NITI AAYOG DISCUSSION PAPER

# In 9 years, 248 mn escaped multidimensional poverty

Share of multidimensional poor fell to 11.28% in 2022-23 from 29.17% in 2013-14

SHIVA RAJORA  
New Delhi, 15 January

ILLUSTRATION: BINAY SINHA

As many as 248.2 million Indians are projected to have come out of multidimensional poverty between 2013-14 and 2022-23, according to the latest NITI Aayog discussion paper titled 'Multidimensional Poverty in India since 2005-06', released on Monday.

The paper estimated that the share of the multidimensional poor in India's population declined sharply to 11.28 per cent in 2022-23 from 29.17 per cent in 2013-14. In 2019-21, it stood at 14.96 per cent.

"Very encouraging, reflecting our commitment towards furthering inclusive growth and focusing on transformative changes to our economy. We will continue to work towards all-round development and to ensure a prosperous future for every Indian," Prime Minister Narendra Modi posted on X quoting the NITI Aayog.

The paper also showed that the pace of decline in poverty headcount ratio using the exponential method was much faster between 2015-16 and 2019-21 (10.66 per cent annual rate of decline) compared with the 2005-06 to 2015-16 period (7.69 per cent annual rate of decline). "All 12 indicators of MPI have recorded significant improvement during the entire study period," the NITI Aayog said.

The discussion paper by the central government think-tank interpolated and projected the poverty headcount ratio for the year 2013-14 using the National Family Health Survey-3 (NFHS-3) data. Similarly, the headcount ratio for the year 2022-23 was interpolated on the basis of the rate of decline seen between NFHS-4 (2015-16) and NFHS-5 (2019-21).

"With this, India is also likely to have achieved the sustainable development goal (SDG) 1.2 target of reducing poverty by half, much ahead of 2030," the

paper said.

The multidimensional poverty index (MPI) identifies and captures overlapping deprivations in health, education, and living standards that are represented by 12 SDG-aligned indicators, such as nutrition, child and adolescent mortality, maternal health, years of schooling, school attendance, cooking fuel, sanitation, drinking water, electricity, and housing. Earlier, poverty estimates predominantly relied on income as the sole indicator.

Briefing reporters, NITI Aayog member Ramesh Chand said MPI was a better indicator for estimating poverty than income-based measures, as income was generally a means to achieving something; in many cases, it might not be used for productive expenditure, and the expenditure might be made by taking debt.

"Moreover, the income-based methodologies don't incorporate the number of welfare measures that are being taken by the government, while MPI does that. Also, it is flexible and we can add or remove indicators once the saturation levels are attained in that particular indicator," he added.

Among states, Uttar Pradesh regis-

tered the biggest decline in the number of poor, with 59.4 million people coming out of multidimensional poverty in the past nine years. It was followed by Bihar (37.7 million), Madhya Pradesh (23 million), and Rajasthan (18.7 million).

The report also noted that initiatives like 'Poshan Abhiyan' and 'Anaemia-mukt Bharat' significantly enhanced access to healthcare facilities, leading to a substantial decrease in deprivation, whereas the targeted public distribution system under the National Food Security Act covered 813.5 million beneficiaries, providing food grains to rural and urban populations.

"Various programmes addressing maternal health, clean cooking fuel distribution through Ujjwala Yojana, improved electricity coverage via Saubhagya, and transformative campaigns like Swachh Bharat Mission and Jal Jeevan Mission have collectively elevated living conditions and overall well-being of people. Additionally, flagship programmes like the Pradhan Mantri Jan Dhan Yojana and the PM Awas Yojana have played pivotal roles in financial inclusion and in providing safe housing to the underprivileged," the NITI Aayog said in a statement.

# PowerMin issues electricity rules, eases open access and transmission

SHREYA JAI  
New Delhi, 15 January

The Union Ministry of Power issued Electricity (amendment) Rules, 2024, under the aegis of the Electricity Act, 2003 on Monday, aiming at reducing the hassles of electricity supply for large corporate and green energy sectors.

The rules now allow consumers which have specified energy load and Energy Storage Systems (ESS) to

establish, operate and maintain their dedicated transmission lines themselves without the requirement of licence. The rule covers those companies/person who have load more than 25 megawatt and 10 megawatt on inter-state and intra-state transmission network.

