Creating Core Infrastructure

Cabinet clears ₹2,500 cr for DD, AIR infra upgrade

VINEET SUSAN PINTO
Mumbai, 4 January

The Cabinet Committee on Economic Affairs (CCEA) on Wednesday approved a scheme worth ₹2,539.61 crore for Doordarshan (DD) and All India Radio (AIR) in a boost to public sector broadcasting in the country.

The investment, announced under the Central Sector "Broadcasting Infrastructure and Network Development (BIND) scheme," will be up to 2025-26 and will aim to modernise the two entities run by Prasar Bharati. It is also the largest investment outlay by the government for the two public broadcasters under the BIND scheme, media experts said.

The Information & Broadcasting (I&B) Ministry had last year disclosed in the Lok Sabha that it had spent over ₹2,300 crore to modernise DD and AIR between 2014 and 2021.

"The BIND scheme is the vehicle for providing financial support to Prasar Bharati for expenses related to expansion and upgrade of its broadcasting infrastructure, content development and civil work related to the organisation," I&B Minister Anurag Thakur said while announcing the investment on Wednesday.

"Prasar Bharati, as the public broadcaster of the country, is the most important vehicle of information, education,

The Union Cabinet has given ex-post facto approval for naming of Greenfield International Airport at Goa's Mopa as Manohar International Airport, after former defence minister and Goa chief minister Manohar Parrikar. PTI

Govt approves ₹2,614-cr investment for Sunni Dam hydro power project

The government on Wednesday approved ₹2,614.51 crore investment for the 382 MW Sunni Dam Hydro Electric Project by state-owned SJVN in Himachal Pradesh. "The Cabinet Committee on Economic Affairs chaired by Prime Minister Narendra Modi has approved the investment for 382 MW Sunni Dam Hydro Electric Project in Himachal Pradesh by SJVN, for an estimated cost of ₹2,614.51 crore, including ₹13.80 crore as budgetary support from Government of India for the cost of enabling infrastructure," an official statement said. Ex-post facto approval is given for cumulative expenditure incurred amounting to ₹246 crore till January 2022. It added, the project cost of ₹2,614 crore included hard cost amounting to ₹2,246.40 crore, interest during construction (IDC) and financing charges (FC) of ₹358.96 crore and ₹9.15 crore, respectively, the statement said. PTI

entertainment and engagement for the people, especially in remote areas of the country, through DD and AIR," he said. According to Shashi Shekhar Vempati, media expert and former CEO of Prasar Bharati, the BIND scheme would enable the public broadcaster to undertake major upgrade of its facilities across the country. Another priority area of the scheme would be the develop-

ment of high-quality content for both domestic and international audiences and ensuring availability of diverse content to viewers by upgrade of capacity of DD FreeDish, the free-to-air DTH platform run by Prasar Bharati, to accommodate more channels, the I&B Ministry said. Purchase of OB vans and digital upgrade of DD and AIR studios to make them high-definition-ready would also be done as part of the project, the ministry said. "Prasar Bharati is the public broadcaster... it is not just about profit making. The aim is to ensure information regarding the government's work and schemes reaches the people. Different reports have pointed at the quality of content, whether it is DD or AIR," said Thakur. Both DD and AIR would be available on mobile phones, he added.

Expense rationalisation may be underlying Budget theme

ANUP ROYCHOUDHURY
New Delhi, 4 January

When Finance Minister Nirmala Sitharaman rises to present the Budget on February 1, observers will be looking for announcements on taxation, infrastructure, agriculture, job creation, social sector schemes, fiscal deficit, borrowings, expenditure and revenue targets.

However, there could be a theme of the Budget, which may not be immediately apparent from the finance minister's speech.

But it will become clearer once Budget documents are studied, something very important from the public finance perspective.

The last few Budgets were about eliminating off-Budget borrowings, something which Sitharaman and finance secretary T V Somanathan have succeeded in doing.

The Budget for the financial year 2023-24 (FY24) could be about controlling non-sessional expenditure.

