Motherson inaugurates new facility in Morocco

Tangier (Morocco) – 06 October 2022, Mr V. C. Sehgal, Chairman of Motherson, inaugurated Motherson’s new facility in Tanger Med Industrial Platform, Morocco. The inauguration ceremony was attended by representatives from the Moroccan Government and Administration, Tanger Med Group, and the key players from the automotive industry.

This new facility is a part of Motherson’s Modules and Polymer Products division and will produce interior modules and components like instrument panels and door panels for passenger vehicles and light commercial vehicles. This is Motherson’s latest facility in Morocco, replacing the existing Tétouan site which was established in 2010.

The new 15,000 m2 facility (which is double the size of the existing facility) will employ 300 people at peak production whose highly skilled capabilities will focus on plastic injection moulding and further state-of-the art processes such as high-precision robot-aided milling, plastic welding, and airbag integration solutions. The improved proximity to the customer will help in saving transportation costs and the expanded capacity will allow Motherson to provide more employment and growth opportunities in Tangier.

Motherson’s expansion plans in Tangier include the establishment of in-house capabilities for high quality soft-touch surfaces for automotive interior parts based on modern polymer-based finishes. Motherson’s ongoing successful operations in the region strengthens the company’s global position as a leading automotive solutions provider and a trusted long-time partner to its customers by contributing to their future production needs and growth.

Mr. V C Sehgal, Chairman, Motherson states, “Morocco is a very strategic location for Motherson due its proximity to Europe and the Middle East. This new facility will help us in serving our existing as well new customers better in these regions. We highly appreciate the continuous support of the Moroccan government and Tanger Med teams to accelerate investment in Tangier. We are committed to continuing our efforts to support the automotive sector in this region to enable it to reach its full potential.”

Samvardhana Motherson International Limited (SAMIL) [Formerly Motherson Sumi Systems Ltd.]

Samvardhana Motherson International Limited (SAMIL) is one of the world’s leading specialised automotive component manufacturing companies for OEMs. The company, formerly known as Motherson Sumi Systems Limited was established in 1986 as a joint venture with Sumitomo Wiring Systems and was listed in 1993 on BSE and NSE in India. SAMIL is a focused, dynamic, and progressive company providing customers with innovative and value-added products, services, and solutions. The company has over 300 facilities across 41 countries. With a diverse global customer base of nearly all leading automobile manufacturers globally, SAMIL is among the top 25 automotive component suppliers globally.

Motherson is leading expert in high quality interior and exterior polymer modules for the automotive industry and is one of the largest manufacturers of polymer-based modules and components globally. The Modules and Polymer Products division of Motherson develops and produces a highly diversified product range from simple plastic parts to highly integrated systems and modules, supplying to leading automotive OEMs globally. The division’s expertise in multiple polymer processing technologies is the optimal foundation for the development of cost-optimised products with highest quality standards and of innovative and sustainable solutions. Many of the division’s products are prominently visible in the inside and from the outside of the vehicles thus, contributing significantly to their aesthetic appearance. The division has 103 facilities spread across 25 countries. For more details, please visit www.motherson.com (CIN - L34300MH1986PLC284510).
