CHAIRMAN'S MESSAGE

WE AT NITIN SPINNERS ALSO DERIVE MAJORITY OF THE REVENUE FROM EXPORTS AND KEEP OURSELVES HEDGED AGAINST ANY DOWNTURN IN THE DOMESTIC ECONOMY. THIS FURTHER ALIGNS US WITH THE PRIME MINISTER'S VISION OF AN 'ATMANIRBHAR BHARAT' WHICH AIMS TO REDUCE THE COUNTRY'S DEPENDENCY ON IMPORTS AND BUILD MANUFACTURING CAPACITIES IN INDIA.

Dear Stakeholders,

We commenced our journey in the early 90's right after opening of the Indian markets. The implementation of Liberalisation, Globalisation and Privatisation (LPG) reforms attracted many opportunities our way. Through our determination, we seized every opportunity and it helped us steer in an ever-changing landscape. This has made us resilient and responsive to the ever-changing market dynamics. I am glad to share that today we have become a reliable and one of the leading manufacturers of Cotton Yarns, Blend Yarns, Knitted Fabrics and Woven Fabrics in India. This leadership position is well demonstrated in our Revenue from Operation performance, which clocked in a 15.73% Y-O-Y growth amidst the challenging macroeconomic environment and Covid-19 outbreak in the last few weeks of 2019-20.

Macro Environment

India's GDP growth declined from 6.1% in 2018-19 to 4.2% in 2019-20. Rising unemployment rate and income stress in rural areas caused the consumer consumption level to dry up. Trade tensions and geopolitical factors in the external world were also a cause of worry for the overall business sentiments. The Government of India took measures in the form of reducing corporate and personal income tax rates, increasing Minimum Support Prices (MSP) for farmers and imposing import duties to encourage both supply and demand situation in India. However, before these actions could bring in any positive economic news, the country was hit by the Covid-19-induced lockdowns. It sent shock waves across many industries and brought all the economic activities across the world to a standstill. The cash flow support from the Government and RBI through monetary and fiscal policies helped control the pandemic impact on public from getting more severe and intense. Going ahead, it will all depend on the containment of this pandemic and how the countries and companies adapt to the new normal.

Business Landscape

Over the last decade, Asia has emerged amongst the largest production and consumption powerhouse in textile industry. India dominates the raw material space. Cotton accounts for 25% of the global output and it augurs well for the upstream

textile players like us. For the last six years, Indian textile exports level has remained at the US\$ 40 Billion level. This signifies the pivotal role it plays in contributing to India's forex. We, at Nitin Spinners, also derive majority of the revenue from exports and keep ourselves hedged against any downturn in the domestic economy. This further aligns us with the Prime Minister's vision of an 'Atmanirbhar Bharat' which aims to reduce the country's dependency on imports and build manufacturing capacities in India.

Financial snapshots:

- ▶ Total income remained at ₹ 1438 Crores against ₹ 1242 Crores in the previous year
- ▶ Export accounted for 54.46% of the total revenue, whereas domestic market contributed the rest
- ▶ EBIDTA was reported at ₹ 172 Crores against ₹ 181 Crores in the previous year
- ▶ PAT was reported at ₹ 23.81 Crores against ₹ 64.11 Crores in the previous year

Strategic Expansion: Adding to our Responsiveness

Overseas end-user textile and apparel players prefer to source their low-cost cotton fabrics requirements from India. Our proactive decision of forward integrating into value-added cotton fabrics, is now paying off. We commenced with the commercial production of the Finished Fabric from 1st January, 2020 onwards. While we were already present in the Knitted Fabrics, we also commenced with the production of Woven Finished Fabrics. We have thus completed all planned Capex during the year.

Teamwork Works!

We are blessed to work with a talented pool of people across all the departments. Their commitment and dedication through the thick and thin of the organisational journey is appreciation worthy. We have consistently worked on improving their skills through regular trainings and workshops. Besides, we have also worked on the leadership building and overall motivational levels of all our employees.

To the Social and Environmental Concern

As we grow, we continuously look to embed eco-friendly practices into our operation and reduce our carbon footprints. Our commitment towards environmental stewardship has yielded beneficial results not only for the environment but for the society as well. As a part of community development, we create employment opportunities and also conduct several awareness drives in the areas of cleanliness, social issues and education, among others.

Outlook

We have set the benchmark through our quality products, workplace environment, practices, policies, and strong governance. We remain committed to improving life for our consumers, employees, and communities. Going ahead, we shall consolidate our existing products and capacities. We will also continue to explore newer markets across the geographies. While we have grown from strength to strength, we are further looking forward to build on this success and continue creating sustainable value for our stakeholders.

Acknowledgement

In the closing note, I would like to acknowledge the role of our Board Members and the Management team for consistently delivering, mentoring the team and demonstrating resilience. I also thank all our employees, bankers, communities, business partners, suppliers and, above all, our loyal shareholders, for their unwavering trust. I am confident that by working closely together, we will continue to deliver a solid performance and reliable growth for Nitin Spinners, going ahead.

Regards,

R. L. Nolkha

BEING RESPONSIVE THROUGH INNOVATIVE OFFERINGS AND SUPERIOR QUALITY

For over 25 years, we have continuously tracked the development of textile space. This has assisted us in understanding the emerging trends. Using this to our advantage, we expanded into new products horizon while continuously improving the quality, which has helped us to scale new heights.

The Cotton Fabric industry in India is largely dominated by the small enterprises, which fall behind when it comes to delivering higher volumes and meeting global demand. Our foray into the Finished Fabric segment has allowed us to tap the exciting growth prospects into this space and further strengthen our foothold in the International Fashion Arena.

OPERATIONAL PERFORMANCE

REVENUE FROM OPERATIONS

The revenue from operations during the year under review is at ₹ 1,438.06 Crores against ₹ 1,242.51 Crores in the previous year, registering an increase of 15.74%. The revenue of Yarn increased by 7.14% during current year from ₹ 984.19 Crores to ₹ 1,054.51 Crores. The revenue from Yarn constitutes 73.33% of the total Sales. Revenue of Fabric has increased from ₹ 178.06 Crores in the previous year to ₹ 277.84 Crores during year under review and registered growth of 56.04%. The Fabric revenue constitutes 19.32% of the total revenue from operations. Commencement of commercial production at new unit at Bhanwaria Kalan, Begun resulted into increased turnover and with this the Company has also added new products like Blended yarn, Woven Greige and Finished Fabrics.

