Kharif Output may Take Big Hit: Experts

Area under cultivation of rice, urad, tur down by an average of 53% from last year; erratic rains too damage crop

Shambhavi.Anand
@timesgroup.com

New Delhi: With the sowing season nearing its end, experts have warned that kharif crop output could be significantly lower this year as the area under cultivation of rice, urad and tur is down by an average of 52.98% from last year. Erratic rainfall has also caused crop damage in several areas, they said.

while that for urad was 4.57%.

RAINFALL DEFICIT HITS RICE SOWING

The shortfall in sowing of rice is mainly on account of rainfall deficit in the major rice producing states, such as Gangetic West Bengal, Uttar Pradesh, Bihar and Jharkhand. While rainfall deficit in east and west Uttar Pradesh is 47% and 40%, respectively, it is 40% in Bihar and 35% in West Bengal, according to data from India Meteorological Department. Jharkhand has a deficiency of 36%.

As per traders' estimates, rice output may drop by about 10 million tonnes in 2022-23 to 120 million tonnes.

However, some believe that the fall in acreage may not necessarily mean shortage of rice. "Rice is grown across the country, so even if there is a slight fall in acreage the situation will not be as bad as wheat," said Rajiv Kumar, executive director, Rice Exporters' Association. "The government also has a huge stock of rice."

RISING PULSE

The prices of tur and urad increased in July and early August on account of a fall in acreage in the ongoing kharif season, prompting the government to make it mandatory for stockholders to disclose stocks of tur.

GOVT BULLISH ON FOURTH ADVANCE ESTIMATES

Foodgrain Production may be 1.6% Higher in 2021-22

Our Bureau

RICE RISE

Rice output expected to be 130.2 mt; wheat production could increase to 106.84 mt

New Delhi: India is likely to produce 315.72 million tonnes of foodgrains in 2021-22, 1.6% higher than in the previous year, with an expected record production of rice, maize, gram, pulses, rapeseed and mustard, oilseeds and sugarcane, the agriculture ministry said in its fourth advance estimates on Wednesday. "The production during 2021-22 is higher by 25 million tonnes than the previous five years' (2016-17 to 2020-21) average production of foodgrains," the ministry said in a statement.

Rice production is expected to be 130.29 million tonnes. Wheat production could increase to 106.84 million tonnes, 2.96 million tonnes higher than the past five years' average of 103.88 million tonnes.

The production for nutri or coarse cereals could be 50.90 million tonnes, according to the ministry. Total production of pulses in 2021-22 is estimated to be a record 27.69 million tonnes, which is 3.87 million tonnes higher than the past five years' average production of 23.82 million tonnes. Total oilseeds production in 2021-22 is estimated at a record 37.70 million tonnes, the ministry said.

Monetary Thresholds Raised for Customs Offences

Our Bureau

New Delhi: The Central Board of Indirect Taxes and Customs (CBIC) has raised the monetary thresholds for prosecution and arrest for customs offences.

There will be no prosecution against foreigners and non-resident Indians (NRIs) on detection of non-declaration of foreign currency, if it is legally acquired, said a CBIC circular issued on

Wednesday.

The threshold for prosecution involving baggage has been increased to ₹50 lakh from ₹20 lakh. Similarly, for financial fraud, which includes duty evasion or wrong declaration, the threshold has been doubled to ₹2 crore.

The exemption, however, will not cover offences relating to items such as arms and ammunition, explosives, antiques, art treasures, wildlife items and endangered species of flora and

fauna, irrespective of threshold.

"This move will help in bringing more clarity for the importer as well as the department," said Saurabh Agarwal, tax partner, EY.

He said the CBIC has not only increased the threshold for arrest, prosecution and bail but also provided a more illustrative list of scenarios where such provisions should be triggered.
