Dear Sir,

Scrip Code -SUPREMEINFRA/532904

Sub: Clarification to our letter dated January 06, 2021 intimating the financial results.

We invite reference to our intimation dated January 06, 2021 informing the exchange about the audited financial results (stand-alone and consolidated) of the Company for the quarter and financial year ended March 31, 2020, through BSE listing Centre and NEAPS portal. However, we erroneously typed word 31st March, 2019 on consolidated cash flow statement and instead of typing 31st March, 2020 and consolidated cash flow statement attached with standalone financial result. This is typographical error and inadvertently through, which has been rectified by the Company.

We hereby attach rectified Statement of Standalone and Consolidated Audited Financial Results for the quarter/year ended March 31, 2020 along with Auditors Report and Declaration. We regret the inconvenience caused to you and request you to kindly take the above on record and oblige.

Thanking you,

Yours faithfully,

Notes

- The financial results have been prepared to comply in all material respects with the Indian Accounting Standards ('Ind AS') as prescribed under Section 133 of the Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standards) (Amendment) Rules, as amended from time to time. The above financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Company at their respective meeting held on 06th January, 2021.
- Trade receivables as at 31 March 2020 include ₹ 45,680.90 lakhs (31 March 2019: ₹ 45,680.90 lakhs), in respect of projects which were closed/substantially closed and which are overdue for a substantial period of time. Based on the contract terms and the ongoing recovery/ arbitration procedures (which are at various stages), Management is reasonably confident of recovering these amounts in full. Accordingly, these amounts have been considered as good and recoverable.
- On 29 March 2019, framework agreement was signed between the Company and the majority of the lenders pursuant to the sanction of the resolution plan by the lenders under the aegis of the Reserve Bank of India (RBI) circular dated 12 February 2018 and confirmation by the promoters to infuse additional funds. While rest of the lenders were in the process of sanctioning the Resolution Plan, on 2 April 2019, the aforesaid circular has been held ultra vires to existing banking regulations, by the Hon'ble Supreme Court of India. On 7 June 2019, RBI has issued revised circular for resolution of the stressed assets, basis which the majority lenders have signed the Inter-Creditor agreement (ICA) and are in the process of executing the revised resolution plan.

Further, the Company has incurred a net loss after tax of ₹ 49,100.25 lakhs for the year ended 31 March 2020 and, has also suffered losses from operations during the preceding financial years and as of that date, the Company's accumulated losses amounts to ₹ 177,690.20 lakhs and its current liabilities exceeded its current assets by ₹ 323,242.74 lakhs. The Company also has external borrowings from banks and financial institutions, principal and interest repayment of which has been delayed during the current period. Pending execution of the revised resolution plan as discussed above, the aforesaid conditions, indicate existence of material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern due to which the Company may not be able to realise its assets and discharge its liabilities in the normal course of business. However, on expectation of execution and implementation of the aforesaid revised resolution plan, further fund infusion by the promoters and business growth prospects once revised guidelines are issued by the RBI, Management has prepared the financial results on a "Going Concern" basis.

- The Company, as at 31 March 2020, has non-current investments in Supreme Infrastructure BOT Private Limited ('SIBPL'), a subsidiary company, amounting to ₹ 142,556.83 lakhs (31 March 2019 : ₹ 142,556.83 lakhs) . SIBPL is having various Build, Operate and Transfer (BOT) SPVs under its fold. While SIBPL has incurred losses during its initial years and have accumulated losses, causing the net worth of the entity to be fully eroded as at 31 March 2020, the underlying projects are expected to achieve adequate profitability on substantial completion of the underlying projects. Further, in case of Supreme Manowarda Bhiwandi Infrastructure Private Limited ('SMBIPL'), a subsidiary of SIBPL, lenders have referred SMBIPL to NCLT under RBI circular dated 12 February 2018, the said petition filed by the bank has been dismissed by Hon'ble NCLT in lieu of the directions given by Hon'ble Supreme Court of India in case of Dharini Sugars and Ors. v/s Union of India and Ors. Further, commercial operation date (COD) in respect of few subsidiaries of SIBPL has been delayed due to various reasons attributable to the clients primarily due to non-availability of right of way, environmental clearances etc. and in respect of few subsidiaries, the toll receipts is lower as compared to the projected receipts on account of delay in receiving compensation from government for exempted vehicles. Further, there have been delays in repayment of principal and interest in respect of the borrowings and the respective entity is in discussion with their lenders for the restructuring of the loans. Management is in discussion with the respective lenders, clients for the availability of right of way and other required clearances and is confident of resolving the matter without any loss to the respective SPVs. Therefore, based on certain estimates like future business plans, growth prospects, ongoing discussions with the clients and consortium lenders, the valuation report of the independent valuer and other factors, Management believes that the net-worth of SIBPL does not represent its true market value and the realizable amount of SIBPL is higher than the carrying value of the non-current investments as at 31 March 2020 and due to which these are considered as good and recoverable.

