We operate our business under the brand 'Club Emerald Sports Complex', which is focused on catering to guests in the upper-midscale, midscale and economy club/ hotel segments. Our brand and reputation are among our most important assets which helps in attracting guests to our services. Developing awareness of our brand, through focused and consistent branding and marketing initiatives is important to increase our revenues, grow our existing market share and expand into new markets. The performance and quality of services offered at Emerald are critical to the success of our business. These factors depend significantly on the effectiveness of our quality control systems and standard operating procedures, which in turn, depend on the skills and experience of our personnel, the quality of our training programme, and our ability to ensure that such personnel adhere to our policies and guidelines. Head of Department of each department conducts regular internal meetings with the staffs for review and training purposes. However, any decrease in the quality of services rendered by us including due to reasons beyond our control, or allegations of defects, even when false, could tarnish the image of our brand, result in negative reviews and feedback from our guests on online travel portals and may cause guests to choose the services of our competitors.

We are also dependent on third party service providers for providing some of the services on need basis to our guests and members such as spa and gymnasium and any failure or deficiency on the part of such service providers may adversely effect our reputation and brand perception. Any adverse development or decline in quality involving our brands may impair our reputation, dilute the impact of our branding and marketing initiatives and adversely affect our business, results of operations and financial condition.

3. ***Our Company has incurred losses in the recent past and we may incur losses in the future.***

Our Company has incurred losses in the recent past, the details of which are provided below:

Such losses incurred by us may be perceived adversely by external parties such as customers, bankers, and suppliers, which could affect our reputation. For further details, refer to the chapter titled “Financial Information” on page 78.

4. ***Our Company has reported negative cash flow in the past. Any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition.***

Our Company has experienced negative net cash flow from operating and financing activities in the recent past, the details of which are provided below:

(Amount in lakhs)

Particulars	Nine months ended December 31, 2023	Year ended March 31, 2023	Year ended March 31, 2022

Negative cash flow from operating activities for year ended March 31, 2023 is mainly on account of discharge of current liabilities. Negative cash flow from financing activities for the year ended March 31, 2022 is primarily on account of finance cost. Negative cash flow from financing activities for the nine months period ended December 31, 2023 is primarily on account of finance cost and repayment of long-term borrowings.

For further details, refer “Financial Information” on page 78 of the chapter titled ‘Financial Information’.

6. ***Our Company has obtained, unsecured loans from the related parties and others which may be recalled at any time. Any recall of the unsecured loans obtained by our Company may have an adverse effect on our business, prospects, financial condition and results of operations.***

Our Company has obtained unsecured loans, from related parties and others, some or all of which may be recalled on demand. As on December 31, 2023, our Company has outstanding unsecured loans of ₹ 6520.02 lakhs and as on March 31, 2024 outstanding unsecured loan of ₹ 6707.76 Lakhs. If the unsecured loans obtained by our Company are recalled at any time, the financial condition and results of operations of our Company may be adversely affected.

7. ***A substantial portion of the Net Proceeds will be utilized for repayment of certain loans availed by our Company.***

Our Company intends to deploy ₹[●] lakhs towards repayment of certain borrowings availed by our Company, as indicated in the section titled “*Objects of the Offer*” on page 47. The scheduled repayment of the loans is subject to various factors including: (i) cost of the borrowing to our Company including applicable interest rates, (ii) any conditions attached to the borrowings restricting our ability to prepay or repay the borrowings and time taken to fulfil, or obtain waivers for fulfilment of such conditions, (iii) receipt of consents for prepayment from the respective lenders, as applicable (iv) terms and conditions of such consents and waivers, (v) levy of any prepayment penalties and the quantum thereof, (vi) receipt of requisite approvals in accordance with applicable laws, (vii) provisions of any laws, rules and regulations governing such borrowings, and (viii) other commercial considerations including, among others, the amount of the loan outstanding and the remaining tenor of the loan. Accordingly, the Net Proceeds will not be available for any capital expenditure or creation of tangible assets by our Company.

8. ***Our business is subject to seasonal and cyclical variations that could result in fluctuations in our results of operations.***

Although our Emerald’s club segment is not adversely affected due to seasonality as memberships of the guests are for a long period of time spanning from 5 to 20 years, but our sales volume of the hotel segment of Emerald experiences slight seasonal fluctuations during the period of June to October. The hotel and hospitality industry in India is subject to seasonal variations. Seasonality affects leisure travel and the MICE sector (meetings, incentives, conferences and events) including weddings. The winter months are preferred for travel in India, for leisure, MICE events, management or business travel and more recently for weddings. The combination of changes in economic conditions and in the supply of hotel rooms, including periods of excess supply, can result in significant volatility in results for owners and managers of hotel properties. The costs of running a hotel tend to be more fixed than variable. As a result, in an environment of declining revenues the rate of decline in profits can be higher than the rate of decline in revenues. As a result of such seasonal fluctuations, our room rates, sales and results of operations of a given half of the financial year may not be reliable indicators of the sales or results of operations of the other half of the financial year or of our future performance.

For example, we may experience a decrease in business for rooms in during the monsoon season in the months of June to October. Operating costs, which remain relatively constant, have a disproportionately greater negative effect on operating results during periods with lower restaurant turnover.

9. *Our lenders have charge over our assets in respect of loans that have been availed by us.*

We have provided security in respect of loans / facilities availed by us from banks and financial institutions by creating a charge over our immovable property. The total amounts outstanding and payable by us as secured loans were ₹ 1809.19 lakhs as on March 31, 2024. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our assets may be subject to forfeiture by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations.

10. *Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholder's approval.*

We propose to utilize the Net Proceeds to repay, in full or in part, identified unsecured loan and long-term working capital requirement. For further details of the proposed objects of the Issue, please refer chapter titled “*Objects of the Issue*” beginning on page 47. In case of any exigencies arising out of business conditions, economic conditions, competition, or other factors beyond our control which adversely affect our business, we may require to use the Net Proceeds to meet any other expenditure which cannot be determined with certainty as on the date of this Letter of Offer. In terms of the SEBI ICDR Regulations and the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds or in the terms of any contract as disclosed in this Draft Letter of Offer without obtaining the shareholders’ approval through a special resolution. In the event of any such circumstances requiring us to undertake variation in the utilization of the Net Proceeds disclosed in Draft Letter of Offer, we cannot assure that we will be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business.

In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, or vary the terms of any contract referred to in the Draft Letter of Offer, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, which may adversely affect our business and results of operations.

11. *Our financing agreements contain certain restrictive covenants which may affect our financial and operational flexibility. In the event of breach of any covenants in our financing agreements, our lenders may take any action in connection with such breaches which may have a material adverse effect on our business, results of operation, financial condition and prospects.*

There are restrictive covenants in agreements we typically enter into with certain banks and financial institutions for short-term loans and long-term borrowings. These restrictive covenants require us to seek the prior permission of these banks/financial institutions for various activities, including, amongst others, formulation of any scheme for merger, amalgamation or re-organization, capital restructuring by way of share capital in or lending expenditure or advancing to or placing of deposits with any other concern (excluding normal trade credit or security deposit in the routine courses of business or advances to employees), making any change in their management set-up, declaring, paying or making any dividend or other distribution and incurring any other financial indebtedness. Accordingly we have intimated Aditya Birla Finance Limited, from whom we have secured loan facilities, regarding the proposed Issue *vide* our letter dated April 11, 2024 and subsequent email correspondences. We are currently awaiting ‘no objection’ in relation to the proposed Issue and expect to receive the same prior to filing of the Red Herring Prospectus. The restrictive covenants may also adversely affect our ability to conduct our business and have a material adverse effect on our financial condition, results of operations and cash flows.

12. *We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.*

We have in the past entered into transactions with some of our Promoters, Promoter Group Directors, and enterprises over which our Directors have a significant influence. While all such transactions have been conducted on an arm’s length basis, we cannot assure you that we might have obtained more favourable terms had such transactions been entered into with unrelated parties. Further, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will always be in the best interests of

our minority shareholders and will not have an adverse effect on our business, results of operations, financial condition, and cash flows. In the event any conflict of interest arises between us, or to the extent that competing products offered by any of our related parties erode our market share, we may not be able to effectively manage any such conflict or competitive pressures and, consequently, our business, results of operation and financial condition may be adversely affected. For further information on related party transaction, see “*Financial Information- Related Party Transactions- Note 28*” on page F-25.

13. ***Customer’s taste and preference may change and they may not prefer our services in the future which may adversely affect demand for our services. Further, an inability to maintain our competitive position in the hospitality industry, and failure to adapt our service offerings to changing market trends and consumer tastes, preferences and spending habits could cause our engagements with the clients to decline and may adversely affect our business, prospects and future financial performance.***

We compete in a highly competitive industry where the success of our business depends on customer behavior and preferences and their affinity and loyalty to the services offered by us. Our future growth and success will depend significantly on our ability to anticipate changes in market trends and customer tastes and preferences, and then to identify, source and bring to the market in a timely manner new or unique services that satisfy the preferences of a broad range of customers. In the event of a significant change in customer preferences or in the event of an inability on our part to anticipate or react to such changes, it could result in reduced demand for our services and erosion of our competitive position and goodwill and could adversely affect our business, prospects, results of operations and financial condition.

In addition, we compete with aggressive marketing and promotional activities by other private clubs, hotels and banquets on price and promotional discounts announced from time to time. Other clubs and hotels in the market typically match the pricing of our services. However, if the competitors alter their pricing model, and we are unable to change our product prices in response to such competitive measures, our results of operations and profitability may be materially and adversely affected.

14. ***Our business is heavily dependent on our suppliers.***

As we are engaged in the business of operating a hotel cum club which has 4 restaurants and 6 banquet halls, we are to a large extent dependent on our suppliers for the supply of raw materials namely vegetables, fruits, grocery, beverages and other items. We procure vegetables and fruits from various suppliers on annual rate contract basis and other items based on availability of desired quality and quantity and urgency of need from wholesale markets as per prevailing market rates. We are required to rely heavily on a few suppliers and the quality of products supplied by them. Our sales and profitability would be adversely affected in case of any management inabilities or errors on part of our suppliers.

