Kaynes SemiCon to Invest ₹2,850 cr in Chip Assembly Unit in H'bad

To also invest ₹83 crore for R&D unit for silicon photonics and ₹750 crore for a bare board printed circuit board in Mysuru; likely to get final nod for both units in a couple of

Suresh K P @imesgroup.com

Bengaluru: Kaynes SemiCon is investing ₹2850 crore in an Ozone and Semiconductor Assembly and Test (OSAT) facility in Hyderabad with 15 lines for OSAT automatic test equipment (ATE) line and a reliability line. The Ozone and Semiconductor Assembly and Test (OSAT) facility in Hyderabad with 15 lines for OSAT automatic test equipment (ATE) line and a reliability line. The Ozone and Semiconductor Assembly and Test (OSAT) facility in Hyderabad with 15 lines for OSAT automatic test equipment (ATE) line and a reliability line.

₹1,835 crore in a research and development (R&D) line for Silicon Photonics for co-packaged optics in Mysuru. Kaynes Technology is also investing in Mysuru for a bare board printed circuit board (PCB) plant with an additional investment of ₹750 crore. The work force of 2,500 people in the Mysuru-based Kaynes Technology has an annual revenue of ₹1,865.71 crore and is valued at ₹9,187 crore.

Kaynes is a 41-year-old electronics manufacturing services (EMS) company with manufacturing in Bangladesh in Mysuru, Bengaluru, Chennai, Pune, Mumbai and Karnataka with service centres in

What's Being Lined Up

- IN MYSURU**
A bare board printed circuit board plant with an additional investment of ₹750 crore
- IN HYDRABAD**
To set up an additional capacity for OMS infrastructure spend over 17 acres
- IN BANGALURU**
R&D facility to bring out the latest technology on silicon photonics

Mumbai and Kochi. In terms of approvals from the Ministry of Electronics and Information Technology (MeitY) for its OSAT facility in Hyderabad and B&I line in Mysuru, the company is a couple of months away, Panicker said. "We submitted the detailed project report in mid-October and technology partner agreements with Malaysia, Taiwan and the US. Before Christmas, we are expecting approvals to be given," he said. For both the projects the respective state governments have given their approvals. Karnataka has given a 25%

subsidy for the OSAT project, and an additional 50% subsidy will be given by the central government when the approval comes through under the India Semiconductor Mission \$10 billion incentive scheme. "We first started a plant in Mysuru and then set up facilities in the other five cities in the past 15 years because our customers were in these cities, and we had to move closer to them," he said. "We are setting up an additional capacity for EMS infrastructure spread over 27 acres of land in Mysuru apart from a bare board PCB plant. For the OSAT, we are setting up a volume production line in Hyderabad and an OSAT R&D facility in Mysuru," he said. The R&D facility is important because it will bring the latest technology on silicon photonics. "We will eventually set up a volume production line for silicon photonics in Mysuru too. There are other governments also talking to us like Odisha, Noida, and Gujarat," he said. Lack of trained workforce In the last four months, Kaynes SemiCon has set up a verticalised course with Indian Institute of Technology (IIT) Mumbai and IIT Institute of Technology (IIT) Patna, to get trained workforce for its projects.

Curbs on SEZ Units to be Eased Further, says Goyal

Our Bureau

New Delhi: The government is looking to ease certain restrictions on units in SEZs to promote the sector's growth, commerce and industry ministry. Finance Secretary said on Wednesday. "We are looking at ways and means to liberalise some of the restrictions on SEZ units. It is under consideration. We are discussing it with all the state holders and hopefully that itself will give a significant boost to the SEZ units," Goyal said in a Conference of Indian Industry conference.

SEZs are treated as deemed to be export units. They are exempted from customs duties, with certain restrictions on duty-free domestic sales. Firms in SEZs have asked the government to allow them to sell their products in the domestic market without paying the duties that currently apply, similar to duty-free imports from countries with which India has free trade agreements. Total exports from SEZs in 2022-23 stood at ₹15,110 crore. Asked about extending benefits of the benefits of Deemed to be Export Products (Duties Exemption) scheme to SEZs, Goyal said the ministry will go ahead with it "gradually". At some point in time we will consider from where we are very confident that it will not lead to World Trade Organisation non-compliance," he said. In these zones, petroleum products and software to the sector's list.

Goyal said Jan Vishwas will continue to rationalising and removing government departments from SEZs. "In further trust-based governance and promotes ease of doing business," he said. "We are looking at ways and means to liberalise some of the restrictions on SEZ units. It is under consideration. We are discussing it with all the state holders and hopefully that itself will give a significant boost to the SEZ units," Goyal said in a Conference of Indian Industry conference.

Trai Extends Deadline for Views on Critical Topics

Kiran Mathew @imesgroup.com

Without a full-time chairman for more than a month, the Telecom Regulatory Authority of India (Trai) has extended the deadline several times to receive comments and counter-comments for an unprecedented 12 papers, including critical ones on national broadband policy and F and V band airwaves, besides quality of services. PD Vaghela re-

sired as the Trai chairman on September 30 and since then the post has been lying vacant. Following are the papers for which the deadlines for comments and counter-comments have been extended. Consultation paper on regulation on rolling framework for 5G services in the context of 5G network sharing. Consultation paper on digital transformation through

5G ecosystem. Pre consultation paper on inputs for formulation of national broadband policy (second round). Consultation paper on review of regulatory framework for broadband services (second round). Consultation paper on encouraging R&D in telecom, broadband and 5G. TFCET sectors of 5G services. Review of terms and conditions of PMRIS and CMRIS licenses (extended twice).

With ₹7k cr Cash Reserve, Dabur India Scouting for Acquisitions

Co also scaling up its presence online, where it plans to introduce more innovations

"We are introducing innovations there. These innovations are coming on the back of existing brands and these innovations will come on the back of some more brands. There we might launch or we are looking at an acquisition for a new brand," Mathew said. The company would pursue organic growth with new brand launches in skin care and premium skin care, and the rest would be through acquisitions.

New Delhi: Dabur India has raised with a cash reserve of Rs 7,000 crore, is scouting for acquisition opportunities in the healthcare and home & personal care segments, according to its CEO Mohit Mathew. Besides, Dabur is looking for acquisition opportunities in the online space, and with several DTC (Direct to Consumer) brands operating in it, it finds the virtual "more reasonable" now and will pursue it if it finds suitable opportunities, he said. The company is scaling its presence in the online space, which includes e-commerce channels and DTC business, where it plans to introduce more innovations under existing brands and through inorganic opportunities.

Without a full-time chairman for more than a month, the Telecom Regulatory Authority of India (Trai) has extended the deadline several times to receive comments and counter-comments for an unprecedented 12 papers, including critical ones on national broadband policy and F and V band airwaves, besides quality of services.
