**TRIGYN JOINING AS THE 6TH PLATINUM MEMBER THE HIGHEST FIWARE MEMBERSHIP LEVEL
OF FIWARE FOUNDATION E.V.**

Mumbai – May 21, 2019

We are pleased to inform that Trigyn Technologies Ltd Joining as the 6th Platinum Member the highest FIWARE membership level of FIWARE Foundation e.V. Trigyn makes now part of the Board of Directors and the Technical Steering Committee to take an active role in the definition and implementation of relevant standards at general and domain-specific levels. This includes a strategic role in the Foundation's decision-making authorities, thereby contributing to the development, standardization and promotion of the FIWARE technologies with the focus of accelerating Smart City, one of the four major FIWARE verticals. Trigyn is the first Indian company to become a FIWARE platinum member.

Trigyn will support driving the adoption of FIWARE in Europe and countries like the United States, Canada and India and pushing open standards and the open service platform enabling a global innovation-driven ecosystem and accelerating the development of IoT-enabled Smart City businesses.

With more than 1,500 professionals, Trigyn operates in the fields of consulting, managed services, custom solution development, re-engineering, maintenance and support, migration, integration services, web-based solutions, mobile, responsive sites, enterprise content management, and open source solutions. These offerings include a focus on the IoT and AI.

Trigyn believes in a strong partner ecosystem that creates value for its clients through innovative solutions and making a clear difference for Smart Cities by assisting its clients in achieving their visions, goals and organizational objectives. The company has also been developing eGovernance, command and control and security monitoring solutions for banks and cities. By joining the FIWARE Foundation, Trigyn aims to strengthen its overall offering for existing as well as new customers and offer more versatile, highly customizable and reasonably priced overall solutions.

“We have been seeing the growing trend not only in India but globally towards the adoption of open source and universally interoperable solutions based on open and widely accepted standards”, said Dr. Bhaskar Sanyal, Head of Trigyn Europe and Executive Director of Trigyn Technologies Schweiz GmbH. “FIWARE Foundation has done excellent work in creating the NGSI-LD standard and reference implementation of the platform. We are looking forward to a long-lasting collaboration to enhance its offering in the field of Digital Services Platform solutions based on the FIWARE software components in order to offer versatile, universally interoperable and customizable solutions. We are also eager to share our learnings of more than 25 years in the Indian IT industry with the FIWARE ecosystem. We are so convinced of FIWARE, that we have already started working with FIWARE partners to build expertise in Trigyn.”

Ulrich Ahle, CEO of the FIWARE Foundation further added: “The FIWARE ecosystem is rapidly growing on a global scale. With its ambitious 100 Smart Cities program, India is a region where FIWARE can generate tremendous value. In this regard, Trigyn Technologies is an important partner for the FIWARE Foundation in India and also internationally. We are looking forward to further strengthening our ties also with the Indian ecosystem and are welcoming Trigyn Technologies in this fast growing community”