Further, being a hospitality Company located at Chembur, which is a large residential and commercial hub in Mumbai, we face the risk of our suppliers reducing their focus to a particular customer due to competitive pressures and other internal management decisions and hence we may not receive the necessary support from our suppliers. Also, we face the risk of the management of our suppliers collaborating with some other trader and thus reducing our share of supply, which we cannot ensure would be as per our required terms. Any negative development involving our suppliers and their products, could adversely affect our business growth, profitability, results of operations and goodwill and we may not be in a position to alter or avoid such developments.

15. ***Negative publicity could adversely affect our revenue model and profitability.***

We may, from time to time receive negative publicity with respect to quality of our facilities, services or food, ambience, hygiene & safety, employee relationships or other matters. We may in future experience adverse publicity as a result of employee misconduct, including employee theft. Any adverse publicity will create a negative image of our Company, irrespective of the fact that such allegations are true or not. The repercussion of such negative publicity may affect the revenue generation ability of all our outlets. This could lead to an adverse impact on our business, financial condition, results of operations and prospects.

16. ***Our inability to manage the timing of vacation requests of our members or customers could lead to member dissatisfaction as well as loss of revenue generation opportunities.***

Presently we have a total of 35 rooms where we provide accommodation services to our clients. Our clients may choose a time to book their stay with Emerald within such time period which could be peak of holiday or wedding season. If more than the anticipated number of clients apply for a vacation at Emerald on the same dates of the year, we may not

be in a position to satisfy their requests. Declining members the usage of their requested week / days may lead to client dissatisfaction, which could have an adverse effect on our reputation, growth and results of operations.

Conversely, if less than the anticipated number of clients apply to stay at Emerald at any given time, we may have a large number of unused rooms, which could lead to a loss of revenue generation opportunities.

17. *Failure to successfully update our menus and introduce new menu items, products and member engagement activities may adversely affect our business.*

Product development is an important factor in our industry in generating increase in sales. We regularly develop and introduce new menu items and products. However these new menu items and products may prove to be unsuccessful. If a new product is successful in all aspects, items are introduced on promotional menus and only the most successful are considered for inclusion on our regular menus. Further, we also aim to develop and introduce new guests activities and events for our members which will help us attract new customers by word of mouth. We organize various activities to engage our existing members and attract new clients, such as food festivals, musical programmes, festive celebrations, etc. However there can be no assurance that such efforts will be successful in identifying successful new products and services and avoiding unsuccessful introductions. Although we periodically do introduce new items to our menu, an inability to successfully introduce such new menu items and products could adversely affect our business, financial condition, results of operations and prospects.

18. *Increases in costs and inability to accurately forecast the demand for our supplies could result in a loss of revenue and adversely impact our business, financial condition, results of operations and prospects.*

Our profitability depends in part on our ability to anticipate and react to changes in the cost of our supplies. Any inability to accurately forecast demand of our food products and beverages would lead to excess supply of materials from our suppliers which would have a material adverse impact on our business. Increases in the cost of important products could significantly increase our expenses. The supply of materials for our food and beverages is based primarily on forecasts requirements prepared by our general manager/ head of departments in consultation with the chefs/bar tenders and is one of the more significant expense items in our business. The cost of materials of food and beverages constituted for 43.40%, 59.19% and 47.27% of the total cost in the financial year 2020-21, 2021-22, 2022-23 and 53.75% for the nine months period ended December 31, 2023. These forecasts are based on past sales as well as anticipated demand, which is based to a certain extent on the subjective assessment of the general manager/ head of department. Most ingredients used by us, including liquor, cooking oil and vegetables, are commodities and therefore subject to price fluctuations as a result of seasonality, weather, supply and demand in local and international markets, economic conditions and other factors which are beyond our control. Increases in the cost of important raw materials could significantly increase our expenses. We have no control over fluctuations in the price and availability of ingredients or variations in products caused by these factors. If we are not able to obtain requisite quantities of quality ingredients at commercially reasonable prices, our ability to provide the menu items that are central to our business would be adversely affected. In addition, we purchase electricity, oil, piped natural gas and other related supplies needed to operate our facilities. Any significant increase in energy costs could adversely affect us through higher rates or imposition of fuel surcharges by our suppliers. In particular, we purchase a majority of our liquefied petroleum gas from certain Indian state-owned enterprises, and any significant increases in their prices for liquefied petroleum gas could result in increased expenses and loss of revenue.

We cannot predict whether we will be able to anticipate and react favorably to changing costs by adjusting our purchasing practices and menu prices, and a failure to do so could adversely affect our business, financial condition, results of operations and prospects. In addition, because we operate in price sensitive markets, we would likely be unable to fully pass on price increases to our guests. Increases in our costs for any reason including those discussed above could adversely affect our business, financial condition, results of operations and prospects. In addition, if we are unable to adjust our significant fixed costs including lease costs and staff costs, in response to a reduction in revenues in the future, our business, financial condition, results of operations and prospects could be adversely affected.

19. *Certain of our Group Companies and our Promoters are engaged, or are authorized by their constitutional documents to engage, in business activities which are similar to those undertaken by our Company and Subsidiaries, or have interests in other companies, which are in businesses similar to ours, which may result in conflicts of interest.*

Certain of our Promoter Directors/ Group Companies are engaged in the same line of business. We cannot assure you that our Group Companies, will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business and results of operations.

Further, a conflict of interest may occur between our business and the business of certain of our Promoters and Group Companies which could have an adverse effect on our operations. For example, Jashwant Bhaichand Mehta and Chetan Jashwant Mehta, own and control Juhu Resorts & Development Private Limited which operates a hotel in Mumbai named 'Hotel Emerald'. Further Juhu Resorts & Development Private Limited, Neptune Resorts & Developers Private Limited, our Group Companies, in which Jashwant Bhaichand Mehta and Chetan Jashwant Mehta are directors, are in the same line of business as our Company and may compete with our existing business. Conflict of interest may also arise out of common business objectives shared by us and certain of our Promoters. Our Promoters may compete with us and have no obligation to direct any opportunities to us. We cannot assure you that these or other conflicts of interest will be resolved in an impartial manner.

20. Any occurrence of negative event in the consumer food and beverage services industry in Maharashtra where we have presence could materially affect our overall business and results of operations.

Customer preferences and taste may vary from time to time and place to place. Currently, we are serving in Mumbai, Maharashtra based on our experience and study of customer preferences and tastes of the particular state. However, any negative event affecting its consumer food and beverage industry, such as a local economic downturn, a natural disaster, a contagious disease outbreak, or a terrorist attack, or if the local authorities adopt regulations that place additional restrictions or burdens on us or our industry in general, our overall business and results of operations may be materially and adversely affected.

21. We have a large workforce deployed at our Company, consequently we may be exposed to service related claims and losses or employee disruptions that could have an adverse effect on our reputation, business, results of operations and financial condition.

As of March 31, 2024, we have 34 employees at our Company. In addition, we utilize 24 personnel on a contract basis at our hotel. The risks associated with the utilization of a large workforce include possible claims relating to:

- actions, inactions, errors or malicious acts by our personnel, including matters for which we may have to indemnify our guests;
- failure of our personnel to adequately perform their duties including rendering deficient services, shortage in shift, absenteeism or lateness;
- violation by personnel of security, privacy, health and safety regulations and procedures;
- any failure by us to adequately verify personnel backgrounds and qualifications resulting inefficient services;
- injury or damages to any guest's person or property due to negligence of our personnel; and
- criminal acts, torts or other negligent acts by our personnel.

These claims may give rise to litigation and claims for damages, which could be time-consuming. These claims may also result in negative publicity and adversely impact our reputation and brand name. We may also be affected in our operations by the acts of third parties, including subcontractors and service providers. Any losses that we incur in this regard may have an adverse effect on our reputation, business, results of operations and financial condition.

22. We require certain licenses and approvals in the ordinary course of the business and the failure to renew, obtain or retain them in a timely manner, or at all, may adversely affect our operations.

We are governed by various applicable laws and regulations for our business and operations. We are required and will continue to be required, to obtain and hold relevant license, approvals and permits for carrying out our services and activities. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous. Additionally, we will need to apply for renewal of certain approvals, licenses, registrations and permits, which expire or seek fresh approvals, from time to time, as and when required in the ordinary course of our business. An inability to obtain or maintain approvals or licenses required for our operations may adversely affect our operations.

Further, the approvals required by us are subject to numerous conditions and we cannot assure you that these would not be suspended or revoked in the event of non-compliance or alleged noncompliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business. In case we fail to comply with these requirements, or a regulator alleges we have not complied with these requirements, we may be subject to penalties and compounding proceedings.

23. ***Our operations are dependent on our ability to attract and retain qualified personnel, including our key senior management and any inability on our part to do so, could adversely affect our business, results of operations and financial condition.***

Our operations are dependent on our ability to attract and retain qualified personnel since we aim to provide our guests with high levels of service. While we believe that we currently have adequate qualified personnel for our operations, we may not be able to continuously attract or retain such personnel, or retain them on acceptable terms, given the demand for such personnel. We have experienced attrition at a rate of 32.35% 50.67% and 31.17% in relation to our employees for Fiscals 2024, 2023 and 2022, respectively. Competition for qualified personnel with relevant industry expertise in India is intense and the loss of the services of our key personnel may adversely affect our business, results of operations and financial condition. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires.

Apart from personnel hired for providing their services at Emerald, we are highly dependent on our directors, senior management and other key personnel for setting our strategic business direction and managing our business. The inputs and experience of our senior management and key managerial personnel are valuable for the development of business and operations and the strategic directions taken by our Company. We currently do not have any non-compete agreements with our directors, senior management or other key personnel. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. Any inability on our part to attract and retain qualified personnel and senior management could adversely affect our business, results of operations and financial condition.

