2. REVIEW OF PERFORMANCE

The total revenue from operations of the Company for financial year 2020-21 stood at Rs. 16,622.42 lacs as compared to Rs. 9130.28 lacs signifying a growth of 82.06 %. Revenue increased due to higher export orders received during the year 2020-21. Your Company's net profit after taxation for FY 2020-21 is Rs. 1,521.39 Lacs against Rs. 844.27 Lacs in the previous year and has grown by 80.20 % over the year. Aforesaid profit achieved, in the opinion of your Directors are satisfactory. Your Directors are expecting to achieve higher growth in coming years.

Impact of COVID-19

2020 was a highly volatile and challenging year. COVID-19 changed almost every aspect of human lives in ways never imagined. We have faced operational challenges due to restricted movements and disrupted supply lines. As the COVID-19 cases continued to rise, the economy declined sharply. Our focus was on our people's health and safety. In view of the lockdown declared across the country in last year by Central/State Government due to COVID-19 pandemic the production was suspended and Factories situated at Aurangabad, Maharashtra and Falta SEZ, West Bengal were closed from 24th March, 2020 onwards. Corporate office was also closed and employees were allowed to work from home. The Company has resumed its operations at its Aurangabad site from 11th April, 2020 with 20% manpower as per permission from local authorities ensuring strict compliance to the

Directors' Report

guidelines issued by Central Government. However, from 1st June, 2020 the Company has started its production at full capacity in its factory at Aurangabad. In compliance with Government's direction to prevent the spread of Corona virus (COVID 19) and to ensure the health and safety of employees, associates and other stakeholders, the Company has started the system of work from home for employees during lockdown.

The Company has assessed the material impact of COVID-19 and expects that there is no significant impact on the continuity of operations of the Company. There has been no material change in the Company's liquidity due to COVID 19. The customers continue to pay within normal credit terms and the Company remains committed to paying its suppliers on time. There has not been any loss of Capital and financial resources of the Company. The Company does not foresee any material impact on account of non-fulfillment of obligation by any party in existing contracts/agreements.

3. STATE OF COMPANY'S AFFAIRS AND FUTURE OUTLOOK

A report on Company's affairs and future outlook is given as 'Management Discussion and Analysis Report' which forms part of this Annual Report.

4. DIVIDEND

Pursuant to Section 123 read with Companies (Declaration and Payment of Dividend) Rules, 2014, your Directors are pleased to recommend dividend of ₹ 1 per equity share on Equity Share of ₹ 1/- each (Previous year ₹ 0.20 per share on Equity Share of ₹ 1/- each) for the financial year ended March 31, 2021, the consequent outflow will be ₹ 675 Lacs (Approx). (Previous year ₹ 135 Lacs).

5. PUBLIC DEPOSIT

Your Company has neither invited nor accepted any deposits from public within the meaning of Section 73 of the Companies Act, 2013 read with Companies (Acceptance of Deposits) Rules 2014 during the financial year ended March 31, 2021.

6. TRANSFER TO RESERVES

During the year under review your Company has transferred ₹ 5,00,00,000/- (Rs. Five Crores) to General reserve.

Management Discussion and Analysis Report

This Management Discussion and Analysis report presents the key performance highlights of the year 2020-21 pertaining to the Company's business. This review should be read in conjunction with the Integrated Report presented in the earlier sections of this Annual Report, the Company's financial statements, the schedules and notes thereto and the other information included elsewhere in this Annual Report. The Company's financial statements have been prepared in accordance with Indian Accounting Standards (IndAS), complying with the requirements of the Company's Act 2013 and SEBI (LODR) Regulations, 2015.

ECONOMIC OUTLOOK

A conveyor belt is primarily employed for carrying materials from one point to another. They are used in material handling for transportation on a continuous basis and in connecting assembly lines to the final inspection and packing lines. The material to be transported is placed on the belt and is carried to the end point, horizontally or along an inclined slope. This system comprises of two or more pulleys to rotate the belt in continuous circles. The high versatility, light weight nature, and cost-effectiveness have made conveyor belts highly popular across various industries. According to the IMARC Group's latest report "A growing demand from the power, mining, and manufacturing industries represent one of the key factors driving the global conveyor belt market." As a result of heavy competition in the market, these industries are majorly reliant on efficient techniques to increase their productivity. The demand for conveyor belts is also boosted by the growth of infrastructural activities and macroeconomic factors such as GDP growth. Another major market trend that is gaining momentum is the growing demand for eco-friendly conveyor belts with self-cleaning properties, which tend to improve the operational costs of the industries. Looking forward, IMARC Group expects the global conveyor belt market to exhibit moderate growth during the next five years.

Management Discussion and Analysis Report

Globally, technological advancements and up gradations, growing infrastructure activities such as malls, airports, rise in the lean manufacturing system, and increasing industrialization around the globe are the prime growth drivers of global conveyor belts market. In addition, increase in adoption of conveyor belts for newer applications, and emerging economies such as China, India and others, will create new opportunities for global conveyor belts market. However, higher service and maintenance cost, and conveyor systems reliability being hampered by technical glitches are the key restraints for global conveyor belts market.

COVID 19 IMPACT ON MARKET

The COVID-19 pandemic has disrupted markets on a global scale. The material handling industry is experiencing an uncertain recovery timeline due to lockdown implementations in various parts of the world. However, the rising trend in e-commerce is expected to boost the demand for conveyor belts. Conveyor belt manufacturers have seen significant changes in business operations because of the COVID-19 crisis.

According to the United Nations Industrial Development Organization (UNIDO), global manufacturing output registered a decline of 6.0% during the first quarter of 2020 due to lockdown measures due to the COVID-19 pandemic. Demand for conveyor belt for new manufacturing facilities and distribution centers have been delayed due to supply chain disruptions. However, the industry is expected to recover at a higher rate during the forecast period due to the increase in the demand for automated conveyor belt during the post-COVID-19 scenario as compared to the pre-COVID-19 scenario.

INDUSTRY OVERVIEW IN INDIA

India remains the world's fastest growing economy and as such an attractive market for the conveyor belt industry. In India, the demand of Conveyor Belt is expected to increase from the retail, airport, and post and parcel industries during the forecast period.

Geographically Asia Pacific dominated global conveyor belts market, and is projected to have fastest growth, owing to rapidly increasing population along with urbanization, rising industrial investment, and modernizing infrastructure in developing nations such as China and India in this region. Among all the end-users, industrial segment has the highest market share in global conveyor belts market.

Recently, Govt. of India has allowed commercial mining of coal through E-Auction of coal seams and we expect participation of private stakeholders whereby there will be more requirement of PVC Belting. The growth in production in the Coal Mining industry in India, which is a major end-user of conveyor belts, is expected to drive higher demand for conveyor belts in the coming years. India's Thirteenth Five Year Plan (2017-2022) has projected better growth prospects in industries such as Coal, Cement, Steel, and Ports, which are some of the major end-users of conveyor belts in India. The growth in these industries is expected to drive higher demand for conveyor belts in India in the coming years.

The Indian mining sector is going through interesting times. Today India is the third largest coal producer, second largest cement producer and the third largest steel producer in the world. Hence, it has been a key contributor to the demand for conveyor belts.

Further, one of the major challenges being faced is the lack of technology upgradation. Use of traditional skills and dependence on foreign players for new technology has added to the lack of innovation in the market.

BUSINESS OVERVIEW

International Conveyors Limited (ICL) is engaged in the manufacturing and marketing of solid woven fabric reinforced PVC impregnated and PVC covered fire retardant, anti static conveyor belting in India since 1978 having a rich and valuable experience of around 42 years guided by core human values.