EXPORTS

Exports Sales was reduced from ₹ 844.06 Crores in the previous year to ₹ 783.17 Crores in the current year. Exports constitute 54.46% of the total revenue. Due to lower cotton crop in India during the cotton year 2018-19; cotton prices were very high in domestic market in comparison to international market in the first half of the year under review and consequently exports of yarn became uncompetitive. In the second half of the year the situation improved but due to lock down in view of COVID-19 pandemic across the world in the last quarter of the year exports were further affected.

PROFITABILITY

The Operating Profit (EBIDTA) of the Company has decreased from ₹ 180.84 Crores in the previous year to ₹ 171.90 Crores in current year in spite of increase in turnover. As percentage to revenue from operations the Operating Profits (EBIDTA) reduced from 14.55% in previous year to 11.95% in current year. Due to lower exports from India there was selling pressure in domestic market as a result of which margins contracted. Further, lower capacity utilisation of Weaving & Processing division of new unit at Begun resulted in higher operating cost. Moreover, lockdown of the operations of the Company from 22nd March, 2020 further affected sales & profitability.

The finance cost for the year under review increased due to borrowings for new unit as such Cash Profit (PBDT) was also reduced from ₹ 151.94 Crores in the previous year to ₹ 116.34 Crores in current year. The Company has reported Net Profit of ₹ 23.82 Crores in the current year against ₹ 64.11 Crores in the previous year.

DIVIDEND

Your Directors are pleased to recommend Dividend of 6% i.e. ₹ 0.60 per Equity Shares on the fully paid-up Equity Share of ₹ 10/- each for the financial year 2019-20 subject to approval of shareholders at the ensuing Annual General Meeting. No interim dividend declared during the reporting period.

Board's Report (Contd.)

IMPACT OF COVID-19 PANDEMIC

The outbreak of COVID-19 globally and resultant lockdown in many countries, including in India, has had impact on the business of the Company. Operations of the Company were completely closed from 22nd March, 2020 to 19th April, 2020 due to lockdown. The operations were partially resumed from 20th April and capacity utilisation is being gradually increased. Due to the lockdown there was reduction in sales and profitability for the quarter ended on 31st March, 2020. The lockdown is partially continuing in 2020-21 and the Company is continuing its operations with current lower demand. Management is expecting that demand will improve once markets stabilize after effect of COVID-19 and lockdown is over.

INSTALLATION OF INTEGRATED TEXTILE UNIT

Your directors in their previous report had informed the members about installation of Integrated Textile Unit at Bhanwaria Kalan, Tehsil Begun in the District of Chittorgarh, Rajasthan. Your Directors are pleased to inform you that the Company has successfully installed the same and commercial production on Spinning & Weaving Unit was commenced with effect from 01st July, 2019 and that on Processing Unit with effect from 01st January, 2020.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Your Company is committed to make a positive contribution to communities where it operates. Pursuant to Section 135 of the Companies Act, 2013, the Company constituted CSR committee and formulated CSR Policy as guiding principle for undertaking CSR activities. The Company's vision on CSR is that the Company being a responsible Corporate Citizen would continue to make a serious endeavor for improvement in quality of life and betterment of society through its CSR related initiatives.

During the current year, the Company has incurred expenditure of ₹ 161.36 Lacs on CSR activities against obligation of ₹ 159.52 Lacs. Accordingly, during the year there is no shortfall on CSR expenditure. The disclosures of CSR activities pursuant to Section 134(3) of the Companies Act, 2013 read with Rule 9 of Companies (Corporate Social Responsibility) Rules, 2014 is annexed as **Annexure – I** hereto and form part of this report.

Management Discussion and Analysis

GLOBAL ECONOMY

The global economic momentum softened to 2.9% in 2019. This slowdown was by the virtue of rising trade barriers, weakening business sentiments, tighter financial conditions, and geopolitical tensions. The overall economy seemed weak for most part of the year. However, some green shoots of stabilisation were visible at the end of the year. These signs of recovery were largely owing to the US-China Phase-1 trade talk, easing Brexit concern, and improvement in manufacturing and service sector. These developments were upshots of various reforms and monetary policies announced by the Governments and Central banks around the world for strengthening economies. But the outbreak of Covid-19 grievously disrupted the supply chain and manufacturing activities across economies. The world economy is now bound to plunge into a severe recession – the first since 1870 to be precipitated by a pandemic. The global growth for 2020 has been anticipated to drag down to (3)%. Disruptions in supply chain, dip in commodity prices and fall in capital expenditures are likely to be the key causes behind the slowdown.

Outlook

The COVID-19 impact on the economy will last for a longer period. However, the containment efforts and measures are expected to decrease gradually. The recovery speed and the probability of the vaccine will play a crucial role in the overall recovery. Additionally, economy-supporting sectors have been encouraged to resume their functioning by the Government for stabilising the economy. According to the IMF estimates, the global economy is projected to grow by 5.8% in 2021, supported by policy and fiscal reforms which will strengthen the economy's growth. (Source: IMF)

INDIAN ECONOMY

The Indian economy has showcased a promising journey of growth over the past few years. However, it was faced by several headwinds in the financial year 2019-20. The GDP growth rate touched an 11-year low of 4.2% in the 2019-20 as compared to 6.1% in 2018-19. This slowdown can be attributed to subdued private consumption, weak investments, sluggish growth in the manufacturing sector and declining credit growth.

However, for reviving the growth, the Government announced a slew of measures that included corporate tax rate cut, income tax rate cut, hike in import duties and increase in Minimum Support Prices (MSP) for farmers. The RBI also stepped in at various intervals by reducing repo rate and reverse repo rate. A strong hope of recovery in the last quarter of 2019-20 was seen prevailing. However, the economy was hit by the sudden and massive outbreak of COVID-19. The resultant lockdown disrupted all the economic activities and increased unemployment.

To counteract this, the Government along with the RBI, promptly announced fiscal and monetary stimulus and fundamental reforms. This included wage support, in-kind and cash transfers to lower-income households and deferral of tax payments. Further, these measures are said to boost private investments, increase liquidity, support, and revive back some of the crucial sectors. Further, the Government also announced financial package worth of ₹ 20 Lacs Crores to support the five pillars of the country – economy, infrastructure, technology-driven system, demography, and demand.

