Kindly take the same on record.

Thanking You,

Yours faithfully,
For, Mehta Securities Limited

Mahesh Moteevaras
Company Secretary

Changing weather threatens entire ecosystems

Extreme heat that has never been experienced in the last five hundred and seven hundred years, torrential rains, four feet of snowfall, terrible destructive floods, monstrous storms that weather agencies have not imagined... Recently, more than one natural disaster has been seen in countries around the world. On the one hand, the raging wildfires raging in the Amazon forests, on the other hand severe floods in some areas including California in America, forest fires in Australia on one hand and floods caused by heavy rains on the other hand. Countries in Europe are fine, the recent

floods in Saudi Arabia, surrounded by vast deserts, stunned the people who have lived there for centuries. In July last year, thousands of people from the Gironde region of France were forced to evacuate. At the same time, thousands of families had to move to safer places in the United States. If this is the case in rich countries like America, France and Australia, one can imagine how pathetic the situation is in developing countries like India, Pakistan, Sri Lanka or poor countries like Africa. In the past year 2022, millions of people, tired of natural calamities, were dying to find

shelter in safer areas. But where to go. There were incidents where nature had gone awry. Ecosystems were forced to adapt to the changing climate. According to an estimate, at least ten crore people were forced to leave their homes and settle elsewhere in the year 2022. Whether it is increased pollution or deforestation, whatever the reason, everyone is forced to note that there has been a drastic change in the climate around the world. Flooding occurred everywhere due to the melting of huge glaciers. Environmental experts say that given the way temperatures are rising, more than a billion people will have to either migrate or adapt to a changed climate in the near future. Some

countries will experience droughts like never before. Environmentalists also predict that food supplies and vegetables will be stretched. On the one hand, there were signs that nature has gone wild, on the other hand, the prophecies of Nostradamus and Vengababa instilled a sense of fear in mankind. A section of experts believe that atmospheric oxygen has depleted and carbon dioxide is increasing alarmingly. Due to pollution and overcrowding, cities do not get enough oxygen. As a result, apart from respiratory diseases, various types of cancer, new diseases are increasing. On the other hand, due to increase in population, the problem of waste water disposal is becoming rampant due to

cutting of trees and construction of skyscrapers. The water level of the oceans is rising. Just one example is the bus, Hafiz Contractor, one of the best architects of Asia, had predicted some time ago that the financial capital of India is an ocean surrounded by the same metropolis, Mumbai. If the ocean swells, it takes only two minutes for the stormy waves of the ocean to reach from Girgam Chopati to Masjid Bandar. In the blink of an eye, unimaginable destruction can occur. This matter is not only Mumbai. According to experts, there is a fear that the sea will turn again on most of the cities of the world that are located on the coast of the ocean. Talking about Gujarat, for the last few years in Valsad Vapi etc. areas of

Protect Your Children, Family and Yourself

You can read any newspaper, look at your TV or listen to your radio about so many stories of crime, school

shooting, child abduction, child molester, children kidnaped, bullies at school, sex trafficking, home invasion murder, rape, abused, robbery, war and terrorism. Sex trafficking is human trafficking for the purpose of sexual exploitation. It has been called a form of modern slavery because of the way victims are forced into sexual acts non-consensually, in form of sexual slavery. Perpetrators of the crime are called sex traffickers or pimp, people who manipulate victims to engage in various forms of commercial sex with paying customers. Sex traffickers use force, fraud, and coercion as they recruit, transport, and provide their victims as prostitutes.

