It is exploring further opportunities in the real estate sector and has in the meantime deployed its funds in investment in securities of the Transferor Company No. 1. The Transferor Company No. 1 is also inter alia engaged in the business of real estate. The Transferor Company 2 holds significant portion (17.62%) of the equity share capital of the Transferor Company No. 1. The amalgamation into the Transferee Company of the Transferor Company No. 1 and the Transferor Company No. 2 will lead to consolidation of the real estate business.

- xi. This will result into reduced combined paid-up capital leading to higher earnings per share.

6. Report of the Audit Committee dated 18<sup>th</sup> January, 2020 and 25<sup>th</sup> May, 2020 recommending the Scheme to the Board for approval.

## Rationale for the Scheme

- i. The Transferee Company is a pioneer in the Steel and Power sector and is able to attract the best talents available in the industry. The Transferee Company is having its footprints spanning across Gujarat, Maharashtra and Rajasthan. In the same way, The Transferor Company 1 is a pioneer in the Steel, Power and Agro sector and has its presence in and is having its footprints spanning across Uttar Pradesh, Bihar, Jharkhand and Delhi NCR.
- ii. The Transferor Company No. 1 and Transferee Company are under same Promoter Group. Thus, the amalgamation of the two companies operating in similar sectors with strengths in different geographies will ensure focused management in a single combined entity thereby resulting in efficiency of management and maximising overall shareholder value.
- iii. The Transferor Company No. 2 has plan to enter new business and to develop and complete real estate project. It is exploring further opportunities in the real estate sector and has in the meantime deployed its funds in investment in securities of the Transferor Company No. 1. The Transferor Company No. 1 is also inter alia engaged in the business of real estate. The Transferor Company 2 holds significant portion (17.62%) of the equity share capital of the Transferor Company No. 1. The amalgamation into the Transferee Company of the Transferor Company No. 1 and the Transferor Company No. 2 will lead to consolidation of the real estate business.
- iv. Transferor Company No. 3 is forming part of the Promoter and Promoter Group of Transferee Company. Amalgamation of Transferor Company No. 3 with the

Transferee Company would result in clarifying and making transparent the shareholding of the Transferee Company. Other Transferor Companies No. 4 and 5 are also holding shareholding of Transferee Company. The proposed amalgamation of Transferor Companies No. 4 and 5 will also bring in advantages of clarifying and making transparent shareholding of the Transferee Company.

- v. The amalgamation will bring in advantages of synergy in operations and economies of scale. The pooling of resources of companies will create strong financial structure and facilitate resource mobilisation and achieve better cash flows. The combined net worth in a single entity shall facilitate in attracting funds from strategic investors and/or financial institutions at competitive rates. Thus, the synergies created by the merger will increase the operational efficiency and integrate business functions of the amalgamated entity and help to pursue inorganic and organic growth opportunities of such business. It will also lead to more efficient utilisation of capital and create a consolidated base for future growth of the amalgamated entity.
- vi. The amalgamation particularly of the Transferor Company No. 1 and the Transferee Company will also result in administrative and operational rationalisation, organisational efficiencies, reduction in overheads and other expenses and optimal utilisation of various resources. It will prevent cost duplication, overlapping of administrative responsibilities and multiplicity of records, legal and regulatory compliances generally involved with running two separate entities and more particularly due to the listed status of both the companies involved. It will enable a dedicated management to focus and accelerate growth of the amalgamated entity.
- vii. The amalgamation will result in not only, pooling of efficient human resources and putting them to optimum utilisation for the growth of the merged entity but also attracting efficient manpower by the merged entity.
- viii. The amalgamation will enable greater realization of the potential of the businesses of the Transferor and Transferee Companies in the amalgamated entity and have beneficial results for all concerned.
- ix. The assets of the amalgamated entity will far exceed its liabilities and rights of the creditors of the Transferor Companies and the Transferee Company shall not in any way be prejudiced.
- x. The Scheme shall also be in the larger interest of the public shareholders of the Transferor Companies No. 1 and 2 and Transferee Company as amalgamation of the three companies and other companies forming part of this Scheme will lead to cancellation of inter-corporate cross shareholdings of the Transferee Company and Transferor Companies as well. This will result into reduced combined paid-up capital leading to higher earnings per share.
- xi. The Scheme also envisages Slump Sale of entire Power Plant Undertaking of the Transferor Company No. 1 as a going concern to the Transferee Company and will thereby preserve the entitlement of the said Power Plant Undertaking to the tax