- 6 The Company is principally engaged in a single business segment viz "Engineering and Construction" which is substantially seasonal in character. Further, the Company's margin in the quarterly results vary based on the accrual of cost and recognition of income in different quarters due to nature of its business, receipt of awards/claims or events which lead to revision in cost to completion. Due to these reasons, quarterly results may vary in different quarters and may not be indicative of annual results.
- 7 Effective 1 April 2018, the Company has adopted Ind AS 115 - Revenue from Customers. The adoption of Ind AS 115 did not have any material impact on recognition and measurement of revenue and related items in the standalone financial results for the year ended 31 March 2019
- 8 Figures for the quarters ended 31 March 2020 and 31 March 2019 are the balancing figures between the audited financial statements for the years ended on that date and the year to date figures upto the end of third quarter of the respective financial year.

Independent Auditor's Report on Standalone Financial Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

To the Board of Directors of Supreme Infrastructure India Limited

1. We have audited the standalone financial results of Supreme Infrastructure India Limited ('the Company') for the year ended 31 March 2020, being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Attention is drawn to Note 9 to the standalone financial results which states that the figures for the quarter ended 31 March 2020 as reported in these standalone financial results are the balancing figures between audited standalone figures in respect of the full financial year and the published standalone year to date figures upto the end of the third quarter of the financial year. Also, the figures up to the end of the third quarter had only been reviewed and not subjected to audit. These standalone financial results are based on the standalone financial statements for the year ended 31 March 2020 prepared in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards ('Ind AS') specified under Section 133 of the Companies Act, 2013 ('the Act') and published standalone year to date figures upto the end of the third quarter of the financial year prepared in accordance with the recognition and measurement principles laid down in Ind AS 34, Interim Financial Reporting, specified under Section 133 of the Act, and SEBI Circular CIR/CFD/FAC/62/2016 dated 5 July 2016, which are the responsibility of the Company's management. Our responsibility is to express an opinion on these standalone financial results based on our audit of the standalone financial statements for the year ended 31 March 2020 and our review of standalone financial results for the nine months' period ended 31 December 2019.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial results are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts disclosed in the financial results. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audit provides a reasonable basis for our qualified opinion.
3. (a) As stated in Note 2 to the accompanying standalone financial results, the Company's current financial assets as at 31 March 2020 include trade receivables aggregating ₹ 45,680.90 lakhs (31 March 2019: 45,680.90 lakhs) in respect of projects which were closed/substantially closed and where the receivables have been outstanding for a substantial period. Management has assessed that no adjustments are required to the carrying value of the aforesaid balances, which is not in accordance with the requirements of Ind AS 109, 'Financial Instruments'. Consequently, In the absence of sufficient appropriate evidence to support the management's contention of recoverability of these balances, we are unable to comment upon the adjustments, if any, that are required to the carrying value of the aforesaid balances, and consequential impact, if any, on the accompanying standalone financial results. Our opinion on the standalone financial results for the year ended 31 March 2020 was also modified in respect of this matter.

