MERCOM CAPITAL 2020 REPORT Corp funding to solar sector up 24% globally

FE BUREAU Kolkata, January 15

CORPORATE FUNDING TO the solar sector globally, including venture capital (VC) private equity (PE) debt financing, and public market financing, totalled \$14.5 billion in 2020 — a 24% increase compared to \$11.7 billion in 2019, a Mercom Capital Group report said.

private equity funding in the solar sector in 2020 came to \$1.2 billion through 41 deals, compared to \$1.4 billion through 53 deals in 2019. Of the \$1.2 billion in VC/PE funding raised, \$1.1 billion went to 27 solar down-stream companies, which accounted for 90% of total VC funding in 2020. Solar service providers raised \$61 million; PV companies raised \$17 million; Balance of System (BOS) companies brought in \$15 million; thin-film technology companies raised \$15 million, and concentrator photovoltaics (CPV) companies raised \$5.5 million.

The top VC-funded companies in 2020 were Ayana Renewable Power raising \$390 million, Silicon Ranch Corporation bringing in \$225 million, Brighter raising \$76 million, Sun-sep Group raising \$72 million

and Aurora Solar and Zero Mass Water, each raising \$50 million. There were 102 VC and PE investors that participated in funding deals in 2020, with five involved in multiple rounds. Public market financing was up 101%, with \$5.1 billion in 2020. Array Technologies raised \$1.2 billion in its initial public offering in the fourth quarter of 2020.

In 2020, announced debt financing came to \$8.3 billion, a 6.4% increase year on year. Eight securitisation deals totalling \$2.2 billion were recorded in 2020, the largest amount of financing through securitisation in a year. Top investors in large-scale projects during the fourth quarter of the calendar year were Societe Generale, which invested in five projects, Sumitomo Mitsui Banking Corporation, which invested in four projects, Credit Agricole, European Bank for Reconstruction and Development (EBRD), and Inter-American Investment Corporation (IDB Invest), each investing in three projects.

Sixty-two merger and acquisition deals were transacted in the solar sector in 2020 compared to 65 in 2019.

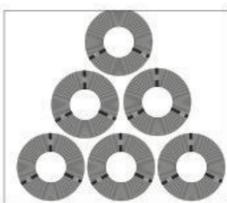

Govt exhorts domestic steel makers to be more competitive

PRESS TRUST OF INDIA New Delhi, January 15

THE GOVERNMENT HAS exhorted domestic steel makers to become more competitive locally as also in export markets besides developing newer products for use in industrial and construction sectors.

In the upcoming Budget, the steel makers are expecting relaxation in basic custom duty (BCD) levied on raw materials like coking coal, anthracite coal, graphite, electrode, limestone and dolomite etc. At a conference organised by Indian Steel Association (ISA) on Friday, Union steel minister Dharmendra Pradhan said domestic steel manufacturers should focus on increasing production of finished steel while reducing imports and increasing exports.

“I expect this from the ISA that when we hope for a tax restructuring from someone, we must increase production, become more competitive, increase exports and minimise import. The Finance Department gets some amount as revenue (on import of steel making raw materials). It must be filled with confidence that when the manufacturing line will be in our country the government can earn more (revenue by means of tax),” he said.

“We need to increase our consumption. When volume increases, we (industry) will be able to contribute more to the country. Then the Finance Department will take interest in the reforms we are expecting,” the minister said. Citing the example of Japan,

Pradhan said the island country is an exporter of finished steel. It is a global supplier of steel for segments like automobile, electronics, big infrastructure etc.

When Japan was able to make a global market for itself “why can’t we (Indian steel players),” the minister stressed.

Minister of state for steel Fagga Singh Kulaste said the domestic per capita steel consumption at 74 kg is lower compared to the global average consumption. It is one-third of the global average per capita steel consumption, he said. Kulaste asked the ISA, which is the apex body for steel makers in India, to draw a roadmap to increase

ways of increasing steel consumption both in urban and rural areas of the country, and submit it with the ministry.

