## **Gateway Distriparks' ICD Faridabad connects to DFC**

**Mumbai/Delhi, 6th June, 2023:** Gateway Distriparks Limited, India's leading integrated intermodal logistics service provider, has successfully operated a container train on the Western Dedicated Freight Corridor (DFC) from its Inland Container Depot (ICD) in Faridabad, Haryana to Mundra Port in Gujarat. This achievement marked an important step towards the connectivity of Gateway Distriparks on the DFC network using its second ICD in the National Capital Region. Gateway's flagship ICD in Gurgaon is already connected with DFC via New Ateli. The train was flagged off from ICD Faridabad on 2nd June 2023 it arrived at port on 3rd June 2023 with transit time of 30 - 32 hours. Earlier the transit time between ICD Faridabad and Mundra port was 56 hours using the traditional Indian Railways network.

**Samvid Gupta, Joint MD, Gateway Distriparks, said,** "Starting train services on the DFC from a second ICD demonstrates the company's network advantage which we will continue to leverage to add value for our customers and improve the efficiency and sustainability of our operations. We will be able to use ICD Faridabad as a second hub location in the North and offer reduced transit times for our EXIM customers."

Track doubling work between ICD Faridabad and the DFC hub station Prithla is currently in progress and expected to complete by September 2023. This will enable Gateway Distriparks to run double stack trains from ICD Faridabad to Mundra and Pipavav port using DFC Network. ICD Faridabad is situated in the Delhi NCR region, and is well-connected to the state highway and the rail network. The facility is spread over 65 acres and has a container handling capacity of 1.5 Lacs TEUs per annum.

### **About Gateway Distriparks Limited (GDL)**

Gateway Distriparks Limited is an integrated inter-modal logistics service provider. It has a network of 10 Inland Container Depots and Container Freight Stations strategically located across the country, operating a fleet of 31 trainsets along with 500+ trailers for transportation between its facilities and maritime ports, as well as first & last mile connectivity to provide end to end solutions to the EXIM industry. The company offers general & bonded warehousing, rail & road transportation, container handling services and other value added services.
