Fuelling growth by creating value

In an exceptional 40-year journey, Paras Defence & Space Technologies Limited has emerged as a key player in India's Defence and Space landscape. With a steadfast focus on Research and Development (R&D) excellence and cutting-edge manufacturing, we have ascended as a prominent contender with specialised technological prowess.

FY 2022-23 was a remarkable year, as we plunged deeper into futuristic technologies and expanded our footprint across critical sectors.

We successfully established ourselves as an exclusive Indian entity with competencies in the domains of Submarine Optronic Periscopes, Remotely Controlled Border Defence Systems, Hyperspectral Imaging Systems, and Electro-Magnetic Pulse (EMP) Protection Solutions. Parallely, we diversified to capture emerging opportunities in the rapidly growing drone and anti-drone markets. We also entered several new collaborations to target newer opportunities.

A pivotal focus was on consolidating our extensive technology know-how alongside leveraging technology transfers and collaborations with foreign Original Equipment Manufacturers (OEMs) to transition into a complete products and solutions provider. We are fuelling this transformative journey by initiating actions to establish integrated facilities for accommodating larger systems and systems with higher quantities. This coupled with our focus on nurturing our human resource capabilities, gives us the conviction of having in place the right mix and strategy for growth.

As the Make in India initiative and the government's emphasis on defence exports gather momentum, unprecedented opportunities are set to unfold. We stand at an inflection point, driven by our expansive technological capabilities, strategic expansions, and dynamic global collaborations. With our unwavering determination, we are ready to march towards a glorious future, where we contribute to the nation's advancement and tap new growth avenues, creating value for all stakeholders.

About Paras Defence & Space Technologies Limited

Our Service Offerings

Marching ahead with a diverse and comprehensive portfolio

We have a formidable expertise across the Command, Control, Communications, Computers Intelligence, Surveillance and Reconnaissance (C4ISR) segment, positioning us as a unique solution provider. Our extensive range of products and solutions positions us as a one-stop destination for a diverse customer base. This versatility empowers us to cater all needs of customers and seamlessly deliver turnkey solutions, setting us apart in the industry.

Our business verticals

We operate across four technology-based verticals of Defence and Space Optics, Defence Electronics, Heavy Engineering for Defence and Electro-Magnetic Pulse (EMP) Protection Solutions. We offer a wide range of products and solutions for defence and space applications across these verticals.

Business segment-wise FY 2022-23 operational revenue

Defence and Space Optics

The vertical stands at the forefront of our business, involved in producing ultra-high precision optics tailored for cutting-edge defence and space applications such as thermal imaging and space imaging systems. We are one of the leading providers of optics for various Indian defence and space programmes.

Our portfolio in this segment includes:

INFRARED LENSES

Our optical components serve as the cornerstone for thermal imaging cameras and night vision equipment used by border security officers and the armed forces across various electro-optic and infrared systems.

DIFFRACTIVE GRATINGS

This is an optical component for hyperspectral cameras, essential for an array of space applications, including Earth observation, among many others.

LARGE SIZE OPTICS

These are specialised large mirrors utilised in space telescopes. With diameters ranging from 0.5 to 1.2 metres, these optics perform diverse imaging tasks within Earth observation satellites.

OPTICAL DOMES

These are the optical components integrated into missiles to ensure precise target acquisition.

METAL MIRRORS

Built from aluminium or other comparable metals, these mirrors have a very high surface reflectivity, making them ideal for large-scale, long-range imaging devices like telescopes.

GYROSCOPE COMPONENTS

These precisely-crafted gyroscope components have a direct impact on the device's positional accuracy. It enhances the accuracy of inertial navigation systems finding applications in avionics and space travel.

OPTO-MECHANICAL ASSEMBLIES

These meticulously assembled configurations combine precision optics and mechanics to provide an array of optical lenses for use in defence and space applications.

Defence Electronics

We offer a wide range of high-performance computing and electronic systems for defence applications, including sub-systems for missiles, tanks and naval applications. Our commitment to excellence is reflected in our products contributing to prestigious defence programmes, surpassing expectations, and redefining the capabilities of defence electronics.

Our comprehensive offerings include:

RUGGED CONTROL SYSTEMS

Our pioneering ruggedised computing subsystems are engineered to automate mission-critical functions such as target tracking, fire control, and command control. These unparalleled creations can endure extreme climatic conditions while maintaining reliability.

MOUNTED COMMAND AND CONTROL SYSTEMS

Bringing together advanced human-machine interfaces, these systems enable seamless command and control operations with multiple displays and advanced computing power. They find applications in radar data processing and fire control.

RESILIENT DISPLAY SOLUTIONS

Our liquid crystal display (LCD) monitors redefine performance benchmarks, offering exceptional results even in challenging environmental conditions.

RUGGED PANEL PERSONAL COMPUTERS

Having uncompromising performance, our high-end compact computers feature built-in displays for excelling in harsh environmental conditions.

MILITARY-GRADE COMMUNICATION SYSTEMS

These ruggedised, commercially off-the-shelf communication subsystems are engineered for military-grade performance. They are fortified to excel in the most demanding conditions.

RUGGED CONSOLES AND WIRED CABINETS

Tailored with precision to meet user requirements, our command-and-control systems seamlessly integrate into diverse operational contexts.

NON-CONTACT PROXIMITY SENSOR

Navigating challenging underwater conditions including high pressure and salinity, our non-contact electro-mechanical proximity sensor technology ensures high accuracy.

Heavy Engineering for Defence

Leveraging our engineering excellence, we specialise in manufacturing high-performance, precision mechanical systems for critical defence applications. We differentiate in our ability to provide customised and exclusive mechanical products.

Our diverse product range encompasses:

FLOW-FORMED TUBES

These seamless metal tubes, manufactured through the cold-forming process, are essential mechanical components of rockets and missiles.

VACUUM BRAZED COLD PLATES

Integral to active array radar systems, these cooling plates excel in dissipating heat generated by high-power electronics.

REVOLUTIONARY REMOTELY CONTROLLED BORDER DEFENCE SYSTEM

A frontline surveillance and land defence system, it can detect threats. Upon a commander's intervention, it activates the weapon system to neutralise potential dangers and safeguard critical borders.

TITANIUM STRUCTURES AND ASSEMBLIES

Harnessing the properties of titanium, these mechanical assemblies have multiple uses including transducer hardware for submarines and naval vessels.

LARGE AND HEAVY DYNAMIC STRUCTURES

These resilient test rigs find application in multiple tasks, including simulating underwater conditions and testing transducer performance.

INDIGENOUSLY DESIGNED FLOW-FORMING MACHINERY

Our indigenous flow-forming machines are used in creating motor tubes for aerospace and defence applications.

RACKS, CABINETS, AND CONSOLES

Delivering uncompromising strength and utility, our heavy-duty mechanical racks, cabinets, and consoles are custom-designed to endure the demands of military and rugged scenarios.

Electro-Magnetic Pulse (EMP) Protection Solutions

EMP is a major threat to current and future war scenarios, as one pulse can destroy electronic systems. We provide specialised turnkey solutions to safeguard against the threat of EMP. We are amongst the few having specialised technological capabilities and expect to be an integral stakeholder in various future requirements of defence and space optics and EMP protection solutions.

Our comprehensive offerings include:

TURNKEY EMP SHIELDING

Our solutions stand as a robust defence against threats of electromagnetic pulses. We specialise in shielding critical spaces such as data centres, control rooms, and command centres.

EMP RACKS AND CABINETS

We elevate protection with our certified racks and cabinets, engineered to provide unparalleled EMP resilience and also used for high-end strategic applications.

HIGH PERFORMANCE EMP FILTERS

These filters, available in a diverse range protect data and power lines from interference and electromagnetic pulses inside a rack, shelter or room.

SHIELDED DOORS

These custom-engineered doors ensure electromagnetic shielding between two isolated compartments. They are typically installed aboard military vessels and portable shelters.

ENTRY POINT SHIELDING COMPONENTS

Our shielded point-of-entries are designed to counteract electromagnetic interference.

Diversified and prestigious customer base

We offer a wide range of high-quality products and solutions supported by our end-to-end capabilities (designing, developing, manufacturing and testing) to meet specific customer needs and also provide quality after-sales services. These position us effectively to attract and retain customers, as evident in our diverse clientele including prestigious government arms and organisations involved in defence and space research, defence public sector undertakings and private entities (both India and globally).

Deep Dive into Technology

Nurturing futuristic technologies, transitioning to a solutions powerhouse

Building upon our core competencies in systems, sub-systems and components, we have established a solid reputation in the defence and space industry. We are now leveraging this strong foundation to advance up the value chain into the realm of products and solutions. This strategic transition is poised to propel us into the next phase of our growth trajectory.

CUTTING-EDGE PRODUCTS AND SOLUTIONS BY PARAS

SUBMARINE OPTRONIC PERISCOPE

Only Indian private company in the whole Asia-Pacific region to build a Turnkey Optronic Periscope for submarine application

Submarine Optronic Periscope is amongst the most important naval technologies, functioning as the submarine's eye and playing a critical role in surveillance applications.

In a significant milestone, we successfully built an Optronic Periscope for Submarine application during FY 2022-23, becoming the only private company in the whole Asia-Pacific region with this capability. The achievement was realised following a technology transfer from the DRDO. It is a big step towards Atmanirbhar Bharat (Self-Reliant India) initiative in defence technologies and also serves as a testament to DRDO's commitment to collaborate with industries like us for complex technologies.

OPPORTUNITY

Looking ahead, there is a good projected requirement of Submarine Optronic Periscopes over the next 5-10 years for new platforms coupled with the need for refurbishment of older platforms and potential for exports. We are also in the process of developing three variants of the Periscope with a higher value in each. All these are expected to open a significant business potential for us in the near future.

SARAS MK-2

Won contract to deliver complete Glass Cockpit/Avionic Suite and Auto Pilot for the first Indian multi-purpose civilian aircraft

The Saras MK-2 Aircraft is the first Indian multi-purpose civilian aircraft (light transport category), designed by the Council of Scientific and Industrial Research (CSIR) - National Aerospace Laboratories (NAL).

In a breakthrough, we have won the contract to supply the complete glass cockpit/avionic suite of the aircraft by the CSIR-NAL. This includes all the equipment related to control, monitoring, communication, navigation,

weather and anti-collision systems along with the Auto-Pilot System.

OPPORTUNITY

We anticipate a huge requirement for this suite over the next few years. Besides, we also expect long-term business potential extending beyond the Saras MK-2 platform.

REMOTELY CONTROLLED BORDER DEFENCE SYSTEM

Only Indian Company to successfully develop a complete functional remote controlled border defence system

This is a high-precision surveillance and defence system suitable for borders, strategic locations and critical installations. We are the only Company to have successfully developed a complete functional system, having completed the firing trials in November 2022.

OPPORTUNITY

We anticipate a requirement of over 4,000 such systems over the next 5-10 years along with potential for exports.

HYPER SPECTRAL IMAGING SYSTEM

Only Indian private company to design, develop and deliver Hyperspectral Imaging Opto-mechanical System and work on full camera for defence and space

Hyperspectral imaging is the future of the imaging systems. We proudly stand as the only Indian private company to indigenously design, develop and deliver Hyperspectral Imaging Opto-mechanical System and work on full camera for space applications. This cutting-edge camera is required for almost all missions with Earth observation, interplanetary research and many other applications, making this a huge opportunity. We are currently working with two non-ISRO

missions for their hyperspectral payload development.

Leveraging this existing capability, we are developing a Hyperspectral imaging system for non-space applications such as defence, medical, agricultural, botanical, food safety, etc. Venturing into this space would ensure higher quantities and promising business potential.

ELECTRO-MAGNETIC PULSE (EMP) PROTECTION SOLUTIONS

Only Indian company offering turnkey EMP protection solution

We are the only Indian company offering a turnkey EMP protection solution that has been completely designed and developed in-house. We also provide EMP racks and cabinets, high-performance EMP filters, shielded doors and entry point shielding components.

OPPORTUNITY

EMP is the future of warfare and hence the protection requirements are set to grow exponentially in the years to come. Apart from defence and security, the solution finds application in areas of banking, IT, communications, etc.

DRONE TECHNOLOGIES

India's widest range of drone technologies and solutions

Drones are a mega opportunity globally. As per EY FICCI, the domestic drone manufacturing market in India is estimated to reach ₹ 1.77 Lakh Crores by 2030, led by indigenisation projects across defence, commercial, homeland security and counter UAV.

Our subsidiary, Paras Aerospace, is at the forefront of this futuristic technology, with established competencies in a wide range of drone technologies and solutions. It offers holistic solutions including drone manufacturing, management (perimeter surveillance, warehouse inspection, drone safety systems using patented parachute deployment system) and services (agriculture, industrial infrastructure, GIS and engineering and training).

EXTENSIVE CAPABILITIES IN MANUFACTURING DRONE AIRCRAFTS

Paras Aerospace excels in manufacturing diverse drone platforms purpose-built for various applications. These drones have superior quality and are equipped with various payloads such as multi-spectral cameras, EO/IR cameras, AI cameras and Light Detection and Ranging Sensors (LIDARS).

Our drone platforms

Military / Tactical Drones

Our drones are available in two configurations:

- (i) self-designed and developed,
- (ii) manufactured in collaboration with foreign OEMs

Industrial Drones

These are high-performance drones designed especially for industrial requirements

Agricultural Drones

These drones are completely designed, developed and manufactured by Paras Aerospace using in-house knowledge and capabilities.