24. ***Operational risks are inherent in our business as it includes rendering services at high quality standards at our hotels. A failure to manage such risks could have an adverse impact on our business, results of operations and financial condition.***

Certain operational risks are inherent in our businesses due to the nature of the industry in which we operate. We provide hospitality services, including food and beverage, cleaning and housekeeping, and security services, at our hotels. In rendering such services our personnel are required to adhere to regulatory requirements and standard operating procedures with regard to health, safety and hygiene and in their interaction with our guests and other members of the public. Food and beverage services require proper packaging and labelling and the careful and hygienic handling of food products, which if improperly packaged or handled may have an adverse impact on the health of our guests. Similarly, cleaning and housekeeping services involve the handling of chemicals such as cleaning solutions, which if handled improperly may have an adverse impact on the health of our employees, guests and on the environment. Consequently, our business is associated with certain safety, privacy and public health concerns. Failure to effectively implement crisis response, training and management policies and protocols and to adequately address and manage risks inherent in our business, or a failure to meet the requirements of our guests, or a failure to develop effective risk mitigation measures, could have an adverse effect on Emerald's reputation, guest loyalty and consequently, our business, results of operations and financial condition.

25. ***Our business is customer oriented and the loss of customers, the deterioration of their financial condition or prospects, or a reduction in their demand for our services could adversely affect our business, results of operations and financial condition.***

Our room accommodations, conference/ banquet halls are dependent on our customers. Any reduction in growth or a slow-down in the business of our customers in India, could result in a reduction of their requirement for our services, and result in a significant decrease in the revenues we derive from these customers. There is no dependency on any customer segment and the revenue generated from all segments is evenly distributed, however the loss of our customers over time or a reduction in the amount of business we obtain from them could have an adverse effect on our business, and thus our results of operations, financial condition and cash flows. Further, customers may be able to negotiate better or more favorable terms or discounts compared to bookings made through direct channels or online travel agents. We cannot assure you that we will be able to maintain historic levels of business from such significant customers in the future.

26. ***Once we enroll a member at our Club, we have a long term commitment to service such member. Our inability to maintain and operate our Club may affect the services offered to our members which in turn may affect our reputation, revenues and results of operations.***

Upon enrolment of a member to Club Emerald, we have an obligation to service our members for a period of 5 years or upto 20 years, depending on the tenure of their membership. Servicing our members requires us to maintain our Club at certain specified standards for such number of years. We can give no assurance that we will be in a position to service our members for the entire tenure at their level of expectation. Our inability to maintain and operate our Club may have an adverse effect on our reputation, revenues and results of operations.

27. ***Our operations entail certain fixed costs and recurring costs, and our inability to reduce such costs during periods of low demand for our services may have an adverse effect on our business, results of operations and financial condition.***

Our operations entail certain fixed costs such as costs incurred towards the maintenance of our property, employee related costs, property taxes as well as certain significant recurring costs such as utility expenses and insurance payments. Such fixed costs constituted to 11.82%, 12.92% and 11.34% of the total cost in the financial year 2020-21, 2021-22 and 2022-23, respectively. We may also have to incur costs towards periodic re-designing, re-structuring, refurbishing or repair of defects at our Club. The costs of running a hotel cum club tends to be more fixed than variable. The hotel industry experiences changes in demand and supply, which we may not be able to predict accurately. Consequently, we may be unable to reduce fixed and recurring costs in a timely manner, or at all, in response to a reduction in the demand for our services. Further, our Club property may be subject to an increase in operating and other expenses in the event of increases in property and other tax rates, increase in utility costs due to increase in electricity or water supply charges, insurance costs, repairs and maintenance and administrative expenses, which may adversely affect our business, results of operations and financial condition.

28. ***A portion of Emerald's hotel segment bookings originate from online travel agents and intermediaries. In the event such companies continue to gain market share compared to direct booking channels or our competitors are able to negotiate more favorable terms with such online travel agents and intermediaries, our business and results of operations may be adversely affected.***

A portion of bookings for our accommodation facilities originate from online travel agents and intermediaries, such as online aggregators to whom we pay fees/ commissions. These third-parties, including online travel agents, offer a wide breadth of services, often across multiple brands, have growing booking and review capabilities, and may create the perception that they offer the lowest prices when compared to our direct booking channels. Some of these online travel agents and intermediaries have strong marketing budgets and aim to create brand awareness and brand loyalty among consumers and may seek to commoditize hotel brands through price and attribute comparison. In the event these companies continue to gain market share, they may impact our profitability, undermine direct booking channels and online web presence and may be able to increase commission rates and negotiate other favorable contract terms. Negative reviews and feedback on online travel portals may cause guests to choose the services of our competitors. Further, our competitors may be able to negotiate better or more favorable terms with such online travel agents and intermediaries, impacting our hotel bookings from these channels, which in turn may adversely affect our business and results of operations.

29. ***The food and beverages service market is an ever-changing and dynamic industry. If we are unable to adapt to the ever changing trends of such industry, it will affect our business which in turn may affect our financial condition.***

We consider the food offered to our members as well as customers to be one of our greatest strengths. We have an in-house kitchen where our experienced and professional chefs offer variety of cuisines to our members and customers. But the food industry is a fast changing industry and customer food and beverages consumption pattern may vary. Our business can be largely affected by changing customer preferences or pattern of consumption, including changes in member's/ customer's tastes all of which may be caused by many factors that are generally beyond our control. If we are unable to offer services at par with the ever evolving food industry needs and successfully meet changes in consumer tastes and trends, our business may be affected which in turn will affect our financial condition as well.

30. ***We operate in a highly competitive market and may not be able to maintain our market position, which may adversely impact our business, results of operations and financial condition.***

The hospitality industry is high fragmented in nature and subject to growing competition. There is increasing competition in respect of price, location, facilities, quality of service/ food etc. A growing, under-served market, such as India, is particularly attractive to new entrants, who may also offer new facilities, cuisines and beverages that appeal to customer tastes. We may also face competition from existing clubs and hotels willing to accept low margins on investment in order to enter new market as well as from business conglomerates willing to cross-subsidise club business

in order to enter new market. Further we generally face competition from local outlets for food and classes conducted for sports activities. A significant increase in competition, whether from one new competitor or many, could exert downward pressure on prices, lower demand of our products and club concept, an inability to take advantage of new business opportunities and a loss of market share, all of which would adversely affect our business, financial condition, results of operations and prospects.

Our success is largely dependent upon our ability to compete in areas such as room rates, location of the property, the quality and scope of other amenities, including food and beverage facilities, quality of accommodation and service level as well as the brand recognition of our hospitality partners. In addition, our competitors may significantly increase their advertising expenses to promote their hotels, which may require us to similarly increase our advertising and marketing expenses and change our pricing strategies, which may have an adverse effect on our business, results of operations and financial condition. As a result, we cannot assure you that we will be able to compete successfully in the future against our existing or potential competitors or that our business and results of operations will not be adversely affected by increased competition.

31. *Any failure of our information technology systems could adversely affect our business and our operations.*

We utilize information technology systems that support our business processes, including centralized software and systems which support critical operations such as database management, application hosting, back-end processes, reservations systems and property management systems of our hotel operators and their affiliates. These systems may be susceptible to outages due to fire, floods, power loss, telecommunications failures, natural disasters, break-ins and similar events. Effective response to such disruptions will require effort and diligence on the part of our third-party vendors and employees to avoid any adverse effect to our information technology systems.

In addition, our systems and proprietary data stored electronically, including our guests' sensitive personal and financial information, may be vulnerable to computer viruses, cybercrime, computer hacking and similar disruptions from unauthorized tampering. Such technology systems may also be vulnerable to ransomware attacks, which may block or restrict access to these systems and impair their functionality, unless certain ransom money is paid. If such unauthorized use of our systems were to occur data related to our guests and other proprietary information could be compromised. Our Company has not faced such instance, however the occurrence of any such events could adversely affect our business, interrupt our operations, subject us to increased operating costs and expose us to litigation. We are also dependent on third party vendors for providing some of the services to our guests such as internet and television, among others, and any failure or deficiency on the part of such vendors may adversely affect our reputation, brand perception and results of operations.

32. *If we are unable to raise additional capital, our business prospects could be adversely affected.*

We intend to fund our growth and expansion plans through our cash on hand, cash flow from operations. We will continue to incur significant expenditure in maintaining and growing our existing infrastructure. We cannot assure you that we will have sufficient capital resources for our current operations or any future expansion plans that we may have. While we expect our cash on hand and cash flow from operations to be adequate to fund our existing commitments, our ability to incur any future borrowings is dependent upon the success of our operations. Additionally, if we are unable to arrange adequate financing on timely basis, it could adversely affect our ability to complete expansion plans. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and regulatory framework that allows us to raise capital. If we decide to meet our capital requirements through debt financing, we may be subject to certain restrictive covenants. If we are unable to raise adequate capital in a timely manner and on acceptable terms, or at all, our business, results of operations, cash flows and financial condition could be adversely affected.

33. *Our operations could be adversely affected by strikes, work stoppages or increased wage demands by our employees or any other kind of disputes with our employees.*

Although we have not experienced any labor unrest, we cannot assure you that we will not experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to continue our business operations. Further, we cannot assure you that our other employees will not unionize in the future. In the event our employee relationships deteriorate or we experience significant labor unrest, strikes and other labor action, work stoppages could occur and there could be an adverse impact on our operations. These actions are impossible for us to predict or control and any such event could adversely affect our business and results of operations.

