Sub: Intimation under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

Dear Sir,

The country wide lockdown announced by the Government of India (vide order dated 22nd March, 2020) as a way of battling the pandemic of Covid-19 has adversely impacted the Indian Economy, including our Company.

Our company is in the manufacturing of Material Handling Equipment. As it does not come under essential category, our factory was shut till the end of April 2020 from March 22nd 2020. Thereafter, it was allowed to open as it fell outside the municipal area in the state of Gujarat.

Despite permissions to open up, there was negligible production as a result of lack of manpower, subdued demand and disruption in the supply chain. All employees and workers who came to the factory were given the necessary instructions to maintain social distancing, sanitize hands regularly, use masks etc. All precautions as advised by the various agencies were taken.

In the second half of May, there was a slight improvement in production but since most of our vendors hadn't re-opened, production was hampered severely. In addition, the demand has not picked up in the manner in which we had anticipated.

The financial and other operational impact of Covid-19 is under review by the Management. Although, the Government has announced several measures, there is a lot of uncertainty that would prevail in the year 2020-21. Since the situation is fluid, it is not possible to estimate the exact impact at this point in time. Nevertheless, our efforts will continue to minimize the impact.

We will continue to assess the situation and inform the stakeholders at regular intervals.

Kindly take the information on record.

Thanking You,

Yours faithfully,

FOR BRADY & MORRIS ENGG. CO. LTD.
