**VALUATION DETAILS OF PLANTS AND MACHINARIES**

Plant and machineries though mostly are fixed in their original location, those are completely damaged, as not running since last 05 years, as ascertained. Besides, regular overhauling, maintenance & repair replacement of spare are always a regular matter to maintain the machineries, those are absolutely lacking due to non-operation. However, considering the constraints of finding most appropriate value of machineries in discussion, we have consulted experts with line experience & gathered 1st hand impression about today's value and we feel the value, we have assessed, could be appropriate in its present condition