Outlook

In the short term, the measures taken by the Government are expected to reduce the impact of Covid-19 and help spur economic activities. With a growth rate of 3.7%, the agriculture and allied sector remained resilient during the year. The Indian GDP is expected to be impacted substantially in 2021 due to COVID-19. Besides, favourable international oil prices are likely to keep India's inflation rates manageable and lower its current account and fiscal deficit.

GLOBAL TEXTILE AND APPAREL INDUSTRY

The Global textile and apparel industry is going through structural changes, with market share steering towards China, India, Bangladesh and Vietnam from western countries. The industry is dependent on the agricultural sector for raw material and the Asian countries are rich with it. In CY 2019, the global textile market valuation stood at US\$ 961.5 billion. Segment wise, the textile market is categorised into natural fibres, polyesters, nylon, and others. The natural fibres comprise cotton, linen, flax, silk, hemp, and wool. In terms of raw materials volume, cotton accounted for majority of the market share with 39.5% in CY 2019 (Source: *Inkworld Magazine, Feb 2020*). The higher acceptance of cotton can be attributed to its superior quality like high absorbency, strength, and colour retention. Besides, cotton is considered biodegradable in nature and is hence eco-friendly as well. This augurs well for the growth prospects of cotton.

Outlook

Given the integrated nature of the business, in the near term, the global apparel and textile sector growth is bound to be impacted by Covid-19. However, in long term, it is expected to clock in a CAGR of 4.3% from 2020 to 2027, owing to the rising demand and lower input cost in the developing countries (Source: *Inkworld Magazine, Feb 2020*).

INDIAN TEXTILE AND APPAREL INDUSTRY

The domestic textiles and apparel industry contributes 13% to the country's industrial production. It caters the domestic as well as the global market, accounting for 12% of the country's export earnings (Source: *Invest India*). Development in country's infrastructure, corporate tax rate cut, favourable policies for MSMEs and easing labour laws make the entire value chain

Management Discussion and Analysis (Contd.)

of textile and apparel space exciting. The vast availability of the raw material and skilled labour enables producers to rationalise the cost. Even, the end-user industries ride high on the favourable demographics, increasing retail outlets and rise in the buying spree through e-commerce websites. Since the industry provides employment to about 105 Million people, the Government's attention to push this sector, always remains high on priority.

Outlook

The COVID-19 Pandemic event has severely affected the Indian textile & apparel industry, in terms of both exports and domestic consumption. With the steep reduction in demand due to sudden halt of global trade and domestic sales due to the closure of retail stores, the industry is likely to face unprecedented and severe losses.

On the positive side, buyers are expected to increasingly look to replace China. This can help India gain market share. Besides, the Government's focus towards self-reliance can surge the internal demand for raw materials, thereby uplifting the industry eco system.

COVID-19 recovery to benefit textile and apparel Industry (Estimated)

(Source: Wazir Report 'Impact of Covid-19 on Apparel Industry, 2020)

Cotton Industry

According to the Cotton Association of India (CAI), the cotton production between October 2019 to April 2020 was estimated at 329.59 lacs bales of 170 kgs (Source: *Economic Times*, 25th May, 2020). Backed by this estimation, the country retained its tag of the largest cotton producer in the world. There is still an immense scope of growth, considering the low productivity per hectare in India. Improving farming techniques will also help turn around the industry's prevailing scenario in the country.

Cotton yarn industry suffered severely during the year due to volatility and mismatch in cotton prices. While the international cotton price plunged about 25% during the year, the domestic cotton price, during the same period, was almost 20% higher than the former. The high prices can be accredited to the 28% increase in Minimum Support Price (MSP) of seed cotton

(Kapas) and the damage caused to crops in some parts of the country. As a result, exports became uncompetitive, leading to unhealthy competition. This affected domestic cotton yarn spinners as they witnessed erosion of margins, owing to narrowed spread between cotton and yarn prices, as compared to the last fiscal year.

OPPORTUNITIES

Decline in raw material prices

Cotton prices declined post COVID-19 induced lockdown due to the fear of downswing in consumption. This created a greater opportunity for yarn makers to either stock cotton in bulk and increase their margins or pass down the cost benefits to end-user industries to increase their volumes.

Automation

The COVID-19 induced lockdown caused millions of workers to migrate back home, leaving behind a shortage of labour. Therefore, deploying automation in manufacturing plants can help players sustain better to tackle the production shortfall during such times.

Diversification

Companies could also explore emerging product categories such as medical textiles (surgical gloves, personal protective masks, gowns, wipes, etc.) and other textile items required for healthcare facilities like hospital bedsheets, mattresses etc. With countries' increased focus on healthcare, medical textiles is likely to see a surge in demand.

Rise in the E-Commerce

E-commerce is playing a major role in the present scenario of textile and apparel industry. Continuous development and adoption of e-commerce is supported by the increasing penetration of the smartphones and cheaper internet. About half the population in India now has access to internet, helping companies in both B2B and B2C space to build a stronger customer base.

THREAT

China's gradual comeback in the market

China has almost eliminated its COVID-19 cases. This has enabled their textile players to operate their facilities flexibly. So, any demand from the overseas market can easily be met by China. However, the downside risk still persists owing to the sentiments of 'boycott Chinese products' all around the globe.

High tariff

The Indian textile companies face higher trade restrictions as compared to its peers like Bangladesh, Vietnam, and Pakistan. The average tariff on textile products faced by India in the EU and the US is 5.9% and 6.2%, respectively (Source: *Economic Times*, 22nd January, 2019).

Management Discussion and Analysis (Contd.)

COMPANY OVERVIEW

Established in the year 1992 and headquartered in Bhilwara (Rajasthan), Nitin Spinners is a leading manufacturer of cotton yarn, knitted, finished and printed fabrics. The Company manufactures wide range of Cotton and blended yarns, knitted fabrics, woven greige and finished and printed woven Fabrics. RISK MANAGEMENT

There are certain key risks associated with our Company. Such risks are stated in the table below along with our mitigation strategies for curbing the same.

