Sub: Company Update – Closure of Kandla Plant

Dear Sir/Madam,

We wish to inform you that the Company has close Kandla Plant from 01/01/2025 due to following reason:

1. The Government of Gujarat's recent restrictions on the use of imported bitumen within the state have severely impacted operations.
2. Nearby new developments have led to the closure of drainage systems, causing waterlogging and water seepage into the property.
3. Procuring raw materials at viable prices has become increasingly challenging in the surrounding areas.
4. Frequent power supply fluctuations have forced operations to rely on generators, significantly increasing production costs.

This is for your kind information.

Thanking you,

Yours faithfully,

For Omnipotent Industries Limited