34. ***We rely on contractual labor for carrying out certain of our operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired default on their obligations, and such obligations could have an adverse effect on our results of operations and financial condition.***

In order to retain flexibility and control costs, we appoint independent contractors who in turn engage on-site contract labour for performance of certain of our operations. As of March 31, 2024 we utilized 24 personnel engaged on a contractual basis. Although we do not engage these workers/ labourers directly, we may be held responsible for any wage payments to be made to such labourers in the event of default by such independent contractor. Any requirement to fund their wage requirements may have an adverse impact on our results of operations and financial condition. In the event of any non-compliance by contractors with statutory requirements, legal proceedings may be initiated against us. Thus, any such order from a regulatory body or court may have an adverse effect on our business, results of operations and financial condition.

35. ***Our insurance coverage may not be sufficient or may not adequately protect us against all material hazards, which may adversely affect our business, results of operations and financial condition.***

We could be held liable for accidents that occur at our Company or otherwise arise out of our operations. In the event of personal injuries, fires or other accidents suffered by our members, employees or other people, we could face claims alleging that we were negligent, provided inadequate supervision or be otherwise liable for the injuries. We have insurance coverage such as fire and special perils, employee fidelity, cover for money in safe, cover for equipments, plate glass, etc. We also maintain director and officers' liability policy and group mediclaim policy for our employees. For the financial year 2023, we had insured our net assets for an amount of ₹ 9,655 lakhs representing 100% coverage over our total net assets.

While we believe that the insurance coverage which we maintain would be reasonably adequate to cover the normal risks associated with the operation of our business, we cannot assure you that any claim under the insurance policies maintained by us will be honored fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, and which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, cash flows and financial performance could be adversely affected.

36. ***Disruptions or lack of basic infrastructure such as electricity and water supply could adversely affect our operations.***

We require a significant amount and continuous supply of electricity and water and any disruption in the supply thereof could affect the operations of our Company and the services to our members and guests. We currently source our water requirements from rain water harvesting system installed in our complex and from governmental water supply undertakings and depend on power generation company, Tata Power, for our energy requirements. We cannot assure you that our hotels will have sufficient power during power failures. Any failure on our part to obtain alternate sources of electricity or water, in a timely fashion, and at an acceptable cost, may have an adverse effect on our business, results of operations and financial condition.

37. ***Demand for rooms or our conferencing and meeting facilities may be adversely affected by the increased use of business-related technology or change in preference of our corporate customers.***

The increased use of teleconference and video-conference technology by other businesses could result in decreased business travel as companies increase the use of technologies that allow multiple parties from different locations to participate at meetings without traveling to a centralized meeting location, such as our Club. For instance during COVID-19 pandemic, our revenue generated from our rooms, conferencing and meeting facilities were adversely affected. Revenue generated during Fiscal 2021 and 2022 was comparatively less than the revenue generated during the year 2023 which also indicates that the effect of pandemic has considerably reduced with only limited impact. However, to the extent that technologies play an increased role in day-to-day business and the necessity for business-related travel decreases, demand for our rooms or our conferencing and meeting facilities may decrease from business travelers and corporate customers. Similarly, changes in business spending and preferences of our corporate customers due to evolving cost of travel, spending habits and budgeting patterns may lead to a change in the perceived attractiveness of Emerald and services.

38. ***We are unable to trace some of our historical records. In the event we are found not to be in compliance with any applicable regulations in relation to the regulatory filings or corporate actions, we may be subject to regulatory actions or penalties for any such possible non-compliance and our business, financial condition and reputation may be adversely affected.***

We have been unable to locate copies of certain of our corporate records filed with the RoC before the calendar year 2010. While we believe that these documents were duly filed on a timely basis, we have not been able to obtain copies of these documents from the RoC or otherwise. The relevant documents are also not available at the office of the RoC as certified by Zankhana Bhansali & Associates, Practicing Company Secretary, vide his search report dated May 16, 2024. We cannot assure you that the relevant corporate records will become available in the future or that regulatory proceedings or actions will not be initiated against us in the future and we will not be subject to any penalty imposed by the competent regulatory authority in this respect. Further we cannot assure you that we will not be subject to any legal proceedings or regulatory actions, including monetary penalties by statutory authorities on account of any inadvertent discrepancies in our secretarial filings and/or corporate records in the future, which may adversely affect our business, financial condition and reputation.

Although, our Company endeavours to comply with all compliance/ reporting requirements, there may have been instances of delays/non-disclosures/erroneous disclosures and non-filings of certain forms which were required to be filed as per the reporting requirements under the Companies Act, 1956 and Companies Act, 2013 with RoC. In past, there have been instances wherein our Company has failed to comply with the requirements of RoC, for which we have paid additional fees. No show cause notice in respect of the above has been issued to our Company till date and except as stated in this Draft Letter of Offer, no penalty or fine has been imposed by any regulatory authority with respect to the same. It cannot be assured, that there will not be such instances in the future or our Company will not commit any further delays or defaults in relation to its reporting requirements, or any penalty or fine will not be imposed by any regulatory authority in respect to the same. The happening of such event may cause a material effect on our business reputation, divert management attention, and result in a material adverse effect on our business prospects.

39. ***If our Company does not receive the minimum subscription of 90% of the total Issue size, the Issue may fail.***

In the event our Company does not receive the minimum subscription of 90% of the total Issue Size or the subscription level falls below 90% of the total Issue Size after the Issue Closing Date on account of withdrawal of Applications or technical rejections or any other reason, our Company shall refund the entire subscription amount received within such period as may be prescribed under applicable law. Further, in the event, there is a delay in making a refund of the subscription monies, our Company shall be required to pay interest for the delayed period at such a rate prescribed under applicable law. For further details, please see “*General Information-Minimum Subscription*” on page 44.

40. ***Our Promoters and Directors hold Equity Shares in our Company and are therefore interested in the Company's performance in addition to their benefits or reimbursement of expenses.***

Our Promoters and Directors hold 69.07% of the Equity Share Capital, and are interested in our Company, in addition to benefits and reimbursement of expenses that may be received by them, to the extent of their shareholding in our Company. Our Promoters may exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may not be able to affect the outcome of such voting.

For further details, see “*Capital Structure*” and “*Financial Information*” on pages 45 and 78 of this Draft Letter of Offer.

41. ***We are exposed to the risk of events that adversely affect domestic or international travel, such as epidemics and terrorism or war.***

The room rates and occupancy levels of our hotel segment could be adversely affected by external events that reduce domestic or international travel, such as epidemics or pandemic like COVID-19 and spread of infectious diseases or threats thereof, actual or threatened acts of terrorism or war, geo-political crisis or civil unrest, travel-related accidents or industrial action, natural disasters, or other local factors impacting individual hotels, as well as increased transportation and fuel costs. A decrease in the demand for rooms as a result of such events may have an adverse impact on our operations and financial results. In addition, inadequate planning, preparation, response or recovery in relation to a major incident or crisis may prevent operational continuity, or result in financial loss and consequently affect our reputation.

42. *Our operating results may fluctuate significantly and could fall below the expectations of securities analysts and investors due to various factors.*

Our operating results may fluctuate significantly because of various factors, including:

- changes in consumer preferences and discretionary spending;
- fluctuations in the cost of supplies;
- labour availability and wages of club management and staff;
- profitability of our club;
- variations in general economic conditions;
- negative publicity about the liquor we serve or the ingredients we use or the occurrence of food-borne illnesses or other problems at our club; and
- changes in comparable club sales and guest orders, including as a result of declining consumer confidence or the introduction of new menu items.

As a result of these factors and others, results for any one quarter are not necessarily indicative of results to be expected for any other quarter or for any year. In the future, operating results may fall below the expectations of securities analysts and investors, which could cause our stock prices to fall.

43. *Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by a public financial institution or a scheduled commercial bank and our management will have broad discretion over utilization of the Net Proceeds.*

Our Company proposes to utilize the Net Proceeds for repayment and/ or prepayment of debts. Our proposed deployment of Net Proceeds has not been appraised by a public financial institution or a scheduled commercial bank and is based on management estimates.

44. *Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.*

Our ability to pay dividends in the future will depend on our earnings, financial condition, cash flow, working capital requirements, capital expenditure and restrictive covenants of our financing arrangements.

The Company may decide to retain all future earnings, if any, for use in the operations and expansion of the business. In such situation, the Company may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. We cannot state with any certainty whether we will be able to pay dividends in the future. Accordingly, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

45. *Any inability to protect our intellectual property or any claims that we infringe on the intellectual property rights of others could have a material adverse effect on us.*

As on date of this Draft Letter of Offer, we have 1 registered trademark. The trademark/service mark and logo in connection with the "CLUB e EMERALD" logo is owned and registered by our Promoter, Chetan Jashwant Mehta under class 41 of the Trade Marks Act, 1999. We may not be able to prevent infringement of our trademark and a passing off action may not provide sufficient protection until such time that this registration is granted. There may be other companies or vendors which operate in the unorganized segment using our trade name or brand names. Any such activities could harm the reputation of our brand and goodwill of our Company, which could in turn adversely affect our financial performance and the market price of the Equity Shares. The measures we take to protect our intellectual property include relying on Indian laws and initiating legal proceedings, which may not be adequate to prevent unauthorized use of our intellectual property by third parties. Furthermore, the application of laws governing intellectual property rights in India is uncertain and evolving, and could involve substantial risks to us. Notwithstanding the precautions we take to protect our intellectual property rights, it is possible that third parties may copy or otherwise infringe on our rights, which may have an adverse effect on our reputation, business, financial condition, cash flows and results of operations.

We may also be susceptible to claims from third parties asserting infringement and other related claims. If similar claims are raised in the future, these claims could result in costly litigation, divert management's attention and resources, subject us to significant liabilities and require us to enter into potentially expensive royalty or licensing agreements or

to cease usage of certain brand names. Furthermore, necessary licenses may not be available to us on satisfactory terms, if at all. Any of the foregoing could have an adverse effect on our reputation, business, financial condition, cash flows and results of operations.