Risk	Impact	Mitigation strategies
Economic downturn	A downturn in the economy can adversely affect products' demand.	Our products are exported globally. We have been actively engaged in widening our geographical presence while continuously expanding our product portfolio. Not being bound to a specific region and a basket of products to offer from gives us the ability to face such downturns.
Increase in raw material prices	An increase in cotton prices can adversely impact our Company.	Our purchasing policy allows us to enjoy control over the purchase price. We constantly track cotton prices and store the raw material as and when price decreases. This practice helps us mitigate the risk of price.
Quality risk	Any kind of divergence in the quality standards of our products may lead to customer and client erosion.	We closely monitor the quality of our products with the help of our dedicated quality assurance team. This team is responsible for supervising quality control while assuring that the standards, as set by the Company, are diligently met with.
Availability of skilled personnel	Our success depends upon our ability to attract and retain skilled personnel. Any kind of failure in this area can adversely affect our business and operations.	We conduct induction programmes to nurture our talent in a structured manner. We also offer various incentives and growth opportunities to our people. This helps retain the talented and skilled workforce.
Competition risk	An increase in the competition from textile industry can severely hamper our Company's market share.	The Company is a prominent player in this segment. The Company has always focused on quality products with strong brand equity. Its ability to understand the market demand and fulfil it accordingly helps them retain clients and market position.

Management Discussion and Analysis (Contd.)

Risk	Impact	Mitigation strategies
Risk of foreign exchange	We generate majority of our revenue from the global operations. Given the nature of business, a large proportion of the costs are denominated in Indian rupees (INR), leading to currency exposure.	The Company mitigates its foreign exchange risk through application of hedging policy.
Technology risk	A technology-intensive business like ours can fall prey to technological obsolescence.	We continuously upgrade technical support used in our manufacturing, research & development facilities. We actively invest in R&D to keep ourselves updated with the technological change and replace the obsolete technology.

ENVIRONMENT AND SAFETY

Clean and safe environmental operations form the Company's key priorities. The Company conducts all its operations ensuring the safety of everyone concerned, compliance of statutory and industrial requirements for environment protection, and conservation of natural resources to the extent possible. Additionally, the Company is also accredited with OHSAS18001:2007 (Occupational Health & Safety Management System) certification from the British Standards India (BSI).

HUMAN RESOURCE

A team, when it works together, can always achieve more than what an individual can. Our people are at the heart of all that we do in business. Their talent and competencies drive our Company to the next level of growth. We focus on creating a work environment fostering thought leadership, innovation and a culture of involvement, participation, and transparency. Nitin continuously strives to provide ample opportunities to collaborate, learn and grow within the organisation. As a Company, we believe that engaged employees contribute more effectively and optimally towards organisational growth. Thus, we constantly endeavour to provide opportunities that engage our employees, creating a positive workplace environment. For this, we organised various engagement initiatives like trainings and developments during the year. We have also been accredited with SA 8000:2014 (Social Accountability System) certification from the BSI. As on 31st March, 2020, the Company's strength stood at 4173 employees in the work force.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company has appropriate systems for internal control. These systems are continually improved and modified to meet the changes in business conditions and the statutory and accounting requirements. The Company also has a strong Management Information System, which is an integral part of control mechanism. The Audit Committee of the Board of Directors reviews the efficiency and effectiveness of internal control systems. It then suggests solutions to improve and strengthen. During the year, the internal control system was tested and no material weakness in design or operations were found.

Independent Auditors' Report

To the Members of

Nitin Spinners Limited

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying Financial statements of Nitin Spinners Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by Companies Act, 2013 ("the Act") in the manner so required, and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind As") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs) specified

under section 143(10) of the Companies Act, 2013 ("the act"). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter

We draw attention to Note No 43 to the Financial Statement, which describes the economic consequences/disruption the Company is facing as a result of COVID-19 pandemic, which is impacting consumer demand, financial market etc.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Independent Auditors' Report (Contd.)

Key Audit Matter	How the matter was addressed in our audit
<p>1. Valuation of Inventories</p> <ul style="list-style-type: none"> The net carrying value of inventory as on 31st March, 2020 is 16.09% of Total Assets of the company. Sales in the industry can be extremely volatile with consumer demand changing significantly (Seasonal) based on current trends. As a result, there is a risk that the carrying value of inventory exceeds its net realisable value. <p>Hence, we determined the valuation of inventories as a key audit matter.</p> <p><u>Related Disclosures:</u></p> <p>Please refer to Note-6 for details of the accounting policies of inventories and Note-6 of Notes to Financial Statements for relevant disclosures of inventories.</p>	<p><u>Our audit procedure:</u></p> <ul style="list-style-type: none"> We have performed the Inventory physical stock count on sample basis. We performed inventory counts at location, which is selected based on financial significance and risk and we performed the following procedures at each site: <ul style="list-style-type: none"> (i) Selected a sample of inventory items and compared the quantities we counted to the quantities recorded. (ii) Observed a sample of management's inventory count procedures to assess compliance with Company's policy, and (iii) Made inquiries regarding obsolete inventory items and inspected the condition of items counted. We have also evaluated a selection of controls over inventory existence across the company. Examining the Company's historical trading patterns of inventory sold at full price and inventory sold below full price, together with the related margins achieved for each product lines in order to gain comfort that stock has not been sold below cost. Evaluating the rationality of the inventory policies such as the policy of inventory valuation and provision for obsolescence and understanding whether the valuation of inventory was performed in accordance with the Company's policy. Analyzing the inventory aging report and net realizable value of inventories. Inspecting the post period sales situation and evaluating the net realizable value of measurement applied on aging inventory in order to verify the evaluation accuracy of the estimated inventory allowance by the Company and Assessing whether the disclosures of provision for inventory valuation are appropriate.
<p>2. Trade Receivables</p> <ul style="list-style-type: none"> The recoverability of trade receivables and the level of provisions for doubtful debts are considered to be a significant risk due to the pervasive nature of these balances to the financial statements, and the importance of cash collection with reference to the working capital management of the business. At 31st March, 2020 the trade receivables balances (net of provisions) consist of 9.29% of the total amount of assets. Accordingly, we determined audit of trade receivables as the key audit matter. <p><u>Related Disclosures:</u></p> <p>Please refer to Note-19 of the accounting policies for details of the accounting policies of trade receivable.</p>	<p><u>Our Audit Procedure:</u></p> <ul style="list-style-type: none"> Assessed the design and implementation of key controls around the monitoring of recoverability. Discussed with the management regarding the level and ageing of trade receivables, along with the consistency and appropriateness of receivables provisioning by assessing recoverability with reference to amount received in respect of trade receivables. In addition, we have considered the company's previous experience of bad debt exposure and the individual counter-party credit risk. Tested these balances on a sample basis through agreement to post period end invoicing and cash receipt. The accuracy and completeness was verified through, analytical reviews and balance confirmation. Analyzing the aging schedule of trade receivable, past collection records, industry boom and concentration of customers' credit risk.