The primary product of your Company is PVC Fire Resistant Antistatic Solid Woven Coal Conveyor Belt and it is also engaged in wind power generation with a capacity of 4.65 MW, with locations spread across Gujarat, Maharashtra, Karnataka and Andhra Pradesh. Your Company has achieved an annual production of 4,38,056 meters in 2020-21. ICL is one of the largest manufacturers of solid woven belting in the world and has a complete product range with the ability to make conveyors up to 3150 kN/m (type 18) width in strength and belt widths up to 1800mm. This is the widest product range of Solid Woven belting available from any one Company with a manufacturing capacity in excess of 1 million meters per annum of all the product mix of PVC Solid Woven Conveyor Belting. Company has plants at Aurangabad, Maharashtra and Falta SEZ, West Bengal. Aurangabad Plant has total annual installed capacity of 7,00,000 meters and Falta SEZ Plant has total annual installed capacity of 4,25,000 meters.

Management Discussion and Analysis Report

Your Company is also associated with Mato Industries Ltd., UK as their sole distributor in India for Mato Belt Lacing Machine, Fasteners, Spindle Pins and Belt Cutter etc., for the last 3 decades. ICL has achieved substantial growth rate of sale of Mato Products in India. The Company expects substantial growth of the ongoing business in the coming years.

ICL design team can undertake full in-house design starting from preliminary design of systems from power and tension calculations all the way through to detailed design. The ICL team has years of experience in solid woven conveyor belting both for underground and above ground applications.

Your Company has been involved in projects such as:

- a. Moonee colliery (Australia) - which was used as the benchmark for underground conveyor systems,
- b. Numerous supply arrangements for Indian Coal Mines,
- c. Regular recommendations for belting designation to Canadian Customers based on their prevailing design.

STRENGTHS

- **Experienced Promoters and Management Team**

The Company is managed by a team of competent professionals with deep knowledge of the core aspects of the business. The promoters are well assisted by an experienced and competent team.

- **Long Term Relationship with the Clients**

Our Company believes in maintaining long term relationships with our clients in terms of increased sales. Our dedicated focus on client coverage and our ability to provide timely solutions and faster resolution of customer complaints, if any, has helped us to establish long term relationships. This key strength has helped us to receive repeat business from our clients. We believe that because of timely execution of our work, competitive pricing and best customer service, we enjoy goodwill amongst our customers.

- **Forming Strategic Alliances**

The philosophy of our Company is to move further by forming alliances. This strategy is possible because of our reputation, extensive network in the industry and market capability. Further we intend to take this a step further and form strategic alliances with our big customers to increase our sales volume. There is a significant growth in this Industry as mining is increasingly becoming more mechanized in India.

- **Talented and Competent Employees**

Your Company has skilled and professionally competent employees and technical team who contribute for the success and growth of the Company. ICL covers strong market network. This enables Company in enhancing the production and securing large orders.

- **Financial Performance**

During the year under review, the Company has achieved a turnover of Rs. 16622.42 Lacs as compared to Rs. 9130.28 Lacs in the previous year, registering a growth of 82.06%. Your Company's net profit after taxation for FY 2020-21 is Rs. 1,521 Lacs against Rs. 844.27 Lacs in the previous year and has grown by 80.20% over the year. This was largely on account of Company's focus on expansion in multiple geographies and diverse business products.

OPPORTUNITIES

ICL has always tried to grab the opportunities to maintain its position in the market. Developing nations have observed robust industrialization due to the presence of a huge consumer base along with their respective governments implementing policies to attract foreign investments to boost the mining and manufacturing sectors. The product is regularly used for material handling purposes in different sectors such as mining, cement production, steel & iron, etc. and can transfer a large volume of materials in all directions with ease. The product is an ingenious way to increase productivity in industries and to reduce labor cost. Looking at the future scenario of Conveyor Belt Industry and increasing demand for the same in different industries, there are ample opportunities available and, ICL will surely maximize its wealth in the coming years. In India the focus is on indigenous supply of product with the slogan **"be vocal for Local"**. Many Government sectors have debarred Global tenders and the target is giving preference to domestic manufacturers to promote make in India.

RISK AND CHALLENGES

- **Foreign Currency Exchange Rate Fluctuations**

We import our raw material from outside of India and payment of these purchases is made in foreign currency. Also, demand of our product is higher in International Market in comparison to Domestic Market. So, we export our products outside India. Changes in value of currencies with respect to Rupee may cause fluctuations in our operating results expressed in rupees. The exchange rate between the rupee and other currencies is variable and may continue to fluctuate in future. Any unforeseen or adverse fluctuations with respect to the unhedged exchange rate of any foreign currency for Indian Rupees may affect our Company's Results of operations.

- **Competition Risk**

The industry in which we operate is highly competitive. Factors affecting our competitive success include, amongst other things, price, demand for our products, and availability of raw materials, brand recognition, reliability, entry of foreign based companies and domestic producers in the market. Our failure to compete effectively, including any delay in responding to changes in the industry and market, may affect the competitiveness of our products.

- **Regulatory Risk**

Changes in the Regulatory Environment, while usually beneficial to the progress of the sector in the long term, could sometimes cause short term disruptions. Stringent corporate governance regulations and public disclosure requirements have enhanced the need for compliances. Compliance risk is caused by failure in compliance with various domestic and overseas rules and regulations. Non-compliance may lead to penalties and loss of reputation

However, Company has various due diligence systems in place to mitigate the impact of the risks mentioned above and to ensure transparency and accountability in the day to day business activities.

SEGMENT-WISE AND PRODUCT-WISE PERFORMANCE

The segment-wise and product-wise performances of the Company are given in the notes to accounts for the year ended March 31, 2021.

INTERNAL FINANCIAL CONTROL SYSTEMS AND THEIR ADEQUACY

Commensurate with the size and nature of its business, your Company has proper systems of internal controls which ensure acceptable utilization of resources and reliable financial reporting.

Effective and adequate internal control systems are in place to ensure that all assets are safeguarded by and protected against unauthorized used and the transactions are recorded and reported correctly. Such controls are subject to periodical review to ensure efficiency of operations, accuracy and promptness of financial reporting and compliance with all applicable statutory requirements.

Compliance with various applicable laws are monitored through a procedure whereby units send reports of compliance to the Board regularly.

The internal audit is carried out through-out the year based on a systematic plan covering all functions and aspects of the business. The internal audit reports are reviewed by the senior management and are placed before the audit committee of the Board of Directors along with actions taken. The Audit Committee of the Board of Directors actively reviews the adequacy and effectiveness of internal control systems and suggests improvement for strengthening them as appropriate. The summary of the Internal Audit observations and status of implementations are submitted to the Audit Committee and is reviewed by it on a regular basis and concerns, if any, are reported to the board.

The IT system of the Company is based on a robust ERP System ensuring seamless connectivity of Plants, Sales Office and Corporate Office facilitating faster and more reliable processing of transactions as well as generating reports for faster decision-making. The Company also has a strong control system and management reporting system which serve as the backbone of the monitoring system of operations to ensure that business results are achieved and continuous improvement projects are undertaken.

HUMAN RESOURCES

Human resource is one of the key resources of the Company to ensure business sustainability and growth. The Company has an experienced and talented pool of employees who play a key role in enhancing business efficiency, devising strategies, setting-up systems and evolving business as per industry requirements. The Company provides regular skill and personnel development training to enhance employee productivity. Being a growth-oriented and progressive organization, it recognizes the importance of professionalism. The Company has embarked on several human resource initiatives to enhance the productivity of the organization and each individual. The Company endeavors to provide a safe, conducive and productive work environment.

CAUTIONARY STATEMENT

There are certain Statements which have been made in the Management Discussion and Analysis Report describing the estimates, expectations or predictions, may be read as 'forward-looking statements' within the meaning of applicable laws and regulations. The actual results may differ materially from those expressed or implied. The important factors that would make a difference to the Company's operations include demand-supply conditions, raw material prices, changes in Government Policies, Governing Laws, Tax regimes, global economic developments and other factors such as litigation and labour negotiations.