46. ***Industry information included in this Draft Letter of Offer has been derived from publicly available sources. There can be no assurance that such third-party statistical, financial and other industry information is complete or accurate and neither has our company independently verified the same. Further, despite our efforts to follow up with IBEF and FRHAI, we are yet to receive consent for the inclusion of data from their reports.***

Unless stated otherwise, industry and market data used in this Draft Letter of Offer has been obtained or derived from publicly available information as well as industry publications and sources. We have taken extracts from the report titled ‘FHRAI Hotel Industry Survey 2023’ and ‘Tourism and Hospitality Industry, February 2023’ issued by the Federation of Hotel and Restaurant Associations of India (“FHRAI”) and India Brand Equity Foundation (“IBEF”), respectively. However, despite our efforts to follow up with IBEF and FRHAI, we are yet to receive consent for the inclusion of data from their reports. Industry publications generally state that the information contained in such publications has been obtained from publicly available documents from various sources believed to be reliable but their accuracy and completeness are not guaranteed and their reliability cannot be assured.

Industry Information included herein is subject to various limitations and based upon certain assumptions that are subjective in nature. Neither us nor anyone associated with us has independently verified the information. Although we believe that the Industry Information may be considered to be reliable, the accuracy, completeness and underlying assumptions are not guaranteed and dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us, any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Letter of Offer.

47. ***The Novel Coronavirus (Covid-19) pandemic outbreak and steps taken control the same have significantly impacted our business, results of operations, financial condition and cash flows and further impact will depend on future developments, which are highly uncertain.***

The rapid and diffused spread of COVID-19 and global health concerns relating to this outbreak have had a severe negative impact on all businesses. Hospitality sector had been the worst affected owing to complete disruption in domestic and international travel. There was an unprecedented slowdown of economic activity throughout the world and operations of the businesses were impacted, by way of interruption in supply chain, unavailability of personnel, restriction on domestic and international travel, increased costs of maintenance and upkeep, rise in costs of input & services, etc. The COVID-19 pandemic could continue to have an impact that may worsen for an unknown period of time. Currently, there is substantial medical uncertainty regarding COVID-19 and till any cure is found, this pandemic may continue to cause unprecedented economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of COVID-19 remain uncertain and could be severe.

The extent to which the COVID-19 pandemic, and the related global economic impact, may affect our business, financial condition and results of operations will depend on future developments that are highly uncertain and cannot be predicted, including the spread, scope and duration of the COVID-19 pandemic and any recovery period, the effectiveness of further steps taken by the GoI and the RBI to mitigate the economic impacts in response to the pandemic and its effects.

48. ***We are exposed to a variety of risks associated with safety, security and crisis management.***

We are committed to ensure the safety and security of our members, guests, employees and assets against natural and man-made threats. These include, but are not limited to, exceptional events such as extreme weather, civil or political unrest, violence and terrorism, serious and organized crime, fraud, employee dishonesty, cybercrime, pandemics, fire and day-to-day accidents, incidents, health crises of members or guests and petty crime which impact the member/ guest or employee experience, could cause loss of life, sickness or injury and result in compensation claims, fines from regulatory bodies, litigation and impact our reputation. Serious incidents or a combination of events could escalate into a crisis which, if managed poorly, could further expose us and our Club to significant reputational damage. Any

accidents or any criminal activity at our Club may result in personal injury or loss of life, substantial damage to or destruction of property and equipment resulting in the suspension of operations. Any of the foregoing could subject us to litigation, which may increase our expenses in the event we are found liable, and could adversely affect our reputation and cause a loss of consumer confidence in our business. Such events occurring at our Club may also have an adverse effect on our reputation and may also adversely affect operations of our other properties.

ISSUE SPECIFIC RISKS

49. ***We will not distribute the Letter of Offer, the Abridged Letter of Offer, Application Form and Rights Entitlement Letter to overseas Shareholders who have not provided an address in India for service of documents.***

In accordance with the SEBI ICDR Regulations and SEBI Rights Issue Circulars our Company will send, only through email, the Letter of Offer, the Abridged Letter of Offer, the Rights Entitlement Letter, Application Form and other issue material to the email addresses of all the Eligible Equity Shareholders who have provided their Indian addresses to our Company or who are located in jurisdictions where the offer and sale of the Rights Equity Shares permitted under laws of such jurisdictions and in each case who make a request in this regard. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in overseas jurisdictions. However, the Companies Act, 2013 requires companies to serve documents at any address which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act, 2013 and the rules made there under with respect to distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act, 2013 and may subject us to fines or penalties.

50. ***The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form (“Physical Shareholder”) may lapse in case they fail to furnish the details of their demat account to the Registrar.***

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated SEBI circular bearing reference number SEBI/HO/CFD/DIL2/CIR/P/2020/13 dated January 22, 2020 read with SEBI circular bearing reference number SEBI/HO/CFD/SSEP/CIR/P/2022/66 dated May 19, 2022, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see “*Terms of the Issue*” on page 103. In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only.

51. ***Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.***

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see “*Terms of the Issue*” on page 103.

52. ***Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoters may adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue

additional Equity Shares. The disposal of Equity Shares by any of our Promoters, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoters will not dispose of, pledge or encumber their Equity Shares in the future.

53. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

54. *You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.*

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

55. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

56. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISK FACTORS

57. *Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.*

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our products or services may be adversely affected by an economic downturn in domestic, regional and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

58. *A slowdown in economic growth in India could cause our business to suffer.*

We are incorporated in India, and all of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

59. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects and results of operations.*

Our business and financial performance could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. There can be no assurance that the government may not implement new regulations and policies which will require us to obtain approvals and licenses from the government and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition, cash flows and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations or cash flows. Any unfavourable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

60. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

These could include further falls in Stock Exchange indices and greater volatility of markets in general due to the increased uncertainty. These and other related events could have a significant impact on the global credit and financial markets as a whole, and could result in reduced liquidity, greater volatility, widening of credit spreads and a lack of price transparency in the global credit and financial markets. There are also concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance and the trading price of the Equity Shares.

61. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected. Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

62. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

63. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

64. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially

between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business.

Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

65. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business, our future financial performance and the prices of the Equity Shares.

Any other global economic developments or the perception that any of them could occur may continue to have an adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

Overview of Global Economic

Global growth, estimated at 3.2 percent in 2023, is projected to continue at the same pace in 2024 and 2025. The pace of expansion is low by historical standards, owing to both near-term factors, such as still-high borrowing costs and withdrawal of fiscal support, and longer-term effects from the COVID-19 pandemic and Russia’s invasion of Ukraine; weak growth in productivity; and increasing geoeconomic fragmentation. Global headline inflation is expected to fall from an annual average of 6.8 percent in 2023 to 5.9 percent in 2024 and 4.5 percent in 2025, with advanced economies returning to their inflation targets sooner than emerging markets and developing economies. The latest forecast for global growth five years from now at 3.1 percent is at its lowest in decades. The pace of convergence toward higher living standards for middle and lower income countries has slowed, implying a persistence in global economic disparities.

Inflation is declining with rapid rate rises but remains elevated amid Financial Sectors stress

Favorable global supply developments, inflation is expected to fall from an annual average of 6.8 percent in 2023 to 5.9 percent in 2024 and 4.5 percent in 2025. A more front-loaded decline is expected for advanced economies, with inflation falling by 2.0 percentage points in 2024, while it declines in 2025 only in emerging market and developing economies. Advanced economies are also expected to return sooner to rates near their pre-pandemic (2017–19) average, with inflation averaging 2.0 percent in 2025, about a year before emerging market and developing economies are expected to return to their pre-pandemic average near 5.0 percent. The fall in global inflation in 2024 reflects a broad-based decline in global core inflation. This dynamic differs from that in 2023, when global core inflation fell a little on an annual average basis and headline inflation declined mainly on account of lower fuel and food price inflation. In 2024, core inflation is expected to fall by 1.2 percentage points after contracting by just 0.2 percentage point in 2023. As is the case for headline inflation, the fall in core inflation is faster for advanced economies. The drivers of declining core inflation differ by country but include the effects of still-tight monetary policies, a related softening in labor markets, and fading pass-through effects from earlier declines in relative prices, notably in that of energy.

Inflation (and Expectations) in Decline.

The fall in headline inflation since 2022 reflects the fading of relative price shocks—notably those to energy prices—as well as lower core inflation. The decline in energy prices reflects not only increased global energy supply, but also the effects of tight monetary policies. The monetary tightening by central banks in major advanced economies during 2022–23 may have contributed strongly to lowering energy prices owing to its high degree of synchronization and the associated effect on curbing world energy demand. Core inflation has declined as a result of the fading of effects of pass-through from past shocks to headline inflation, as well as because labor market pressures have eased. Pass-through effects include the effects of past relative price shocks—notably those to the price of energy and supply shifts in various industries—on prices and costs in other industries through supply-chain inputs and wage demands.

G20 Emerging Markets in the Global Economy

China’s accession to the World Trade Organization in December 2001 represents a critical turning point for G20 EM integration into the global economy. Since then, the G20 EM share of global trade has increased almost two-thirds faster than that of trade among other countries, promoting global trade and country-wide diversification. In addition, in the two decades since accession, the share of G20 EM goods imports and exports in total goods trade has doubled, whereas foreign direct investment (FDI) from G20 EMs increased from about 6 percent of total FDI in 2005 to about 10 percent just before the pandemic.

Weaker growth in China

A sharper-than-expected slowdown in China would adversely affect global trade as well as commodity and financial markets. The property sector could fail to stabilize if persistent uncertainty holds back prospective buyers, or if mounting financial stress among developers constrain the financing of new projects or force a halt to existing ones. Persistent uncertainty and weak sentiment could hold back household spending and private investment. Against the backdrop of high and rising public and private debt, a sharp slowdown could weaken credit quality and become self-reinforcing, with financial stress exacerbating the challenge of servicing existing debts, generating negative feedback loops to activity. The international spillovers of a sharp slowdown in China could be severe. China’s importance as an export destination has continued to grow in recent decades, especially for EMDEs. At the same time, China has become a much more important source of demand for commodities, notably energy and metals. More recently, the country has emerged as a major consumer of commodities central to the green energy transition. The direct spillovers would be most acute for countries deeply engaged in trade with China—particularly those enmeshed in global value chains with China, including many export-oriented economies in the East Asia and Pacific region. In addition, exporters of commodities in Latin America, notably iron ore and copper, would face particularly adverse effects. Weaker activity in China would also weigh on global energy demand and prices, adversely impacting energy exporters.