Independent Auditors' Report (Contd.)

Key Audit Matter	How the matter was addressed in our audit
<p>3. Revenue Recognition</p> <ul style="list-style-type: none"> Revenue is an important measure used to evaluate the performance of the Company. There is a risk that the revenue is presented for amounts higher than what has been actually generated by the Company. Consequently, we considered revenue recognition to be a significant key audit matter. <p><u>Related Disclosures:</u></p> <p>Please refer to Note-11 of the accounting policies for details of the accounting policies of revenue recognition and Note-39 of Notes to Financial Statements.</p>	<p><u>Our audit procedure:</u></p> <ul style="list-style-type: none"> Assessing the design, implementation existence and operating effectiveness of internal control procedures implemented as well as test of details to ensure accurate processing of revenue transactions. Inspecting underlying documentation for any book entries which were considered to be material on a sample basis. Inspecting the key terms and conditions of agreements with major customers on a sample basis to assess if there were any terms and conditions that may have affected the accounting treatment of the revenue recognition. The accuracy and completeness of revenue was verified through, cut-off test, analytical reviews and balance confirmation.
<p>4. Capital Expenditure</p> <p>We focused on capital expenditure incurred during the year as this represents significant transaction for the year and involves certain judgmental areas, such as capitalization of eligible components of cost as per applicable financial reporting standards; therefore, we have identified this area as key audit matter.</p> <p><u>Related Disclosures:</u></p> <p>Please refer to Note-2 of the accounting policies for details of the accounting policies of capital expenditure.</p> <p>As disclosed in Note -3 to the financial statements, the Company has incurred significant amount for the installation of new integrated textile unit during the year for the enhancement of its production capacity.</p>	<p>Our audit procedures to assess Capital Expenditure include the following:</p> <ul style="list-style-type: none"> We obtained an understanding of Company's process with respect to capital expenditure and tested controls relevant to such process. We performed substantive audit procedures through inspection of related documents and supporting in relation to the capitalized cost. We further assessed that the related disclosures provided in financial statements are adequate in accordance with applicable accounting standards and Companies Act, 2013.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the other information as identified above, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error

Independent Auditors' Report (Contd.)

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are responsible for overseeing The Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2016("the order) issued by the Central Government in terms of Section 143(11) of the act, we give in "Annexure I" a statement on the matters specified in paragraph 3 and 4 of the Order
- 2) As required by section 143(3) of the Act, based on our audit we report that:

Annexure 'II' to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls with reference to financial statements of Nitin Spinners Limited ("the Company") as of 31st March, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls with reference to financial statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements

was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure 'II' to the Independent Auditor's Report (Contd.)

Inherent Limitations of Internal financial controls with reference to financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to Ind AS financial statements were operating effectively as at 31st March, 2020, based on the internal financial controls with reference to Ind AS financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Financial Statements

for the year ended 31st March, 2020

NOTE NO. 1 - COMPANY INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

A. Corporate Overview

Nitin Spinners Limited (the "Company"), incorporated on 15th October, 1992, is a Company domiciled in India and limited by shares (CIN: L17111RJ1992PLC006987). The address of the Company's Registered Office is 16-17 Km. Stone, Chittor Road, Hamirgarh, Distt. Bhilwara- (Rajasthan 31025). The Company is engaged in manufacturing of Cotton and Blended Yarn, Knitted Fabrics and Woven Fabrics. The company is listed at National Stock Exchange of India Limited and at BSE Limited.

B. Basis of Preparation

These Separate Financial Statements are prepared on Going Concern basis following Accrual basis of accounting and comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013 (to the extent applicable), applicable provisions of the Companies Act, 1956.

1. Basis of Measurement/Use of Estimates

(i) The Financial Statements are prepared on Accrual basis under the Historical Cost convention except certain Financial Assets and Liabilities (including Derivatives instruments) that are measured at fair value.

Historical Cost is generally based on the Fair Value of the consideration given in exchange for goods and services.

Fair Value is the price that would be received to sell an asset or paid to transfer a Liability in an orderly transaction between market participants at the measurement date.

(ii) The preparation of Financial Statements requires judgments, estimates and assumptions that affect the reported amount of Assets and Liabilities, disclosure of Contingent Liabilities on the date of the Financial Statements and the reported amount of Revenues and Expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known/ materialised.

2. Functional and Presentation Currency

These Financial Statements are presented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded to the nearest Lacs (up to two decimals), except as stated otherwise.

3. Current and Non-Current classification

The Company presents Assets and Liabilities in the Balance Sheet based on Current/Non-Current classification.

An Asset is Current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or Cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as Non-Current.

A Liability is Current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other Liabilities are classified as Non-Current.

Deferred Tax Assets/Liabilities are classified as Non-Current.

C. Significant Accounting Policies

A summary of the significant Accounting Policies applied in the preparation of the Financial Statements are as given below. These Accounting Policies have been applied consistently to all periods presented in the Financial Statements.

1. Property, Plant & Equipment

1.1. Initial Recognition and Measurement

An item of Property, Plant and Equipment is recognised as an Asset if and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Items of Property, Plant and Equipment are measured at Cost less Accumulated Depreciation/Amortisation and Accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes &

Notes to Financial Statements

for the year ended 31st March, 2020 (Contd.)

duties, to the location and condition necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipment have different useful lives, they are recognised separately.

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of Property, Plant and Equipment are capitalised.

1.2. Subsequent Costs

Subsequent expenditure is recognised as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

The cost of replacing part of an item of Property, Plant and Equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of Property, Plant and Equipment are recognised in Statement of Profit or Loss as and when incurred.