STANDALONE FINANCIAL STATEMENTS

Independent Auditors' Report

To the Members of **International Conveyors Limited**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of International Conveyors Limited ('the Company'), which comprise the Balance Sheet as at 31st March, 2021, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2021, and its profit, total comprehensive income, changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI'S Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to note no. 37.14 of the standalone financial statements which explains the management's assessment that there is no significant impact of COVID-19 pandemic on the standalone financial statements for the year ended 31st March, 2021.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the key audit matter
<p>Accuracy of recognition, measurement, presentation and disclosures of Investments and other related balances</p> <p>Investments include investments made by the Company in various quoted and unquoted equity shares and preference shares.</p> <p>These investments constitute 69.78% of the Company's total assets.</p> <p>The valuation of each category of the aforesaid securities is to be done as per the provisions of Ind AS which involves collection of data/information from various sources such as Demat statement, financial statements of unlisted companies etc. Considering the complexities and extent of judgement involved in the valuation, this has been determined as Key Audit Matter.</p> <p>Refer Note 5 to the standalone financial statements</p>	<p>Our Procedure:</p> <p>We have verified these investments with reference to the provisions of Ind AS as also internal policies and procedure of the Company as follows:</p> <ol style="list-style-type: none"> carried out evaluation of the design and operating effectiveness of the internal controls and performed substantive audit procedures. Assessed and evaluated the process adopted for collection of information from various sources for determining fair value of these investments. Verified compliance with the presentation and disclosure requirements as per Ind AS and the Act. This test was conducted for the entire population.

Independent Auditors' Report

Information Other than the Standalone financial statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the IndAS. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

That Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Independent Auditors' Report

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

Due to the COVID-19 pandemic, lockdown and other travel restrictions are imposed by the Government/local administration, hence, the audit processes were carried out electronically by remote access. The necessary records were made available by the management through digital medium and were accepted as audit evidence while reporting for the current period.

Our opinion is not modified in respect of these matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143 (3) of the Act, we report that:
 - i. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - ii. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - iii. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash flow dealt with by this Report are in agreement with the relevant books of account.
 - iv. In our opinion, the aforesaid standalone financial statements comply with the IndAS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - v. On the basis of the written representations received from the Directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of section 164(2) of the Act.

Independent Auditors' Report

- vi. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- vii. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - a. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note No. 37.1 to the standalone financial statements.
 - b. The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses.
 - c. There has been no delay in transferring amounts, required to be transferred to be transferred to the Investor Education and Protection Fund by the Company.
3. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

“Annexure B” to the Independent Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of International Conveyors Limited (“the Company”) as of 31st March, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Annexure “B” to the Independent Auditors’ Report

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes Forming Part of the Financial Statements as at March 31, 2021

1. Corporate Information

International Conveyors Limited (“ICL” or “the Company”) is a public limited incorporated and domiciled in India. The registered office of the Company is situated at Falta SEZ, Sector-II, near Pump House No. 3 Village & Mouza- Akalmegh, Akalmegh-743504.

The Company's shares are listed on The Bombay Stock Exchange Limited and The Calcutta Stock Exchange Limited.

Its business consists of:

- (a) Manufacturing and trading of Conveyor Belting,
- (b) Trading of Ply Conveyor Belting, Steel Cord Conveyor Belting and fitting and accessories, and
- (c) Generation and Sale of Power.

The financial statements for the year ended March 31, 2021 was approved for issue by the Board of Directors of the Company on June 29, 2021 and is subjected to the adoption by the shareholders in the ensuing Annual General Meeting.

2A. Significant accounting policies

2.1 Statement of Compliance with Ind AS

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 ('the Act'). The financial statements have also been prepared in accordance with the relevant presentation requirements of the Act.

2.2 Basis of preparation

These financial statements have been prepared in accordance with Ind AS under the historical cost basis except for the following:

- i) Certain financial assets and financial liabilities (including derivative instruments) - measured at fair value, and
- ii) Defined benefits plan – plan assets measured at fair value.

Historical cost is generally based on the fair value of the consideration in exchange for goods and services.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013.

The Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

The financial statements including notes thereon are presented in Indian Rupees (“Rupees” or “Rs.”), which is the Company's functional and presentation currency. All amounts disclosed in the financial statements including notes thereon have been rounded off to the nearest lakh as per the requirement of Schedule III to the Act, unless stated otherwise.

Accounting policies have been consistently applied except where a newly issued Indian Accounting Standard is initially adopted or a revision to an existing Indian Accounting Standard requires a change in the accounting policy hitherto in use.

2.3 Property, plant and equipment (PPE), depreciation and amortization

- a) All Property, plant and equipment are stated at cost of acquisition with subsequent improvements thereto. Cost of acquisition includes taxes, duties, inward freight and installation expenses.

Expenditure incurred on improvements/ modifications of fixed assets that increases the future benefits from the existing asset beyond its previously assessed standard of performance, e.g., increase in capacity / efficiency, are capitalized.

- b) Depreciation is provided on written down value method as per Schedule II of the Companies Act, 2013 based on the useful life of the assets. In case of certain items of Plant and Equipments where useful life ranging from 10 to 30 years has been considered based on technical assessment, which is different from the useful life prescribed under Schedule II of the Companies Act, 2013. However, assets costing ₹ 5,000/- or less are depreciated fully in the year of addition. Leasehold land is amortized over the period of lease.

Notes Forming Part of the Financial Statements as at March 31, 2021

Additions on account of improvements/ modifications, which becomes an integral part of the existing asset and either do not have separate identity and/or are not capable of being used after the existing asset is disposed off, are depreciated over the remaining useful life of the assets (improved /modified) they are attached with.

c) Intangible Assets

Intangible assets are stated at cost of acquisition less accumulated amortization. Computer software packages are amortized over a period of five year on straight line basis.

2.4 Financial instruments

Financial assets and financial liabilities are recognized in the Balance sheet when the Company becomes a party to the contractual provisions of the instrument. The Company determines the classification of its financial assets and financial liabilities at initial recognition based on its nature and characteristics.

(a) Financial assets

(i) Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. The financial assets include equity and debt securities, trade and other receivables, loans and advances, cash and bank balances and derivative financial instruments.

(ii) Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in the following categories:

- 1) At amortized cost,
- 2) At fair value through other comprehensive income (FVTOCI), and
- 3) At fair value through profit or loss (FVTPL).

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- 1) The asset is held within a business model whose objective is to hold the asset for collecting contractual cash flows, and
- 2) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

Equity investments

All equity investments in the scope of Ind AS 109 are measured at fair value except in case of investment in subsidiary carried at deemed cost and associate carried at cost. Deemed cost is the carrying amount under the previous GAAP as at the transition date i.e. April 1, 2016.

Equity instruments included within the FVTPL category, if any, are measured at fair value with all changes recognized in profit or loss. The Company may make an irrevocable election to present in OCI subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

When the fair value has been determined based on level 3 inputs, the difference between the fair value at initial recognition and the transaction price is deferred and after initial recognition deferred difference is recognized as gain or loss to the extent it arises from change in input to valuation technique.

If the Company decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in OCI. There is no recycling of the amounts from OCI to profit or loss, even on

Notes Forming Part of the Financial Statements as at March 31, 2021

sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

(iii) **De-recognition**

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset.

2.5 Financial liabilities

(i) **Initial recognition and measurement**

All financial liabilities are recognized initially at fair value and, in the case of financial liabilities classified at amortized cost, net of directly attributable transaction costs.

The financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, derivative financial instruments, etc.

(ii) **Subsequent measurement**

For the purpose of subsequent measurement, Financial liabilities are classified in two categories

- 1) Financial liabilities at amortized cost, and
- 2) Derivative instruments at fair value through profit or loss (FVTPL).

Financial liabilities at amortised cost

After initial recognition, financial liabilities are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

(iii) **De-recognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

2.6 Derivative financial instruments

Initial recognition and subsequent measurement

A derivative financial instrument, such as forward currency contracts and interest rate swaps are used to hedge foreign currency risks and interest rate risks respectively and includes options. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

When the fair value has been determined based on level 3 inputs, the difference between the fair value at initial recognition and the transaction price is deferred and after initial recognition deferred difference is recognized as gain or loss to the extent it arises from change in input to valuation technique.