Next-gen Drones

We can develop next-generation drone technology offering long endurance and high load-carrying capacity at high speeds.

ANTI-DRONE TECHNOLOGIES

Comprehensive anti-drone system providing 360° surveillance and protection against hostile drones

Anti-Drone technologies enable the detection of hostile/spurious drones and provide complete protection against them. These systems are built on radio frequency (RF) & microwave backbone. Our subsidiary, Paras Anti-Drone, has excellent capabilities in RF & microwave development, antenna design, SD radios and radar excitors which assist in surveillance and protection. This technology finds applications in critical infrastructure, border protection, mass events, VIP protection, maritime protection, military and security protection.

A milestone achievement for Paras Anti-Drone

In a significant development, Paras Anti-Drone secured a contract from Europe's leading Anti-Drone Company for developing next-generation jammers in collaboration with CerbAir

ADVANCING ELECTRO-OPTIC / INFRA-RED (EO/IR) FIELD WITH CONTROP JOINT VENTURE

Advancing our vision of implementing Make in India, we have entered into a joint venture agreement with CONTROP Precision Technologies Limited. CONTROP is an Israeli Electro-Optics company, specialising in EO/IR payloads for land, air and naval applications globally. The JV entity will focus on manufacturing, implementation/installation, Integrated Logistics Support (ILS) and after-sale support, training, and more in the EO/IR field domain aligned with the government's Make in India initiative.

Message from the Chairman

Achieving new milestones

I am extremely proud of our team whose commitment and passion for innovation led to several breakthroughs in developing world-class technologies.

Dear Shareholders,

The recent strides in our defence segment have been very inspiring, thanks to the user needs to be self-reliant for Defence Technologies and Government of India's support to this vision. The impetus on indigenisation in the defence sector has allowed companies like ours to exhibit competencies, thus contributing directly or indirectly to the national security. I am extremely proud of our team whose commitment and passion for innovation led to several breakthroughs in developing world-class technologies. Notable among these are Submarine Optronic Periscopes, Remotely Controlled Border Defence Systems, Hyperspectral Imaging Systems, and Electro-Magnetic Pulse (EMP) Protection Solutions. These are opening excellent business opportunities for now, and the future.

The journey thus far has been gratifying, and we now find ourselves at a pivotal juncture. Leveraging our competencies and technologies, we are transitioning from being component/subsystem providers to becoming a products and solutions company. Our focus remains aligning with the nation's priorities in the defence and space segments and creating value for all stakeholders in the process.

Our foray into the fast-growing segments of drone and anti-drone technologies through dedicated subsidiaries is expected to introduce new areas to look forward to for exponential growth. The initial progress and indicators of success instil confidence and conviction in the path chosen. The drone business achieved notable progress in product development, partnerships and successful customer trials. Similarly, the Anti-drone subsidiary is harnessing our core strengths in radio frequency and microwave technology, making impressive strides while building a team of experts.

As we look towards the future, our commitment to research and development assumes greater focus. The avenues of Make in India, Atmanirbhar Bharat, and Self-reliant in Space Technologies present us with boundless opportunities. With our competencies as our foundation, we are well-equipped to ascend to new heights, adding substantial value to all stakeholders and advancing the progress of our nation.

AS WE LOOK TOWARDS THE FUTURE, OUR COMMITMENT TO RESEARCH AND DEVELOPMENT ASSUMES GREATER FOCUS. THE AVENUES OF MAKE IN INDIA, ATMANIRBHAR BHARAT, AND SELF-RELIANT IN SPACE TECHNOLOGIES PRESENT US WITH BOUNDLESS OPPORTUNITIES.

My profound gratitude to every stakeholder for their continued support throughout this exceptional journey. I extend thanks to our customers for trusting in our competencies, the shareholders for their faith in us and the government for creating a favourable regulatory framework. A special note of appreciation to our dedicated team, whose commitment has helped our evolution into a leading Indigenously Designed Developed and Manufactured (IDDM) entity in India's defence and space sector. This exclusive positioning is a result of the culmination of decades of intellectual capital, strategic partnerships, and the dedication of the finest minds.

I once again thank you all for your guidance that has been instrumental in shaping our journey. Together, let us continue to chart a course of innovation, growth, and excellence.

Warm Regards,
Sharad Virji Shah
Chairman

Message from the Managing Director

A blueprint for a better tomorrow

With a deep-rooted domain understanding, a customer-centric approach, and agile business strategies, we are well positioned to grow sustainably for the long term.

Dear Shareholder,

I am immensely pleased to present your Company's Annual Report for FY 2022-23, and provide an overview of the achievements and strides made over the course of the year gone by. This has been an exceptional year for us, marked by success stories of our competencies, new collaborations and futuristic ventures into radical domains. We solidified our prowess in technology development, which culminated in strong order book and even stronger opportunity funnel.

A YEAR OF ALL-ROUND DEVELOPMENT

The overall macroeconomic and market scenario for the year was positive in India. While most global economies were facing challenges, the Indian economy was buoyant with opportunities generated by strong domestic demand and high consumer sentiments. This helped mitigate the challenges of inflation and rising interest rates to some extent. The defence and space sector in India, fuelled by user demand and government initiatives, continued their upward trajectory to unleash immense opportunities.

Amidst this promising market conditions, we leveraged our capabilities and exhibited agility in responding to market demands, thereby delivering an exceptional performance. We concluded FY 2022-23 with a robust 22% growth in revenues to ₹ 222.43 Crores. The bottom-line performance was equally commendable, with EBITDA expanding by 9% to ₹ 56.75 Crores and Profit after Tax growing by 32.75% to ₹ 35.94 Crores. All our business verticals performed well. Optics vertical continued to lead with strong profitability, maintaining its position as a high-margin segment business for the Company.

We had healthy order booking during the year including several prestigious orders for complete products. This included a notable order from Instrument Research & Development Establishment (IRDE), DRDO for Optronic Submarine Periscope. Additionally, we were awarded an order for delivering the complete glass cockpit/avionic suite and auto pilot for the first Indian multi-purpose civilian aircraft, Saras MK-2. These strategic wins are facilitating our transition into a product-oriented company. Our total order book as of March 31, 2023, stands at a commendable ₹ 393 Crores. The ordering momentum continues to be strong and we expect sustainable growth in the following years.

We were granted an industrial licence to manufacture several products from the Department for Promotion of Industrial & Internal Trade, Ministry of Commerce & Industry. These include Red Dot Reflex Sights, Electronic Fuzes (excluding explosive content), Rugged COTS Systems and Networking and Communication solutions. This will open newer business avenues.

STRENGTHENING BALANCE SHEET POSITION

With a vision to become debt-free and bolster our balance sheet position, we pre-paid all lenders' long-term borrowings. Given the improved financial standing and favourable outlook, CRISIL has upgraded our credit rating to CRISIL A-/Stable for long-term facilities and CRISIL A2+ for short-term facilities.

ADVANCING TO THE FUTURE

Building upon our strong foundation, we channelised our efforts during the year towards investing in futuristic technologies to fortify our competitive edge and foster long-term growth. A major focal point was the shift from providing components/subsystems to manufacturing products and solutions. Forging new partnerships and collaborations with global companies to manufacture world-class technology in India will not only boost the business but also establish the Company

as a global manufacturing hub for defence technologies.

A joint venture was formed with CONTROP Precision Technologies Limited, Israel, a global specialist in Electro-Optics / Infrared (EO/IR) payloads for land, air and naval applications. The JV will initially address CONTROP's manufacturing requirements for the existing business in India aligned with the Make in India initiative and eventually scale up to export to their overseas customers.

We collaborated with Yantra India Limited, a GoI enterprise to jointly address the requirements of the Indian Defence Forces and export markets. Moreover, we continued our focus on cutting-edge technologies, including ElectroMagnetic Pulse (EMP) protection solutions, Drone technologies, and Radio Frequency (RF) and Microwave products (consolidating into anti-drone system). We have further entered into a technology transfer agreement with New Space India Limited for the Optical Imaging System developed by ISRO, opening prospects for addressing this opportunity in India and abroad.

Our subsidiaries are leading the developments in drone and anti-drone technologies. Our drone subsidiary achieved significant milestones in product development, partnerships, and successful customer trials. They clocked their first revenue in FY 2022-23 and are headed for better performance in the coming years.

The anti-drone subsidiary, is in its development phase and is building a team of RF/microwave experts. They are developing cutting-edge products such as next-generation jammers for a European customer and certain complex technologies for domestic customers.

FINAL COMMENTS

Looking ahead, we recognise the vast opportunities within the defence and space segments and we are ready for the growth it

BUILDING UPON OUR STRONG FOUNDATION, WE CHANNELISED OUR EFFORTS DURING THE YEAR TOWARDS INVESTING IN FUTURISTIC TECHNOLOGIES TO FORTIFY OUR COMPETITIVE EDGE AND FOSTER LONG-TERM GROWTH.

brings to the business. Our strategic direction involves catering to the huge domestic opportunities and progressively scaling up the export business. We intend to evolve as a prominent systems and solutions provider in the areas of optics and optronic systems, electromagnetic pulse protection solutions, drones and anti-drone technologies. We also aim to explore synergistic technology domains and harness our established expertise to develop world-class products.

With a deep-rooted domain understanding, a customer-centric approach, and agile business strategies, we are well positioned to grow sustainably for the long term. The future is exciting and we seek the continual support of all the stakeholders in our journey of growth.

Warm Regards,
Munjal Sharad Shah
Managing Director

Manufacturing Excellence

Enabling indigenisation with unparalleled manufacturing capabilities

The nucleus of our operations are our state-of-the-art manufacturing facilities, embodying our commitment to excellence. These versatile facilities support the production of multiple high-quality and customised products, making us a distinguished manufacturer of subsystems and components. We are now making strategic investments in our resources to elevate our capabilities to progress towards accommodating larger systems and addressing the surging demand.

AMBERNATH

The facility engages in the manufacturing of heavy engineering products, large and heavy dynamic structures and mechanical system integration. It also has test facilities.

Manufacturing excellence at Paras

We manufacture multiple products and develop diverse technologies in our exclusive facilities, ensuring flexibility to meet changing market demands and reduce dependence on one product category. We ensure high efficiency by engaging an established supply chain with dedicated facilities and having requisite quality control. This gives scalability to our production capacity and ensures responsive output for our customers.

Product excellence is paramount, and our ingrained culture and commitment to delivering quality products is reflected in high customer satisfaction. Our quality management system is validated with ISO 9001:2015 and AS9100D accreditation. We aim to refine these standards and continually implement better practices to match emerging technology and global standards.

Key player in indigenisation

We are a key player in the Defence and Space industry with Indigenously Designed Developed and Manufactured (IDDM) capabilities. We have successfully indigenised the manufacturing of several products in line with the government’s Make in India efforts either through in-house development or strategic collaboration with leading technology companies globally. We are also aligned with the government’s Defence Acquisition Procedure, focussed on boosting indigenous production and promoting India as a global manufacturing hub for diverse technologies for Defence and Space applications.

Evolving into a complete solutions provider

We are currently shaping up into a complete solutions provider along with our legacy business of sub-systems and components. This transition necessitates the establishment of integrated facilities to cater to larger systems and systems with higher quantities. Focussed on this, we are undertaking a capacity expansion programme at our Navi

Mumbai facility, which is poised to commence in FY 2023-24. Concurrently, we are in the process of onboarding experts and scaling up human resources. These efforts with bolster our capabilities to effectively execute ongoing projects and seize upcoming opportunities.

Research and Development Capabilities

Nurturing innovation for long-term success

Harnessing our R&D and technological capabilities, we have consistently expanded our portfolio with innovative, value-added and technologically advanced offerings to establish our niche position. This gives us a significant competitive edge and distinguishes us as a leading IDDM category company. As the wave of indigenisation surges in India, especially in the defence segment, we expect our expertise and know-how will play a key role in addressing the nation's ambitions and driving our growth.

Our R&D facilities

We have three R&D facilities across Nerul (Navi Mumbai), Bengaluru, Karnataka and Ahmedabad. Our R&D centre at Nerul is recognised by and registered with DSIR. Our research activities are focussed on creating new products and solutions, customised to meet customer expectations and end-user preferences as well as improve production processes and existing product quality. Our R&D capabilities include product designing, product engineering, product simulation, prototyping and testing.

Scaling R&D with collaboration

Collaboration is key to our R&D prowess. Over the years, we have established partnerships/collaborations with several companies and organisations for technology development. These collaborations also help solidify our reputation as a production partner for their high-end technology. We have also partnered with global OEMs to bring niche technologies to India, establishing ourselves as their gateway and manufacturing partner for their products in the region.

In FY 2022-23, we have successfully entered several new collaborations including:

Instrument Research & Development Establishment, DRDO for Optronic Periscopes

CONTROP Precision Technologies Limited for Electro-Optic/Infra-Red (EO/IR) field

New Space India Limited for Optical Imaging System as developed by the Indian Space Research Organisation (ISRO)

Yantra India Limited to establish a framework for jointly addressing the requirements of Indian Defence forces and export markets

Advancing to the future

We are working on emerging technologies that are forward integration to our existing capabilities and have significant potential. Some of the key areas include:

- Becoming developers and manufacturers of Camera Systems for Drone Platforms,
- Hyper-Spectral Imaging Systems for Space & Non-Space applications,
- Turnkey solution to upcoming threats such as Intentional ElectroMagnetic Interference (IEMI)
- Manufacture world -class aviation systems such as Avionic Suites, etc.