School shooting an attack at an educational institution, such as a primary school, secondary school, high school or university, involving the use of firearms. Many school shootings are also categorized as mass shootings due to multiple casualties. Remember the Parkland school massacre where Nikolas Cruz killed 14 students and three staff members on February 14, 2018. School bullying, like bullying outside the school context, refers to one or more perpetrators who have greater physical strength or more social power than their victim repeatedly by acting aggressively toward their victim. Bullying can be

verbal or physical. Bullying with its ongoing character, is distinct from one-off types of peer conflict. Different types of school bullying include ongoing physical, emotional, and/or verbal aggression. Cyberbullying and sexual bullying are also types of bullying. Bullying even exists in higher education. Child abduction or child theft is the unauthorized removal of a minor (a child under the age of legal adulthood) from the custody of the child's natural parents or legally appointed guardians. Home invasion, also called a hot prow burglary, is a sub-type of burglary (or in some jurisdictions, a separately defined crime) in which an offender unlawfully enters into a building residence while the occupants are inside. The overarching intent of a hot prow burglary can be theft, robbery, assault, sexual assault, murder, kidnapping, or another crime, either by stealth or direct force.

The list goes on and on. Don't you think it's about time we go the way of crime. Check out SPYERA Parental Control Software, that gives parents the peace of mind that their children are safe. SPYERA is a powerful monitoring app that you install on your child's phone, computer, or tablet to keep them safe from online predators, in appropriate content, and cyberbullies.

invention has had more success over the years, in the cellular world

Have you ever asked yourself, what the world would be like if there weren't any mobile applications. Society is impacted by the new development in technology daily. Someone is always claiming that their inventions will revolutionize the world, but no invention has had more success over the years, in the cellular world than mobile applications. People all around the world use millions to billions of applications daily for personal and business uses. For example, social networking which is used by all generations of people. It has an influence the way we purchase cell phones, in order to have the capability. With the creation of different smartphones and tablets, comes the demand for more mobile applications. More competition among application builders. Mobile applications are designed to its user making their experience less complicated. Mobile applications have their own advantages and disadvantages, depending on its design and designer. They can be created to be very simple or complex, depending on its intended

function. Has society benefited from the usages of mobile applications or is it just a distraction. What impact do mobile applications have on society. Mobile application is a very aggressive market, there are hundreds of platforms to choose from when designing applications. There are several platforms that currently dominate over other platforms. The Android platform is very popular, it's one of the most preferred platforms for building applications. Most of its applications are built using JAVA software, but there are others software th Mobile Application Trendnd the Impact on Mobile Platforms. Retrieved February 25, 2014, from http://www.esher.com/section/design-guide/The iPhone's App Store has revolutionized the cell phone industry. The app store was launched in the summer of 2008. Since then it has more than 140,000 apps and those apps have been downloaded over 3,000,000,000 times. The app store's influence is huge and it only continues to get bigger and bigger. The app

store provides an outlet for developers to market additional games and utilities to consumers. Applications, or apps for short, add different features to a phone that allow it to be utilized in a multitude of different ways. Some apps are completely software free and offer a free software development kit. The kit as equal or greater. Java consists of sample applications, source codes, developer tools, and emulators...useless, while others actually have a purpose. Some apps are free while others cost money. The concept of a market that adds applications to a phone is something that has only just recently caught on, but as the industry grows, everyone wants in on the action. The app store has made people realize that they can buy cell phones they want more than just a phone. They want a device full of features and they want those features to come at a cheap price or for free. The app store is encouraging the American way of always wanting to have the latest and greatest products. The app store also shows the short attention span of Americans. mobile_platform_trends.html

The Best Outbound Calling Software for Businesses

Outbound calling remains one of the most powerful and effective marketing strategies for businesses. The only problem is that it has been a bit of a challenge for businesses to get the most out of their call campaigns. Whether you operate a B2B or B2C business, it's essential that you have access to tools that will help your business stand out from competitors. Outbound calling software can be challenging to implement and comes with many different variables to

consider, but once you get the hang of it, it can be incredibly helpful tool in connecting with prospects and building relationships. This blog article is designed to cover everything you need to know about using outbound calling software for your business. Check out these insights on what is outbound calling software, How to Use Outbound Calling Software, Why Should Businesses Use Outbound Calling Software?, and then read our recommendations on

the best outbound calling software for your business. What is an Outbound Calling Software? Outbound calling software is a type of software that allows users to make phone calls to a list of contacts automatically. It is often used for telemarketing, customer service, and lead generation. It typically includes features such as automated call dialing, call recording, and call analytics. Some outbound calling software also includes additional tools such as lead