1.3. Derecognition

Property, Plant and Equipment are derecognised when no future economic benefits are expected from their use or upon their disposal. Gains and Losses on disposal of an item of Property, Plant and Equipment are determined by comparing the proceeds from disposal with the carrying amount of Property, Plant and Equipment, and are recognised in the Statement of Profit and Loss.

1.4. Depreciation

Assets are depreciated using straight line method over the estimated useful life of the asset as specified in Part "C" of Schedule II of Companies Act, 2013 except for Plant & Machinery (other than Laboratory Equipments, Fire Fighting Equipments and Tools & Equipments) whose estimated useful life is taken as 13 years (Triple Shift) after retaining residual life of 5% of original cost. Assets residual values and useful lives are reviewed at each financial year end considering the physical condition of the assets.

Depreciation on additions to/deductions from Property, Plant & Equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Where it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably, subsequent expenditure on a PPE along-with its unamortised depreciable amount is charged off prospectively over the revised useful life determined by technical assessment.

In circumstance, where a property is abandoned, the cumulative capitalised costs relating to the property are written off in the same period.

2. Capital Work-in-Progress

The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

3. Intangible Assets and Intangible Assets under Development

3.1. Initial recognition and measurement

An Intangible Asset is recognised if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets that are acquired by the Company, which have finite useful lives, are recognised at cost. Subsequent measurement is done at cost less accumulated amortisation and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Expenditure on development activities is capitalised only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Company intends to and has sufficient resources to complete development and to use or sell the asset.

Expenditure incurred which are eligible for capitalisations under intangible assets are carried as intangible assets under development till they are ready for their intended use.

Notes to Financial Statements

for the year ended 31st March, 2020 (Contd.)

3.2. Subsequent Costs

Subsequent expenditure is recognised as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

3.3. Derecognition

An Intangible Asset is derecognised when no future economic benefits are expected from their use or upon their disposal. Gains and Losses on disposal of an item of Intangible Assets are determined by comparing the proceeds from disposal with the carrying amount of Intangible Assets and are recognised in the Statement of Profit and Loss.

3.4. Amortisation

Intangible Assets having definite life is amortised on straight line method in their useful lives. Useful life of Computer Software is estimated at five years.

4. Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction, exploration, development or erection of qualifying assets are capitalised as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale. Capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of:

- (a) interest expense calculated using the effective interest method as described in Ind AS 109 – 'Financial Instruments',
- (b) finance charges in respect of finance leases recognised in accordance with Ind AS 116 – 'Leases',
- (c) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs and,
- (d) other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are charged to revenue as and when incurred.

5. Statement of Cash Flows

Cash Flow Statement has been prepared in accordance with the Indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

6. Inventories

Inventories are valued at the lower of cost and net realisable value. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts other than those capitalised as Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable and surplus stores & spares is ascertained on review and provided for.

7. Cash and Cash Equivalent

Cash and cash equivalent in the Balance Sheet comprises Cash at Banks, Cash on Hand and Short-Term Deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

8. Government Grants

Government grants that compensate the Company for the cost of asset are recognised initially as deferred income when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant and are recognised in Statement of Profit & Loss on a systematic basis over the useful life of the related asset. Grants that compensate the Company for expenses incurred are recognised over the period in which the related costs are incurred and are deducted from the related expenses.

9. Provisions, Contingent Liabilities and Contingent Assets

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent Liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a Contingent Liability, unless the probability of outflow of economic benefits is remote. Contingent Liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent Assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent Assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

10. Foreign Currency Transactions and Translation

Transactions in foreign currencies are initially recorded at the functional currency rates at the date the transaction first qualifies for recognition.

Monetary Assets and Liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss in the year in which it arises.

Non-monetary items are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

11. Revenue Recognition

The Company derives revenues primarily from business of textiles. Effective April 1, 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers"

using cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. The following is a summary of new and/or revised significant accounting policies related to revenue recognition. Refer Note 1 "Significant Accounting Policies," in the Company's 2018 Annual Report for the policies in effect for Revenue prior to 1st April, 2018.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Ind AS 115 moves away from the "transfer of risk and rewards" approach and introduces a new "transfer of control" approach delivered through the new five-step model described as follows:

1. Identify the contract with a customer.
2. Identify the separate performance obligations in the contract.
3. Determine the transaction Price.
4. Allocate the transaction price to the separate performance obligations.
5. Recognise revenue when (or as) each performance obligation is satisfied.

At contract inception, an entity assesses the goods or services promised in a contract with a customer and identify each performance obligation promised to be transferred to the customer either:

- (a) a good or service (or a bundle of goods or services) that is distinct; or
- (b) a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as a contract asset. A receivable is a right to consideration that is unconditional upon passage of time. Revenues in excess of billings is recorded as contract asset and is classified as a financial asset for these cases a right to consideration is unconditional upon passage of time. This would result in the timing of revenue recognition being different from the time of billing the customers.

Company classifies amount received as advance from customers against sales as contract liability.

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet

Notes to Financial Statements

for the year ended 31st March, 2020 (Contd.)

11.1 Sale of Goods

Revenue from the sale of goods is recognised upon transfer of control of the goods have passed to the buyer, which generally coincides with dispatch. Revenue from export sales are recognised on shipment basis. Revenue from the sale of goods is measured at an amount that reflects the consideration we expect to receive in exchange for those products (i.e. the transaction price). The Company presents revenues net of indirect taxes, returns and allowances, trade discounts and volume rebates in its Statement of Profit and Loss. Inter-divisional sales comprising of sale of power for captive consumption is reduced from gross turnover in arriving Net Turnover.

11.2 Rendering of services

Revenue from Job work services is recognised based on the services rendered in accordance with the terms of contracts.

11.3 Other Export Benefit

Export benefits are accounted for in the year of export at net market realisable value.

11.4 Other Income

Revenue from transactions or events that do not arise from a contract with a customer not in the scope of Ind AS 115 are continue to be recognised in accordance with the other standards. Such Income includes Interest and Dividend income which are dealt with in Ind AS 109 and Rental income to be accounted as per Ind AS 116.

11.5 Interest Income

For all financial instruments measured at amortised cost and interest-bearing financial assets classified as fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit or loss.