Human Resource

The force behind us, our talented and dynamic team

Anchored by rich and diverse talent pool, we have established strong engineering, innovation and high-end technology management capabilities to ensure better outcomes. As we ascend to the next level, transitioning into a products and solutions company, we are enhancing efforts to provide a supportive work environment and exposure to cutting-edge technologies to our team members, who are the backbone of our journey.

ENSURING A CULTURE OF CONTINUOUS LEARNING

Our business, being in a niche technology domain involves high level of technical capabilities, making a constant need for skilled talent and continually upskilling them essential for our success. Therefore, we have always given priority to the right attitude, positive approach and integrity over mere academic performance or relevant experience.

Our commitment is evident through a structured approach to learning and development. We conduct regular training sessions to enhance the knowledge of our employees and build competencies in emerging technologies. We also empower young talent by providing them with exposure to customers and offering on-the-job training opportunities to enrich their skill sets.

PRIORITISING HEALTH AND SAFETY

We adhere to comprehensive health and safety protocols, with strict compliance to all fundamental norms. Extending our commitment to employee well-being, we conduct regular safety drills and health check-ups for a secure and conducive work environment.

EMBRACING DIVERSITY AND INCLUSION

We encourage inclusiveness by positioning our employees as interfaces with customers, thereby transforming them into internal customers within the Company for ongoing projects. Further, our hiring practices are underpinned by a diversity focus as we attract employees from across the country supported by our presence in four states.

EMPLOYEE ENGAGEMENT AND WELL-BEING

Employee welfare and satisfaction are integral to our core values. We provide a thriving and free workplace to our people by facilitating direct access to both management and customers. Our commitment to their well-being goes beyond professional realms, as we extend personal and financial support in need.

MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW

Global economy

The global economy was faced with several challenges in 2022, mainly severe inflationary pressure, continued geopolitical tensions, and the resurgence of COVID-19 in China. This led to slowdown in global growth to 3.4% in 2022 from 6.3% in 2021. Advanced economies grew 2.7% while Emerging market and developing economies (EMDEs) grew 4%. Several central banks have adopted stringent monetary policies to curb inflation. This has aided in bringing down the price of food and energy, but underlying price pressures are proving sticky, with labour markets tight in a number of economies.

Global growth is estimated at 2.8% in 2023 and 3% in 2024 reflecting the rise in central bank rates to fight inflation and the war. Advanced economies are expected to grow 1.3% in 2023 and 1.4% in 2024. In EMDEs growth is estimated to have bottomed out in 2022, and are expected to grow at 3.9% in 2023 and 4.2% in 2024 led by strong growth in India and China. The expected pickup in 2024 in both groups of economies reflects gradual recovery from the effects of the war and subsiding inflation.

Indian economy

Despite sluggish global economy, India has set a target of becoming a USD 5 trillion economy by 2025 and more than double its annual exports to USD 2 trillion by 2030. Government policies like Make in India, Performance Linked Incentives (PLI) scheme, Atmanirbhar Bharat, Housing for All, rural electrification, extended Emergency Credit Linked Guarantee Scheme, etc. are aiding economic growth. In FY 2022-23, the economy is estimated to have grown at 7.2%, as per the Provisional estimates of National Income 2022-23. Growth is primarily attributable to rise in private consumption and higher capital expenditure, which in turn resulted in providing boost to production activity.

According to the World Bank, the Indian GDP growth is estimated at 6.9% in FY 2022-23 and 6.6% in FY 2023-24. India is expected to become the fastest growing economy in FY 2023-24. The inflation trajectory is likely to be determined by extreme weather conditions like heatwaves and the possibility of an El Niño year, volatility in international commodity prices and pass-through of input costs to output prices. Inflation is expected to moderate in FY24 as compared to FY23 and is likely to remain at 5-6%, with risks evenly balanced. The expansion of public digital platforms and several measures like PM Gati Shakti, the National Logistics Policy, and PLI schemes are expected to provide the needed boost to manufacturing output.

INDUSTRY OVERVIEW

Defence

Global defence industry

Global defence spending continues its steady rise, with 6.4% growth in 2022 to reach USD 1,908 billion. The biggest boost to overall global defence spending came from NATO member states (and aspiring

member states) revising budgetary plans and accelerating spending and modernisation efforts in the wake of the Russia-Ukraine war. While facing extremely high levels of inflation, energy pressures and slower economic growth, many governments worldwide began reassessing military investment and security approaches as the war intensified. The bulk of global military investment remains in three regions: North America, Asia, and Europe at 42%, 25% and 16% respectively. The top 20 defence spending countries, on an average, spend about 2.1% of GDP on defence. Given the uncertainties that the war has brought about leading to growing insecurities, it is expected that defence investment and procurement will continue to be intense from 2023 through 2025, and possibly even till 2030 even amidst growing inflation and trade deficits.

2023 Forecast International

global_defense_spending_2023_final.pdf (windows.net)

Indian defence industry

The Indian defence manufacturing industry is a significant sector for the economy. Demand growth is likely to accelerate with rising concerns of national security. India has the second-largest defence force in the world. India comes among the top 10 defence spending countries, as of 2022, and expects to export equipment worth USD 15 billion by 2026. In the Union Budget 2023-24, the overall defence budget was increased by 13% to ₹5.93 Lakh Crores (almost 13% of the total budget) as compared to the outlay of ₹5.25 Lakh Crores in the previous year. Of this, 75%, or nearly ₹ 1.2 Lakh Crores, will go to domestic firms as part of government focus on indigenisation. This was in keeping with the Government's resolve and focus towards maintaining a high level of operational preparedness of the defence services to face current and future challenges. India is committed to spending ₹ 1.5 Lakh Crores annually on an average till 2030 to modernise its armed forces.

Drone technology is a sunrise sector, poised for exponential boom globally. According to an EY Report, India has the potential to realise approximately ₹ 1.8 Lakh Crores of aggregate domestic manufacturing through focused implementation of drone indigenisation projects, across defence, commercial, homeland security and counter UAV sectors. The rise of the drone manufacturing industry in India will result in significant manufacturing trickle-down effects across the subcomponent value chain, right across motors/propulsion systems, payloads, communication modules, batteries/power systems, propellers, assembly, navigation systems and airframes. These subcomponents have commonalities and synergies with allied industries, which would get a fillip in turn. Recently, an indigenously built anti-drone system was inducted into the armed forces to counter the drone menace across the LOC.

Spike in defence exports

According to the global power index, the Indian defence sector ranks fourth in terms of firepower with a score of 0.0979 (with 0.0 being the perfect score). The Indian government has set the defence production target at USD 25 billion by 2025, including USD 5 billion from exports. India's defence exports for FY23 reached a historic high of approximately ₹ 16,000 Crore, growing 10x since FY17, when defence exports amounted to ₹ 1,521 Crore. The surge can be attributed to various policy measures notably the implementation of positive indigenisation lists through Make in India initiative. These lists prioritise using indigenous technologies and equipment, incentivising domestic defence production. This has propelled India towards its goal of becoming a net exporter of arms. The Defence Ministry has set a target of 70% self-reliance in weaponry by 2027, creating huge prospects for industry players.

India exports various major platforms, including the Akash missile, BrahMos, Pinaka, Dornier-228, thermal imagers, 155 mm Advanced Towed Artillery Guns (ATAGs), radars, simulators, body armours, and mine-protected vehicles. In addition, the Light Combat Helicopters, Aircraft Carriers, and Light Combat Aircraft (LCA) Tejas have gained significant interest and demand. Indian exports to over 85 nations, with a vast range of designs and developments being exported by more than 100 companies.

Government initiative

The Government has identified the defence and aerospace sector as a focus area for the 'Atmanirbhar Bharat' or Self-Reliant India initiative, with a formidable push on the establishment of indigenous manufacturing infrastructure supported by a requisite research and development ecosystem.

The MoD has rolled out the Defence Acquisition Procedure, effective from October 1, 2020, focussing on significantly boosting indigenous production. The aim is to make India a global manufacturing hub of weapons and military platforms. This procedure has been aligned with the vision of the government's 'Aatmanirbhar Bharat' initiative and to empower Indian defence industry through 'Make in India' projects. In line with these initiatives, several Indian companies collaborate with technology companies to boost indigenous manufacturing.

Under the Atmanirbhar Bharat Initiative, four positive indigenisation lists of 411 weapons, platforms and systems have been promulgated by Department of Military Affairs and Ministry of Defence to be indigenised in phases from 2022 to 2030. These include high-value imports such as lightweight tanks, naval utility helicopters, artillery guns, various missiles, destroyers, light combat, transport and basic trainer aircraft, as well as lower-value imports such as spare parts, small components and sub-systems for fighters, ships, submarines and tanks. The government has also released three 'positive indigenisation lists' of 3,738 components imported by defence public sector undertakings, or DPSUs. Most will be indigenised in coming years with 25% reserved for the private sector.

The government has also announced two dedicated Defence Industrial Corridors, in Tamil Nadu and Uttar Pradesh, to act as clusters of defence manufacturing that leverage existing infrastructure, and human capital. To enable innovation within the sector, there are supportive government schemes such as Innovations for Defence Excellence (iDEX) and Defence Testing Infrastructure Scheme (DTIS).

To give a push to defence exports, Government has taken a number of policy initiatives and brought reforms over the last 5-6 years. Export procedures have been simplified and made industry-friendly with end-to-end online export authorisation curtailing delays and bringing Ease of Doing Business. Government has notified three Open General Export License (OGEL) for export of Parts and Components/Transfer of Technology/Major Platforms and Equipment. OGEL is one-time export licence, which permits the industry to export specified items to specified destinations, enumerated in the OGEL, without seeking export authorisation during the validity of the OGEL.

Export leads received from various countries are disseminated to the registered Indian Defence Exporters through online portal on real-time basis to enable them to respond to export opportunities. Regular reviews are held with Indian Missions abroad to promote Indian defence products and facilitate Indian Industry. More than 40 webinars organised with Friendly Foreign Countries (FFCs) with involvement of Industry Associations.

Recent developments

- The twelfth and largest-ever defence exhibition, DefExpo 2022, marked the emergence of India's defence industry as a sunrise sector for investment on the global scale, in line with the theme 'Path to Pride'. Organised exclusively for Indian companies, the five-day event witnessed unparalleled participation of over 1,340 exhibitors, businesses, investors, start-ups, MSMEs, Armed Forces and delegates from several countries, with engagements spread over four venues.
- The Government has taken several policy initiatives in the past few years and brought in reforms to encourage indigenous design, development and manufacture of defence equipment, thereby promoting self-reliance in defence manufacturing & technology in the country.
- Till April 2023, a total of 606 Industrial Licences have been issued to 369 companies operating in Defence Sector.

- India's defence production crossed the ₹ 1 Lakh Crore mark in FY23, an increase of 12% over ₹ 95,000 Crores production in FY22.
- In order to bolster Make in India vision, the aero show was conducted in February 2023, to promote the export of indigenous air platforms like Light Combat Aircraft (LCA)-Tejas, HTT-40, Light Combat Helicopter (LCH) and Advanced Light Helicopter (ALH) and Dornier Light Utility Helicopter (LUH). During the five-day event, over 800 companies showcased the country's aerospace and defence capabilities.

SPACE

Global space industry

According to the Satellite Industry Association (SIA), in 2022, the global space industry generated USD 384 billion in revenues, with the commercial satellite industry contributing USD 281 billion. Increased affordability and innovation led to 2,325 satellites launched into space in 2022, with an historic 161 commercial launches. A major driver of growth in the space sector has been the development of new technologies, such as reusable launch vehicles, SmallSats (satellites of low mass and size) and CubeSats (square-shaped miniaturised satellites).

Innovation has made it more cost-effective to develop new space systems and launch payloads into space, which in turn has enabled a wider range of organisations to participate in the space sector. The development of SmallSats and CubeSats have particularly increased the interest of private companies and government agencies, as it allows for more affordable access to space and new business models, such as constellations (a group of satellites working together as a system with shared control). Another important driver of growth in the space sector has been increased private sector investment. A growing number of venture capital (VC) firms and private equity (PE) firms have been investing in the space sector, and more and more private companies are entering the market to provide space-related products and services.

With evolution in technology, challenges to manufacturing, launching, and operating satellites and other space-based assets have diminished significantly. Satellites have been miniaturised, costing less to produce and operate than ever before. Led by reusable rocketry, launch costs have reduced significantly. Accelerating these developments, digital and advanced technologies are helping new players to access satellite operators' data and explore new business applications. The industry has the potential to grow to USD 1 trillion by 2030. The number of active satellites, capable of handling different tasks ranging from tracking data on climate change to processing credit card transactions, has the potential to triple within the next decade.

Indian space industry

Despite being one among a few space-faring nations in the world, India accounts for only about 2% of the space economy. Over the last 2 decades, the private sector has played an increasingly important role in other spacefaring countries within the global space economy. In Union Budget 2023-24, an allocation of ₹ 12,544 Crores was made to the Department of Space, an increase of 19% from previous year. The budget allocation has been done for the Department of Space

and other organisations under it like the Indian Space Research Organisation (ISRO) and its centres, Indian National Space Promotion and Authorisation Centre - the regulator for the private sector space players and others.