Global Economic Outlook

As per the International Monetary Fund (IMF)’s World Economic Outlook April 2024, the world economy continue growing at 3.2 percent during 2024 and 2025, at the same pace as in 2023. A slight acceleration for advanced economies—where growth is expected to rise from 1.6 percent in 2023 to 1.7 percent in 2024 and 1.8 percent in 2025—will be offset by a modest slowdown in emerging market and developing economies from 4.3 percent in 2023 to 4.2 percent in both 2024 and 2025.

Indian Economic Outlook

India's economy has rebounded strongly from the pandemic to become an important driver of global growth. After surging during FY2022/23, headline inflation has, on average, moderated although it remains volatile. Employment has surpassed the pre-pandemic level and the informal sector continues to dominate while formalization has progressed. The financial sector has been resilient, largely unaffected by global financial stress in early 2023. While the budget deficit has eased, public debt remains elevated and fiscal buffers need to be rebuilt. Globally, India's 2023 G20 presidency has demonstrated the country's important role in advancing multilateral policy priorities. GDP growth reached 7.2 percent in FY2022/23, moderating from 9.1 percent in FY2021/22. Growth has been supported by robust consumption stemming from pent-up demand of households and strong investment, with historically high levels of public capital expenditure.

Rooms – Average Monthly Occupancy

Source: FHRAI Hotel Industry Survey 2023, Horwath HTL

- There was a complete occupancy recovery in FY23 over FY20. Infact, for all months barring January 2023 occupancy was higher than corresponding month in FY20. This was an outcome of pent-up demand post Omicron wave and growing travel demand arising out of positive economic conditions.
- There was an impact of pent-up demand on occupancies during the first six months of financial year. Hence, occupancies were higher than typical monthly average. Travel patterns started normalizing in the second half of financial year.

Rooms – Average Monthly Rates

(Source: FHRAI Survey Report 2023, Horwath HTL)

- The higher rates earned in FY2022-23 are actually such as should normally be attached to the quality of several of our hotels and resorts. In that sense, we have earned what is our rightful due, a set of returns that we richly deserve.
- Hotels have achieved re-rating of their products in the eye of the market. The inherent rate willingness of guests is sizeably higher than previously, with the extent of increase dependent upon product, experience, and location.
- There was strong rate growth in 5 Star Deluxe hotels after September 2022 reflecting the price paying capacity of the domestic market. Rates Between September 2022 and March 2023 the ADRs ranged between Rs.10.3 and Rs.15.2k.

Market Segmentation

(Source: FHRAI Survey Report 2023, Horwath HTL)

- Business travel did not fully recover in FY23. Demand from business travel continues to grow.
- Business travel / corporate demand contribution recovered for all segments except 5 Star Deluxe hotels. While 4 star and 3 star hotels had 35%+ share of business demand, share at 5 Star hotels was 26% and 5 Star Deluxe was only 20%. This indicates a slower corporate demand recovery in luxury / premium positioned hotels.
- While there was a reduction in leisure FIT demand share compared to previous year it was partially compensated by the growth in leisure groups demand which was negligible in FY22. It was good to see return of leisure group demand. It is also possible that travel in FY23 was a combination of business and leisure purpose resulting in a significant increase in Other FIT demand as compared to previous year.
- Groups demand remained at similar levels mainly driven by weddings demand. MICE group demand was limited in first half of FY23.

- Airline demand increases with opening up several local markets and international destinations.
- Demand from essential services and quarantine rooms was almost nil as the pandemic situation normalised.

Growth Drivers

- **Rising FDI** - The hotel & tourism sector received a cumulative FDI inflow of US\$ 17.29 billion between April 2000-September 2023. . This constitutes 2.60% of the total FDI inflows across sectors. Carlson Group currently has 94 operating hotels and is planning to add about 30 more hotels by the end of 2023.
- **Infrastructure** - More than half of the Ministry of Tourism’s budget is channelised for funding the development of destinations, circuits, mega projects as well as rural tourism infrastructure projects. Ministry of Tourism has sanctioned financial assistance of around US\$ 76.35 million to States/UTs for infrastructure development under Coastal Circuit theme of Swadesh Darshan Scheme. A total of 48,775 accommodation units have been registered on the National Integrated Database of Hospitality Industry (NIDHI) portal and 11,220 units have self-certified for SAATHI standards in September 2022.
- **Growing Demand** - Domestic expenditure on tourism is expected to rise due to the growing income of households. Several niche offerings such as medical tourism & eco-tourism are expected to create more demand. By 2029, India’s tourism sector is expected to reach Rs. 35 trillion (US\$ 488 billion) with a growth of 6.7% and accounting for 9.2% of the total economy.
- **Policy Support** - In the Union Budget 2023-24: US\$ 290.4 million has been allocated to the Ministry of Tourism. 50 tourist destinations to be developed for providing a wholesome tourism experience under ‘Swadesh Darshan Scheme’. An amount of US\$ 30.25 million has been allocated for the PRASHAD Scheme aiming for holistic development of selected pilgrimage destinations in the country.

and an improvement in profit margins. We also anticipate an increased demand of our banquet halls and rooms from the prospective members of Club.

Intensifying MICE (Meetings, Incentives, Conferences and Exhibitions) business

Prior to COVID-19, our income from banquet halls and for financial year ended March 31, 2019 and March 31, 2020 were ₹ 457.54 lakhs and ₹ 545.34 lakhs respectively. Our business activities were severely hit in financial year ended March 31, 2021 due to COVID-19 and it was reflected by drastic reduction in revenue from our banquet halls to ₹88.13 lakhs. There has been recovery in the business in financial year ended March 31, 2022, March 31, 2023 and December 31, 2023 as the impact of COVID-19 waned and increase in business travel, social events, especially in case of banquet halls where the revenue increased to ₹303.14 lakhs, ₹514.57 lakhs and 367.28 respectively. We anticipate further increase in demand with increased enquiries of banquets from corporates and business networking bodies for conducting conferences, meetings and for social gatherings and events.

Focus on development of rooms

With ease of lockdown restrictions, the demand of rooms resurged in financial year ended March 31, 2023 and March 31, 2024. We may undertake further development of rooms as we anticipate a further increase in demand for rooms with business travel and social events resuming back to pre-pandemic levels. The revenue from room sales will increase with increased bookings and rise in average daily rate of rooms.

Reduce debt and improve profitability

We intend to continue to actively manage our operating costs to improve margins by improving staff productivity and efficiency to reduce payroll costs through optimum utilisation of manpower for various business activities, comprehensive training and performance-linked compensation. We've implemented a thermal storage air conditioning system that transfers the cooling demand to off-peak hours. Additionally, our hot water system operates on the principle of heat exchangers, eliminating the need for geysers and resulting in reduced electricity costs. The company premises have rainwater harvesting system to reduce the external water usage. We have also installed a bio-waste recycling and biogas generation unit for handling wet garbage and protect the environment.

The trademark/service mark and logo in connection with the "CLUB e EMERALD" logo is owned and registered by our Promoter "Chetan Jaswant Mehta" under class 41 of the Trade Marks Act, 1999. INDEPENDENT AUDITORS' REPORT

To the Board of Directors of EMERALD LEISURES LIMITED

Report on the audit of the Financial Results

Opinion

We have audited the accompanying quarterly and annual financial results of Emerald Leisures Limited (the Company) for the quarter ended March 31, 2023 and the year to date results for the period from April 1, 2022 to March 31, 2023, attached herewith, being submitted by the company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us these financial results:

- i. are presented in accordance with the requirements of Regulation 33 of the Listing Regulations in this regard; and
- ii. give a true and fair view in conformity with the recognition and measurement principles laid down in the applicable accounting standards and other accounting principles generally accepted in India of the net loss and other comprehensive income and other financial information for the quarter and year ended March 31, 2023.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 (the Act). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Results section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial results under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

Financial statements for the year ended March 31, 2022 were audited by the predecessor auditor who had expressed an unmodified opinion on those financial statements vide their audit report dated May 30, 2022. We draw your attention to Note 5 to the statement of audited financial results, which explains the impact on the financial results of the Company with respect to restatement of financial results for previous year ended March 31, 2022, and quarters ended March 31, 2022 and December 31, 2022. Our opinion is not modified in respect of this matter.

We also wish to draw your attention to Note 6 to the financial results regarding impairment assessment of non-current financial assets performed by the Company. Based on the assessment performed, the management believes that there is no requirement for impairment of non-current financial assets and therefore no material adjustment is required to the financial statements (or results) for the year ended March 31, 2023. Our opinion is not modified in respect of this matter as well.

Management's Responsibilities for the Financial Results

These quarterly financial results as well as the year to date financial results have been prepared on the basis of the interim financial statements. The Company's Board of Directors are responsible for the preparation of these financial

accordance with the accounting principles generally accepted in India including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rule 2015 (as amended) under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial results, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Results

Our objectives are to obtain reasonable assurance about whether the financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

P G BHAGWAT LLP

- Evaluate the overall presentation, structure and content of the financial results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

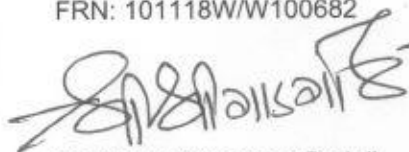

Other Matters

The quarterly financial results for the period ended March 31, 2023 are the derived figures between the audited figures in respect of the year ended March 31, 2023 and the published year-to-date figures up to December 31, 2022, being the date of the end of the third quarter of the current financial year, which were subjected to limited review as required under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Notes to the Financial Statements for the year ended 31st March, 2023

Note 1: SIGNIFICANT ACCOUNTING POLICIES

A. BACKGROUND

The Company is a Public limited Company, domiciled in India and registered with the ROC - Mumbai (Maharashtra) vide Corporate Identification number (CIN) L74900MH1948PLC006791. Registered office of the Company is situated at Plot No. 366/15, Swastik Park, Near Mangal Anand Hospital, off E. Express Highway, Chembur, Mumbai-400071.

