Dear Sirs,

Sub: Press Release – Waste Heat Recovery Plants.

In continuation of our communication dated 13th September 2020, providing you the Press Release on commissioning of Phase I of Waste Heat Recovery Plant at our Jayanthipuram plant, we are pleased to inform you that we have now commissioned the Phase II of Waste Heat Recovery Plant at our Jayanthipuram plant.

In this connection, we enclose a copy of the Press Release of even date.

Thanking you,

Yours faithfully,

For **THE RAMCO CEMENTS LIMITED,**

K.SELVANAYAGAM
SECRETARY

Encl: as above

PRESS RELEASE

In our Jayanthipuram Plant, we had plans to install 27 MW of Waste Heat Recovery Plants in all the three lines of clinker manufacturing, including the proposed Third Line, which is nearing completion.

The Phase I of the Waste Heat Recovery Plant of 9 MW capacity was commissioned in September 2020 and is producing its full capacity. The Phase II of 9 MW capacity has been completed and commissioned on 28th February 2021. The Phase III of 9 MW is scheduled to be commissioned, after commissioning of the Line III of the clinkerisation plant.

With the commissioning of Phase II of Waste Heat Recovery Plant, 60% of the existing power requirement upto clinkerisation will be met from Waste Heat Recovery Plants, an environment friendly source of power. Besides reducing the power cost significantly, our investment in Waste Heat Recovery Plants, demonstrates our commitment towards Environmental, Social and Governance initiatives.

The project cost for all the 3 phases of waste heat recovery plants is Rs.220 crores. With the commissioning of Phase I & II, we have reduced around 15 MW of power which was supplied from thermal power plant.