The AatmaNirbhar Bharat vision has revamped government-led space activities significantly. India needs a space law to support a thriving domestic space industry and the vision of the country's expanding participation in the global space economy. It is essential to provide a favourable policy environment to encourage private sector investment. Regulations should aim to create an environment supportive and empowering entrepreneurs and SMEs to create internationally scalable, end-to-end products and services.

Also, there is a need to develop competency, such as an academic emphasis on system development. It is imperative to integrate the entire space segment as one system, close gaps in interdependence, improve interfaces and interaction, and build technologies for newer software-defined satellites. With India's prowess in Information Technology sectors and talent, there is huge potential for the Indian Space sector to become a prominent player in the global space.

Recent developments

Indian space sector is on its way to deliver some big projects in the coming years, which include an unmanned Gaganyaan mission and other inter-planetary missions. Of the allocated space budget, approximately ₹11,669 Crores is dedicated for these big projects and for the other developmental and operational initiatives.

ISRO successfully launched Chandrayaan-2, India's third lunar mission, in July 2023, using the LVM-3. Besides, ISRO also plans for Aditya L1 solar mission, Chandrayaan-3 Moon mission, Small Satellite Launch Vehicle or mini-PSLV and other satellite missions this year to explore the neighbouring planets and moon.

IN-SPACe, the government's single-window body that deals with the private sector has been allocated ₹ 95 Crore, out of which ₹ 53 Crores has been earmarked for capital expenditure for IN-SPACe.

Government has introduced various public-owned government bodies such as:

- **The Indian National Space Promotion and Authorisation Centre (IN-SPACe):** Its duties include promoting, enabling authorising, and supervising the NGEs' various space activities, such as developing launch vehicles and satellites and offering space-based services, sharing existing space infrastructure and facilities under Department of Space (DOS)/ISRO control, and establishing new space infrastructure and facilities.
- **Antrix Corporation Limited:** It is the commercial and marketing arm of the DOS, responsible for identifying markets/products with market potential, identifying core competencies in the industry, bringing financial viability, completing the national space program, and accelerating commercial, and technical partnerships with private industries, India can increase its participation through collaborations and partnerships and become a preferred global destination for space commerce.

- **New Space India Limited (NSIL):** To provide satellite services for diverse domestic and international demands, enabling technology spin-offs for the benefit of humanity through industry interaction, and assisting SMEs in expanding their high technology manufacturing base for space activities.
- **The Indian Space Association (ISpA):** To make India self-sufficient, technologically advanced, and a major player in the global space arena, it will engage in policy advocacy, engage, and operate with all stakeholders, and act as a catalyst for accelerating the exchange of knowledge, information, and technology of space-related domains amongst all stakeholders of the entire Indian Space ecosystem, including the government and its agencies.

COMPANY OVERVIEW

With a rich experience of over four decades, Paras Defence & Space Technologies (the Company) is one of the leading Indigenously, Designed, Developed and Manufactured company catering to four major segments of defence & space sector, namely, defence and space optics, defence electronics, electro-magnetic pulse protection solution and heavy engineering.

The Company is involved in the creation, design, production, and testing of a wide range of defence and space engineering products and solutions. The Company is the sole Indian supplier of critical imaging components such as large size optics and diffractive gratings for space applications in India. The Company is one of the leading providers of optics for various Indian defence and space programmes, and the only Indian company with the design capability for space-optics and opto-mechanical assemblies. The Company is also the only Indian company indigenously manufacturing optronic submarine periscope.

The Company's rich domain knowledge in electronics for defence applications has enabled it to contribute to some of the most prestigious defence programmes of the country. The Company is capable of delivering customised turnkey projects in the defence segment, especially in the defence electronics and EMP protection segments.

The Company specialises in high-end manufacturing for defence and space applications and has been providing customised and exclusive mechanical products since inception. The Company is also proactive in identifying and partnering with some of the leading technology companies around the world in order to indigenise advanced technologies in the defence and space sectors for catering to the Indian market under the Make In India initiative of the GOI.

The Company has two manufacturing facilities at Ambernath in Thane, Maharashtra and Nerul in Navi Mumbai, Maharashtra. R&D activities are mainly undertaken at centres at Nerul in Navi Mumbai, Maharashtra, Ahmedabad, Gujarat and Bengaluru, Karnataka. The manufacturing facilities at Nerul and Ambernath have been accredited with quality management system certificate for compliance with ISO 9001:2015 requirements while the Nerul Facility has been accredited with AS9100D certification. The Company is in the process of expanding its manufacturing facility located at Nerul as well as Ambernath.

Opportunities

- Government policies like Aatmanirbhar Bharat and Make in India provide a favourable environment for growth to Indian companies in the defence and space sectors.
- With growing prominence of technology, the demand for defence electronics, defence optics, EMP protection and heavy engineering services are on the rise. The Company's stronghold in these areas provides good growth opportunities.
- Defence manufacturing in India is witnessing substantial growth led by government's push towards foreign trade and joint agreements with various countries.
- The Company is in a sweet spot to participate in government's future projects aided by the launch of the Indian Space Association, promoting the participation of private players.

Challenges

- The Company's organisational growth is highly depended on contracts from Government of India (GoI) and associated entities including defence public sector undertakings and government organisations involved in space research. Any change in priority away from defence and research poses challenge to business operations.
- It is imperative for the Company to upgrade its technological know-how to remain relevant in the industry. It is also important for the Company to safeguard its sensitive data.

FINANCIAL PERFORMANCE

Cash and cash equivalents in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value. For the purposes of statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as set out above, net of outstanding bank overdrafts as they are considered an integral part of our cash management.

RESEARCH & DEVELOPMENT

The Company places strong emphasis on R&D as it plays a crucial role in developing the wide portfolio of products and solutions in the defence and space sector. The Company has invested in precision manufacturing infrastructure and human resource in dedicated R&D centres located at Nerul in Navi Mumbai, Maharashtra, and Bengaluru, Karnataka. The R&D centre at Nerul is recognised by and registered with DSIR. The Company has entered into partnership with some of the leading and proven overseas technology companies, which gives an added impetus to R&D.

Robust R&D led design and technological capabilities enable the Company to develop new and cutting-edge products and solutions,

undertake process innovation and improve existing portfolio. It also aids in developing technology for future requirements and building a strong product pipeline. Most of the products and components are designed, developed and manufactured by the Company in India.

Strong focus on R&D is critical to business growth and improves the ability of the Company to cater to specific customer requirements. As a result, the Company continuously invests in technology, equipment and skilled employees to improve overall customer experience. High-quality, innovative and technology-driven products and solutions provide early-mover advantages, higher profit margins and present with opportunities to capture any shift in customer requirements. Led by its unique R&D capabilities the Company is set to become a preferred supplier.

RISK MANAGEMENT AND RISKS AND MITIGATION MEASURES

The Company's comprehensive risk management framework is designed under a plan approved by the Board of Directors. This risk management plan defines risk identification, analysis, and management and outlines the procedure to perform, record and monitor risks effectively. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed. This helps to deploy appropriate risk management methodologies and tools for use in identifying, assessing, managing and reporting risks. The Audit Committee and the Board are duly apprised about the foreseeable risks and the adequate corrective measures to be undertaken. The Company manages all internal and external risks as deemed fit.

Market Risk: Being a significant part of the defence and space sector, earnings depend on the events impacting the economic growth.

Mitigation: The Company continuously strives to expand its portfolio and customer base. The Company works to establish technology-based partnerships with leading companies worldwide. Given the challenging geo-political tensions globally, in fact the government realises the added need to be future-ready in defence and is committed to upgrade defence and space technology in India.

Innovation Risk: Inability to get breakthrough innovation in line with change in consumer preference poses risk to earnings.

Mitigation: The Company lays strong focus on innovation. It has a well-equipped R&D facility with a skilled team of professionals who work tirelessly to innovate superior products in keeping with current trends.

Data Security and Cyber Risk: Business is exposed to data and cyber security risk given complex nature of business. Any lapse can prove negative on the business.

Mitigation: The Company has invested in ensuring strong protection of its data. Robust IT and ERP systems are capable of ensuring data security and counter any cyber risk.

HUMAN RESOURCES

The Company has well-structured HR policies effective in nurturing an equal, transparent, and fair culture. The Company fosters a safe, conducive, and productive work environment. The HR policies are aimed at aligning employee goals with organisational goals to empower the employees. The Company provides regular skill development trainings and programmes to employees. Employee-friendly management policies, working environment, career development opportunities and employee benefits are instrumental in maintaining good employee relations and employee retention.

The Company identifies, develops and retains talent through an array of initiatives including talent acquisition, learning and development, compensation and benefits, employee engagement and performance management. Based on annual performance review, the staff is duly recognised and rewarded.

INTERNAL CONTROL SYSTEMS

The Company has a robust and well-embedded system of internal controls commensurate with the nature of business and size and complexity of its operations. Comprehensive policies, guidelines and procedures are laid down for all business processes. The internal control system has been designed to ensure that financial and other records are reliable for preparing financial and other statements and for maintaining accountability of assets. The internal controls ensure strict compliance with all relevant statutory and regulatory requirements.

The Company has robust monitoring system to monitor progress against the terms and conditions as laid down in customer agreements, identify any issues and take necessary corrective and preventive actions for monitoring compliance guaranteed service

levels as per the required parameters. A dedicated team involved in resource planning and workforce management, on a regular basis, monitors the costs incurred for various works and provides feedback for corrective actions. Audit committee is responsible for evaluating the internal financial controls and risk management systems with the support of internal auditors. In the event of any deviation from normal, the matter is reported to the Board and appropriate corrective action is implemented promptly.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF

PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED

Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the accompanying Standalone Financial Statements of **PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED** ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2023, the Statement of Standalone Profit and Loss (including Other Comprehensive Income), the Statement of Standalone Changes in Equity and the Statement of Standalone Cash Flows for the year then ended, and notes to the Standalone Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023 and its profit including Other Comprehensive Income, Changes in Equity and its Cash Flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of

the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

KEY AUDIT MATTERS (KAM)

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements for the year ended March 31, 2023. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For the matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matter described below to be the key audit matter to be communicated in our report. We have fulfilled the responsibilities described in the Auditors' responsibilities for the audit of the Standalone Financial Statements section of our report, including in relation to that matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Standalone Financial Statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying Standalone Financial Statements.

Key Audit Matter

1) Revenue:

During the year, the Company's revenue from operation has been increased by 19.04%. Revenue is recognized when control of the underlying products have been transferred along with satisfaction of performance obligation. The terms of sales arrangements, including the timing of transfer of control and delivery specifications, create complexity and judgment in determining sales revenues.

Significant Risk exists that revenue is recognized without substantial transfer of control and is not in accordance with IND AS115 'Revenue from contracts with customers', resulting into recognition of revenue in incorrect period.

How our audit addressed the key audit matter

We assessed the Company's processes and controls for recognizing revenue as part of our audit. Our audit procedures included the following:

- Assessing the systems related to invoicing and measurement as well as other relevant systems supporting the accounting of revenue.
- Performed sample tests of individual sales transaction and traced to sales invoices, sales orders shipping documents and other related documents. In respect of the samples selected, tested that the revenue has been recognized as per the sales orders;
- Verifying the completeness of disclosure in the Standalone Financial Statements as per Ind AS 115.

<p>2) Inventories</p> <p>As of March 31, 2023, inventories appear in the Standalone Financial Statements for an amount of ₹ 9,149.35 Lakhs constitutes 18.18% of the total assets of the Company. Inventories are valued at the lower of cost and net realizable value</p> <p>The Company may recognize an inventory allowance if inventory items are damaged, if the selling price has declined, or if the estimated costs to completion or to be incurred to make the sale have increased.</p> <p>We considered this matter as key audit matter due to the:</p> <ul style="list-style-type: none"> • Significance of the inventories balance. • Complexities involve in determining quality of inventories and quantities on hand due to the number, weight, diversity of inventory, storage, Valuation procedure including of obsolete inventories. <p>Refer note no. 1.3 (H) and 9 to the Standalone Financial Statements.</p>	<p>Our audit procedure included, among others:</p> <ul style="list-style-type: none"> • Reviewing the Company's process and procedure for physical verification of the Inventories, identification of non-moving and obsolete items and accounting for the same. • Obtaining the physical inventory count reports of the Management as per verification plan and discussing with the Management about the Control checks performed by them • Assessing the methods used to value inventories and ensuring the consistency of accounting methods. • Testing, by sampling, the effectiveness of the controls set up by Management to prevent or detect possible errors in valuation of inventories. • Analyzing the company's assessment of net realizable value and calculations for stock obsolescence. • Verifying the completeness of disclosure in the Standalone Financial Statements as per Ind AS 2. • Obtaining representation letter from the management as per SA 580 (revised) – Written representations.

INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the other information. The other information comprises the management discussion & analysis and director's report included in the annual report but does not include the Standalone Financial Statements and our auditor's report thereon. The above information is expected to be made available to us after the date of this auditor's report.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the above other information, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and the Statement of changes in equity of the Company in accordance with the Ind AS and the other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITORS' RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our

auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date to the members of PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED on the Standalone Financial Statements for the year ended March 31, 2023)

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)

We have audited the internal financial controls with reference to Standalone Financial Statements of **PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED** (‘the Company’) as of March 31, 2023 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company’s management is responsible for establishing and maintaining internal financial controls with reference to the Standalone Financial Statements based on the internal control criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over financial reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to these Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards of Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to Standalone Financial

Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to Standalone Financial Statements.

