24. Overview of the entity's material responsible business conduct issues:

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

S. No.	Material issue identified	Risk/ Opportunity	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Energy Management	Risk	Energy is often necessary to operate processing units, machinery, and other facilities that are not directly involved in manufacturing in the software and IT business. As a result, a firm's decisions about the energy intensity of its operations and the sources of its energy may change over time, impacting the organization's operating efficiency and risk profile.	Energy efficiency and switching to renewable energy sources, is a priority that reduces carbon emissions, can reduce our operating costs and is aligned with the agenda of moving towards carbon neutrality. Ramco takes focused initiatives to reduce Company's specific and absolute energy consumption.	Negative

S. No.	Material issue identified	Risk/ Opportunity	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
2.	Climate Change	Risk	Climate change events bring physical dangers such as sea level rise and increased cyclonic effect, as well as transitional concerns such as renewable energy mandates. Such occurrences have the potential to have an impact on the business. As a result, assessment and mitigation of such hazards is very vital.	Ramco is focusing on Net Zero and developing technology-enabled climate-centric solutions for our customers.	Negative
3.	Diversity, Equity and Inclusion	Opportunity	A Company's high diversity and inclusion rate reflects its employees' sense of belonging and justice. Furthermore, increasing diversity and inclusion helps businesses support vulnerable populations, resulting in the construction of community brand image.	-	Positive
4.	Human Rights	Risk	Companies that prioritise human rights highlight their dedication to developing long-term, mutually beneficial partnerships with individuals influenced or touched by their operations, such as consumers, communities, workers, and investors. This includes demonstrating concern for the people whose lives they interact with.	Ramco has a robust Human Capital Management (HCM) tool which helps Ramco optimize the various HR functions. It helps the Company in Competency planning and better staffing.	Negative
5.	Digital Talent Empowerment	Opportunity	Empowering digital talent in the workplace is critical because it provides employees with new skills and chances to engage more effectively and show their potential, as a result, increasing employee engagement and efficiency in performance.	-	Positive

S. No.	Material issue identified	Risk/ Opportunity	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
6.	Talent Acquisition, Development & Retention	Risk	Higher staff retention rates indicate that the Company's policies and practises are sound. A high attrition rate, on the other hand, signals low employee satisfaction to investors. Ensuring good worker wellbeing can increase employee morale while decreasing onboarding costs.	The primary focus is to create a motivated workforce that will contribute to higher levels of business performance. We rely on the right talent for servicing customer needs, business sustainability, and future growth.	Negative
7.	Education and Skill Development	Opportunity	Employee re-skilling enables businesses to stay up with the dynamic shift in demand for new technology while also sustaining the growing firm. It develops a workforce that is adaptable, nimble, and eager to learn, and that can take on new duties when the organisation requires assistance.	-	Positive
8.	Customer Relations	Risk	Customer satisfaction is a critical success indicator as it assesses how well firms deliver products and services that meet or exceed consumers' expectations, providing insight into an organization's overall success. A poor customer experience relationship can lead to customer loss or a drop in customer loyalty. Similarly, client loss and reputational damage can result in decreased sales and revenue.	Our trust-based relationships with customers enable us for success. Ramco engages with customers across the year in ways to reinforce trust and strengthen relationship. With dedicated customer support team and quality team we ensure utmost customer satisfaction	Negative
9.	Risk Management	Risk	Maintaining competitive superiority in this dynamic demand and supply side environment needs that the Company be resilient to shocks. This is controlled through a strong enterprise risk management approach that assesses and manages financial and non-financial threats.	Maintaining our position of competitive dominance in this dynamic demand and supply-side environment necessitates that our business is resilient to handle shocks. Management of this is enabled through a robust enterprise risk management process that evaluates and addresses both financial and non-financial risks.	Negative

S. No.	Material issue identified	Risk/ Opportunity	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
10.	Business Ethics and Compliance	Risk	The significant issue relevant to business ethics and the management of business ethics issues such as fraud, executive misbehaviour, unethical practises, money laundering, or anti-trust crimes. Ethics infractions can result in police investigations, expensive fines, settlement fees, and reputational damage.	We comply with the Laws of the countries and geographies in which we operate is a business imperative that protects the Company.	Negative
11.	Data Privacy and Security	Risk	Companies are graded based on the amount of personal data they gather, their exposure to changing or expanding privacy rules, their vulnerability to prospective data breaches, and their data protection mechanisms.	Ramco uses data protection practices to ensure that the customer's data is secure. We have a ISO 27001 certified process in place.	Negative
12.	Corporate Governance	Risk	Businesses are evaluated based on their performance in all important governance concerns, such as ownership and control, Board's compensation, accounting, corporate ethics, and tax transparency. Additionally, this topic investigates how corporate governance and business ethics practises affect a Company's Shareholders and other investors.	As being exposed to Reputation Risk and Legal Risk, Ramco Systems hold strong corporate governance for achieving long-term mission of aligning the Company's interests with stakeholders.	Negative
13.	Innovation	Opportunity	Businesses that innovate stay relevant and ahead of the competition. It enables them to contribute value to the industry while also meeting the needs of their customers along with tapping into a wider market presence.	-	Positive

For details on the mitigation please refer the section "A Sustainable Future"

Governance, leadership and oversight**7. Statement by Director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)**

Dear Stakeholders,

I am delighted to share with you Ramco Systems Limited’s commitment to embracing Environmental, Social, and Governance (ESG) practices and driving sustainable growth for a better future. Our dedication to addressing ESG-related challenges and delivering maximum value to our stakeholders is at the core of our business philosophy.

In an industry that faces various ESG-related challenges, such as data privacy and security, compliance and regulatory issues, and upholding ethical conduct and good governance, Ramco remains steadfast in addressing these challenges. We understand the importance of responsible business practices and their impact on our stakeholders and the world at large.

In line with this, we at Ramco have been implementing various sustainable business practices that promote social responsibility and environmental stewardship. We have been proactively procuring energy-efficient office equipment, encouraging sustainable modes of transportation among our employees, and responsibly managing waste through recycling of outdated electronic equipment. We believe that small actions can create a significant positive impact on our environment.

With our emphasis on an Employee-Centric culture, we take pride in fostering an inclusive and diverse work environment where employee growth, well-being, and diversity are paramount. We recognize that our diverse talent pool brings unique perspectives and contributes to our overall success. Ramco values and respects the diversity of its workforce and is committed to providing equal opportunities for all.

The Board and management of Ramco are dedicated to upholding responsible governance, integrity, and ethical conduct at all levels. We believe that strong governance practices are essential for ensuring optimal performance and building trust among our stakeholders.

Moving forward, Ramco will continue to generate a positive impact in ecological balance, societal development, and governance practices. We have successfully embarked on our ESG journey and continue to remain committed, thereby striving to create a sustainable future for generations to come.

Thank you for your continued support and trust in Ramco Systems Limited.
