## Part of the ancient Port of Aden and the largest container terminal in the Republic of Yemen, **Aden Container Terminal embarks on Digital Transformation with Ramco**

Upgrades to Ramco's next-gen enterprise suite for real-time decision making

**Aden, YEMEN / Chennai, INDIA – June 28, 2021** – Global enterprise software solutions provider, [Ramco Systems](#) announced that it will provide its next-gen [Enterprise Resource Planning \(ERP\)](#) software to [Aden Ports Development Company \(APDC\)](#) at their Aden Container Terminal (ACT), deepening its 12-year partnership with Yemen's largest container terminal.

The association between the partners, which began in 2009, will see the upgrade of ACT's HR, payroll and financial accounting capabilities, modernization and digitisation of existing applications, and introduction of newer technologies and innovations such as Payroll Hub, Accounts Payable/Accounts Receivable hubs, as well as mobile apps, with a sleeker and more comprehensive dashboard.

Ramco's HR & Payroll modules will provide reporting capabilities to enable ACT's management to make on-the-spot decisions for payroll, bonus, leave and attendance, while the Financial Accounting module will cover items such as accounts payable, accounts receivable and the general ledger, all on a unified dashboard. The implementation of these new features will minimise manual processes and human intervention, thereby enabling the company to reduce its paper usage.

**Dr. Mohammed Amzerba, BOD Chairman, Aden Ports Development Company (APDC)**, said, "When we were looking for a partner to digitise our HR and finance operations, it was an easy choice, given Ramco's steadfast support throughout the years coupled with their deep knowledge of the industry. The Ramco team has delivered a strong performance over these 12 years, and we believe the implementation of their next-generation technology will enable us to keep our competitive edge."

**Virender Aggarwal, CEO, Ramco Systems**, said, "We are excited to further our partnership with ACT; it has been over a decade of working together, and we are happy to provide a more comprehensive service to our long-term customer. As trends such as e-commerce are being pushed to the forefront amidst the COVID-19 pandemic, we are confident that the software will enable ACT to digitally transform their operations, translating into quicker turnarounds at the port."

Ramco ERP has been delivering significant innovation, cost savings, and superior business processes to global organisations. Ramco's focus on usability, context-awareness, mobility, overall flexibility and comprehensive functionality has enabled smooth technological transitions for customers.

### **About Aden Ports Development Company:**

The Aden Ports Development Company has operated the Aden Container Terminal (ACT), the largest container terminal in the Republic of Yemen, since September 20th, 2012. During this time terminal throughput has increased from 260,000 TEUs to the current handling rate of over 500,000 TEUs/year.

### **About Ramco Systems:**

Ramco is a next-gen enterprise software player disrupting the market with its multi-tenant cloud and mobile-based enterprise software in HR and Global Payroll, ERP and M&E MRO for Aviation. Part of the USD 1 billion Ramco Group, Ramco Systems focuses on Innovation and Culture to differentiate itself in the marketplace. On the Innovation front, Ramco has been focusing on moving towards Active ERP leveraging Artificial Intelligence and Machine Learning by building features such as Talk It - which allows transactions to be carried out by simple voice commands, Bot It – which allows users to complete transactions using natural conversations; Mail It – transact with the application by just sending an email; HUB It - a "one screen does it all" concept built to address all the activities of a user; Thumb It – mobility where the system presents users with options to select rather than type values, and Prompt It – a cognitive ability which will let the system complete the transaction and prompts the user for approval.

With 1800+ employees spread across 24 offices globally, Ramco follows a flat and open culture where employees are encouraged to share knowledge and grow. No Hierarchies, Cabin-less Offices, Respect for work and not titles, among others, are what makes the team say, Thank God it's Monday!