MEANING OF INTERNAL FINANCIAL CONTROL WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

A Company’s internal financial control with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the Standalone Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial control with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to Standalone Financial Statements and such internal financial controls with reference to Standalone Financial Statements were operating effectively as at March 31, 2023, based on the criteria for internal financial control established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls issued by the ICAI.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

for the year ended March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

1.1 CORPORATE INFORMATION

Paras Defence and Space Technologies Limited (the 'Company') is a public limited Company domiciled and incorporated in India under the Indian Companies Act, 1956. The registered office of the Company is situated at D-112, TTC industrial area, Nerul, Navi Mumbai-400706. The company is involved in design, development, manufacturing, testing & commissioning of products, systems and solutions for Defence & Space Applications. On October 1, 2021, the equity shares of the Company have been listed on the BSE Limited and National Stock Exchange of India Limited.

The Standalone Financial Statements of the Company for the year ended March 31, 2023, were approved and adopted by Board of Directors in their meeting held on May 16, 2023

1.2 BASIS OF PREPARATION

The Standalone Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013, read together with the Companies (Indian Accounting Standards) Rules, as amended from time to time.

The Standalone Financial Statements have been prepared and presented on going concern basis and historical cost basis, except for the following assets and liabilities, which have been measured as indicated below:

- Certain Financial assets and liabilities at fair value (refer accounting policy regarding financial instruments).
- Employee's Defined Benefit Plans measured per actuarial valuation.

These Standalone Financial Statements are presented in Indian Rupees, which is the Company's functional and presentation currency and all values are rounded to the nearest lakhs, except when otherwise indicated.

1.3 SIGNIFICANT ACCOUNTING POLICIES

(A) Property, Plant and Equipment :

Property, plant and equipment are carried at its cost, net of recoverable taxes, trade discounts and rebate less accumulated depreciation and impairment losses, if any. Cost includes purchase price, borrowing cost, non refundable taxes or levies and directly attributable cost of bringing the asset to its working condition for its intended use. Expenditure related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant heads of property, plant and equipment if the recognition criteria are met. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably. In case of Property, Plant and Equipment, the Company has availed

the fair value as deemed cost on the date of transition i.e. April 01, 2016.

Property, Plant and Equipment not ready for the intended use on the date of Balance Sheet are disclosed as "Capital Work-in-Progress" and expenses incurred relating to it, net of income earned during the development stage, are disclosed as pre-operative expenses under "Capital Work-in-Progress".

Property, Plant and Equipment are eliminated from Standalone Financial Statements, either on disposal or when retired from active use. Gains / losses arising in the case of retirement/disposal of Property, Plant and Equipment are recognised in the Statement of Profit and Loss in the year of occurrence.

Capital work in progress and Capital advances:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress. Advances given towards acquisition of property, plant and equipment outstanding at each Balance Sheet date are disclosed as Other Non-Current Assets.

Depreciation:

Depreciation on property, plant and equipment is provided on straight line method for the year for which the assets have been used as under:

- (a) Depreciation on assets is provided over the useful life of assets as prescribed under Schedule II of Companies Act, 2013
- (b) Leasehold land is amortised over the period of lease.

The asset's residual values, useful lives and method of depreciation are reviewed at each financial year end and are adjusted prospectively, if appropriate.

(B) Intangible Assets and Amortisation:

Intangible Assets are stated at cost, net of accumulated amortization and impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly. Gain or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognized as income or expense in the Statement of Profit and Loss. In case of Intangible Assets, the Company has availed the fair value as deemed cost on the date of transition i.e. April 01, 2016. The period of amortisation is as under :

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

for the year ended March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

Asset	Period of amortisation
Computer Software	6 Years
Technical Know how	6 Years

(C) Investment Property:

Investment property is held for long term rental income and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs and net of recoverable taxes, trade discounts and rebates. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any.

Depreciation on investment properties is provided using straight line method over the estimated useful lives as specified in Schedule II to the Companies Act, 2013. Residual values, useful lives and method of depreciation of investment properties are reviewed at each financial year end and are adjusted prospectively, if appropriate. The effects of any revision are included in the Statement of Profit and Loss when the changes arises.

Though the Company measures investment properties using cost based measurement, the fair value of investment property is disclosed in the notes.

Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in Statement of Profit and Loss in the period of de-recognition.

(D) Borrowing Cost:

Borrowing costs specifically relating to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized (net of income on temporarily deployment of funds) as part of the cost of such assets. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a year does not exceed the amount of borrowing cost incurred during that year. All other borrowing costs are expensed in the year in which they occur.

(E) Impairment of Non-Financial Assets - Property, Plant and Equipment & Intangible Assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs. An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

(F) Government Grants and Subsidy:

Grants and subsidies from the government are recognised when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received. When the grant or subsidy relates to revenue, it is recognised as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognised by deducting the grant from the value of respective asset to arrive at carrying amount.

(G) Taxes on Income:

Tax expense represents the sum of current tax (including income tax for earlier years) and deferred tax. Tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised directly in equity or other comprehensive income, in such cases the tax is also recognised directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognised in equity or other comprehensive income is also recognised in equity or other comprehensive income.

Current tax provision is computed for Income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

for the year ended March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised. Deferred tax assets and liabilities are measured at the applicable tax rates. The carrying amount of deferred tax assets is reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised.

(H) Inventories:

Inventories are measured at lower of cost and net realisable value (NRV) after providing for obsolescence, if any. NRV is the estimate selling price in the ordinary course of business, less estimated costs of completion and estimate cost necessary to make the sale. Cost of Inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition. Cost of raw materials, stores & spares, packing materials are determined on weighted average basis. The Cost of Work in Progress and Finished Goods is determined on absorption costing methods.

(I) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets - Initial recognition and measurement

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition of financial assets, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost. Purchase and sale of financial assets are recognized using trade date accounting. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Financial assets - Subsequent measurement

For the purpose of subsequent measurement financial assets are classified in two broad categories:-

- Financial assets at fair value
- Financial assets at amortised cost

Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss (i.e. fair value through profit and loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

A financial asset that meets the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

- Business model test: The objective of the Company's business model is to hold the financial asset to collect the contractual cash flow.
- Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

- Business model test: The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flow and selling financial assets.
- Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

All other financial asset is measured at fair value through profit or loss.

Financial assets - Derecognition

A financial assets (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flow from the asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

for the year ended March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

Expected credit losses are measured through a loss allowance at an amount equal to:

- a) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- b) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

Financial Liabilities - Initial recognition and measurement:

The financial Liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial Liabilities - Subsequent measurement:

Financial Liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Financial Liabilities - Financial guarantee contracts:

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined and the amount recognised less cumulative amortisation.

Financial liability - Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another,

from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(J) Fair Value:

The Company measures financial instruments at fair value at each Balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the Standalone Financial Statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the Standalone Financial Statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

(K) Investment in Subsidiaries and Associates:

The Company has elected to recognize its investments in subsidiaries and associate at cost in accordance with the option available in Ind AS 27, 'Separate Standalone Financial Statements'.

(L) Revenue Recognition and Other Income:

Sales of goods and services:

The Company derives revenues primarily from sale of products comprising of Defence & Space Applications

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

for the year ended March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue is measured at the amount of consideration which the company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognized when it becomes unconditional.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from rendering of services is recognised over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Contract Balances - Trade Receivables

A receivable represents the Company's right to an amount of consideration that is unconditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Other Income:

Incentives on exports and other Government incentives related to operations are recognised in the statement of profit and loss after due consideration of certainty of utilization/receipt of such incentives.

Interest Income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend Income:

Dividend Income is recognised when the right to receive the payment is established.

Rental income:

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included as other income in the statement of profit or loss.

(M) Foreign currency transactions and translation:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

for the year ended March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other finance gains / losses are presented in the statement of profit and loss on a net basis.

In case of an asset, expense or income where a monetary advance is paid/received, the date of transaction is the date on which the advance was initially recognized. If there were multiple payments or receipts in advance, multiple dates of transactions are determined for each payment or receipt of advance consideration.

(N) Employee Benefits:

Short term employee benefits are recognized as an expense in the statement of profit and loss of the year in which the related services are rendered. Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognised as an expense in the year in which employees have rendered services.

The cost of providing gratuity, a defined benefit plans, is determined based on Projected Unit Credit Method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the period in which they arise. Other costs are accounted in statement of profit and loss.

Remeasurements of defined benefit plan in respect of post employment and other long term benefits are charged to the other comprehensive income in the year in which they occur. Remeasurements are not reclassified to statement of profit and loss in subsequent periods.

(O) Lease:

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an options to extend the lease if the Company is reasonably certain to exercise that options; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that options. In assessing whether the company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The

Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

The Company as a lessee

The Company's lease asset classes primarily consist of leases for land. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

for the year ended March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

(P) Research and Development:

Revenue expenditure on Research and Development is charged in the year in which it is incurred. Capital Expenditure for Research and Development is capitalised when commissioned and included in the Plant, Property and Equipment and depreciated in accordance with the policies stated for Property, Plant and Equipment.

(Q) Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the statement of profit and loss as a finance cost. Provisions are reviewed

at each Balance Sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Standalone Financial Statements. Contingent assets are not recognised in standalone financial statement. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

(R) Segment reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

(S) Cash and cash equivalents:

Cash and cash equivalents in the Balance Sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

(T) Earnings per share:

Basic earnings per share is computed using the net profit or loss for the year attributable to the shareholders' and weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit or loss for the year attributable to the shareholders' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

for the year ended March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

(U) Current / Non-current classification:

The Company presents assets and liabilities in statement of financial position based on current/non-current classification.

The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by Ministry of Corporate Affairs (MCA).

An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when it is:

- Expected to be settled in normal operating cycle,
- Held primarily for the purpose of trading,
- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Company has identified twelve months as its operating cycle.

(V) Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable rights to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable rights must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

(W) Held for Sale:

Non-Current Assets are classified as Held for Sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when a sale is highly probable from the date of classification, management are committed to the sale and the asset is available for immediate sale in its present condition. Non-Current Assets are classified as Held for Sale from the date these conditions are met and are measured at the lower of carrying amount and fair value less cost to sell. Any resulting impairment loss is recognised in the statement of profit and loss as a separate line item. On classification as Held for Sale, the assets are no longer depreciated. Assets and liabilities classified as Held for Sale are presented separately as current items in the Balance Sheet.

1.4 KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Company's standalone financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Depreciation/amortisation and useful lives of Property, plant and equipment/intangible assets:

Property, plant and equipment/intangible assets are depreciated/amortised over the estimated useful lives of the assets, after taking into account their estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation/ amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation/ amortisation for future periods is revised if there are significant changes from previous estimates.

b) Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

for the year ended March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

c) Defined benefit obligation:

The cost of post-employment benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases, expected rate of return on assets and mortality rates. Due to the long term nature of these plans, such estimates are subject to significant uncertainty.

d) Income Tax:

Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in the Standalone Financial Statements. Deferred tax assets are recognised only to the extent that it is probable that taxable profit will be available against which the unused tax losses or tax credits can be utilised. This involves an assessment of when those assets are likely to reverse, and a judgement as to whether or not there will be sufficient taxable profits available to offset the assets. This requires assumptions regarding future profitability, which is inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognised in respect of deferred tax assets and consequential impact in the statement of profit and loss.

e) Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

f) Recoverability of trade receivables:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

g) Contingencies:

Management has estimated the possible outflow of resources at the end of each annual financial year, if any, in respect of contingencies/claim/litigations against the

Company as it is not possible to predict the outcome of pending matters with accuracy.

h) Impairment of Non-Financial Assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

1.5 STANDARDS ISSUED BUT NOT EFFECTIVE

On March 31, 2023, the Ministry of Corporate Affairs (MCA) has notified Companies (Indian Accounting Standards) Amendment Rules, 2023. This notification has resulted into amendments in the following existing accounting standards which are applicable to company from April 1, 2023:

Withdrawal Rate+100 basis points	(2.29)	(1.69)
Withdrawal Rate-100 basis points	2.51	1.86

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the Projected Unit Credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognized in the balance sheet.

March 31, 2026	27.90
March 31, 2027	25.28
March 31, 2028	22.56
March 31, 2029 and above	313.92

30.4 Risk exposures

These plans typically expose the company to actuarial risks as, Salary Risk, Discount Rate, Employee Turnover rate/Withdrawal rate, Mortality / Disability.

Salary Risk

Salary escalation & attrition rate are considered as advised by the company; they appear to be in line with the industry practice considering promotion and demand & supply of the employees.

Discount rate

In case the yield on the government bonds drops in the future period then it may result in increase in the liability.

Employee Turnover rate/Withdrawal rate

If the actual withdrawal rate in the future turns out to be more or less than expected then it may result in increase in the liability.

Mortality / Disability

Maturity Analysis of Benefit Payments is undiscounted cash flows considering future salary, attrition & death in respective year for members as mentioned above.

Details of Asset-Liability Matching Strategy:

Gratuity benefits liabilities of the company are Funded. There are no minimum funding requirements for a Gratuity benefits plan in India and there is no compulsion on the part of the Company to fully or partially pre-fund the liabilities under the Plan. The trustees of the plan have outsourced the investment management of the fund to insurance companies which are regulated by IRDA. Due to the restrictions in the type of investments that can be held by the fund, it may not be possible to explicitly follow an asset-liability matching strategy to manage risk actively in a conventional fund.