At the conference attended by domestic and international participants, additional steel secretary Rasika Chaube said with government’s enhanced thrust on ‘Make in India’ and focus on ‘Aatmanirbhar Bharat’ mission, a host of opportunities are in the offing for Indian steel sector as well as for the downstream industries.

The government has earmarked ₹102 lakh crore for the infrastructure projects in the country over the next 5 years, she said.

Police release Arnab-BARC CEO WhatsApp chats showing ‘nexus’

EXPRESS NEWS SERVICE Mumbai, January 15

ASUPPLEMENTARY CHARGESHEET filed by the Mumbai Police in the alleged TRP scam case containing over 200 pages of WhatsApp conversations appears to show Republic channel editor Arnab Goswami offering to use political connections at the highest levels to fob off complaints by the National Broadcasters’ Association (NBA) against the Broadcast Audience Research Council (BARC), and telling the BARC Chief Executive Officer that he has “personally conveyed” the latter’s concerns to the PMO.

The supplementary chargesheet was filed on January 11 against three persons, including former BARC CEO Partho Dasgupta, for allegedly helping show higher TRPs for Republic Media and other channels. An earlier chargesheet had named 12 persons and six channels as having

paid money for allegedly boosting their TRPs.

The Crime Investigation Unit (CIU) of the Mumbai Police has alleged that Dasgupta, whose association with Goswami goes back to the time when both worked at Times Now, ensured that the two Republic News channels had the highest TRPs in the news segment.

The police have included the WhatsApp chats between Dasgupta and Goswami in the supplementary chargesheet to show the alleged nexus between the head of BARC, which has a mandate to calculate TRPs on the basis of which advertisement rates for TV channels are decided, and the Republic TV editor.

The police have said that the investigation is going on and a second supplementary chargesheet will soon be filed in the case.

In the chats, the BARC CEO appears to be trying to fend off

The supplementary chargesheet was filed on January 11 against three persons, including former BARC CEO Partho Dasgupta, for allegedly helping show higher TRPs for Republic Media and other channels

complaints against it by talking of “favours” done to the BJP, and Goswami apparently offers to help with the highest office in the country, as well ministers and other powerful personalities, including one ‘AS’.

In a conversation dated April 4, 2019, the man identified as Dasgupta speaks about facing trouble from the Telecom Regulatory Authority of India (TRAI) after complaints by some news channel owners. He tells Arnab, “Can you help by telling AS to tell TRAI to pipe down on barc?”

Arnab: I can send a message... Dasgupta: Can you text AS and get TRAI rapped?

Arnab: Can you give me three points why TRAI action is working against AS interest? Politically.

Dasgupta: With channels getting blacked out, impact of messaging on TV will reach lesser people and hence diluted impact... If their (cable operators) interest is hurt they can

take a tough stand against government, monthly cost of TV subscription going up can have backlash on government, public anger... This helps?

On April 6, the person identified as Goswami messages Dasgupta: Strong message conveyed to Trai.

Later, at 6.35 pm, Goswami sends Dasgupta messages: PMO has been told by me personally about BARC.

Dasgupta: But he has to back us up — and not let others effect (sic) us.

A chat on March 25, 2019, has ‘Dasgupta’ appealing to ‘Goswami’ once again, with Goswami telling him he is meeting the Prime Minister.

Dasgupta: In strict confidence. Have jammed NBA. Rajat (an apparent reference to Rajat Sharma, who was heading the NBA then) is going after me. You need to help me thru PMO...

Goswami: Noted. And will happen... Rajat has no entry.

No one should make mistake of testing Army’s patience, says Army chief

IN A CLEAR message to China, Chief of Army Staff Gen MM Naravane on Friday said no one should make any mistake of testing India’s patience though it is committed to resolve the border standoff along the northern frontier through talks and political efforts.