2.7 Offsetting of financial instruments

Financial assets and financial liabilities including derivative instruments are offset and the net amount is reported in the Balance sheet, if there is currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

2.8 Fair value measurement

Fair value is a market-based measurement, not an entity-specific measurement. Under Ind AS, fair valuation of financial instruments is guided by Ind AS 113 "Fair Value Measurement".

For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a

Notes Forming Part of the Financial Statements as at March 31, 2021

fair value measurement in both cases is the same to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (i.e. an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability).

Three widely used valuation techniques specified in the said Ind AS are the market approach, the cost approach and the income approach which have been dealt with separately in the said Ind AS.

Each of the valuation techniques stated as above proceeds on different fundamental assumptions, which have greater or lesser relevance, and at times there is no relevance of a particular methodology to a given situation. Thus, the methods to be adopted for a particular purpose must be judiciously chosen. The application of any particular method of valuation depends on the company being evaluated, the nature of industry in which it operates, the company's intrinsic strengths and the purpose for which the valuation is made.

In determining the fair value of financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each balance sheet date.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 : Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 : Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

2.9 Inventories

Inventories are valued at lower of the cost and net realizable value. The cost in respect of raw materials and stores and spares is determined on FIFO basis and in respect of finished goods and stock in process is determined on average basis. Cost of raw materials and stores and spares include the taxes and duties other than those recoverable from taxing authorities and expenses incidental to the procurement of the same. Cost in case of stock-in-process and finished goods represent prime cost and appropriate portion of overheads.

2.10 Impairments of Assets

(a) Non-financial assets

Property, plant and equipment and intangible assets are reviewed at each Balance Sheet date for impairment. In case events and circumstances indicate any impairment, recoverable amounts of fixed assets is determined. An impairment loss is recognized, whenever the carrying amount of assets belonging to the Cash Generating Unit (CGU) exceeds recoverable amount. The recoverable amount is the greater of assets net selling price or its value in use. In assessing the value in use, the estimated future cash flows from the use of assets are discounted to their present value as appropriate. An impairment loss is reversed if there has been change in the recoverable amount and such loss either no longer exists or has decreased. Impairment loss/reversal thereof is adjusted to the carrying value of the respective assets, which in case of CGU, are allocated to its assets on a prorate basis.

(b) Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss.

ECL impairment loss allowance is measured at an amount equal to lifetime ECL.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income or expense in the Statement of Profit and Loss. This amount is reflected under the head "Other expenses" in the profit or loss. ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the Balance sheet. The allowance reduces the net carrying amount.

Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying

Notes Forming Part of the Financial Statements as at March 31, 2021

amount.

2.11 Foreign Currency Transaction

Transactions in Foreign Currencies are accounted for at the exchange rate prevailing as on the date of the transaction. Foreign Currency monetary assets and liabilities at the year end are translated using closing rates whereas non monetary assets are translated at the rate on the date of transaction. The loss or gain thereon and also on the exchange differences on settlement of the foreign currency transaction during the year are recognized as revenue or expenses in the Statement of Profit and Loss.

2.12 Revenue Recognition

a) Revenue from Operations:

Revenue is recognized to the extent it is probable that economic benefits would flow to the Company and the revenue can be reliably measured, regardless of when the revenue proceeds is received from customers.

Revenue is measured at fair value of the consideration received/receivable taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the Government.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Company recognizes revenue when it transfers control over a product or service to customers in accordance with Ind AS 115.

The Company recognizes revenue to depict the transfer of promised goods or services to customers in amounts that reflect the payment to which the Company expects to be entitled in exchange for those goods or services by applying the following steps:

Step-1 - Identify the contract with a customer;

Step-2 - Identify the performance obligations in the contract;

Step-3 - Determine the transaction price;

Step-4 - Allocate the transaction price to the performance obligations in the contract;

Step-5 - Recognize the revenue when (or as) the Company satisfies a performance obligation.

b) Sale of Electricity

Sale of Electricity is accounted for on delivery of Electricity to grid in terms of agreement with the Electricity Board.

Other Income:

a) Interest income

For all debt instruments measured at amortized cost, interest income is recognized using the effective interest rate (EIR). Interest income is included in "Other income" in the Statement of Profit and Loss.

b) Insurance and other claims are accounted for as and when admitted or realized.

c) Dividend is recognized when the right to receive is established.

d) All other income are accounted for on accrual basis.

2.13 Expenses

All expenses are accounted for on accrual basis.

Expenses under primary heads such as salary, wages, consumption of stores etc., are being shown under respective heads and have not been functionally reclassified.

2.14 Employee Benefits

Short term employee benefits are recognized as an expenses at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

The Company has Defined Contribution Plan for its employees retirement benefits comprising of Provident Fund and Pension Fund. The Company makes regular contribution to Provident Fund, which are fully funded and administered by the Government.

Notes Forming Part of the Financial Statements as at March 31, 2021

Contributions are recognized in Statement of Profit and Loss on accrual basis.

The Company has Defined Benefit Plan comprising of Gratuity and Leave Encashment schemes. The Company contributes to the Gratuity Fund under the Group Gratuity Cash Accumulation Scheme with Life Insurance Corporation (LIC) for future payment of gratuity liability to its employees. Consequent to the adoption of Indian Accounting Standard 19 (Ind AS 19) on "Employee Benefits", the liability for the Gratuity and Leave Encashment as at the year end has been determined on the basis of an independent actuarial valuation in accordance with the method stated in Ind AS 19 Revised and such liability has been adjusted/ provided in these financial statements.

The actuarial gain and losses comprise experience judgment and are recognized in the Statement of Profit and Loss in the year in which they arise.

2.15 Grants

Government Grants are recognized at fair value when there is reasonable assurance that the grant would be received and the Company would comply with all the conditions attached with them.

2.16 Borrowing Cost

Borrowing Cost that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of such asset till such time that is required to complete and prepare the asset to get ready for its intended use.

All other borrowing cost are charged to the statement of Profit and Loss in the period in which they are incurred.

2.17 Taxes

Income tax expense comprises current tax and deferred tax and is recognized in the Statement of Profit and Loss except to the extent it relates to items directly recognized in OCI or in OCI.

a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities using the tax rates and tax laws that are enacted or substantively enacted by the balance sheet date and applicable for the period.

Current tax items in correlation to the underlying transaction relating to OCI and Equity are recognized in OCI and in Equity respectively.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

b) Deferred income tax

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred tax assets are recognized for deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized.

Unrecognized deferred tax assets are re-assessed at each balance sheet date and are recognized to the extent that it has

Notes Forming Part of the Financial Statements as at March 31, 2021

become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws to the extent it is likely to give future economic benefits in the form of availability to set off against future income tax liability. Accordingly, MAT is recognized as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off deferred tax assets against deferred tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.18 Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Assets are neither recognized nor disclosed in the financial statement. Contingent Liabilities, if material, are disclosed by way of notes.

2.19 Earnings per share

- (a) Basic earnings per share are computed by dividing the net profit/(loss) after tax by the weighted average number of equity shares outstanding during the year.
- (b) Diluted earnings per share are computed by dividing the net profit/(loss) after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are determined as at the end of each period presented. Dilutive potential equity shares are determined independently for each period presented.

2.20 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM).

The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Managing Director who makes strategic decisions.

The accounting policies adopted for segment reporting are in line with the accounting policies adopted for preparing and presenting the Financial Statements of the Company as a whole. In addition, the following specific accounting policies have been followed for segment reporting:

- a) Segment revenue includes sales and other income directly identifiable with/allocable to the segment including inter segment transfers.
Inter segment transfers are accounted for based on the transaction price agreed to between the segments which is at cost in case of transfer of Company's intermediate and final products and estimated realizable value in case of by-products.
- b) Revenue, expenses, assets and liabilities are identified to segments on the basis of their relationship to the operating activities of the segment. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on direct and/or on a reasonable basis, have been disclosed as "Unallocable".

2.21 Cash and cash equivalents

Cash and cash equivalents in the Balance sheet comprise cash on hand, cheques on hand, balance with banks on current accounts and short term, highly liquid investments with an original maturity of three months or less and which carry insignificant risk of changes in value.