"It has been an ongoing process for us, talking to the relevant line ministries about eliminating leakages and curbing non-core expenditure in various schemes. It is not something that can be done in a year, but we do expect some savings this year (FY23) and better savings next year (FY24)," a senior government official told Business Standard.

ICRA chief economist Aditi Nayar had said in a note last week that the savings expected this year could be around ₹1 trillion.

However, internally, finance ministry officials are expecting higher savings.

"There are some schemes and processes where the government is expecting to see savings. They are listed below:

Public Finance Management System, for the distribution of centrally-sponsored schemes (CSS) to states.

CSS schemes are jointly funded by the Centre and states.

Through the SNA dashboard, officials can track funds from the central treasury to ministries, state treasuries and departments and right down to the vendor, contractor or implementing agency.

Under SNA, states have one bank account for one scheme and all the money for that scheme will flow through that account. This means that instead of thousands of accounts, the Centre just has to monitor around 3,000 accounts.

The Centre saved around ₹10,000 crore through SNA last fiscal year. And this year, it is expected to save ₹40,000-50,000 crore, sources said.

As the SNA dashboard is improved, more savings are expected next year.

"The Centre has already held back allocations worth more than ₹1 trillion so far this year, for certain schemes. It told states that they have equivalent amounts in their treasuries and should spend those sums first.

of India's chief economic advisor Sourya Kanti Ghosh believe that savings from the SNA dashboard will continue to be significant.

Flagship schemes
In Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGS), the finance ministry's expenditure department is working with the ministry of rural development to identify efficiencies.

"Of particular concern to policymakers is that the number of MGNREGS beneficiaries was around 50 million before the pandemic. It rose to around 70 million as the economy slumped.

However, it has not come down to pre-pandemic levels even as jobs in urban areas have returned.

Also, the rural development ministry has been asked to identify why some relatively better-off districts have more MGNREGS beneficiaries compared with neighbouring aspirational (less-developed) districts. This has been an ongoing exercise.

"We have had a positive response from the rural development ministry and are drawing up a blueprint to reduce these inefficiencies," a second official said.

As a result of shocks caused to food and energy prices due to the war in Europe, the Centre has seen a massive rise in food and fertiliser subsidies. The fertiliser ministry's budget target of ₹2.07 trillion the ministry of consumer affairs, food and public distribution has been asked to look at how costs of procurement are calculated for foodgrains meant for the central government's food guarantee schemes.

Turnaround of PSBs: From ₹85K-cr loss in 2017 to nearing ₹1-trn profit

KUMAR DIPANKAR
New Delhi, 4 January

Public sector banks (PSBs) have travelled a long distance since 2017 — when they posted a net loss of ₹85,390 crore — to a profit of ₹66,539 crore in FY22, and are estimated to touch a milestone of ₹1 trillion by the end of the current fiscal year.

There was a time when 11 of 21 PSBs were placed under the prompt corrective action (PCA) framework of the Reserve Bank of India (RBI) due to deteriorating financial health on account of mounting bad loans to alarming levels of 14.58 per cent of the total credit. PSBs suffered from a host of problems, including a dismal capital base, unprofessional management, demoralised staff, and huge inefficiencies. Many of them were on the brink of default, posing a threat to the financial security of the country. Their share prices had hit a rock bottom.

PSBs booked collective losses of ₹207,329 crore for five straight years — from 2015-16 to 2019-20. The highest amount of net loss was registered in 2017-18 at ₹55,370 crore, followed by ₹66,636 crore in 2018-19, ₹25,941 crore in 2019-20, ₹17,993 crore in 2015-16 and ₹11,389 crore in 2016-17.

The doom-to-bloom story of the public sector banking industry can be attributed to the initiatives and spate of reforms undertaken by the Centre, in which Prime Minister Narendra Modi, then Finance Minister Arun Jaitley and Financial Services Secretary Rajiv Kumar played key roles. As part of the strategy, the government infused an unprecedented ₹30,997 crore to recapitalise PSBs during the last five financial years — from 2016-17 to 2020-21. The recapitalisation programme provided much-needed support to the PSBs and prevented the possibility of any default on their part. PTI
