Commenting on the results, Mr. Sanjay Soni, Managing Director, IZMO Ltd said :

"I am glad to share that your Company has performed well, continuing an upward growth trend during the third quarter. As macro-economic headwinds reduced, demand for our products continued to rise in new and existing regions.

We are seeing robust client accretion in FrogData, based on which we have been investing in sales and fulfilment teams across geographies.

In the quarter ended 31st December 2023, we reported a 26.35% year-on-year growth in revenue at Rs. 50.21 crores. EBITDA excluding other income grew 11.13% year-on-year to Rs. 10.52 crores while PAT grew 5.37% year-on-year to Rs. 6.88 crores. The rise in top line came from several new clients additions across the US & Europe, along with a strategic increase in sales prices, reflecting successful market expansion and pricing optimization efforts. In this quarter, we added 108 clients in the US, majority of them for Frog Data. In Europe we added 44 clients.

Innovation and R&D has always been in the DNA of Izmo. During this period, we established a wholly-owned subsidiary, named Izmo Microsystem Pvt. Ltd., that will engage in the development of technologies for electric vehicles. This would mark our foray into the EV space where there is tremendous scope for solutions such as battery management.

With our focus on penetrating new markets with existing and new products, we aim to strengthen our position as the go-to solutions providers for auto dealerships and OEMs. I would like to thank the Izmo team and all our stakeholders for their support, which pushes the Company to new heights."