The Company is into the business of Club and Sports Complex having sports facilities and other Hospitality Service.

The financial statements for the year ended March 31, 2023 were approved by the Board of Directors and authorised for issue on May 30, 2023.

B. BASIS OF PREPARATION

(i) Compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act. The accounting policies are applied consistently to all the periods presented in the financial statements.

(ii) Historical cost convention, accrual and going concern basis of accounting

The financial statements have been prepared on accrual and going concern basis. The financial statements have been prepared on a historical cost basis, except for the following:

- 1) Certain financial assets and liabilities that are measured at fair value;
- 2) Net defined benefit liability - Measured at present value of defined benefit obligations less fair value of plan assets
- 3) Property, plant and equipment under revaluation model (note 2)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102 and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 inputs are inputs, other than quoted prices included
- Level 3 inputs are unobservable inputs for the asset or liability.

(iii) Current and non-current classification

All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. The Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. Current Assets do not include elements which are not expected to be realised within 1 year and Current Liabilities do not include items which are due after 1 year, the period of 1 year being reckoned from the reporting date.

(iv) Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

C. SIGNIFICANT ACCOUNTING POLICIES

(i) Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation (other than freehold land) and accumulated impairment losses, if any.

All property, plant and equipment are initially recorded at cost. Cost includes the acquisition cost or the cost of construction, including duties and non-refundable taxes, expenses directly related to bringing the asset to the location and condition necessary for making them operational for their intended use and, in the case of qualifying assets, the attributable borrowing costs. Initial estimate of costs of dismantling and removing the item and restoring the site on which it is located is also included if there is an obligation to restore it. First time issues of operating supplies for a new hotel property, consisting of linen and chinaware, glassware and silverware (CGS) are capitalised and depreciated over their estimated useful life.

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Property, plant and equipment under revaluation model (note 2)

Land and buildings are measured at fair value less accumulated depreciation on buildings and impairment losses recognised at the date of revaluation. Valuations are performed with sufficient frequency to ensure that the carrying amount of a revalued asset does not differ materially from its fair value.

The Company has also determined that revaluation as at 31 March 2023 does not differ materially from fair valuation during FY 2014-15. Accordingly, the Company has not revalued the property at 31 March 2023 again.

A revaluation surplus is recorded in OCI and credited to the asset revaluation surplus in equity. However, to the extent that it reverses a revaluation deficit of the same asset previously recognised in profit or loss, the increase is recognised in profit and loss. A revaluation deficit is recognised in the statement of profit and loss, except to the extent that it offsets an existing surplus on the same asset recognised in the asset revaluation reserve.

Depreciation is charged to the Statement of Profit and Loss so as to expense the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method, as per the useful life prescribed in part "C" of Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets had been re-assessed as under based on technical evaluation, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support, etc.

Class of Assets	Estimated Useful life
Freehold Land	Not applicable
Building - Corporate Office	60 years
Hydraulic Pipeline	15 years
Plant & Machinery	5-15 years
Electric Installation	10 years
Office Equipment	2 years
Furniture and Fixtures	8 years
Computers	6 years

The assets' estimated useful lives, residual values and depreciation method are reviewed at the Balance Sheet date and the effect of any changes in estimates are accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss. Proportionate depreciation is charged for the addition and disposal of an item of property, plant and equipment made during the year.

(ii) Intangible Assets

Intangible assets are initially measured at acquisition cost including any directly attributable costs of preparing the asset for its intended use and are carried at cost less accumulated amortisation and accumulated impairment losses.

Intangible assets with finite lives are amortised over their estimated useful life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Intangible assets with indefinite useful lives are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

An intangible asset is de-recognised on disposal, or when no future economic benefits are expected to arise from the continued use of the asset. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in the Statement of Profit and Loss when the asset is derecognised.

(iii) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

Initial Recognition and Measurement

Financial assets are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial assets at initial recognition.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss directly attributable transaction costs. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent Measurement

The Company shall classify financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

1. Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest. Interest income from these financial assets is included as a part of the Company's income in the Statement of Profit and Loss using the effective interest rate method.

2. Financial assets at fair value through Other Comprehensive Income (FVOCI)

Financial assets are subsequently measured at fair value through Other Comprehensive Income if these financial assets are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest.

3. Financial assets at fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on such debt instrument that is subsequently measured at FVTPL and is not part of a hedging relationship as well as interest income is recognised in the Statement of Profit and Loss.

De-Recognition

A financial asset is derecognised only when the Company has transferred the rights to receive cash flows from the financial asset. Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

b. Financial liabilities

Financial instruments with a contractual obligation to deliver cash or another financial assets is recognised as financial liability by the Company.

Initial Recognition and Measurement

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value, plus, in the case of financial liabilities not at fair value, through profit or loss directly attributable transaction costs.

Subsequent Measurement

After initial recognition, financial liabilities other than those which are classified as FVTPL are subsequently measured at amortized cost using the effective interest rate ("EIR") method. Amortized cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The amortization done using the EIR method is included as finance costs in the Statement of Profit and Loss.

De-Recognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

c. Impairment of financial assets

The Company assesses, at each reporting date, whether a financial asset or a group of financial assets is impaired. Ind AS-109 on Financial Instruments, requires expected credit losses to be measured through a loss allowance. For trade receivables only, the Company recognises expected lifetime losses using the simplified approach permitted by Ind AS-109, from initial recognition of the receivables. For other financial assets (not being equity instruments or debt instruments measured subsequently at FVTPL) the expected credit losses are measured at the 12 month expected credit losses or an amount equal to the lifetime expected credit losses if there has been a significant increase in credit risk since initial recognition.

(iv) Income Taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the current and deferred tax are also recognised in Other Comprehensive Income or directly in equity, respectively.

(a) Current tax

Current tax expenses are accounted in the same period to which the revenue and expenses relate.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

(b) Deferred tax

Deferred tax is provided using the balance sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

- Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(v) Inventories

Real estate stock-in-trade valued at cost of land including the accretion to its value on change in its character from 'capital assets' to 'trading assets' plus development expenses incurred to date, or net realizable value, whichever is lower.

Stock of food and beverages and stores and operating supplies are carried at the lower of cost (computed on a Weighted Average basis) or net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and selling expenses. Cost includes the fair value of consideration paid including duties and taxes (other than those refundable), inward freight, and other expenditure directly attributable to the purchase. Trade discounts and rebates are deducted in determining the cost of purchase.

(vi) Cash and Cash Equivalents:

Cash and cash equivalents in the Balance Sheet and cash flow statement includes cash at bank, cash, cheque, draft on hand and demand deposits with an original maturity of less than three months, which are subject to an insignificant risk of changes in value.

(vii) Retirement and other employee benefits

a. Short-Term-Employment Benefits

The costs of all short-term employee benefits (that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service) are recognised during the period in which the employee renders the related service. The accruals for employee entitlements to benefits such as salaries, bonuses and annual leave represent the amounts which the Company has a present obligation to pay as a result of the employee's services and the obligation can be measured reliably. The accruals have been calculated at undiscounted amounts based on current salary levels at the Balance Sheet date.

b. Post-Employment Benefits

Defined Benefit Plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Defined Contribution Plans

Contributions to the provident fund and superannuation fund, which are defined contribution schemes, are recognised as an expense in the Profit and loss account in the period in which the contribution is due.

c. Long Term Employee Benefits

Long term employee benefits comprise of compensated absences and other employee incentives. These are measured based on an actuarial valuation carried out by an independent actuary at each Balance sheet date unless they are insignificant. Actuarial gains and losses and past service costs are recognised immediately in the Profit and loss account.

(viii) Revenue recognition

Revenue is recognised at an amount that reflects the consideration to which the Company expects to be entitled in exchange for transferring the promised goods or services to a customer i.e. on transfer of control of the goods or service to the customer. Revenue from sales of goods or rendering of services is net of Indirect taxes, returns and variable consideration on account of discounts and schemes offered by the Company as part of the contract.

Income From Operations

Rooms, Food and Beverage & Banquets

Revenue is recognised at the transaction price that is allocated to the performance obligation. Revenue includes room revenue, food and beverage sale and banquet services which is recognised once the rooms are occupied, food and beverages are sold and banquet services have been provided as per the contract with the customer.

Membership Fees

Membership fee income majorly consists of Club membership fees. In respect of performance obligations satisfied over a period of time, revenue is recognised at the allocated transaction price on a time-proportion basis.

Refundable Membership Fees received are not credited to Profit and Loss but are recognised as financial liability and measured at amortised cost. The same are shown as Refundable Membership Deposits under Financial Liabilities in the Balance Sheet.

Sharing Fees

- Sharing Fees income consists of income received from gain sharing arrangements for Spa and Gym fees. Revenue is recognised at the transaction price that is allocated to the performance obligation.

Tower Rental & Maintenance

Rentals basically consist of rental revenue earned from letting of spaces for tele-communication towers at the property. These contracts for rentals are generally of long-term in nature. Revenue is recognised in the period in which services are being rendered.

Other Allied Services

In relation to laundry income, communication income and other allied services, the revenue has been recognised by reference to the time of service rendered.

(ix) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in the statement of profit or loss in the period in which they are incurred.