For the purpose of the Cash Flow Statement, Cash and cash equivalents consist of Cash and cash equivalents, as defined above

Notes Forming Part of the Financial Statements as at March 31, 2021

and net of outstanding book overdrafts as they are considered an integral part of the Company's cash management.

2.22 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit/loss before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing flows. The cash flows from operating, investing and financing activities of the Company are segregated.

2B. Critical accounting judgements and key sources of estimation uncertainty

The preparation of the financial statements in conformity with the measurement principle of Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Differences between the actual results and estimates are recognized in the year in which the results are known / materialized and, if material, their effects are disclosed in the notes to the financial statements.

Application of accounting policies that require significant areas of estimation, uncertainty and critical judgments and the use of assumptions in the financial statements have been disclosed below. The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are discussed below:

The Company provides for tax considering the applicable tax regulations and based on reasonable estimates. Management periodically evaluates positions taken in the tax returns giving due considerations to tax laws and establishes provisions in the event if required as a result of differing interpretation or due to retrospective amendments, if any.

a) Income tax

Deferred income tax expense is calculated based on the differences between the carrying value of assets and liabilities for financial reporting purposes and their respective tax bases that are considered temporary in nature. Valuation of deferred tax assets is dependent on management's assessment of future recoverability of the deferred benefit. Expected recoverability may result from expected taxable income in the future, planned transactions or planned optimising measures. Economic conditions may change and lead to a different conclusion regarding recoverability.

(b) Fair value measurements and valuation processes:

Investments are measured at fair value for financial reporting purposes. Fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in the notes to the financial statements.

(c) Estimation of Defined benefit obligations

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each financial year end.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the actuary considers the interest rates of government bonds.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Notes Forming Part of the Financial Statements as at March 31, 2021

(d) Provisions and contingent liabilities

The Company has ongoing litigations with various regulatory authorities and third parties. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is provided in notes to the financial statements.

2.23 Recent Pronouncement

Effective 1st April, 2020, there were certain amendments in Indian Accounting Standards (Ind AS) vide Companies (Indian Accounting Standards) Amendment Rules, 2020 notifying amendment to existing Ind AS 1 'Presentation of Financial Statements', Ind AS 8 'Accounting Policies, Changes in Estimates and Errors', Ind AS 10 'Events after the Reporting Period', Ind AS 34 'Interim Financial Reporting', Ind AS 37 'Provisions, Contingent Liabilities and Contingent Assets', Ind AS 103 'Business Combinations', Ind AS 107 'Financial Instruments: Disclosures', Ind AS 109 'Financial Instruments', Ind AS 116 'Leases'.

Ind AS 1 has been modified to redefine the term 'Material' and consequential amendments have been made in Ind AS 8, Ind AS 10, Ind AS 34 and Ind AS 37.

Ind AS 103 dealing with 'Business Combination' has defined the term 'Business' to determine whether a transaction or event is a business combination.

Amendment to Ind AS 107 and 109 relate to hedging relationship directly affected by Interest Rate Benchmark reforms. The amendment among other things requires an entity to assume that Interest Rate Benchmark on which hedged cash flows are based is not altered as a result of Interest Rate Benchmark reforms.

Ind AS 116 dealing with 'Leases' permitted lessees, as a practical expedient, not to assess whether rent concessions that occur as a direct consequence of COVID-19 pandemic and meet specified conditions are lease modifications and, instead, to account for those rent concessions as if they were not lease modifications.

Revision in these standards did not have any material impact on the profit/loss and earning per share for the year.

Standards issued but not yet effective:

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2021.

7 Segment Reporting disclosures as per Ind AS-108 "Operating Segments":

Operating Segments:

a) Conveyor Belting b) Wind Energy c) Trading Goods

Identification of Segments:

The chief operating decision maker monitor the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. Operating segments have been identified on the basis of the nature of products/services and have been identified as per the quantitative criteria specified in the Ind AS.

Segment Revenue and Results:

The expenses and incomes which are not attributable to any business segment are shown as unallocated expenditure (net of unallocated income).

Segment Assets and Liabilities:

Segment assets include all operating assets used by the operating segment and mainly consist of property, plant and equipments, trade and other receivables, cash and cash equivalents, bank balance other than cash and cash equivalents etc.

Segment liabilities primarily includes trade payables, borrowings and other liabilities.

Common assets and liabilities which cannot be allocated to any of the segments are shown as a part of unallocated Corporate assets/liabilities.

B. Fair value hierarchy

The fair value of the financial assets and financial liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- i) Fair value of cash and cash equivalents, bank balances other than cash and cash equivalents, trade receivables, other financial assets, short term loans from borrowings from banks and financial institutions, trade payables and other financial liabilities approximate their carrying amounts due to the short-term maturities of these instruments.

The Company uses the following fair value hierarchy for determining and disclosing the fair value of financial instruments:

Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 : Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 : Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following tables provide the fair value hierarchy of the Company's assets and liabilities measured at fair value on a recurring basis:

38 OTHER DISCLOSURES (Contd.)**12 Financial risk management objectives and policies**

The Company's principal financial liabilities includes borrowings, trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade receivables, cash and cash equivalents and other financial assets that derive directly from its operations.

The Company is exposed to credit risk, liquidity risk and market risk. The Company's senior management oversees the management of these risks and the appropriate financial risk governance framework for the Company. The senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. All derivative activities for risk management purposes are carried out by specialist team that have the appropriate skills, experience and supervision. It is the Company's policy that derivatives are used exclusively for hedging purposes and not for trading or speculative purposes.

The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below :

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other risks, such as regulatory risk and commodity price risk.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

To manage this, the Company enters into interest rate swaps as and when required, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency denominated borrowings. This foreign currency risk is covered by using foreign exchange forward contracts and cross currency swap contracts.

Foreign currency sensitivity

1% increase or decrease in foreign exchange rates will no material impact on Profit.

	GBP	–	0.03
	CDN	0.70	8.41
	AUD	–	0.03

(b) Capital Management

(i) Risk Management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity share-holders of the Company. The Company's objective when managing capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns to shareholders and other stake holders and maintain an optimal capital structure to reduce the cost of Capital.

The Company manages its capital structure and makes adjustments in light of changes in the financial condition and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders (buy back its shares) or issue new shares.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. The Company has complied with these covenants.

No changes were made in the objectives, policies or processes for managing capital during the year ended 31st March, 2021 and 31st March, 2020.

(c) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date.

Financial assets are written off when there is no reasonable expectation of recovery, however, the Company continues to attempt to recover the receivables. Where recoveries are made, these are recognised in the Statement of Profit and Loss.

(i) Trade receivables

Customer credit risk is managed based on Company's established policy, procedures and control relating to customer credit risk management.

Trade receivables are non-interest bearing and are generally on credit terms of 3 to 60 days.

An impairment analysis is performed at each balance sheet date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the balance sheet date is the carrying value of each class of financial assets disclosed in note no. 12.

CONSOLIDATED FINANCIAL STATEMENTS

Independent Auditors' Report

To The Members of INTERNATIONAL CONVEYORS LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **INTERNATIONAL CONVEYORS LIMITED** (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") which comprise the consolidated Balance Sheet as at 31st March, 2021, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Statement of Changes in Equity, the consolidated Statement of Cash Flows for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2021, its consolidated profit (including other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by Institute of Chartered Accountants of India (ICAI) and the relevant provisions of the Act and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to note no. 33(13) of the consolidated financial statements which explains the management's assessment that there is no significant impact of COVID-19 pandemic on the consolidated financial statements for the year ended 31st March, 2021.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the key audit matter
<p>Accuracy of recognition, measurement, presentation and disclosures of Investments and other related balances</p> <p>Investments include investments made by the Company in various quoted and unquoted equity shares and preference shares.</p> <p>These investments constitute 69.28% of the Group's total assets.</p> <p>The valuation of each category of the aforesaid securities is to be done as per the provisions of Ind AS which involves collection of data/information from various sources such as Demat statement, financial statements of unlisted companies etc. Considering the complexities and extent of judgement involved in the valuation, this has been determined as Key Audit Matter.</p> <p>Refer Note 5 to the Consolidated financial statements</p>	<p>Our Procedure:</p> <p>We have verified these investments with reference to the provisions of Ind AS as also internal policies and procedure of the Company as follows:</p> <ol style="list-style-type: none">carried out evaluation of the design and operating effectiveness of the internal controls and performed substantive audit procedures.Assessed and evaluated the process adopted for collection of information from various sources for determining fair value of these investments.Verified compliance with the presentation and disclosure requirements as per Ind AS and the Act. This test was conducted for the entire population.