(b) As stated in Note 4 to the accompanying standalone financial results, the Company's non-current investments as at 31 March 2020 include non-current investments in one of its subsidiary aggregating ₹ 142,556.83 lakhs. The subsidiary has significant accumulated losses and its consolidated net-worth is fully eroded. Further, the subsidiary is facing liquidity constraints due to which it may not be able to realise projections as per the approved business plans. Based on the valuation report of an independent valuer as at

31 March 2019 and other factors described in the aforementioned note, Management has considered such balance as fully recoverable. Management has assessed that no adjustments are required to the carrying value of the aforesaid balances, which is not in accordance with the requirements of Ind AS 109, 'Financial Instruments'. In the absence of sufficient appropriate evidence to support the management's assessment as above and other relevant alternate evidence, we are unable to comment upon adjustments, if any, that may be required to the carrying values of these non-current investments and aforementioned dues and the consequential impact on the accompanying standalone financial results.

4. In our opinion and to the best of our information and according to the explanations given to us, the standalone financial results:
 - (i) are presented in accordance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, read with SEBI Circular CIR/CFD/FAC/62/2016 dated 5 July 2016, in this regard except for the possible effects of the matters described in paragraph3; and
 - (ii) give a true and fair view of the standalone net loss(including other comprehensive income) and other financial information in conformity with the accounting principles generally accepted in India including Ind AS specified under Section 133 of the Act for the year ended 31 March 2019 except for the possible effects of the matters described in paragraph3.

5. We draw attention to Note 3 to the accompanying standalone financial results, which indicates that the Company has incurred a net loss of ₹ 49100.25 lakhs during the year ended 31 March 2020, as of that date, the Company's accumulated losses amounts to ₹ 177690.20 lakhs which have resulted in full erosion of net worth of the Company and its current liabilities exceeded its current assets by ₹ 323,242.74 lakhs. Further, as disclosed in Note 4 to the said standalone financial results, there have been delays in repayment of principal and interest in respect of borrowings during the current year. The above factors, along with other matters as set forth in the aforesaid note, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. However, based on ongoing discussion with the lenders for restructuring of the loans, revised business plans, equity infusion by the promoters, and other mitigating factors mentioned in the aforementioned note, Management is of the view that going concern basis of accounting is appropriate. Our opinion is not modified in respect of this matter.

II Audit Qualification (each audit qualification separately):**a. Details of Audit Qualification:****(i) Auditor's Qualification on the financial results (standalone)**

(a) As stated in Note 2 to the accompanying standalone financial results, the Company's current financial assets as at 31 March 2020 include trade receivables aggregating ₹ 45,680.90 lakhs (31 March 2019: ₹ 45,680.90 lakhs) in respect of projects which were closed/substantially closed and where the receivables have been outstanding for a substantial period. Management has assessed that no adjustments are required to the carrying value of the aforesaid balances, which is not in accordance with the requirements of Ind AS 109, 'Financial Instruments'. Consequently, In the absence of sufficient appropriate evidence to support the management's contention of recoverability of these balances, we are unable to comment upon the adjustments, if any, that are required to the carrying value of the aforesaid balances, and consequential impact, if any, on the accompanying standalone financial results. Our opinion on the standalone financial results for the year ended 31 March 2019 was also modified in respect of this matter.

(b) As stated in Note 4 to the accompanying standalone financial results, the Company's non-current investments as at 31 March 2020 include non-current investments in one of its subsidiary aggregating ₹ 142,556.83 lakhs. The subsidiary has significant accumulated losses and its consolidated net-worth is fully eroded. Further, the subsidiary is facing liquidity constraints due to which it may not be able to realise projections as per the approved business plans. Based on the valuation report of an independent valuer as at 31 March 2019 and other factors described in the aforementioned note, Management has considered such balance as fully recoverable. Management has assessed that no adjustments are required to the carrying value of the aforesaid balances, which is not in accordance with the requirements of Ind AS 109, 'Financial Instruments'. In the absence of sufficient appropriate evidence to support the management's assessment as above and other relevant alternate evidence, we are unable to comment upon adjustments, if any, that may be required to the carrying values of these non-current investments and aforementioned dues and the consequential impact on the accompanying standalone financial results.

