of clarity, the code of ethics must avoid subjective terms like 'good taste' or 'decency' as they did in the IT Rules (which currently governs OTT platforms)

इगतपुरी तालुक्यात घराला आग, संसार उपयोगी साहित्य खाक

नाशिक, दि.१३ : इगतपुरी तालुक्यातील अडसरे बुद्रुक येथील खंडू पांडू साबळे यांच्या राहत्या घराला आज सोमवारी सकाळी ११ वाजेच्या सुमारास आग लागली. सुदैवाने कुटुंबातील सर्वजण बाहेर असल्याने जीवित हानी टळली. मात्र घरातील संसारोपयोगी साहित्य तसेच कापणी करून काढलेले भात आणि बी बियाणे आगीच्या भक्षस्थानी पडले. आगीमुळे ह्या घराचे मोठे नुकसान झाले आहे. गावातील स्थानिक युवकांनी गावातील पाणीची टाकी व बादल्यांमध्ये पाणी आणून आग आटोक्यात आणायचा प्रयत्न सुरू केला. अग्निशमन दलाला पाचारण करण्यात आले असून घोटी पोलीसही घटनास्थळी दाखल झाले. आग कशामुळे लागली याचा पोलीस तपास करत आहेत.

XIX	Earnings Per Equity Share:				
	(1) Basic	-0.73	-0.38	-0.37	-2.76
	(2) Diluted	-0.73	-0.38	-0.37	-2.76

NOTES:
1) The above financial results have been reviewed by the Audit Committee at it's meeting held on 13th November, 2023 and the same have been approved and taken on record by the Board of Directors at their meeting held on the same date and have been subjected to the limited review by the statutory auditors of the company.
2) Considering the seasonal nature of business i.e. Ice cream whereby revenuues do not necessarily accrue evenly over the year, the results of the quarter may not be representative of the results for the year.
3) The Company operates within a single business segment which constitutes manufacture & sell of ice cream and frozen desserts. As such company's business falls under the single business segment in context of Ind AS 108- Operating Segments.
4) The figures for the corresponding previous period have been regrouped/reclassified wherever encessary, to make them comparable.
