LIC improves asset quality ahead of IPO

Lowers its net NPA to 0.05%

PRESS TRUST OF INDIA
New Delhi, December 5

AHEAD OF ITS proposed initial public offering (IPO), insurance behemoth LIC has improved its asset quality for the financial year ended March 2021.

The non-performing assets (NPAs) at ₹31,221,201, a total of ₹35,129.59 crore out of a total portfolio of ₹41,503.63 crore, according to the latest Annual Report of Life Insurance Corporation of India (LIC).

The sub-standard assets are ₹25,47.20 crore whereas the doubtful assets are ₹20,369.17 crore and loss assets are ₹14,305.39 crore. Amount of ₹33,031.97 crore is provided as per IRDAI guidelines in the books of accounts towards non-performing assets, it said.

The percentage of gross NPA is 7.72% while that of NPA is 0.05% at the end of March 2021. This is lower than gross NPA of 6.17 per cent (as a percentage of debt portfolio) and net NPA of 0.79% in the previous year.

In absolute terms, the NPA

facilitate the listing of LIC.

According to the amendment, the central government will hold 75% of the LIC for the next three years after the final claim reserve value held at least 51% of all times after five years of its listing. The government currently owns a 100% stake in LIC.

The authorised share capital of ₹25,000 crore divided into 2,500 crore shares of ₹10 each, as per the amended legislation, as much as 10% of the LIC IPO issue size will be reserved for policyholders.

Finance Minister Nirmala Sitharaman had proposed that the LIC stock split had to be held by the end of the year, but the IPO would be launched in the current financial year.

LIC, once listed, has the potential to become one of the biggest domestic companies by total capitalisation with an estimated valuation of ₹8-10 trillion.

On LIC's strategic plan and its prospects for growth, Srilatha Ramamurthy, managing director of PGI, Srilatha recently said, "We are progressing with caution and prudence, detailing requirements at a time."

The tying up of loose ends among different departments consumes its own time and this is being exploited, she added.

Tata Motors, Honda mull price hike from January

PRESS TRUST OF INDIA
New Delhi, December 5

WITH INPUT COSTS continuing to rise, automakers like Tata Motors, Honda and Renault are looking to increase vehicle prices from January next year to offset the impact.

Already, car market leader Maruti Suzuki and luxury carmakers Audi and Mercedes-Benz have announced a hike to vehicle prices from next month.

While Maruti said the price plan for January 2022 will vary for different models, Mercedes-Benz said its hike will be on select models by up to 2% due to feature enhancement and rising input costs.

On the other hand, Audi said its price increase effective from January will be up to 3% across its entire model range owing to rising input and operational costs.

When contacted over the issue, Tata Motors President Passenger Vehicles Business Shailesh Chandra said, "Prices of commodities, raw material and other input costs continue to rise. An

appropriate price hike to at least partially offset this increase in costs seems inevitable in the near to short term."

The company's sales models like Peugeot, Nissan and HARRIER in the domestic market, Honda Cars India also stated that it is considering price increase in the near future.

For Honda, it's a greater impact on higher costs due to the existing price increase. We are still studying how much can be absorbed," a company spokesperson noted.

The maker of brands like City and Amaze had last linked the vehicle prices in August this year.