(ii) Auditor's Qualification on the Internal Financial Controls relating to above matters:

Matter II(a)(i)(a): The Company's internal financial control in respect of supervisory and review controls over process of determining impairment allowance for trade receivables which are doubtful of recovery were not operating effectively. Absence of detailed assessment conducted by the management for determining the

recoverability of trade receivables that remain long outstanding, in our opinion, could result in a potential material misstatement to the carrying value of trade receivables, and consequently, could also impact the loss (financial performance including comprehensive income) after tax.

Matter II(a)(i)(b): The Company's internal financial control in respect of supervisory and review controls over process of determining the carrying value of non-current investments were not operating effectively. Absence of detailed assessment conducted by the management for determining the carrying value of non-current investments, in our opinion, could result in a potential material misstatement to the carrying value of non-current investment, and consequently, could also impact the loss (financial performance including comprehensive income) after tax.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual financial statements or interim financial statements will not be prevented or detected on a timely basis.

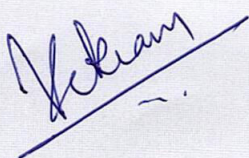

We have considered the material weaknesses identified and reported above in determining the nature, timing and extent of audit tests applied in our audit of the standalone financial statement of the Company as at and for the year ended 31 March 2020 and the material weakness has effected our opinion on the standalone financial statements of the Company and we have issued a qualified opinion on the standalone financial statements.

b. Type of Audit Qualification :	Qualified Opinion
c. Frequency of qualification:	Qualifications: Qualifications II (a) (i) (a) has been appearing from the year ended 31 March 2015; Qualification II (a) (i) (b) has been included for the first time during the year ended 31 March 2019.
d. For Audit Qualifications where the impact is quantified by the auditor, Management's Views:	Not Applicable
e. For Audit Qualification(s) where the impact is not quantified by the auditor:	
(i) Management's estimation on the impact of audit qualification:	Not ascertainable
(ii) If management is unable to estimate the impact, reasons for the same:	II (a) (i) (a) : Trade receivables as at 31 March 2020 include ₹ 45,680.90 lakhs (31 March 2019: ₹ 45,680.90 lakhs), in respect of projects which were closed/substantially closed and which are overdue for a substantial period of time. Based on the contract terms and the ongoing recovery/ arbitration procedures (which are at various stages), Management is reasonably confident of recovering these amounts in full. Accordingly, these amounts have been considered as good and recoverable.

No confirmation has been received for current maturity of Term loan from financial institutions as at 31 March 2020 of Rs. 7,978.23 lakhs and its interest of Rs. 3,343.16 lakhs. Further the cash flows from the project are not sufficient to take care of debt servicing (Interest & Installment), due to which these term loan from ICICI bank has classified as Non-Performing assets. (NPAs) by the lenders during earlier years. 4 During the year, the Company's lenders have signed an inter-creditor agreement dated 7th July 2019 as per RBI circular dated June 7, 2019. The Company has been engaged with the lenders on the resolution plan on a proactive basis. A formal resolution process involving lenders and professional advisors is on-going to approve the resolution plan. The same is likely to be completed in the near future subject to regulatory compliance and internal approvals of lenders. Considering the total debt of the Company and its scalability of operations in the present scenario, portion of the debt is carved out as unsustainable debt. This debt restructuring will help the Company in terms of deferment of payments to lenders, an increase in the liquidity and also reduction in the finance cost to an extent. The Company also proposes to raise funds through monetization of its noncore assets, mobilization of additional funds and other strategic initiative to meet its obligation.

Pending execution of the revised resolution plan as discussed above, the aforesaid conditions, indicate existence of material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern due to which the Group may not be able to realise its assets and discharge its liabilities in the normal course of business. However, on expectation of execution and implementation of the aforesaid revised resolution plan, further fund infusion by the promoters and business growth prospects once revised guidelines are issued by the RBI, Management has prepared the financial results on a "Going Concern" basis.

The Company has now received the requisite right of way, however, considering the substantial delay caused, the Company has applied for further extension of time upto 28 January 2020 for completion of the project, approval for which is presently awaited and the management is confident of getting the same approved from Client. Considering the contractual tenability and independent valuation, management is confident of realization of the carrying value of the costs incurred without any loss to the company and accordingly believes that no adjustments are required to the carrying value of the IAUD as at 31 March 2020.