In an address at the Army Day parade here, Gen Naravane said a “befitting response” was given to the “conspiracy” to make unilateral changes on the border and that the sacrifice of the Galwan heroes in eastern Ladakh will not go waste.

“We are committed to resolve disputes through talks and political efforts but no one should make any mistake of testing our patience,” he said.

Graft case: ED raids Pune-based co-op bank promoted by former NCP MLC

PRESS TRUST OF INDIA New Delhi, January 15

THE ED ON Friday conducted raids in and around Maharashtra’s Pune district in connection with its money laundering probe against a local cooperative bank, promoted by a former NCP MLC, linked to an alleged fraud of ₹71 crore.

The central probe agency said in a statement issued here that the action was carried out against Shivajirao Bhosale

Cooperative Bank. It is promoted by former NCP MLC Anil Shivajirao Bhosale.

The ED claimed that “more than 90% of the loans from the bank are non-performing assets (NPA)” “During the search operation, incriminating documents have been recovered and seized, including digital evidences, under the Prevention of Money Laundering Act (PMLA),” it said.

Last year, the Pune police had registered a case against Bhosale, the prime accused in the case, his wife and some others for alleged forgery, misappropriation and cheating. The ED took cognisance of this FIR to file a criminal case under the PMLA. The police had booked Bhosale (56), the director of the bank, another director Suryaji, Pandurang Jadhav, CEO Tanaji Dattu Padwal and others. It had arrested Bhosale and he is in jail at present.

“Accused persons including Anil Shivajirao Bhosale have been charged with committing offence of siphoning off money from the bank. It is found that there was cash discrepancy of nearly ₹71 crore,” the ED said.

‘Confident that 13th edition of Aero India will be grand success’

DEFENCE MINISTER RAJNATH Singh on Friday expressed confidence that the 13th edition of Aero India, considered Asia’s largest aerospace exhibition, to be held here from February 3 to 5 will be a “grand success”, with all the necessary Covid precautions in place.

Karnataka chief minister B S Yediyurappa, who attended the apex committee meeting for Aero India 21, chaired by Singh, said the government was spending ₹30 crore in developing road infrastructure for the show this year in addition to meeting other direct and indirect expenses.

“There was a meeting here between the Karnataka government and the defence ministry, during which it was decided to make Aero India a grand success,” Singh said.

Speaking to reporters after attending the Apex Committee meeting, the defence minister said he has concluded after a review that all the preparations needed to make the air show successful are being done by the Karnataka government, defence ministry, especially the Air Force.

tion to meeting other direct and indirect expenses.

Trump's China tech war backfires on carmakers as chips run short

REUTERS January 15 AUTOMAKERS AROUND THE world are shutting assembly lines because of a global shortage of semiconductors that in some cases has been exacerbated by the Trump administration's actions against key Chinese chip factories, industry officials said.

throughout 2020. They have also bought more cars than industry officials expected last spring, further straining supplies. In at least one case, the shortage ties back to President Donald Trump's policies aimed at curtailing technology transfers to China.

conductor Manufacturing International, or SMIC, which was hit with US government restrictions in December, to Taiwan Semiconductor Manufacturing Co in Taiwan, which in turn was overbooked, a person familiar with the matter told Reuters. An auto supplier confirmed TSMC has been unable to keep up with demand.

The shortage, which caught much of the industry off-guard and could continue for many months, is now causing Ford Motor Co, Subaru Corp and Toyota Motor Corp to curtail production in the US. Automakers affected in other markets include Volkswagen, Nissan Motor and Fiat Chrysler Automobiles.

The problems stem from a confluence of factors as auto manufacturers compete against the sprawling consumer electronics industry for chip supplies. Consumers have stocked up on laptops, gaming consoles and other electronic products during the pandemic, creating tight chip supplies

One automaker moved chip production from China's Semi-
