FY 2023-24 Guidance

- **Revenue from Operations:** expecting double digit growth
- **EBITDA:** expecting 50-100 BPS growth in compare to previous year

Managing Director's Message

Mr. Mahendra K Dhanuka
Managing Director

Delay in the arrival of the monsoon led to rain deficit up to mid-June and affected the performance of all agrochemical companies including Dhanuka. However, the good news is that good rains since the last week of June have supported in catching up the demand of agrochemicals over the last 5 weeks, especially in case of herbicides. The degrowth of First Quarter has been converted into positive growth in July Month. The sowing of rice, cotton and oilseeds has also gained momentum after a slow start, but planting is still lagging behind in pulses which are down by about 10% in area.

The Shareholders of the Company in the 38th Annual General Meeting held today at 11.00 AM declared the Final Dividend of 100% that is Rs.2/- per equity share having face value of Rs.2/-per share. The Company has already rewarded its Equity Shareholders with buy back of 10 lac Equity Shares @ Rs. 850/- per Equity Share absorbing Rs. 85 Crores.

Dhanuka have introduced new molecules Implode a Maize herbicide, Mesotrax a herbicide for Maize & Sugarcane, Defend a insecticide for paddy BPH & Six BiologiQ products. It is expected that these new introductions will add good volumes in the topline of the Company.

Next, I would like to share the progress on our Technical plant at Dahej. While final production is delayed by 1 month and now expected in 3rd week of August, I am excited to share that we have entered the final phase of trials with commencement of Steam trials at the unit. This was only possible with the continuous efforts of the team to obtain all necessary government approvals leading to successful initiation of Boiler operations last week. As shared earlier, we will start the production with Bifenthrin Technical and soon add Lambda Cyhalothrin Technical as well. We are expecting a combined production of around 350 MT in the current financial year with annual production capacity at around 600 MT. The new plant will support Dhanuka in our long-term business objectives and revenue growth.

Q1 FY2023-24 Income Statement

Particulars (Rs.in Crores)	Q1 FY 24	Q1 FY 23	YoY%	FY 23	FY 22	YoY%