- xii. In view of the aforesaid, the Board of Directors of the Transferor Companies and the Transferee Company have considered and proposed the Slump Sale of the Power Plant Undertaking of Transferor Company No. 1 to the Transferee Company and amalgamation of the entire undertaking and business of the Transferor Companies with the Transferee Company in order to benefit the stakeholders of all the companies. ## 7. Rationale of the Scheme

The Audit Committee discussed and noted the rationale of the proposed Scheme as set out below:

The Transferee Company is a pioneer in the Steel and Power sector and is able to attract the best talents available in the industry. The Transferee Company is having its footprints spanning across Gujarat, Maharashtra

and Rajasthan. In the same way, The Transferor Company No. 1 is a pioneer in the Steel, Power and Agro sector and has its presence in and is having its footprints spanning across Uttar Pradesh, Bihar, Jharkhand and Delhi NCR. The Transferor Companies No. 1 and Transferee Company are under same Promoter Group. Thus, the amalgamation of the two companies operating in similar sectors with strengths in different geographies will ensure focused management in a single combined entity thereby resulting in efficiency of management and maximising overall shareholder value.

The Transferor Companies No. 2 has plan to develop and complete real estate project. It is exploring further opportunities in the real estate sector and has in the meantime deployed its funds in investment in securities of the Transferor Companies No. 1. The Transferor Companies No. 1 is also inter alia engaged in the business of real estate. The Transferor Companies 2 holds significant portion (17.62%) of the equity share capital of the Transferor Companies No. 1. The amalgamation into the Transferee Company of the Transferor Company No. 1 and the Transferor Company No. 2 will lead to consolidation of the real estate business.

Transferor Companies No. 3 is forming part of the Promoter and Promoter Group of Transferee Company. Amalgamation of Transferor Companies No. 3 with the Transferee Company would result in clarifying and making transparent the shareholding of the Transferee Company. Other Transferor Companies No. 4 and 5 are also holding shareholding of Transferee Company. The proposed amalgamation of Transferor Companies No. 4 and 5 will also bring in advantages of clarifying and making transparent shareholding of the Transferee Company.

The amalgamation will bring in advantages of synergy in operations and economies of scale. The pooling of resources of companies will create strong financial structure and facilitate resource mobilisation and achieve better cash flows. The combined net worth in a single entity shall facilitate in attracting funds from strategic investors and/or financial institutions at competitive rates. Thus, the synergies created by the merger will increase the operational efficiency and integrate business functions of the amalgamated entity and help to pursue inorganic and organic growth opportunities of such business. It will also lead to more efficient utilisation of capital and create a consolidated base for future growth of the amalgamated entity.

The amalgamation particularly of the Transferor Companies No. 1 and the Transferee Company will also result in administrative and operational rationalisation, organisational efficiencies, reduction in overheads and other expenses and optimal utilisation of various resources. It will prevent cost duplication, overlapping of administrative responsibilities and multiplicity of records, legal and regulatory compliances generally involved with running two separate entities and more particularly due to the listed status of both the companies involved. It will enable a dedicated management to focus and accelerate growth of the amalgamated entity.

The amalgamation will result in not only, pooling of efficient human resources and putting them to optimum utilisation for the growth of the merged entity but also attracting efficient manpower by the merged entity.

The amalgamation will enable greater realization of the potential of the businesses of the Transferor and Transferee Companies in the amalgamated entity and have beneficial results for all concerned.