Independent Auditors' Report (Contd.)

Other Matters

- a. Ta. The Consolidated financial statements include total assets of Rs. 627 lakhs as at 31st March, 2021, total revenue of Rs. 441 lakhs and total net profit after tax of Rs.141 lakhs and total comprehensive loss of Rs. 115 lakhs for the year ended 31st March, 2021 in respect of three subsidiaries and one step down subsidiary, whose financial statements have not been audited by us. These financial statements are unaudited and have been certified by the Management of the holding Company and our opinion on the consolidated financial results, in so far as it relates to the amounts and disclosures included in respect of these entities, is based solely on such unaudited financial statements and the procedures performed by us are as stated in paragraph above.

In our opinion and according to the information and explanations given to us by the Board of Directors, these financial statements are not material to the Group.

Our opinion on the consolidated financial results is not modified in respect of this matter.

- b. Due to the COVID-19 pandemic, lockdown and other travel restrictions are imposed by the Government/local administration, hence, the audit processes were carried out electronically by remote access. The necessary records were made available by the management through digital medium and were accepted as audit evidence while reporting for the current period.

Our opinion is not modified in respect of this matter.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the Group ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Independent Auditors' Report (Contd.)

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary company which is a company incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained by us and the audit evidence obtained by the other auditor in terms of his reports, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report and the audit evidence obtained by the other auditor in terms of his reports referred to in Other Matter paragraph. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (a) of the section titled 'Other Matters' in this audit report.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Independent Auditors' Report (Contd.)

Report on Other Legal and Regulatory Requirements

1. As required by section 143(3) of the Act, we report that:
 - i. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

“Annexure A” to the Independent Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Group as of and for the year ended 31 March, 2021 we have audited the internal financial controls over financial reporting of International Conveyors Limited (“the Holding Company”) and its subsidiary company, which is a company incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company and its subsidiary company, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of his report referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company and its subsidiary company.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

“Annexure A” to the Independent Auditors’ Report (Contd.)

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Holding Company and its subsidiary company have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to the subsidiary company, is based on the corresponding report of the auditors of such company.

- ii) Defined benefits plan – plan assets measured at fair value.

Historical cost is generally based on the fair value of the consideration in exchange for goods and services.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. The Group has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

The financial statements including notes thereon are presented in Indian Rupees (“Rupees” or “Rs.”), which is the Group's functional and presentation currency. All amounts disclosed in the financial statements including notes thereon have been rounded off to the nearest lakh as per the requirement of Schedule III to the Act, unless stated otherwise.

2.3 Basis of Consolidation

The Consolidated Financial Statements (CFS) includes the financial statements of the Company and its subsidiaries together with the share of the total comprehensive income of associate.

Subsidiaries are entities controlled by the Group. Associate is an entity over which the Group exercise significant influence but does not control.

Control, significant influence is assessed annually with reference to the voting power (usually arising from equity shareholdings and potential voting rights) and other rights (usually contractual) enjoyed by the Group in its capacity as an investor that provides it the power and consequential ability to direct the investee's activities and significantly affect the Group's returns from its investment. Such assessment requires the exercise of judgement and is disclosed by way of a note to the Financial Statements. The Group is considered not to be in control of entities where it is unclear as to whether it enjoys such power over the investee.

The assets, liabilities, income and expenses of subsidiaries are aggregated and consolidated, line by line, from the date control is acquired by any Group entity to the date it ceases. Profit or loss and each component of other comprehensive income are attributed to the Group as owners and to the non-controlling interests. The Group presents the non-controlling interests in

Notes Forming Part of the Consolidated Financial Statements as at March 31, 2021

the Balance Sheet within equity, separately from the equity of the Group as owners. The excess of the Group's investment in a subsidiary over its share in the net worth of such subsidiary on the date control is acquired is treated as goodwill while a deficit is considered as a capital reserve in the CFS. On disposal of the subsidiary, attributable amount on goodwill is included in the determination of the profit or loss and recognised in the Statement of Profit and Loss. Impairment loss, if any, to the extent the carrying amount exceeds the recoverable amount is charged off to the Statement of Profit and Loss as it arises and is not reversed. For impairment testing, goodwill is allocated to Cash Generating Unit (CGU) or a group of CGUs to which it relates, which is not larger than an operating segment, and is monitored for internal management purposes.

An investment in an associate is initially recognized at cost on the date of the investment, and inclusive of any goodwill/capital reserve embedded in the cost, in the Balance Sheet. The proportionate share of the Group in the net profits / losses as also in the other comprehensive income is recognised in the Statement of Profit and Loss and the carrying value of the investment is adjusted by a like amount (referred as 'equity method'). All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.4 Property, plant and equipment (PPE), depreciation and amortization

- a) All Property, plant and equipment are stated at cost of acquisition with subsequent improvements thereto. Cost of acquisition includes taxes, duties, inward freight and installation expenses.

Expenditure incurred on improvements/ modifications of fixed assets that increases the future benefits from the existing asset beyond its previously assessed standard of performance, e.g., increase in capacity / efficiency, are capitalized.

- b) Depreciation is provided on written down value method as per Schedule II of the Companies Act, 2013 based on the useful life of the assets. In case of certain items of Plant and Equipments where useful life ranging from 10 to 30 years has been considered based on technical assessment, which is different from the useful life prescribed under Schedule II of the Companies Act, 2013. However assets costing ₹ 5,000/- or less are depreciated fully in the year of addition. Leasehold land is amortized over the period of lease.

Additions on account of improvements/ modifications, which becomes an integral part of the existing asset and either do not have separate identity and/or are not capable of being used after the existing asset is disposed off, are depreciated over the remaining useful life of the assets (improved /modified) they are attached with.

- c) Intangible Assets

Intangible assets are stated at cost of acquisition less accumulated amortization. Computer software packages are amortized over a period of five year on straight line basis.

2.5 Financial instruments

Financial assets and financial liabilities are recognised in the Balance sheet when the Group becomes a party to the contractual provisions of the instrument. The Group determines the classification of its financial assets and financial liabilities at initial recognition based on its nature and characteristics.

(a) Financial assets

(i) Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. The financial assets include equity and debt securities, trade and other receivables, loans and advances, cash and bank balances and derivative financial instruments.

(ii) Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in the following categories:

- At amortised cost,
- At fair value through other comprehensive income (FVTOCI), and
- At fair value through profit or loss (FVTPL).

Notes Forming Part of the Consolidated Financial Statements as at March 31, 2021

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold the asset for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

Equity investments

All equity investments in the scope of Ind AS 109 are measured at fair value except in case of investment in associate (consolidated as per equity method).

Equity instruments included within the FVTPL category, if any, are measured at fair value with all changes recognized in profit or loss. The Group may make an irrevocable election to present in OCI subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

When the fair value has been determined based on level 3 inputs, the difference between the fair value at initial recognition and the transaction price is deferred and after initial recognition deferred difference is recognised as gain or loss to the extent it arises from change in input to valuation technique.

If the Group decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in OCI. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

(iii) De-recognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset.

(b) Financial liabilities

(i) Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities classified at amortised cost, net of directly attributable transaction costs.

The financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, derivative financial instruments, etc.

(ii) Subsequent measurement

For the purpose of subsequent measurement, Financial liabilities are classified in two categories:

- Financial liabilities at amortised cost, and
- Derivative instruments at fair value through profit or loss (FVTPL).