The expected payments towards contributions to the defined benefit plan is within one year.

NOTE: 38 FAIR VALUES (CONTD...)

38.2 Fair Valuation techniques used to determine Fair Value

The Company maintains procedures to value its financial assets or financial liabilities using the best and most relevant data available. The Fair Values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the Fair Values:

- i) Fair Value of Cash and Cash Equivalents, Other Bank Balances, Trade Receivable, Trade Payables, Current Loans, Current Borrowings, and other Current Financial Assets and Liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- ii) The fair values of non-current borrowings, Security Deposits and Margin money are approximate at their carrying amount due to interest bearing features of these instruments.
- iii) The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

38.3 Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:-

- i) **Level 1 :** Quoted prices / published Net Assets Value (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the Balance Sheet date and financial instruments like mutual funds for which Net Assets Value is published by mutual fund operators at the Balance Sheet date.
- ii) **Level 2 :** Inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.
- iii) **Level 3 :** Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The following table provides hierarchy of the fair value measurement of Company's asset and liabilities, grouped into Level 1 (Quoted prices in active markets), Level 2 (Significant observable inputs) and Level 3 (Significant unobservable inputs) as described below:

NOTE: 39 FINANCIAL RISK MANAGEMENT - OBJECTIVE AND POLICIES

The Company is exposed to market risk, credit risk, liquidity risk and competition & price risk. Risk management is carried out by the company under policies approved by the Board of Directors. This Risk management plan defines how risks associated with the Company will be identified, analysed, and managed. It outlines how risk management activities will be performed, recorded, and monitored by the Company. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed, to promote a shared vision of risk management and encourage discussion on risks at all levels of the organization to provide a clear understanding of risk / benefit trade-offs, to deploy appropriate risk management methodologies and tools for use in identifying, assessing, managing and reporting on risks, and to determine the appropriate balance between cost and control of risk and deploy appropriate resources to manage/optimize key risks. Activities are developed to provide feedback to management and other interested parties (e.g. Audit committee, Board etc.). The results of these activities ensure that risk management plan is effective in the long term.

39.1 Market Risk and Sensitivity:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise two types of risk: foreign currency rate risk and interest rate risk. Financial instruments affected by market risk include loans and borrowings, deposits and investments.

The sensitivity analysis relate to the position as at March 31, 2023 and March 31, 2022

(a) Foreign Currency Exchange Risk and Sensitivity

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. The Company's exposure to the risk of changes in foreign currency exchange rates relates primarily to the Company's operating activities and its Investment. The Company transacts business primarily in USD and Euro. The Company has foreign currency trade payables and receivables and is therefore, exposed to foreign currency exchange risk. The Company regularly reviews and evaluates exchange rate exposure arising from foreign currency transactions.

The following table demonstrates the sensitivity in the USD, GBP and Euro to the Indian Rupee with all other variables held constant. The impact on the Company's profit before tax (PBT) due to changes in the fair values of monetary assets and liabilities is given below:

Unhedged Foreign currency exposure as at March 31, 2023	Currency	Amount in FC	Amount in INR
Investment	USD	954,642	784.88
Trade Receivable	USD	1,518,432	1,248.41
Trade Receivable	EURO	136,295	122.13
Trade Payable	USD	2,115,906	1,739.63
Trade Payable	EURO	120,556	108.03
Trade Payable	GBP	23,098	23.53

Investment	USD	451,908	342.58
Trade Receivable	USD	595,172	451.18
Trade Receivable	EURO	231,971	196.39
Trade Payable	USD	1,523,924	1,155.24
Trade Payable	EURO	47,285	40.03
Trade Payable	GBP	17,871	17.79

Foreign Currency Sensitivity

2% increase or decrease in foreign exchange rates will have the following impact on Profit Before Tax (PBT):

Particulars	2022-23		2021-22	
	2% increase-Profit/ (Loss)	2% decrease-Profit/ (Loss)	2% increase-Profit/ (Loss)	2% decrease-Profit/ (Loss)
USD	5.87	(5.87)	(7.23)	7.23
EURO	0.28	(0.28)	3.13	(3.13)
GBP	(0.47)	0.47	(0.36)	0.36
Increase / (Decrease) in Profit Before Tax	5.68	(5.68)	(4.46)	4.46

(b) Interest Rate Risk and Sensitivity

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is having current borrowings in the form of working capital and inter corporate deposits. There is a fixed rate of interest in case of inter corporate deposits and hence, there is no interest rate risk associated with these borrowings. The Company is exposed to interest rate risk associated with working capital facility due to floating rate of interest.

The exposure of the Company's borrowings to interest rate changes at the end of the reporting year are as follows:

Particulars	As at March 31, 2023	As at March 31, 2022
Working Capital Facility	-	2,854.43
Closing Balances	-	2,854.43

The table below illustrates the impact of a 2% increase / decrease in interest rates on interest on financial liabilities assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year.

Particulars	2022-23		2021-22	
	2% increase-Profit/ (Loss)	2% decrease- Profit/(Loss)	2% increase-Profit/ (Loss)	2% decrease- Profit/(Loss)
Working Capital Facility	-	-	(57.09)	57.09
Increase / (Decrease) in Profit Before Tax	-	-	(57.09)	57.09

The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

39.2 Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operational activities (primarily trade receivables) and from its financing activities including deposits with banks and other financial instruments.

NOTE: 39 FINANCIAL RISK MANAGEMENT - OBJECTIVE AND POLICIES (CONTD...)

a) Trade Receivables:

The Company measures the expected credit loss of trade receivables, which are subject to credit risk, based on historical trend, industry practices and the business environment in which the entity operates and adjusted for forward looking information. Loss rates are based on actual credit loss experience and past trends.

The Company has used practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix. The provision matrix taken into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on ageing of the days the receivables are due.

The following table summarizes the Gross carrying amount of the trade receivables and provision made.

Particulars	As at March 31, 2023		As at March 31, 2022	
	Gross Carrying Amount	Loss Allowance	Gross Carrying Amount	Loss Allowance

Provided during the year	153.23	185.77
Closing Balances	953.70	800.47

b) Financial Instruments and Cash Deposits:-

The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances are maintained. Credit risk from balances with bank is managed by the Company's finance department. Investment of surplus funds are also managed by finance department. The Company does not maintain significant cash in hand. Excess balance of cash other than those required for its day to day operations is deposited into the bank.

For other financial instruments, the finance department assesses and manage credit risk based on internal assessment. Internal assessment is performed for each class of financial instrument with different characteristics.

39.3 Liquidity Risk :

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on short term borrowings and operating cash flows in the form of working capital to meet its need for fund. The Company does not breach any covenants wherever applicable on any of its borrowing facilities. The Company has access to a sufficient variety of sources of funding as per requirements.

The below table summaries the maturity profile of the Company's financial liability :

INDEPENDENT AUDITOR’S REPORT

**TO THE MEMBERS OF
PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED**

Report on the Audit of the Consolidated Financial Statements

OPINION

We have audited the accompanying Consolidated Financial Statements of **PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED** (hereinafter referred to as “the Holding Company”) and its subsidiaries (the Holding Company and its subsidiaries together referred to as “the Group”) and its associate, which comprise the Consolidated Balance sheet as at March 31, 2023, and the Statement of Consolidated Profit and Loss (including Other Comprehensive Income), the Statement of Consolidated Changes in Equity and the Statement of Consolidated Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as “the Consolidated Financial Statements”).

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor on separate financial statements and on the other financial information of a subsidiaries and associate, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 (‘the Act’) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the Consolidated State of Affairs of the Group and of its associate as at March 31, 2023 and their Consolidated Profit including Other Comprehensive Income, the Consolidated Statement of Changes in Equity and their Consolidated Cash Flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under

section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (‘ICAI’) together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us and other auditors in terms of their reports referred to in “Other Matter” paragraph below is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

KEY AUDIT MATTERS (KAM)

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements for the year ended March 31, 2023. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our report. We have fulfilled the responsibilities described in the Auditors’ responsibilities for the audit of the Consolidated Financial Statements section of our report, including in relation to that matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Consolidated Financial Statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying Consolidated Financial Statements.

Key Audit Matter	How our audit addressed the key audit matter
<p>1) Revenue:</p> <p>During the year, the Holding Company’s revenue from operation has been increased by 19.04%. Revenue is recognized when control of the underlying products have been transferred along with satisfaction of performance obligation. The terms of sales arrangements, including the timing of transfer of control and delivery specifications, create complexity and judgment in determining sales revenues.</p> <p>Significant Risk exists that revenue is recognized without substantial transfer of control and is not in accordance with IND AS115 ‘Revenue from contracts with customers’, resulting into recognition of revenue in incorrect period.</p>	<p>We assessed the Holding Company’s processes and controls for recognizing revenue as part of our audit. Our audit procedures included the following:</p> <ul style="list-style-type: none"> Assessing the systems related to invoicing and measurement as well as other relevant systems supporting the accounting of revenue. Performed sample tests of individual sales transaction and traced to sales invoices, sales orders shipping documents and other related documents. In respect of the samples selected, tested that the revenue has been recognized as per the sales orders; Verifying the completeness of disclosure in the financial statements as per Ind AS 115.

<p>2) Inventories</p> <p>As of March 31, 2023, inventories appear in the Holding Company's Financial Statements for an amount of ₹ 9,149.35 Lakhs constitutes 18.18% of the total assets of the Holding Company. Inventories are valued at the lower of cost and net realizable value</p> <p>The Holding Company may recognize an inventory allowance if inventory items are damaged, if the selling price has declined, or if the estimated costs to completion or to be incurred to make the sale have increased.</p> <p>We considered this matter as key audit matter due to the:</p> <ul style="list-style-type: none"> Significance of the inventories balance. Complexities involve in determining quality of inventories and quantities on hand due to the number, weight, diversity of inventory, storage, Valuation procedure including of obsolete inventories. <p>Refer note no. 1.3 (H) and 9 to the Financial Statements.</p>	<p>Our audit procedure included, among others:</p> <ul style="list-style-type: none"> Reviewing the Holding Company's process and procedure for physical verification of the Inventories, identification of non-moving and obsolete items and accounting for the same. Obtaining the physical inventory count reports of the Management of Holding company as per verification plan and discussing with the Management about the Control checks performed by them Assessing the methods used to value inventories and ensuring the consistency of accounting methods. Testing, by sampling, the effectiveness of the controls set up by Management to prevent or detect possible errors in valuation of inventories. Analyzing the Holding company's assessment of net realizable value and calculations for stock obsolescence. Verifying the completeness of disclosure in the Financial Statements as per Ind AS 2. Obtaining representation letter from the management as per SA 580 (revised) – Written representations.

OTHER INFORMATION

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the management discussion & analysis and director's report included in the annual report but does not include the Consolidated Financial Statements and our auditor's report thereon. The above information is expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiary companies and associate not audited by us, is traced from their respective financial statements audited by the other auditors.

When we read the above other information, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in terms of the requirements of the Act that give a true and

fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and the consolidated statement of changes in equity of the Group and its associate in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards ('Ind AS') prescribed under Section 133 of the Act read with relevant rules issued thereunder.

The respective Board of Directors of the companies included in the Group and of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and its associate and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the Group and of its associate and to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associate is responsible for overseeing the financial reporting process of the Group and of its associate.

AUDITORS' RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and of its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and of its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent

the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate of which we are the independent auditors and whose financial information we have audited, to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Consolidated Financial Statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entity included in the consolidated financial statements, which have been audited by other auditors, such other auditors remains responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

We did not audit the financial statements of two subsidiary companies, whose financial statements reflect total assets of ₹ 1,885.62 Lakhs as at March 31, 2023, total revenues of ₹ 2,790.89 Lakhs and net cash inflows amounting to ₹ 33.58 Lakhs for the year ended on that date and the financial statements of an associate company which reflect Group's share of net (loss) after tax of ₹ (13.13) Lakhs and total comprehensive income of ₹ (13.13) Lakhs for year ended March 31, 2023 as considered in the Consolidated Financial Statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these aforesaid subsidiaries and an associate, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and an associate is based solely on the reports of the other auditors.

“ANNEXURE B” TO THE INDEPENDENT AUDITORS’ REPORT

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date on Consolidated Financial Statements of PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED for the year ended March 31, 2023)

Report on the Internal Financial Controls With reference to Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to Consolidated Financial Statements of PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED (hereinafter referred to as “the Holding Company”) and its subsidiaries, which are companies incorporated in India, as of March 31, 2023 in conjunction with our audit of the Consolidated Financial Statements of the Holding Company for the year ended on that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to Consolidated Financial Statements based on the internal control criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (‘the Guidance Note’) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Holding Company and its subsidiaries, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards of Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to these Consolidated Financial Statements included obtaining an

understanding of internal financial controls with reference to these Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on internal financial controls with reference to these Consolidated Financial Statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THESE CONSOLIDATED FINANCIAL STATEMENTS

A company’s internal financial control with reference to these Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to these Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to these Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company and its subsidiaries,

which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls system with reference to these Consolidated Financial Statements and such internal financial controls with reference to these Consolidated Financial Statements were operating effectively as at March 31,

2023, based on the internal control with reference to Consolidated Financial Statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

1.1 CORPORATE INFORMATION

The consolidated financial statements comprise of Paras Defence & Space Technologies Limited ("the Company" or "Holding Company"), its subsidiaries and associate, as detailed in Note No. 44, for the year ended March 31, 2023. The Company is a public limited Company domiciled and incorporated in India under the Indian Companies Act, 1956. The registered office of the Company is situated at D-112, TTC industrial area, Nerul, Navi Mumbai 400706. The Group is involved in design, development, manufacturing, testing & commissioning of products, systems and solutions for Defence & Space Applications. On October 1, 2021, the equity shares of the Holding Company have been listed on the BSE Limited and National Stock Exchange of India Limited.