The assets of the amalgamated entity will far exceed its liabilities and rights of the creditors of the Transferor Companies and the Transferee Company shall not in any way be prejudiced.

The Scheme shall also be in the larger interest of the public shareholders of the Transferor Companies No. 1 and 2 and Transferee Company as amalgamation of the three companies and other companies forming part of this Scheme will lead to cancellation of inter-corporate cross shareholdings of the Transferee Company and Transferor Companies as well.

The Scheme also envisages Slump Sale of entire Power Plant Undertaking of the Transferor Companies No. 1 as a going concern to the Transferee Company and will thereby preserve the entitlement of the said Power Plant Undertaking to the tax holiday available to the said Undertaking for being engaged in an identified priority area.

In view of the aforesaid, the Board of Directors of the Transferor Companies and the Transferee Company have considered and proposed the Slump Sale of the Power Plant Undertaking of Transferor Company No. 1 to the Transferee Company and amalgamation of the entire undertaking and business of the Transferor Companies with the

Transferee Company in order to benefit the stakeholders of all the companies. Accordingly, the Board of Directors of the Transferor Companies and the Transferee Company have formulated this Scheme of Slump Sale and Amalgamation for the transfer and vesting of the Power Plant Undertaking of Transferor Company No. 1 and the entire undertaking and business of the Transferor Companies with and into the Transferee Company pursuant to the provisions of Sections 230 to 232 and other relevant provisions of the Companies Act, 2013.

The proposed Scheme will be beneficial, advantageous and not prejudicial to the interests of the shareholders, creditors and other stakeholders of the Company.

#### **7. Approval of the Scheme and Listing of Shares**

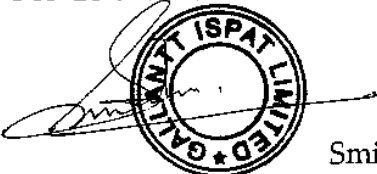

The Scheme will become effective on obtaining all approvals and upon filing of the certified copy of the Order of the NCLT with the Registrar of Companies, as mentioned in the draft Scheme.

The equity shares to be issued by the Transferee Company to the shareholders of the Transferor Companies pursuant to the Scheme are proposed to be listed on the Stock Exchanges in terms of the Scheme and the SEBI Circular.

#### **RECOMMENDATION OF THE AUDIT COMMITTEE**

(i) The Audit Committee having considered the aforesaid documents, its observations and discussion, is of the opinion that the share exchange ratio contained in the Valuation Report is fair and reasonable.

(ii) Accordingly, the Audit Committee do hereby unanimously recommend the Scheme for favorable consideration by the Board of Directors of the Company.

#### **7. Rationale of the Scheme**

The Audit Committee discussed and noted the rationale of the proposed Scheme as set out below:

The Transferee Company is a pioneer in the Steel and Power sector and is able to attract the best talents available in the industry. The Transferee Company is having its footprints spanning across Gujarat, Maharashtra and Rajasthan. In the same way, The Transferor Company No. 1 is a pioneer in the Steel, Power and Agro sector and has its presence in and is having its footprints spanning across Uttar Pradesh, Bihar, Jharkhand and Delhi NCR. The Transferor Companies No. 1 and Transferee Company are under same Promoter Group. Thus, the amalgamation of the two companies operating in similar sectors with strengths in different geographies will ensure focused management in a single combined entity thereby resulting in efficiency of management and maximising overall shareholder value.

The Transferor Companies No. 2 has plan to develop and complete real estate project. It is exploring further opportunities in the real estate sector and has in the meantime deployed its funds in investment in securities of the Transferor Companies No. 1. The Transferor Companies No. 1 is also inter alia engaged in the business of real estate. The Transferor Companies 2 holds significant portion (17.62%) of the equity share capital of the Transferor Companies No. 1. The amalgamation into the Transferee Company of the Transferor Company No. 1 and the Transferor Company No. 2 will lead to consolidation of the real estate business.