"By allowing such a facility, a new category of bulk consumers would emerge, benefiting from more affordable electricity and enhanced grid

reliability. This facility was already available to generating companies and captive generating station," said the union power ministry.

The rules were issued through a gazette notification. It has also addressed the issue of high open access charges faced by large electricity consumers. It has stipulated new formula to reduce open access charges. It also prescribed, a person availing General Network Access (GNA) or

Open Access, the additional surcharge shall be linearly reduced and get eliminated within four years from the date of grant of access.

Open access charges are levied by power distribution companies (discoms) on those consumers which buy electricity from any other source. These charges were capped by the union ministry of power but the discoms started levying variety of other charges such as additional surcharge.

# Priority sector lending may jump 52% in FY25

VIRENDRA SINGH RAWAT  
Lucknow, 15 January

Credit flow into Uttar Pradesh's priority sectors is estimated to touch ₹5.73 trillion in 2024-25, according to the State Focus Paper 2024-25 for UP, prepared by the National Bank for Agriculture and Rural Development (Nabard).

Agriculture, micro, small and medium enterprises (MSME), and services sector are identified as priority sectors by the government. Against the aggregate credit flow of ₹3.75 trillion in FY24, the advances of ₹5.73 trillion will reflect a year-on-year (Y-o-Y) growth of 52 per cent.

According to the Nabard paper, the agriculture and MSME sectors would account for loans worth ₹2.46 trillion and ₹2.92 trillion, respectively.

While the agricultural loans may represent a Y-o-Y growth of 6 per cent in FY25, the MSME may post an uptick of 178 per cent to jump from ₹1.05 trillion in 2023-24 to ₹2.92 trillion the next financial year.

To achieve the \$1-trillion economy target,

the state would need a growth rate of 250 per cent in agriculture, 300 per cent in MSME, and 450 per cent in services sectors.

Underscoring the importance of credit as the catalyst for growth, finance minister of UP Suresh Khanna has nudged bankers to improve the state's credit deposit (CD) ratio.

Moreover, a state delegation is participating in the World Economic Forum (WEF) at Davos, Switzerland to showcase UP as a leading investment destination.

The state is also promoting startups for job creation. Recently, ASSOCHAM of UP partnered with Bharat Startup & Innovation Society (BSIS), a charitable society that works on nurturing and mentoring the next generation of entrepreneurs.

"BSIS has regional chapters in India. With footprint in other countries (as well, it can) handhold domestic startups," its National President Vinayak Nath said.

Meanwhile, S K Dora, chief general manager of Nabard, UP, termed the state the "growth engine" of India with an estimated growth rate of 19.2 per cent.

## MADHYA PRADESH

# Govt in talks with Amul for sale of surplus milk

SANDEEP KUMAR  
Bhopal, 15 January

The Madhya Pradesh government is trying to reach an agreement with Amul on selling the surplus milk that gets wasted due to lack of demand.

Chief Minister Mohan Yadav recently addressed a joint meeting of Sanchi (MP)'s cooperative dairy federation) and Amul officials in Ahmedabad.

Managing director of Sanchi Satish Kumar S told that an in-principle agreement has been virtually reached between the two to ensure that the milk producers get better prices and the cooperative sector will also be strengthened. The state is planning to sell surplus milk to Amul to increase the income of its milk producers.

## RAJASTHAN

# State may seek PM's help to boost tourism

ANIL SHARMA  
Jaipur, 15 January

Officials in the Rajasthan government may seek help from Prime Minister Narendra Modi to promote heritage tourism in the state, according to sources in the know.

"Heritage tourism of

Rajasthan is quite famous and rural tourism is also increasing. In such a situation, if PM Modi promotes tourism here, it would be quite beneficial," said Karan Singh, who runs a travel agency. According to the plan, marketing, branding, and showcasing heritage sites may be undertaken in a big way.

Gajendra Luniwal, president, Jaipur Hotel Association, said that it is appreciable that the state government plans to boost heritage tourism as it is full of heritage buildings, arts, and culture. "This will not only boost tourist arrivals but will also generate employment opportunities in the state."

Luniwal said that if Rajasthan's tourism sector grows, everyone from those selling goods on the streets to hotels and markets will benefit. Tour operator Sanjay Kaushik said that Rajasthan is famous for its heritage and the state has the highest number of heritage properties in the world.