The consolidated financial statements of the Group for the year ended March 31, 2023 were approved and adopted by board of directors in their meeting held on May 16, 2023.

1.2 BASIS OF PREPARATION

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013, read together with the Companies (Indian Accounting Standards) Rules, as amended from time to time.

The Consolidated financial statements have been prepared and presented on going concern basis and historical cost basis, except for the following assets and liabilities, which have been measured as indicated below:

- Certain Financial assets and liabilities at fair value (refer accounting policy regarding financial instruments).
- Employee's Defined Benefit Plans measured as per actuarial valuation report.

These consolidated financial statements are presented in Indian Rupees, which is the group's functional and presentation currency and all values are rounded off to the nearest lakhs with two decimals, except when otherwise indicated.

1.3 PRINCIPLES OF CONSOLIDATION

The consolidated financial statements have been prepared on the following principles of consolidation:

- i) The financial statements of the Holding Company and its subsidiaries/ entity where control exists are combined on a line-by-line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flows, after fully eliminating intra-group balances and intragroup transactions and any unrealized income and expenses arising from intra Group transactions.

- ii) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. The difference between the cost of investment in the subsidiaries and the Parent's share of net assets at the time of acquisition of control in the subsidiaries is recognised in the consolidated financial statements as goodwill. However, resultant gain (bargain purchase) is recognized in other comprehensive income on the acquisition date and accumulated to capital reserve in equity.
- iii) The intra group balances and transactions, and any unrealised income and expenses arising from intra group transactions, are eliminated in preparing the consolidated financial statements.
- iv) In case of foreign subsidiary, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities are converted at rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognised in the Foreign Currency Translation Reserve (FCTR).
- v) The Consolidated Financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. If an entity of the group uses accounting policies other than those adopted in the Consolidated Financial Statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's Financial Statements in preparing the Consolidated Financial Statements to ensure conformity with the Group's accounting policies.
- vi) For the acquisitions of additional interests in subsidiaries, where there is no change in the control, the Group recognises a reduction to the non-controlling interest of the respective subsidiary with the difference between this figure and the cash paid, inclusive of transaction fees, being recognised in equity. In addition, upon dilution of controlling interests, the difference between the cash received from sale or listing of the subsidiary shares and the increase to non-controlling interest is also recognised in equity. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in Consolidated Statement of Profit and Loss. Any investment retained is recognised at fair value. The results of subsidiaries acquired or disposed off during the year are included in the Consolidated Statement of Profit and Loss from the effective date of acquisition or up to the effective date of disposal, as appropriate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

- vii) Profit or loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.
- viii) Investment in Associates has been accounted under the Equity Method as per Ind AS 28 – Investments in Associates and Joint Ventures. The investment in associates is initially recognised at cost. Subsequently, under the equity method, post-acquisition attributable profit/losses and other comprehensive income are adjusted in the carrying value of investment to the extent of the Group's investment in the associates. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

1.4 SIGNIFICANT ACCOUNTING POLICIES

(A) Property, Plant and Equipment :

Property, plant and equipment are carried at its cost, net of recoverable taxes, trade discounts and rebate less accumulated depreciation and impairment losses, if any. Cost includes purchase price, borrowing cost, non refundable taxes or levies and directly attributable cost of bringing the asset to its working condition for its intended use. Expenditure related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant heads of property, plant and equipment if the recognition criteria are met. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably. In case of Property, Plant and Equipment, the Group has availed the fair value as deemed cost on the date of Ind AS transition i.e. April 1, 2016.

Property, Plant and Equipment not ready for the intended use on the date of Balance Sheet are disclosed as "Capital Work-in-Progress" and expenses incurred relating to it, net of income earned during the development stage, are disclosed as pre-operative expenses under "Capital Work-in-Progress".

Property, Plant and Equipment are eliminated from consolidated financial statements, either on disposal or when retired from active use. Gains / losses arising in the case of retirement/disposal of Property, Plant and Equipment are recognised in the Consolidated Statement of Profit and Loss in the year of occurrence.

Capital work in progress and Capital advances:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress. Advances given towards acquisition of property, plant and equipment outstanding at each Balance Sheet date are disclosed as Other Non-Current Assets.

Depreciation:

Depreciation on property, plant and equipment is provided on straight line method for the year for which the assets have been used as under:

- (a) Depreciation on assets is provided over the useful life of assets as prescribed under schedule II of Companies Act, 2013
- (b) Leasehold land is amortised over the period of lease.

The asset's residual values, useful lives and method of depreciation are reviewed at each financial year end and are adjusted prospectively, if appropriate.

Depreciation on the Property, Plant and Equipment is provided using straight line method over the useful life of the assets as specified in Schedule II to the Companies Act, 2013 except for following assets where the useful life is different as per technical evaluation than those prescribed in Schedule II are mentioned below-

Particulars	Useful Life
Drone Charging Station	2 Years
Drone	3 Years

(B) Intangible Assets and Amortisation:

Intangible Assets are stated at cost, net of accumulated amortization and impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly. Gain or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognized as income or expense in the Consolidated Statement of Profit and Loss. In case of Intangible Assets, the Group has availed the fair value as deemed cost on the date of transition i.e. April 1, 2016. The period of amortisation is as under :

Asset	Period of amortisation
Computer Software	6 Years
Technical Know-how	6 Years

(C) Investment Property:

Investment property is held for long term rental income and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs and net of recoverable taxes, trade discounts and rebates. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

Depreciation on investment properties is provided using straight line method over the estimated useful lives as specified in Schedule II to the Companies Act, 2013. Residual values, useful lives and method of depreciation of investment properties are reviewed at each financial year end and are adjusted prospectively, if appropriate. The effects of any revision are included in the Consolidated Statement of Profit and Loss when the changes arises.

Though the Group measures investment properties using cost based measurement, the fair value of investment property is disclosed in the notes.

Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in Consolidated Statement of Profit and Loss in the period of de-recognition.

(D) Borrowing Cost:

Borrowing costs specifically relating to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized (net of income on temporarily deployment of funds) as part of the cost of such assets. Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds. For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the respective Companies that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a year does not exceed the amount of borrowing cost incurred during that year. All other borrowing costs are expensed in the year in which they occur.

(E) Impairment of Non-Financial Assets - Property, Plant and Equipment & Intangible Assets:

The Group assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs. An impairment loss is recognised in the Consolidated Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The impairment loss recognised in prior accounting period is reversed if there has

been a change in the estimate of recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

(F) Government Grants and Subsidy:

Grants and subsidies from the government are recognised when there is reasonable assurance that (i) the respective Companies will comply with the conditions attached to them, and (ii) the grant/subsidy will be received. When the grant or subsidy relates to revenue, it is recognised as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognised by deducting the grant from the value of respective asset to arrive at carrying amount.

(G) Taxes on Income:

Tax expense represents the sum of current tax (including income tax for earlier years) and deferred tax. Tax is recognised in the Consolidated Statement of Profit and Loss, except to the extent that it relates to items recognised directly in equity or other comprehensive income, in such cases the tax is also recognised directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognised in equity or other comprehensive income is also recognised in equity or other comprehensive income.

Current tax provision is computed for Income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised. Deferred tax assets and liabilities are measured at the applicable tax rates. The carrying amount of deferred tax assets is reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised.

(H) Inventories:

Inventories are measured at lower of cost and net realisable value (NRV) after providing for obsolescence, if any. NRV is the estimate

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

selling price in the ordinary course of business, less estimated costs of completion and estimate cost necessary to make the sale. Cost of Inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition. Cost of raw materials, stores & spares, packing materials are determined on weighted average basis. The Cost of Work in Progress and Finished Goods is determined on absorption costing methods.

(I) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets - Initial recognition and measurement

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition of financial assets, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost. Purchase and sale of financial assets are recognized using trade date accounting. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Financial assets - Subsequent measurement

For the purpose of subsequent measurement financial assets are classified in two broad categories:-

- a) Financial assets at fair value
- b) Financial assets at amortised cost

Where assets are measured at fair value, gains and losses are either recognised entirely in the Consolidated Statement of Profit and Loss (i.e. fair value through profit and loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

A financial asset that meets the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

- a) Business model test: The objective of the Group's business model is to hold the financial asset to collect the contractual cash flow.
- b) Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income

unless the asset is designated at fair value through profit or loss under the fair value option.

- a) Business model test: The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flow and selling financial assets.
- b) Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

All other financial asset is measured at fair value through profit or loss.

Financial assets - Derecognition

A financial assets (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's statement of financial position) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Group has transferred its rights to receive cash flow from the asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the Group uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- a) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- b) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Group applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Group uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Group uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

Financial Liabilities - Initial recognition and measurement:

The financial Liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial Liabilities - Subsequent measurement:

Financial Liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Financial Liabilities - Financial guarantee contracts:

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined and the amount recognised less cumulative amortisation.

Financial liability - Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another, from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Consolidated Statement of Profit and Loss.

(J) Fair Value:

The Group measures financial instruments at fair value at each Balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to

measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the consolidated financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

(K) Investment in Associate:

The Group has elected to recognize its investment in associate at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'.

(L) Revenue Recognition and Other Income:

Sales of goods and services:

The Group derives revenues primarily from sale of products comprising of Defence & Space Applications

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. Generally, control is transferred upon shipment of goods to the customer or when the goods are made available to the customer, provided transfer of title to the customer occurs and the Group has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue is measured at the amount of consideration which the Group expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognized when it becomes unconditional.

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from rendering of services is recognised over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Contract Balances - Trade Receivables

A receivable represents the Group's right to an amount of consideration that is unconditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Other Income:

Incentives on exports and other Government incentives related to operations are recognised in the Consolidated Statement of Profit and Loss after due consideration of certainty of utilization/ receipt of such incentives.

Interest Income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a timely basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend Income:

Dividend Income is recognised when the right to receive the payment is established.

Rental income:

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included as other income in the statement of profit or loss.

(M) Foreign currency transactions and translation:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Consolidated Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Consolidated Statement of Profit and Loss, within finance costs. All other finance gains / losses are presented in the Consolidated Statement of Profit and Loss on a net basis.

In case of an asset, expense or income where a monetary advance is paid/received, the date of transaction is the date on which the advance was initially recognized. If there were multiple payments or receipts in advance, multiple dates of transactions are determined for each payment or receipt of advance consideration.

(N) Employee Benefits:

Short term employee benefits are recognized as an expense in the Consolidated Statement of Profit and Loss of the year in which the related services are rendered. Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognised as an expense in the year in which employees have rendered services.

The cost of providing gratuity, a defined benefit plans, is determined based on Projected Unit Credit Method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

the period in which they arise. Other costs are accounted in Consolidated Statement of Profit and Loss.

Remeasurements of defined benefit plan in respect of post employment and other long term benefits are charged to the other comprehensive income in the year in which they occur. Remeasurements are not reclassified to Consolidated Statement of Profit and Loss in subsequent periods.

(O) Lease:

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an options to extend the lease if the Group is reasonably certain to exercise that options; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that options. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

The Group as a lessee

The Group's lease asset classes primarily consist of leases for land and buildings. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Group as a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

(P) Research and Development:

Revenue expenditure on Research and Development is charged in the year in which it is incurred. Capital Expenditure for Research and Development is capitalised when commissioned and included in the Plant, Property and Equipment and depreciated in accordance with the policies stated for Property, Plant and Equipment.

(Q) Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the Consolidated Statement of Profit and Loss as a finance cost. Provisions are reviewed at each Balance Sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Consolidated Financial Statements. Contingent assets are not recognised in consolidated financial statement. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

(R) Segment reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Group. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Group.

(S) Cash and cash equivalents:

Cash and cash equivalents in the Balance Sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined

above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

(T) Earnings per share:

Basic earnings per share is computed using the net profit or loss for the year attributable to the shareholders' and weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit or loss for the year attributable to the shareholders' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

(U) Current / Non-current classification:

The Group presents assets and liabilities in statement of financial position based on current/non-current classification.

The Group has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by Ministry of Corporate Affairs (MCA).

An asset is classified as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Expected to be realised within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when it is:

- a) Expected to be settled in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Due to be settled within twelve months after the reporting period, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Group has identified twelve months as its operating cycle.

(V) Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable rights must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or counterparty.

(W) Asset Held for Sale:

Non-Current Assets are classified as Held for Sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when a sale is highly probable from the date of classification, management are committed to the sale and the asset is available for immediate sale in its present condition. Non-Current Assets are classified as Held for Sale from the date these conditions are met and are measured at the lower of carrying amount and fair value less cost to sell. Any resulting impairment loss is recognised in the Consolidated Statement of Profit and Loss as a separate line item. On classification as Held for Sale, the assets are no longer depreciated. Assets and liabilities classified as Held for Sale are presented separately as current items in the Balance Sheet.