(ix) Earnings Per Share

Basic earnings per share is computed by dividing the profit/ (loss) after tax by the weighted average number of equity shares outstanding during the year adjusting the bonus element for all the reported period arising on account of issue of equity shares on rights and including potential equity shares on compulsory convertible debentures. Diluted earnings per share is computed by dividing the profit/ (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share.

(x) Provisions and Contingencies

A Provision is recognized when the Company has a present obligation as a result of a past event and it is probable that an outflow of resources is expected to settle the obligation, in respect of which a reliable estimate can be made.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability is disclosed in case of

- (a) present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation.
- (b) present obligation arising from past events, when no reliable estimate is possible
- (c) a possible obligation arising from past events where the probability of outflow of resources is not remote.

Contingent assets are neither recognized, nor disclosed.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

IX Risk Exposure And Asset Liability Matching

Provision of a defined benefit scheme poses certain risks, some of which are detailed hereunder, as companies take on uncertain long term obligations to make future benefit payments.

Liability Risks

a) Asset-Liability Mismatch Risk-

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the company is successfully able to neutralize valuation swings caused by interest rate movements. Hence companies are encouraged to adopt asset-liability management.

b) Discount Rate Risk-

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practise can have a significant impact on the defined benefit liabilities.

c) Future Salary Escalation and Inflation Risk -

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

Unfunded Plan Risk

This represents unmanaged risk and a growing liability. There is an inherent risk here that the company may default on paying the benefits in adverse circumstances. Funding the plan removes volatility in company's financials and also benefit risk through return on the funds made available for the plan.

The fair value of the financial assets and liabilities are included at the amount at which the instrument that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

* The company has not disclosed the fair values of trade payables, trade receivables and cash and cash equivalents because their carrying amounts are reasonable approximation of fair value.

† Fair value of security deposit (non-current) is estimated using a discounted cashflow model. The valuation requires management to make certain assumptions about interest rates, maturity period, credit risk, forecasted cash flows etc.

The following table provides the fair value measurement hierarchy of Company's assets and liabilities grouped into Level 1 to Level 3 as described in significant accounting policies - Note 2. Further, table describes the valuation techniques used, key inputs to valuations and quantitative information about significant unobservable inputs for fair value measurements.

Note 35 - Non-Cumulative Redeemable Preference Shares

The Company had issued non-cumulative redeemable preference shares amounting to Rs. 4000.00 Lakhs and Rs. 1000 Lakhs during the financial year 2017-18 and 2019-20 respectively. The Company did not account for the fair value gain on initial recognition and unwinding of interest cost associated with the issuance of these non-cumulative redeemable preference shares. During the current financial year, the Company has restated the opening numbers as at April 01, 2021 and has appropriately accounted the fair value gain on initial recognition and unwinding of interest cost on these redeemable preference shares amounting to Rs. 3072.26 lakhs and Rs. 634.06 lakhs respectively. Further, the Company during the year has also restated the results for the year ended March 31, 2022 along with Quarter ended March 31, 2022 and December 31, 2022 on account of recognition of proportionate unwinding of interest cost related to these redeemable preference shares of Rs. 262.18 lakhs, Rs. 65.54 lakhs and Rs. 72.10 lakhs respectively.

Note 36 - Going Concern Assumption

Due to historical financial performance of the Company, the management performed detailed going concern assessment and also assessed whether there is any requirement for impairment of non-financial assets of the Company as on March 31, 2023 as per Ind AS 36 - Impairment of Assets. For this purpose, the management obtained fair valuation report of the business for the purpose of computation of recoverable value of Cash Generating Unit (CGU) as per the requirement of Ind AS 36. Since the recoverable value of CGU is higher than the carrying cost, the management believes that there is no requirement for impairment of non-current financial assets. Further based on the evaluation of external and internal information available with the Company, future business projections prepared, no instances of default in paying current liabilities (including repayment of borrowings from banks and interest thereon), continued financial support from the promoters till March 31, 2023 along with the letter of support received from the promoters as on March 31, 2023, the management believes that the company will be able to meet its liabilities existing at the date of balance sheet (i.e. March 31, 2023) as and when they fall due within a period of one year from the balance sheet date and no material uncertainty exists about the entity's ability to continue as a going concern. Therefore considering aforementioned factors, the management believes that there is no requirement for impairment of non-financial assets as on March 31, 2023 and therefore no material adjustment is required to the financial statements for the year ended March 31, 2023.

1. We have reviewed the accompanying Statement of Unaudited Financial Results of Emerald Leisures Limited (“ELL” or “the Company”) for quarter ended December 31, 2023 (“the Statement”) being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (“Listing Regulations”).
2. This Statement, which is the responsibility of the Company’s Management and approved by the Company’s Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 “Interim Financial Reporting” (“Ind AS 34”), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”, issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedure applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement prepared in accordance with applicable accounting standards and other recognized accounting practices and policies has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Emphasis of Matter

5. We wish to draw your attention to Note 4 to the unaudited financial results regarding impairment assessment of non-current financial assets performed by the Company. Based on the assessment performed, the management believes that there is no requirement for impairment of non-current financial assets as on December 31, 2023, and therefore no material adjustment is required to the financial results for the quarter ended December 31, 2023. Our opinion is not modified in respect of this matter.

(“**Accused**”) before the Hon’ble Court of the Learned Additional Chief Metropolitan Magistrate’s 11th Court at Kurla, Mumbai (“**MMC**”). The Complainant states the Accused No. 1, i.e. ELL cheated the shareholders (which includes the Complainant) and misappropriated the property of ELL by selling it under value to Accused No. 6 (Metalores Private Limited) wherein Accused No. 2 and 4, being directors of the ELL were also directors of Accused No. 6. Order was passed by the MCC on September 13, 2017 to issue process against Accused

for the offence punishable under section 420 and 406 of the Indian Penal Code. The matter is listed for further hearing on March 7, 2024.

However our Company has filed Criminal Revision Application No. 107 of 2018 before the Hon'ble Court of Sessions at Mumbai against Nahalchand Laloochand Private Limited and the State of Maharashtra seeking order to recall, quash and set aside the above mentioned Order as the same Hon'ble Court has erred in passing such Order when there is no sufficient evidence against the Accused and that the matter involved in it is of civil nature. The matter is pending for hearing before the City Sessions Court, Mumbai on April 26, 2024.

- i. Interim Application of 2023 (the “**IA**”) was filed by our Company (“**Applicant**”) in Writ Petition (L) No. 8386 of 2022 in the matter between Chembur Ekta CHS SRA (Proposed)(“**Petitioner**”) versus the State of Maharashtra & Ors. (“**Respondents**”) in the Hon'ble High Court of Bombay. Our Company in the IA stated that it is the owner of the land admeasuring 4045.5 sq.mtrs at CTS No. 366/41 (part of) of village Chembur, opposite Swastik Park, Mumbai 400 074 (“**Plot**”). The Company further stated that the Petitioner played fraud on the Company by illegally executing a conveyance deed of the said Plot. Further, by virtue of the said Writ Petition, the Petitioner actually intends to implement an illegal Slum Rehabilitation Scheme with respect to the Plot, which admittedly does not belong to the Petitioner and which are not declared as slums in accordance with provisions of the relevant acts. The Company has preferred the IA for the purpose of getting added as an Applicant and is seeking to intervene in the matter to place on record the true and correct facts and for the purpose of seeking dismissal of the said Writ Petition. The matter remains pending as on date of this Draft Letter of Offer. However, it is to be noted that the litigations are pertaining to plots other than the one where our Club is located and does not affect operation/business of our Club in any manner.

The said matter is not primary to the business of our Company, neither our hotel/club is not located on the Suit Property. However, the Company has been made a party as Respondent No. 6 to the said WP as the Suit Property is owned by the Company and the Company was appointed as Owner-cum-Developer to implement the S.R. Scheme to rehabilitate all eligible occupants/ slum dwellers residing on the Suit

Property. The Company is willing and ready to implement the S.R. Scheme. However Respondent 4 is not issuing the required certificate and hence depriving the Petitioners the statutory right of rehabilitation. Presently, the said WP is in the pre-admission stage and was listed for urgent hearing on October 4, 2023. The matter remain pending as on date of this Draft Letter of Offer.

- iii. Suit No 2189 of 1996 has been filed in the Hon'ble High Court of Bombay against the Company (“**Defendant**”) by Vikas Narayan Raikar (“**Plaintiff**”) claiming additional FSI of 1992.50 sq.feet on CTS No 366/46 (Old CTS No 366/13) which was allotted to the Plaintiff for redevelopment during the year 1979. In the case of joint holding, the beneficiary account should be opened carrying the names of the holders in the same order as registered in the records of our Company). In case of Investors having various folios in our Company with different joint holders, the Investors will have to open separate accounts for such holdings. Those Investors who have already opened such beneficiary account(s) need not adhere to this step.

Investors should ensure that the names of the Investors and the order in which they appear in Common Application Form should be the same as registered with the Investor's depository participant.
4. If incomplete or incorrect beneficiary account details are given in the Common Application Form, the Investor will not get any Rights Equity Shares and the Common Application Form will be rejected.
5. Allotment advice, refund order (if any) would be sent directly to the Applicant by email and, if the printing is feasible, through physical dispatch, by the Registrar but the Applicant's depository participant will provide to him the confirmation of the credit of such Rights Equity Shares to the Applicant's depository account.
6. Non-transferable Allotment advice/ refund intimation will be directly sent to the Investors by the Registrar, by email and, if the printing is feasible, through physical dispatch.
7. Renounees will also have to provide the necessary details about their beneficiary account for Allotment of Rights Equity Shares in this Issue. In case these details are incomplete or incorrect, the Application is liable to be rejected.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the Foreign Investment Promotion Board (“**FIPB**”). Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Policy**”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

The Rights Equity Shares purchased by non-residents shall be subject to the same conditions including restrictions in regard to the repatriation as are applicable to the original Equity Shares against which Rights Equity Shares are issued on rights basis. The above information is given for the benefit of the Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Letter of Offer.
