## Media Release

# Adani Total Gas signs MoU to aid Flipkart's efforts to decarbonise its supply chain

### Editor's synopsis

- **The initiative will reduce Flipkart's carbon footprint across its supply chain**
- **ATGL will aid Flipkart's decarbonization journey of switching to cleaner fuel options like natural gas and EVs**

**Ahmedabad, 27th December 2023:** Adani Total Gas Limited (ATGL), India's leading energy and city gas distribution company, and Flipkart, India's homegrown ecommerce marketplace, today announced signing of a Memorandum of Understanding (MoU).

Under the MoU, ATGL will work with Flipkart to support its vision to reduce carbon footprint in the primary, secondary and tertiary movements of goods between sourcing locations, warehouses, and customers. ATGL will provide decarbonizing solutions, aiding Flipkart's journey to switch to cleaner fuel options, including natural gas, and the introduction of electric vehicles.

Adani TotalEnergies E-Mobility Limited (ATEL), a wholly owned subsidiary of ATGL, will deploy EV charging infrastructure at Flipkart's pan India supply chain, including at warehouses and logistics locations. This partnership will go a long way in decarbonizing the e-commerce logistics segment in the country, which accounts for more than 8 million shipments per day. With growth in the economy, this volume is only set to grow further and requires well thought of solutions to reduce associated carbon emissions.

At COP 26, India committed to climate action goals, which included reducing carbon intensity of the economy and achieving the net zero target. Indian e-commerce players like Flipkart have also set goals of net zero, and decarbonizing transportation will go a long way to achieve these goals.

ATGL, which is co-promoted by Adani Group and France's TotalEnergies, is committed to building India's next generation energy infrastructure to provide cleaner energy solutions to residential, commercial, industrial, and transportation segments.

**Mr. Suresh P Manglani, Executive Director & CEO of Adani Total Gas Ltd, said,** "We are fully committed to providing clean energy solutions to our customers and to help them achieve their decarbonization goals, thus actively contributing towards India's climate action goals."

**Mr. Hemant Badri, Senior Vice President and Head of Supply Chain, Customer Experience & Re-Commerce, Flipkart Group, said,** "At Flipkart, we are committed to introducing solutions that help us move towards a sustainable future, such as integrating cleaner energy solutions and introduction of electric vehicles in our logistics. Through shared vision and collective action, we believe this collaboration with Adani Total Gas Limited will play an important role in supporting our efforts to achieve

## Gas

our net-zero goals and in catalyzing the complete electrification of our fleet, which is a key part of Flipkart's larger sustainability vision."

### **About the Flipkart Group**

The Flipkart Group is one of India's leading digital commerce entities and includes group companies Flipkart, Myntra, Flipkart Wholesale, Flipkart Health+, and Cleartrip.

Started in 2007, Flipkart has enabled millions of sellers, merchants, and small businesses to participate in India's digital commerce revolution. With a registered user base of more than 500 million, Flipkart's marketplace offers over 150 million products across 80+ categories. Today, there are over 14 lakh sellers on the platform, including Shopsy sellers. With a focus on empowering and delighting every Indian by delivering value through technology and innovation, Flipkart has created lakhs of jobs in the ecosystem while empowering generations of entrepreneurs and MSMEs. Flipkart is known for pioneering services such as Cash on Delivery, No Cost EMI and easy returns, which are customer-centric innovations that have made online shopping more accessible and affordable for millions of Indians.

### **About Adani Total Gas**

Given its gas distribution, ATGL is authorised in 33 Geographical Areas and plays a significant role in the nation's efforts to enhance the share of natural gas in its energy mix. Of the 52 GAs, 33 are owned by ATGL and the balance 19 GAs are owned by Indian Oil-Adani Gas Private Limited (IOAGPL) – a 50:50 joint venture between Adani Total Gas Limited and Indian Oil Corporation Limited. Further, ATGL has formed 2 wholly owned subsidiaries namely Adani TotalEnergies E-Mobility Ltd (ATEL) and Adani TotalEnergies Biomass Ltd (ATBL) for its E-Mobility and Biomass Business respectively. ATGL has also formed a 50:50 joint venture, namely Smart Meter Technologies Private Limited for its gas meter manufacturing business.