11.6 Dividend

Dividend Income is recognised when the Company's right to receive is established which generally occurs when the shareholders approve the dividend.

11.7 Income other than Interest and Dividend

Other income is recognised in the Statement of Profit and Loss when increase in future economic benefits related to an increase in an asset or a decrease of a liability has arisen that can be measured reliably.

12. Employee Benefits

12.1. Short Term Benefit

Short-term employee benefit obligations are measured on an undiscounted basis and are booked as an expense as the related service is provided.

A liability is recognised for the amount expected to be paid under performance related pay if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

12.2. Post-Employment Benefits

Employee Benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two types:

12.2.1. Defined Contribution Plans

Defined contribution Plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Family Pension Funds are Defined Contribution Plans in which company pays a fixed contribution and will have no further obligation.

12.2.2. Defined Benefit Plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Company pays Gratuity as per provisions of the Gratuity Act, 1972. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

benefit is discounted to determine its present value. Any unrecognised past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the Company, the present value of liability is recognised as provision for employee benefit. Any actuarial gains or losses in respect of gratuity are recognised in OCI in the period in which they arise.

12.3 Other Long-Term Employee Benefits

Benefits under the Company's Leave Encashment Scheme constitute other long-term employee benefits. The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognised in profit or loss in the period in which they arise.

13. Income Taxes

Income Tax Expense comprises Current and Deferred Tax. Current Tax Expense is recognised in Statement of Profit and Loss A/c except to the extent that it relates to items recognised directly in other comprehensive income or equity, in which it is recognised in OCI or Equity.

Current Tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current Income Taxes are recognised under 'Income Tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred Tax is recognised using the Balance Sheet method, providing for temporary differences between

the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred Tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred Tax Assets and Liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle Current Tax Liabilities and Assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Deferred Tax is recognised in Statement of Profit and Loss except to the extent that it relates to items recognised directly in OCI or Equity, in which case it is recognised in OCI or Equity.

A Deferred Tax Asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal Income Tax during the specified period.

Additional Income Taxes that arise from the distribution of dividends are recognised at the same time that the liability to pay the related dividend is recognised.

14. Leases:

14.1 Recognition:

The Company as a Lessee

The Company's Lease Asset classes primarily consist of Leases for Land and Buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

14.2 Accounting for

14.2.1 Operating Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating lease. Payments made under operating leases are recognised as an expense over the lease term.

14.2.2 Finance Lease

Leases of Property, Plant and Equipment where the Company, as lessee has substantially all risks and rewards of ownership are classified as finance lease. On initial recognition, assets held under finance leases are recorded as Property, Plant and Equipment and the related liability is recognised under borrowings. At inception of the lease, finance leases are recorded at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments. Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability.

15. Impairment of Non-Financial Assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount (higher of its fair value less costs to disposal or its value in use) is estimated.

An impairment loss is recognised if the carrying amount of an asset or its Cash Generating Unit (CGU) exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount which is only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

16. Dividends

Dividends and Interim dividends payable to a Company's shareholders are recognised as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

Notes to Financial Statements

for the year ended 31st March, 2020 (Contd.)

17. Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest prior period presented, the opening balances of assets, liabilities and equity for the earliest prior period presented, are restated.

18. Earnings Per Share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

19. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial Assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus or minus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset.

Impairment of Financial Assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, the credit quality of the instrument improves then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

In respect of Trade receivables or any financial asset that result from transactions that are within

the scope of Ind AS 115, company follows 'simplified approach' for recognition of impairment loss allowance within the scope of Ind AS 115, if they do not contain a significant financing component. It recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

b. Financial Liabilities

Initial recognition and measurement

All Financial Liabilities are recognised at fair value and in case of loans, net of directly attributable transaction cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

Subsequent Measurement

Financial Liabilities are carried at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and any material transaction that are any integral part of the EIR. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value of the instrument.

Derecognition

A Financial Liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

c. Derivative Financial Instruments

The Company uses forwards to mitigate the risk of changes in interest rates, exchange rates and commodity prices. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value on the reporting date. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken to cash flow hedge reserve through Statement of Other Comprehensive Income.

Notes to Financial Statements

for the year ended 31st March, 2020 (Contd.)

These are accounted for as follows:

a) Cash flow hedge

When derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in the cash flow hedging reserve being part of other comprehensive income. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in the Statement of Profit and Loss. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss previously recognised in the cash flow hedging reserve is transferred to the Statement of Profit and Loss upon the occurrence of the underlying transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified in the Statement of Profit and Loss.

b) Fair Value Hedge

Changes in the fair value of hedging instruments and hedged items that are designated and qualify as fair value hedges are recorded in the Statement of Profit and Loss. If the hedging relationship no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to Statement of Profit and Loss over the period of maturity.

20. CSR Expenditure

Amount spent on CSR activities during the year is charged to Statement of Profit & Loss, if the same is of revenue nature. If the expenditure is of such nature, which may give rise to a capital asset, the same is recognised in the Balance Sheet as "CSR Assets" under respective head of Property, Plant & Equipment.

D. Major Estimates made in preparing Financial Statements:

1. Useful life of Property, Plant and Equipment and Intangible Assets

The estimated useful life of Property, Plant and Equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery (except Laboratory Equipments, Fire Fighting Equipments and Tools & Equipments) are in accordance with Schedule II of the Companies Act, 2013.

The Company reviews at the end of each reporting date the useful life of property, plant and equipment, and are adjusted prospectively, if appropriate.

Intangible assets are being amortised on straight line basis over the period of five years.

2. Post-Employment Benefit Plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

3. Provisions and Contingencies

The assessments undertaken in recognising provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events requires best judgment by management regarding the probability of exposure to potential loss. In case of change in the circumstances the following unforeseeable developments, the likelihood could alter.

4. Estimation of uncertainties relating to the Global Health Pandemic from COVID-19

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of receivables, and inventory. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and related information, economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

NOTE NO.38-DISCLOSURE AS PER IND AS 107 “FINANCIAL INSTRUMENT DISCLOSURE”

i. Capital Management

For the purpose of the Company’s capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company’s capital management is to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximize shareholder value.