	<p>(ii) Auditor's Qualification on the Internal Financial Controls relating to above matters: In our opinion, according to the information and explanations given to us and based on our audit procedures performed, the following material weaknesses have been identified in the operating effectiveness of the Holding Company's Internal Financial Controls over Financial Reporting as at 31 March 2020:</p> <p>Matter II a. (i) (a) :The Holding Company's internal financial controls over financial reporting with respect to the process of assessing impairment of trade receivables were not operating effectively which could potentially result in a material misstatement in the recognition of impairment loss and its consequential impact on the earnings, reserves and related disclosures in the consolidated financial statements.</p> <p>Matter II a. (i) (c) :The Holding Company's internal control system towards estimating the carrying value of net assets in Supreme Infrastructure BOT Private Limited, subsidiary of the holding company, to determine the need to recognise an impairment loss as laid down under Ind AS 36 'Impairment of Assets' were not operating effectively, which could potentially result in a material misstatement in the carrying values of net assets and its consequential impact on the earnings, reserves and related disclosures in the consolidated financial statements.</p> <p>A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual financial statements or interim financial statements will not be prevented or detected on a timely basis.</p> <p>We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the consolidated financial statements of the Group and its joint venture companies, which are companies covered under the Act as at and for the year ended 31 March 2020, and the material weaknesses have affected our opinion on the consolidated financial statements of the Group and its joint venture companies, which are companies covered under the Act and we have issued a qualified opinion on the consolidated financial statements.</p>
b. Type of Audit Qualification :	Qualified Opinion
c. Frequency of qualification:	Qualifications: Qualification II (a) (i) (a) has been appearing from the year ended 31 March 2015; Qualification II (a) (i) (b) has been appearing from the year ended 31 March 2018 and Qualifications II (a) (i) (c) has been included for the first time during the year 31 March 2019.
d. For Audit Qualifications where the impact is quantified by the auditor, Management's Views:	Not applicable
e. For Audit Qualification(s) where the impact is not quantified by the auditor:	
(i) Management's estimation on the impact of audit	Not ascertainable
(ii) If management is unable to estimate the impact, reasons for the same:	<p>II (a) (i) (a): Trade receivables as at 31 March 2020 include ₹ 45,389.22 lakhs (31 March 2019: ₹ 41,075.63lakhs), in respect of projects which were closed/substantially closed and which are overdue for a substantial period of time. Based on the contract terms and the ongoing recovery/arbitration procedures (which are at various stages), Management is reasonably confident of recovering these amounts in full. Accordingly, these amounts have been considered as good and recoverable.</p> <p>II (a) (i) (c) Supreme Infrastructure BOT Private Limited ('SIBPL'), a subsidiary company, is having various Build, Operate and Transfer (BOT) SPVs under its fold. While SIBPL has incurred losses during its initial years and has accumulated losses, causing the net worth of the entity to be fully eroded as at 31 March 2020, the underlying projects are expected to achieve adequate profitability on substantial completion of the underlying projects. Further, commercial operation date (COD) in respect of few subsidiaries of SIBPL has been delayed due to various reasons attributable to the clients primarily due to non-availability of right of way, environmental clearances etc. and in respect of few subsidiaries of SIBPL, the toll receipts is lower as compared to the projected receipts on account of delay in receiving compensation from government for exempted vehicles. Further, there have been delays in repayment of principal and interest in respect of the borrowings and the respective entities are in discussion with their lenders for the restructuring of the loans. Management is in discussion with the respective lenders, clients for the availability of right of way and other required clearances and is confident of resolving the matter without any loss to the respective SPVs. Therefore, based on certain estimates like future business plans, growth prospects, ongoing discussions with the clients and consortium lenders, the valuation report of the independent valuer and other factors, Management believes that the net-worth of SIBPL does not represent its true market value and the realizable amount of SIBPL is higher than the carrying value of its net assets as at 31 March 2020 and due to these, the Group's carrying value of net assets (capital employed) amounting to ₹ 2,35,427.39 lakhs and non controlling interest amounting to ₹ 8,694.68 lakhs is considered as good and recoverable.</p> <p>i.