48kg ganja seized in a day, four held

RAJKOT: A total of 48kg ganja worth Rs 5 lakh was seized in two separate cases lodged with Bhaktinagar police and the Rajkot special operations group (SOG) on Friday. Bhaktinagar police arrested two persons with 20kg of marijuana near Kothariya crossroads. The accused, Balvir Ahirval (19) and Mahesh Babariya (18), were going to deliver the contraband to Shabana Bukhari in the industrial Shapur-Veraval area. They

had earlier worked as carriers to bring drugs from Surat. Bukhari was also booked in a drugs case earlier. In another seizure, Rajkot special operations group (SOG) caught two people with 28kg of ganja worth Rs three lakh on the Ahmedabad highway near Bamanbore. The two caught were Mohammed Yasin alias Asif Qureshi, 42, a native of Bhavnagar, and Budhesh Pandit, 33, from Shapur. A woman named Jayna

દુર પર જાવ છો? સામાન બરાબર પેક

દેકનના પરિવારમાં આવવાજાવનું ચાલતું જ રહેતું હોય છે. પરંતુ કોઈ યાત્રા અથવા મુસાફરીમાં જ્યારે પરિવારના બધા સભ્યો જતા હોય ત્યારે પેકિંગ કરવાનું માથાનો દુખાવો બની જાય છે.
શું લઈ જવું? શું મૂકવું જવું? એ ચિંતા સમત રહેતી હોય છે. સામાનને બેગમાંથી કાઢવામાં આવે છે પછી મૂકવામાં આવે છે, પરંતુ જો યાત્રા નાખીને પેકિંગ કરવામાં આવે તો પ્રવાસનો આનંદ બમણો માણી શકાય છે.

ઓન લાઈન શોપિંગ બાદ ઈનામ લાગવાના બહાને છેતરપિંડીના કિસ્સા

ડીજિટલ યુગમાં ભારત મુકમબેર પ્રવેશ્યું છે પરંતુ કમનસીબી એ છે કે ડીજિટલ યુગ સાથે હજુ જુના અને ખટ્ટ સર્કારીઓ કદમ મોલાવાના નથી. રાજ્ય સરકાર ભૂખે ડીજિટલાઈઝેશન તરફ લઈ જવા માગે છે. સુજરાત સ્ટેટ ટેક ટ્રાન્સપોર્ટમાં ઓનલાઈન બુકિંગની વ્યવસ્થા પણ ગોઠવવાઈ છે પરંતુ જ્યારે સરકારી ટીકીટ બુક કરાવનારના પૈસા ડુબે છે.
ઓનલાઈન બુકિંગની આ સરકારી સાઈટ પ્રાઈવેટ બસ માટે ઉપયોગમાં આવે તે રીતે તૈયાર કરાઈ છે. ટૂંકમાં પ્રાઈવેટ બસોનું બુકિંગ કરતી છે. ટૂંકમાં પ્રાઈવેટ બસોનું બુકિંગ કરતી છે. ટૂંકમાં પ્રાઈવેટ બસોનું બુકિંગ કરતી છે. ટૂંકમાં પ્રાઈવેટ બસોનું બુકિંગ કરતી છે.

મહાનગરોમાં વધતી બેરોજગારી

પચાસથી વધુ દેશો આનો ભોગ બની ચુક્યા છે. ભારતથી અર્થતંત્રની હાલત બિચારા થવા તરફ છે, પરંતુ બેરોજગારીની હાલત નોકરી પણ ઘટાડામાં જાય છે. ભારતીય અર્થતંત્ર માટે પ્રાર્થના કરી શકાય, પરંતુ સમય આપ્યો છે જેમાં નોકરી મોળવા માવા સિવાય બીજું કોઈ રસ્તો નથી.
