PRESS RELEASE

STL strengthens leadership team to drive the next phase of growth

Mumbai, 27/January/2025: [STL](#) [NSE: STLTECH], a leading optical and digital solutions company, announced the addition of new leaders across the business and functions.

The optical networking industry is undergoing a significant phase of large-scale digital infrastructure buildouts across the globe, like Bharatnet in India and federally-funded broadband infrastructure projects under the Broadband Equity, Access, and Deployment (BEAD) Program in the United States. STL is strategically expanding its capabilities across its key global businesses with a continued focus on customer-centricity and innovation. With their extensive experience and expertise, new leaders will play a critical role in strengthening STL's customer relationships and laying a robust foundation for sustainable growth in the years ahead.

Pankaj Malik has been appointed as an interim Chief Executive Officer of STL's Global Services Business. Pankaj has over 27 years for extensive experience in strategic operations, digital transformations, and stakeholder management, with 20 years in the telecom sector. His diverse leadership background includes notable companies such as Philips India, Vodafone Idea, Bharti Airtel, G4S Secure Solutions, and Crest Digital. Before joining STL, Pankaj worked as the COO at Crest Digital, where he played a pivotal role in managing and overseeing operations across 22 telecom circles. Pankaj holds a Master's degree in International Marketing from IIEIM and a Bachelor's degree in Commerce (Accounting and Finance) from Delhi University.

Jeric McCoy has joined as Vice President of Sales for Sterlite Technologies Inc. (STI), a US subsidiary of STL. He brings over 25 years of extensive experience in the Outside Plant (OSP) market, having held progressive leadership positions with companies like Raychem, AFL, Prysmian, and Superior Essex. Throughout his career, Jeric has successfully developed and managed comprehensive product portfolios, serving diverse customer bases across the U.S. with strengths in market pricing and distribution models. Jeric will report to Stephen Szymanski, Regional Sales Head, STI.

Commenting on this, **Ankit Agarwal, Managing Director, STL**, said: *“I am very confident that our leadership team, with their vast experience and expertise, will drive the development of our key business verticals. This will enable us to achieve outstanding customer outcomes and profitable growth in the most impactful way possible. We're poised for great things ahead! I wish them all the best.”*