Financial liabilities at amortised cost

After initial recognition, financial liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Notes Forming Part of the Consolidated Financial Statements as at March 31, 2021

(iii) De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

(c) Derivative financial instruments

Initial recognition and subsequent measurement

A derivative financial instrument, such as forward currency contracts and interest rate swaps are used to hedge foreign currency risks and interest rate risks respectively and includes options. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

When the fair value has been determined based on level 3 inputs, the difference between the fair value at initial recognition and the transaction price is deferred and after initial recognition deferred difference is recognised as gain or loss to the extent it arises from change in input to valuation technique.

(d) Offsetting of financial instruments

Financial assets and financial liabilities including derivative instruments are offset and the net amount is reported in the Balance sheet, if there is currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

(e) Fair value measurement

Fair value is a market-based measurement, not an entity-specific measurement. Under Ind AS, fair valuation of financial instruments is guided by Ind AS 113 "Fair Value Measurement".

For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a fair value measurement in both cases is the same to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (i.e. an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability).

Three widely used valuation techniques specified in the said Ind AS are the market approach, the cost approach and the income approach which have been dealt with separately in the said Ind AS.

Each of the valuation techniques stated as above proceeds on different fundamental assumptions, which have greater or lesser relevance, and at times there is no relevance of a particular methodology to a given situation. Thus, the methods to be adopted for a particular purpose must be judiciously chosen. The application of any particular method of valuation depends on the Group being evaluated, the nature of industry in which it operates, the Group's intrinsic strengths and the purpose for which the valuation is made.

In determining the fair value of financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each balance sheet date.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 : Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 : Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Notes Forming Part of the Consolidated Financial Statements as at March 31, 2021

(f) Share capital

An equity instrument is a contract that evidences residual interest in the assets of the Group after deducting all of its liabilities. Incremental costs directly attributable to the issuance of new equity shares are recognized as a deduction from equity, net of any tax effects.

2.6 Inventories

- a) Inventories are valued at lower of the cost and net realizable value. The cost in respect of raw materials and stores and spares is determined on FIFO basis and in respect of finished goods and stock in process is determined on average basis. Cost of raw materials and stores and spares include the taxes and duties other than those recoverable from taxing authorities and expenses incidental to the procurement of the same. Cost in case of stock-in-process and finished goods represent prime cost and appropriate portion of overheads.

2.7 Impairments of Assets

(a) Non-financial assets

Property, plant and equipment and intangible assets are reviewed at each Balance Sheet date for impairment. In case events and circumstances indicate any impairment, recoverable amounts of fixed assets is determined. An impairment loss is recognized, whenever the carrying amount of assets belonging to the Cash Generating Unit (CGU) exceeds recoverable amount. The recoverable amount is the greater of assets net selling price or its value in use. In assessing the value in use, the estimated future cash flows from the use of assets are discounted to their present value as appropriate. An impairment loss is reversed if there has been change in the recoverable amount and such loss either no longer exists or has decreased. Impairment loss/reversal thereof is adjusted to the carrying value of the respective assets, which in case of CGU, are allocated to its assets on a prorata basis.

(b) Financial assets

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss.

ECL impairment loss allowance is measured at an amount equal to lifetime ECL.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income or expense in the Statement of Profit and Loss. This amount is reflected under the head "Other expenses" in the profit or loss. ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the Balance sheet. The allowance reduces the net carrying amount.

Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

2.8 Foreign Currency Transaction

Transactions in Foreign Currencies are accounted for at the exchange rate prevailing as on the date of the transaction. Foreign Currency monetary assets and liabilities at the year end are translated using closing rates whereas non monetary assets are translated at the rate on the date of transaction. The loss or gain thereon and also on the exchange differences on settlement of the foreign currency transaction during the year are recognized as revenue or expenses in the Statement of Profit and Loss.

2.9 Revenue Recognition

Revenue is recognized to the extent it is probable that economic benefits would flow to the Company and the revenue can be reliably measured, regardless of when the revenue proceeds is received from customers.

Revenue is measured at fair value of the consideration received/receivable taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the Government.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Company recognizes revenue when it transfers control over a product or service to customers in accordance with Ind AS 115.

Notes Forming Part of the Consolidated Financial Statements as at March 31, 2021

The Company recognizes revenue to depict the transfer of promised goods or services to customers in amounts that reflect the payment to which the Company expects to be entitled in exchange for those goods or services by applying the following steps:

Step -1- Identify the contract with a customer;

Step -2- Identify the performance obligations in the contract;

Step -3- Determine the transaction price;

Step -4- Allocate the transaction price to the performance obligations in the contract;

Step -5- Recognize the revenue when (or as) the Company satisfies a performance obligation.

The specific recognition criteria for revenue recognition are as follows:

a) Sale of Electricity

Sale of Electricity is accounted for on delivery of Electricity to grid in terms of agreement with the Electricity Board.

Other income

a) Interest income

For all debt instruments measured at amortized cost, interest income is recognized using the effective interest rate (EIR). Interest income is included in "Other income" in the Statement of Profit and Loss.

b) Insurance and other claims are accounted for as and when admitted or realized.

c) Dividend is recognized when the right to receive is established.

d) All other income are accounted for on accrual basis

2.10 Expenses

All expenses are accounted for on accrual basis. Expenses under primary heads such as salary, wages, consumption of stores etc., are being shown under respective heads and have not been functionally reclassified.

2.11 Employee Benefits

Short term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

The Group has Defined Contribution Plan for its employees retirement benefits comprising of Provident Fund and Pension Fund. The Group makes regular contribution to Provident Fund, which are fully funded and administered by the Government. Contributions are recognized in Statement of Profit and Loss on accrual basis.

The Group has Defined Benefit Plan comprising of Gratuity and Leave Encashment schemes. The Group contributes to the Gratuity Fund under the Group Gratuity Cash Accumulation Scheme with Life Insurance Corporation (LIC) for future payment of gratuity liability to its employees. Consequent to the adoption of Indian Accounting Standard 19 (Ind AS 19) on "Employee Benefits", the liability for the Gratuity and Leave Encashment as at the year end has been determined on the basis of an independent actuarial valuation in accordance with the method stated in Ind AS 19 Revised and such liability has been adjusted/ provided in these financial statements.

The actuarial gain and losses comprise experience judgment and are recognized in the Statement of Profit and Loss in the year in which they arise.

2.12 Grants

Government Grants are recognized at fair value when there is reasonable assurance that the grant would be received and the Group would comply with all the conditions attached with them.

Notes Forming Part of the Consolidated Financial Statements as at March 31, 2021

2.13 Borrowing Cost

Borrowing Cost that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of such asset till such time that is required to complete and prepare the asset to get ready for its intended use.

All other borrowing cost are charged to the statement of Profit and Loss in the period in which they are incurred.

2.14 Taxes

Income tax expense comprises current tax and deferred tax and is recognized in the Statement of Profit and Loss except to the extent it relates to items directly recognized in Equity or in OCI.

a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities using the tax rates and tax laws that are enacted or substantively enacted by the balance sheet date and applicable for the period.

Current tax items in correlation to the underlying transaction relating to OCI and Equity are recognized in OCI and in Equity respectively.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

b) Deferred income tax

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred tax assets are recognized for deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised.

Unrecognised deferred tax assets are re-assessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws to the extent it is likely to give future economic benefits in the form of availability to set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off deferred tax assets against deferred tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Notes Forming Part of the Consolidated Financial Statements as at March 31, 2021

2.15 Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Assets are neither recognized nor disclosed in the financial statement. Contingent Liabilities, if material, are disclosed by way of notes.

2.16 Earnings per share

- (a) Basic earnings per share are computed by dividing the net profit/(loss) after tax by the weighted average number of equity shares outstanding during the year.
- (b) Diluted earnings per share are computed by dividing the net profit/(loss) after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are determined as at the end of each period presented. Dilutive potential equity shares are determined independently for each period presented.