The Company manages its capital so as to safeguard its ability to continue as a going concern and to optimise returns to shareholders. The capital structure of the Company is based on management’s judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence. The management and the Board of Directors monitors the return on capital as well as the level of dividends to shareholders. The Company may take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

The Company monitors capital using a gearing ratio, which is calculated by dividing Net Debt from the Equity. The Company includes within Net Debt, interest bearing loans and borrowings less cash and short-term deposits (including other bank balance) and under Equity, the Equity Share Capital plus other Equity (excluding Preference Share Capital) is considered.

Notes to Financial Statements

for the year ended 31st March, 2020 (Contd.)

ii. Financial Risk Management

The Company's Financial Risk Management is an integral part of how to plan and execute its business strategies. The Company's financial risk management is set by the Managing Board.

Company is exposed to following risk from the use of its financial instrument:

- Credit Risk
- Liquidity Risk
- Market Risk

(a) Credit risk

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. The Company categories a loan or receivable for write off when a debtor fails to make contractual payments greater than 2 years past due. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

Provision for Expected Credit Loss

(a) Financial assets for which loss allowance is measured using 12 month expected Credit Losses:

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) Financial assets for which loss allowance is measured using life time expected Credit Losses:

The Company provides loss allowance on Trade Receivables using life time expected credit loss and as per simplified approach.

Ageing of Trade Receivables

(₹ in Lacs)

Hedge Accounting Disclosures

The Cash Flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into cash flow hedges. The cumulative gain or loss arising on changes in fair value of the designated portion of the hedging instruments that are recognised and accumulated under the heading of cash flow reserve will be reclassified to statement of profit and loss only when the hedged transaction affects the profit or loss or included as a basic adjustment to the non financial hedged item.

(b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company's finance department is responsible for liquidity, funding as well as settlement management. In addition, process and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

(c) Market Risk

Considering the Company's existing foothold/experience in the Textilee, established & diversified client base, association with various international/domestic agents, it's competent sales team and an established marketing setup in India and International Market, it does not foresee any problem in marketing its production.

Market Risk is the risk of loss of future earnings, fair values of future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchanges rates, equity prices and other market changes that effect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, and other market changes. The Company manages market risk through a finance department, which evaluates and exercises independent control over the entire process of market risk management. The finance department recommends risk management objectives and policies, which are approved by Senior Management and the Audit Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies, and ensuring compliance with market risk limits and policies.

i) Interest Rate Risk

It is the risk where changes in market interest rates might adversely affect the Company's financial condition. The short term/immediate impact of changes in interest rates are on the Company's net interest income/expenses. On a longer term, change in interest rate impact the cash flows on the assets, liabilities and off-balance sheet items, giving rise to a risk to the net worth of the Company arising out of all reprising mismatches and other interest rate sensitive positions. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments is as follows:

Foreign Currency sensitivity:

The following tables demonstrate the sensitivity to a reasonably possible change in USD, EURO, GBP and CHF rates to the functional currency of respective entity, with all other variables held constant. The Company's exposure to foreign currency changes for all other currencies is not material. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities.

NOTE 39 - DISCLOSURE AS PER IND AS 115 "REVENUE FROM CONTRACT WITH CUSTOMERS"

The Company has adopted Ind AS 115 "Revenue from Contracts with Customers" which is mandatory for reporting periods beginning on or after 01st April, 2018. The Company has adopted the cumulative catch-up transition method, applied to contracts that were not completed as of 1st April, 2018. In accordance with this method, the comparatives have not been retrospectively adjusted. Application of Ind AS 115 does not have any material impact on the financial results of the Company.

Disaggregate revenue information

The table below presents disaggregated revenues from contracts with customers for the year ended 31st March, 2020 by contract-type. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

Particulars	(₹ in Lacs)
	For the Year Ended 31st March, 2020
Revenues on the basis of Geographical area	
-Domestic Sales	65489.00
- Export Sales (Including Export Incentives)	78317.11
Total	143806.11

Trade receivables and Contract Balances

The Company classifies the right to consideration in exchange for deliverables either as a receivable or as unbilled revenue. A receivable is a right to consideration that is unconditional upon passage of time. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time. This would result in the timing of revenue recognition being different from the timing of billing the customers.

Company classifies amount received as advance from customers against sales as contract liability.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended 31st March, 2020, the Company recognises revenue of ₹ 53.19 Lacs arising from opening contract liabilities as of 1st April, 2019.

Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognised as at the end of the reporting period and an explanation as to when the Company expects to recognise these amounts in revenue. Applying the practical expedient as given in para 121 of Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts as the performance obligation is part of a contract that has an original expected duration of less than 1 year.

The remaining performance obligation as on 31st March, 2020 is ₹ 154.26 Lacs which is to be satisfied within 1 year or less

The impact on account of applying the erstwhile IndAS 18 Revenue instead of IndAS 115 Revenue from contract with customers on the financials results of the Company for the year ended as at 31st March, 2020 is insignificant.

NOTE 42(A) - DISCLOSURE AS PER IND AS 116: LEASES

Effective 1st April, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on 1st April, 2019 using the modified retrospective method. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the date of initial application. Comparatives as at and for the year ended 31st March, 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our Annual Report for year ended 31st March, 2019.

On transition, the adoption of the new standard resulted in recognition of 'Right of Use' asset of ₹ 10.14 lacs and a lease liability of ₹ 10.14 lacs. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

The following is the summary of practical expedients elected on initial application

- Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.
- Applied the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application.
- Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

The weighted average incremental borrowing rate applied to lease liabilities as at 1st April, 2019 is 10% p.a.

NOTE 43 : IMPACT OF COVID-19

The outbreak of COVID-19 globally and resultant lockdown in many countries, including in India, has had impact on the business of the Company. Operations of the Company were completely closed from 22nd March, 2020 to 19th April, 2020 due to lock down and were resumed partially from 20th April, 2020, capacity utilisation is being gradually increased. Due to the lock down there was reduction in sales and profitability for the quarter ended on 31st March, 2020. The lock down is partially continuing in 2020-21 and the Company is continuing its operations with current lower demand. Management is expecting that demand will improve once markets stabilize after effect of COVID-19 and lockdown is over. Management has assessed the potential impact of COVID 19 based on the current circumstances and expects no significant impact on the continuity of operations of the business on long term basis/ on useful life of the assets/ on financial position etc. though there may be lower revenues and lower profitability in the near term in year 2020-21.
