Datamatics Announces the Intelligent Automation Summit 2021

An exclusive global virtual summit of C-suite executives, and business and technology leaders

Mumbai, March 15, 2021: Datamatics, a global Digital Solutions, Technology and BPM company, today announced that it will host its Global [Intelligent Automation Summit 2021](#) on March 17th for India, Europe and Middles East, and on March 18th for the Americas region. As an exclusive global virtual summit for business and technology leaders, the event will explore key industry trends, use cases, and best practices in Intelligent Automation.

The summit kicks off with opening remarks from Datamatics CEO, Rahul Kanodia talking about Datamatics [Intelligent Automation](#) vision and how [Digital Transformation](#) is fundamentally redefining business models across the world. This is followed by an interesting keynote from the CEO & Chief Analyst, HFS Research, Phil Fersht on industry trends in Intelligent Automation. The event includes multiple power pack sessions and panel discussions from experts, practitioners, and from companies who have adopted IA successfully.

Key Highlights of the event -

- Insights on trends and best practices in Intelligent Automation, [Robotic Process Automation](#), Intelligent Document Processing, and Artificial Intelligence from the experts and thought leaders
- Watch live in action RPA, IDP and AI/ML in the workshops and demo stations
- Get interactive demo of Datamatics recently launched [Intelligent Document Processing \(IDP\) platform](#), TruCap+
- Engage in deeper conversations with peers, industry leaders, Intelligent Automation experts and Datamatics customers
- Experience our business partner solutions and their use cases in partner zone
- Celebrate excellence with Intelligent Automation awards for innovative success stories

Mr. Rahul Kanodia, Vice-Chairman & CEO at Datamatics, said “This decade is the decade of Intelligent Automation. While several Enterprises are rapidly adopting these technologies to steal a march over their competition, what’s critical for success is understanding & interpreting the data using AI. The objective of the Intelligent Automation Summit is to highlight the criticality of data ingestion as without data there is nothing to automate. At Datamatics, our focus is in delivering matured AI technology bundled with Robotics, and enable more organizations to create fully automated value chains.”