(x) Business Combination and Goodwill/Capital Reserve:

The Group uses the pooling of interest method of accounting to account for common control business combination and acquisition method of accounting to account for other business combinations.

The acquisition date is the date on which control is transferred to the acquirer. Judgement is applied in determining the acquisition date and determining whether control is transferred from one party to another. Control exists when the Group is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired

is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in Other Comprehensive Income (OCI) and accumulated in other equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in other equity as capital reserve, without routing the same through OCI.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, and equity interests issued by the Group. Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to the settlement of pre-existing relationships. Any goodwill that arises on account of such business combination is tested annually for impairment.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not re-measured and the settlement is accounted for within other equity. Otherwise, other contingent consideration is re-measured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recorded in the Consolidated Statement of Profit and Loss.

A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

In case of Pooling of interest method of accounting, the assets and liabilities of the combining entities recognise at their carrying amounts. No adjustment is made to reflect the fair value or recognise any new assets and liabilities. The financial information in the consolidated financial statements in respect of prior periods restates as if the business combination had occurred from the beginning of the preceding period. The difference, if any, between the amount recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and presented separately from other capital reserves.

Transaction costs that the Group incurs in connection with a business combination such as finders' fees, legal fees, due

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

diligence fees, and other professional and consulting fees are expensed as incurred.

1.5 KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Group's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Depreciation/amortisation and useful lives of property plant and equipment/intangible assets:

Property, plant and equipment/intangible assets are depreciated/amortised over the estimated useful lives of the assets, after taking into account their estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation/ amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Group's historical experience with similar assets and take into account anticipated technological changes. The depreciation/ amortisation for future periods is revised if there are significant changes from previous estimates.

b) Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

c) Defined benefit obligation:

The cost of post-employment benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases, expected rate of return on assets and mortality rates. Due to the long term nature of these plans, such estimates are subject to significant uncertainty.

d) Income Tax:

Respective Companies reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to

an adjustment to the amounts reported in the consolidated financial statements. Deferred tax assets are recognised only to the extent that it is probable that taxable profit will be available against which the unused tax losses or tax credits can be utilised. This involves an assessment of when those assets are likely to reverse, and a judgement as to whether or not there will be sufficient taxable profits available to offset the assets. This requires assumptions regarding future profitability, which is inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognised in respect of deferred tax assets and consequential impact in the statement of profit and loss.

e) Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

f) Recoverability of trade receivables:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

g) Contingencies:

Management has estimated the possible outflow of resources at the end of each annual financial year, if any, in respect of contingencies/claim/litigations against the Group as it is not possible to predict the outcome of pending matters with accuracy.

h) Impairment of Non-Financial Assets:

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value or Cash Generating Units (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

1.6 STANDARDS ISSUED BUT NOT EFFECTIVE

On March 31, 2023, the Ministry of Corporate Affairs (MCA) has notified Companies (Indian Accounting Standards) Amendment Rules, 2023. This notification has resulted into amendments in the following existing accounting standards which are applicable to Company from April 1, 2023:

Ind AS 101 – First-time Adoption of Indian Accounting Standards

Ind AS 102 – Share-based Payment

Ind AS 103 – Business Combinations

Ind AS 107 – Financial Instruments Disclosures

Ind AS 109 – Financial Instruments

Ind AS 115 – Revenue from Contracts with Customers

Ind AS 1 – Presentation of Financial Statements

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

Ind AS 12 – Income Taxes

Ind AS 34 - Interim Financial Reporting

Application of above amended standards are not expected to have any significant impact on the Group Financial Statements.

31.2 Sensitivity Analysis

Particulars	As at March 31, 2023	As at March 31, 2022
	Effect on Gratuity Increase / (Decrease)	Effect on Gratuity Increase / (Decrease)
Discount Rate + 100 basis points	(14.40)	(9.16)
Discount Rate - 100 basis points	16.09	10.37
Salary Escalation Rate + 100 basis points	15.76	11.37

Withdrawal Rate+100 basis points	(2.29)	(1.69)
Withdrawal Rate-100 basis points	2.51	1.86

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the Projected Unit Credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognized in the balance sheet.

31.3 Expected payments towards contributions to Gratuity in future years :

Year Ended	Expected Payment
31st March, 2023	36.99
31st March, 2024	24.74
31st March, 2025	27.90
31st March, 2026	25.28
31st March, 2027	22.56
31st March, 2028 and above	313.92

31.4 Risk exposures

These plans typically expose the company to actuarial risks as, Salary Risk, Discount Rate, Employee Turnover rate/Withdrawal rate, Mortality / Disability.

Salary Risk

Salary escalation & attrition rate are considered as advised by the Holding Company; they appear to be in line with the industry practice considering promotion and demand & supply of the employees.

Discount rate

In case the yield on the government bonds drops in the future period then it may result in increase in the liability.

Employee Turnover rate/Withdrawal rate

If the actual withdrawal rate in the future turns out to be more or less than expected then it may result in increase in the liability.

Mortality / Disability

Maturity Analysis of Benefit Payments is undiscounted cash flows considering future salary, attrition & death in respective year for members as mentioned above.

Details of Asset-Liability Matching Strategy:

Gratuity benefits liabilities of the Holding Company are Funded. There are no minimum funding requirements for a Gratuity benefits plan in India and there is no compulsion on the part of the Holding Company to fully or partially pre-fund the liabilities under the Plan. The trustees of the plan have outsourced the investment management of the fund to insurance companies which are regulated by IRDA. Due to the restrictions in the type of investments that can be held by the fund, it may not be possible to explicitly follow an asset-liability matching strategy to manage risk actively in a conventional fund.

The expected payments towards contributions to the defined benefit plan is within one year.

39.2 Fair Valuation techniques used to determine Fair Value

The Group maintains procedures to value its financial assets or financial liabilities using the best and most relevant data available. The Fair Values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the Fair Values:

- Fair Value of Cash and Cash Equivalents, Other Bank Balances, Trade Receivable, Trade Payables, Current Loans, Current Borrowings, and other Current Financial Assets and Liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- The fair values of Non-Current Borrowings and Margin money are approximate at their carrying amount due to interest bearing features of these instruments.
- The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

NOTE:39 FAIR VALUES (CONTD...)

39.3 Fair Value Hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:-

- i) **Level 1 :** Quoted prices / published Net Assets Value (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the Balance Sheet date and financial instruments like mutual funds for which Net Assets Value is published by mutual fund operators at the Balance Sheet date.
- ii) **Level 2 :** Inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Group specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.
- iii) **Level 3 :** Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The following table provides hierarchy of the fair value measurement of Group's asset and liabilities, grouped into Level 1 (Quoted prices in active markets), Level 2 (Significant observable inputs) and Level 3 (Significant unobservable inputs) as described below:

NOTE: 40 FINANCIAL RISK MANAGEMENT - OBJECTIVE AND POLICIES

The Group is exposed to market risk, credit risk, liquidity risk and competition & price risk. Risk management is carried out by the Group under policies approved by the Respective Board of Directors. This Risk management plan defines how risks associated with the Group will be identified, analysed, and managed. It outlines how risk management activities will be performed, recorded, and monitored by respective Company in the Group. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed, to promote a shared vision of risk management and encourage discussion on risks at all levels of the organization to provide a clear understanding of risk / benefit trade-offs, to deploy appropriate risk management methodologies and tools for use in identifying, assessing, managing and reporting on risks, and to determine the appropriate balance between cost and control of risk and deploy appropriate resources to manage/optimize key risks. Activities are developed to provide feedback to management and other interested parties (e.g. Audit committee, Board etc.). The results of these activities ensure that risk management plan is effective in the long term.

40.1 Market Risk and Sensitivity:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise two types of risk: foreign currency rate risk and interest rate risk. Financial instruments affected by market risk include loans and borrowings, deposits and investments.

The sensitivity analysis relate to the position as at March 31, 2023 and March 31, 2022

(a) Foreign Currency Exchange Risk and Sensitivity

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. The Group's exposure to the risk of changes in foreign currency exchange rates relates primarily to the Group's operating activities and its Investment. The Group transacts business primarily in USD and Euro. The Group has foreign currency trade payables and receivables and is therefore, exposed to foreign currency exchange risk. The Group regularly reviews and evaluates exchange rate exposure arising from foreign currency transactions.

The following table demonstrates the sensitivity in the USD, GBP, SGD and Euro to the Indian Rupee with all other variables held constant. The impact on the Group's profit before tax (PBT) due to changes in the fair values of monetary assets and liabilities is given below:

Unhedged Foreign currency exposure As at March 31, 2023	Currency	Amount in FC	Amount in INR
Investment	USD	9,54,642	784.88
Trade Receivable	USD	15,18,432	1,248.41
Trade Receivable	EURO	2,14,422	192.14
Trade Payable	USD	22,01,282	1,809.83
Trade Payable	EURO	1,82,949	163.94
Trade Payable	GBP	23,098	23.53

Unhedged Foreign currency exposure As at March 31, 2022	Currency	Amount in FC	Amount in INR
Investment	USD	4,51,908	342.58
Trade Receivable	USD	8,65,930	656.43

NOTE: 40 FINANCIAL RISK MANAGEMENT - OBJECTIVE AND POLICIES (CONTD...)

Foreign Currency Sensitivity

2% increase or decrease in foreign exchange rates will have the following impact on Profit Before Tax (PBT):-

Particulars	2022-23		2021-22	
	2% increase- Profit/(Loss)	2% decrease- Profit/(Loss)	2% increase- Profit/(Loss)	2% decrease- Profit/(Loss)
USD	4.47	(4.47)	(3.12)	3.12
EURO	0.56	(0.56)	6.21	(6.21)
GBP	(0.47)	0.47	(0.36)	0.36
SGD	-	-	(0.11)	0.11
Increase / (Decrease) in Profit Before Tax	4.56	(4.56)	2.62	(2.62)

(b) Interest Rate Risk and Sensitivity

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is having non current borrowings in the form of term loan. Also, the Group is having current borrowings in the form of working capital and inter corporate deposits. There is a fixed rate of interest in case of vehicle loan and inter corporate deposits and hence, there is no interest rate risk associated with these borrowings. The Group is exposed to interest rate risk associated with term loan and working capital facility due to floating rate of interest.

The exposure of the Group's borrowings to interest rate changes at the end of the reporting year are as follows:

Particulars	As at March 31, 2023	As at March 31, 2022
Term Loan From Banks and Financial Institutions	115.11	-
Working Capital Facility	721.92	3,044.25
Closing Balances	837.03	3,044.25

The table below illustrates the impact of a 2% increase / decrease in interest rates on interest on financial liabilities assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year.

Particulars	2022-23		2021-22	
	2% increase- Profit/(Loss)	2% decrease- Profit/(Loss)	2% increase- Profit/(Loss)	2% decrease- Profit/(Loss)
Term Loan From Banks and Financial Institutions	2.30	(2.30)	-	-
Working Capital Facility	14.44	(14.44)	60.89	(60.89)
(Increase) / Decrease in Profit Before Tax	16.74	(16.74)	60.89	(60.89)

The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

40.2 Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

a) Trade Receivables:

The Group measures the expected credit loss of trade receivables, which are subject to credit risk, based on historical trend, industry practices and the business environment in which the entity operates and adjusted for forward looking information. Loss rates are based on actual credit loss experience and past trends.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS March 31, 2023

(All amounts in Rupees Lakhs, unless otherwise stated)

NOTE: 40 FINANCIAL RISK MANAGEMENT - OBJECTIVE AND POLICIES (CONTD...)

The Group has used practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix. The provision matrix taken into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on ageing of the days the receivables are due.

The following table summarizes the Gross carrying amount of the trade receivables and provision made.

Particulars	As at March 31, 2023		As at March 31, 2022	
	Gross Carrying Amount	Loss Allowance	Gross Carrying Amount	Loss Allowance
Trade Receivables	15,996.15	965.06	13,108.68	810.94

The following table summarizes the changes in the Provisions made for the receivables:

Particulars	As at March 31, 2023	As at March 31, 2022
Opening Balances	810.94	614.70
Provided during the year	154.12	196.24
Closing Balances	965.06	810.94

b) Financial Instruments and Cash Deposits:-

The Group considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances are maintained. Credit risk from balances with bank is managed by the Group's finance department. Investment of surplus funds are also managed by finance department. The Group does not maintain significant cash in hand. Excess balance of cash other than those required for its day to day operations is deposited into the bank.

For other financial instruments, the finance department assesses and manage credit risk based on internal assessment. Internal assessment is performed for each class of financial instrument with different characteristics.

40.3 Liquidity Risk :

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group relies on short term borrowings and operating cash flows in the form of working capital facility to meet its need for fund. The Group does not breach any covenants wherever applicable on any of its borrowing facilities. The Group has access to a sufficient variety of sources of funding as per requirements.

The below table summaries the maturity profile of the Group's financial liability :

Particulars	Maturity				Total
	On Demand	Less than 1 Year	1 to 5 Years	More than 5 years

NOTE: 41 CAPITAL RISK MANAGEMENT

For the purpose of Group's capital management, capital includes issued capital, all other equity reserves and net debt. The primary objective of the Group's capital management is to maximise shareholders value. The Group manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Group monitors capital using gearing ratio, which is net debt divided by total capital (equity plus net debt). Net debt are non-current and current debts as reduced by cash and cash equivalents and non current bank deposits. Equity comprises all components including other comprehensive income.