2.17 Operating Segment

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM).

The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Managing Director who makes strategic decisions.

The accounting policies adopted for segment reporting are in line with the accounting policies adopted for preparing and presenting the Financial Statements of the Group as a whole. In addition, the following specific accounting policies have been followed for segment reporting:

- a) Segment revenue includes sales and other income directly identifiable with/allocable to the segment including inter segment transfers.
Inter segment transfers are accounted for based on the transaction price agreed to between the segments which is at cost in case of transfer of Group's intermediate and final products and estimated realisable value in case of by-products.
- b) Revenue, expenses, assets and liabilities are identified to segments on the basis of their relationship to the operating activities of the segment. Revenue, expenses, assets and liabilities which relate to the Group as a whole and are not allocable to segments on direct and/or on a reasonable basis, have been disclosed as "Unallocable".

2.18 Cash and cash equivalents

Cash and cash equivalents in the Balance sheet comprise cash on hand, cheques on hand, balance with banks on current accounts and short term, highly liquid investments with an original maturity of three months or less and which carry insignificant risk of changes in value.

For the purpose of the Cash Flow Statement, Cash and cash equivalents consist of Cash and cash equivalents, as defined above and net of outstanding book overdrafts as they are considered an integral part of the Group's cash management.

2.19 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit/loss before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing flows. The cash flows from operating, investing and financing activities of the Group are segregated.

Notes Forming Part of the Consolidated Financial Statements as at March 31, 2021

3. Use of estimates and judgement

The preparation of financial statements in conformity with Ind AS requires that management of the Group makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustments to the carrying amounts of assets and liabilities within the next financial year are described below. The Group has based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond control of the management.

1. Control:

The Group assessed whether or not it has control on its investees based on whether, as an investor, it has the power/ rights and consequently the practical ability to direct the relevant activities of its investees unilaterally. In making this judgement, the Group considered the absolute size of its holding, the relative size of and dispersion of other shareholders, and whether any contractual arrangements exist between the Company (and its subsidiaries) and other shareholders of the investees. Based on this, and in accordance with its Accounting Policy, the Group has determined that the entities listed in the notes to the financial statements are the only entities over which Group has control.

2. Significant influence:

The Group assessed whether or not it has significant influence on its investees based on its practical ability to participate in the financial and operating policy decisions of the investee, though it is not in control or in joint control of these policies. Based on such assessment, the Group determined that the entities listed in the notes to the financial statements are the only entities over which the Group has significant influence, and accordingly associates.

3. Income taxes

Deferred income tax expense is calculated based on the differences between the carrying value of assets and liabilities for financial reporting purposes and their respective tax bases that are considered temporary in nature. Valuation of deferred tax assets is dependent on management's assessment of future recoverability of the deferred benefit. Expected recoverability may result from expected taxable income in the future, planned transactions or planned optimising measures. Economic conditions may change and lead to a different conclusion regarding recoverability.

4. Fair value measurements and valuation processes:

Investments are measured at fair value for financial reporting purposes. Fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in the notes to the financial statements.

5. Estimation of Defined benefit obligations

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each financial year end.

he parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the actuary considers the interest rates of government bonds.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Notes Forming Part of the Consolidated Financial Statements as at March 31, 2021

6. Provisions and contingent liabilities

The Company has ongoing litigations with various regulatory authorities and third parties. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is provided in notes to the financial statements.

3. Recent Pronouncement

Effective 1st April, 2020, there were certain amendments in Indian Accounting Standards (Ind AS) vide Companies (Indian Accounting Standards) Amendment Rules, 2020 notifying amendment to existing Ind AS 1 'Presentation of Financial Statements', Ind AS 8 'Accounting Policies, Changes in Estimates and Errors', Ind AS 10 'Events after the Reporting Period', Ind AS 34 'Interim Financial Reporting', Ind AS 37 'Provisions, Contingent Liabilities and Contingent Assets', Ind AS 103 'Business Combinations', Ind AS 107 'Financial Instruments: Disclosures', Ind AS 109 'Financial Instruments', Ind AS 116 'Leases'.

Ind AS 1 has been modified to redefine the term 'Material' and consequential amendments have been made in Ind AS 8, Ind AS 10, Ind AS 34 and Ind AS 37.

Ind AS 103 dealing with 'Business Combination' has defined the term 'Business' to determine whether a transaction or event is a business combination.

Amendment to Ind AS 107 and 109 relate to hedging relationship directly affected by Interest Rate Benchmark reforms. The amendment among other things requires an entity to assume that Interest Rate Benchmark on which hedged cash flows are based is not altered as a result of Interest Rate Benchmark reforms.

Ind AS 116 dealing with 'Leases' permitted lessees, as a practical expedient, not to assess whether rent concessions that occur as a direct consequence of COVID-19 pandemic and meet specified conditions are lease modifications and, instead, to account for those rent concessions as if they were not lease modifications.

Revision in these standards did not have any material impact on the profit/loss and earning per share for the year.

Standards issued but not yet effective:

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2021.

B. Fair value hierarchy

The fair value of the financial assets and financial liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

Fair value of cash and cash equivalents, bank balances other than cash and cash equivalents, trade receivables, other financial assets, short term borrowings from banks and financial institutions, trade payables and other financial liabilities approximate their carrying amounts due to the short-term maturities of these instruments.

The Company uses the following fair value hierarchy for determining and disclosing the fair value of financial instruments:

Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 : Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 : Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following tables provide the fair value hierarchy of the Company's assets and liabilities measured at fair value on a recurring basis:

11 Financial risk management objectives and policies

The Group's principal financial liabilities includes borrowings, trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade receivables, cash and cash equivalents and other financial assets that derive directly from its operations.

The Group is exposed to credit risk, liquidity risk and market risk. The management oversees these risks and appropriate financial risk governance framework for the Group. The management provides assurance that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. All derivative activities for risk management purposes are carried out by specialist team that have the appropriate skills, experience and supervision. It is the Group's policy that derivatives are used exclusively for hedging purposes and not for trading or speculative purposes.

The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below :

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other risks, such as regulatory risk and commodity price risk.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates.

Notes Forming Part of the Consolidated Financial Statements as at March 31, 2021

33 OTHER DISCLOSURES (Contd.)

11 Financial risk management objectives and policies (Contd.)

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

To manage this, the Group enters into derivative contracts as and when required, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's foreign currency denominated borrowings. This foreign currency risk is covered by using foreign exchange forward contracts.

Foreign currency sensitivity

1% increase or decrease in foreign exchange rates will no material impact on Profit.

Unhedged Foreign Currency exposures are as follows :-

Nature	Currency	₹ in lakh	
		As at March 31, 2021	As at March 31, 2020
Amount receivable on account of sale of goods, loans and advances, interest, etc.	USD	–	10.68
	SGD	–	–
	CDN	10.09	20.60
	AUD	–	–
Amount payable on account of purchase of goods and services, loans and advances, interest, etc.	USD	4.84	3.39
	GBP	–	0.03
	CDN	0.70	5.75
	AUD	–	–

(b) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date.

Financial assets are written off when there is no reasonable expectation of recovery, however, the Group continues to attempt to recover the receivables. Where recoveries are made, these are recognised in the Statement of Profit and Loss.

(i) Trade receivables

Customer credit risk is managed based on Group's established policy, procedures and control relating to customer credit risk management.

Trade receivables are non-interest bearing and are generally on credit terms of 3 to 60 days.

An impairment analysis is performed at each balance sheet date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the balance sheet date is the carrying value of each class of financial assets disclosed in note no. 12.

Notes Forming Part of the Financial Statements as at March 31, 2021

33 OTHER DISCLOSURES (Contd.)

11 Financial risk management objectives and policies (Contd.)

(ii) Balances with banks

Credit risk from balances with banks is managed in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties.

The Group's maximum exposure to credit risk for the components of the balance sheet as at March 31, 2021 and March 31, 2020 is the carrying amounts as stated in note no. 13 and 14.

(c) Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash credit facilities and short term loans.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payment :