Transferor Companies No. 3 is forming part of the Promoter and Promoter Group of Transferee Company. Amalgamation of Transferor Companies No. 3 with the Transferee Company would result in clarifying and making transparent the

shareholding of the Transferee Company. Other Transferor Companies No. 4 and 5 are also holding shareholding of Transferee Company. The proposed amalgamation of Transferor Companies No. 4 and 5 will also bring in advantages of clarifying and making transparent shareholding of the Transferee Company.

The amalgamation will bring in advantages of synergy in operations and economies of scale. The pooling of resources of companies will create strong financial structure and facilitate resource mobilisation and achieve better cash flows. The combined net worth in a single entity shall facilitate in attracting funds from strategic investors and/or financial institutions at competitive rates. Thus, the synergies created by the merger will increase the operational efficiency and integrate business functions of the amalgamated entity and help to pursue inorganic and organic growth opportunities of such business. It will also lead to more efficient utilisation of capital and create a consolidated base for future growth of the amalgamated entity.

The amalgamation particularly of the Transferor Companies No. 1 and the Transferee Company will also result in administrative and operational rationalisation, organisational efficiencies, reduction in overheads and other expenses and optimal utilisation of various resources. It will prevent cost duplication, overlapping of administrative responsibilities and multiplicity of records, legal and regulatory compliances generally involved with running two separate entities and more particularly due to the listed status of both the companies involved. It will enable a dedicated management to focus and accelerate growth of the amalgamated entity.

The amalgamation will result in not only, pooling of efficient human resources and putting them to optimum utilisation for the growth of the merged entity but also attracting efficient manpower by the merged entity.

The amalgamation will enable greater realization of the potential of the businesses of the Transferor and Transferee Companies in the amalgamated entity and have beneficial results for all concerned.

The assets of the amalgamated entity will far exceed its liabilities and rights of the creditors of the Transferor Companies and the Transferee Company shall not in any way be prejudiced.

The Scheme shall also be in the larger interest of the public shareholders of the Transferor Companies No. 1 and 2 and Transferee Company as amalgamation of the three companies and other companies forming part of this Scheme will lead to cancellation of inter-corporate cross shareholdings of the Transferee Company and Transferor Companies as well.

The Scheme also envisages Slump Sale of entire Power Plant Undertaking of the Transferor Companies No. 1 as a going concern to the Transferee Company and will thereby preserve the entitlement of the said Power Plant Undertaking to the tax holiday available to the said Undertaking for being engaged in an identified priority area.

In view of the aforesaid, the Board of Directors of the Transferor Companies and the Transferee Company have considered and proposed the Slump Sale of the Power Plant Undertaking of Transferor Company No. 1 to the Transferee Company and amalgamation of the entire undertaking and business of the Transferor Companies with the Transferee Company in order to benefit the stakeholders of all the companies. Accordingly, the Board of Directors of the Transferor Companies and the Transferee Company have formulated this Scheme of Slump Sale and Amalgamation for the transfer and vesting of the Power Plant Undertaking of Transferor Company No. 1 and the entire undertaking and business of the Transferor Companies with and into the Transferee Company pursuant to the provisions of Sections 230 to 232 and other relevant provisions of the Companies Act, 2013.

The proposed Scheme will be beneficial, advantageous and not prejudicial to the interests of the shareholders, creditors and other stakeholders of the Company.

#### **7. Approval of the Scheme and Listing of Shares**

The Scheme will become effective on obtaining all approvals and upon filing of the certified copy of the Order of the NCLT with the Registrar of Companies, as mentioned in the draft Scheme.

The equity shares to be issued by the Transferee Company to the shareholders of the Transferor Companies pursuant to the Scheme are proposed to be listed on the Stock Exchanges in terms of the Scheme and the SEBI Circular.

#### **RECOMMENDATION OF THE AUDIT COMMITTEE**

(i) The Audit Committee having considered the aforesaid documents, its observations and discussion, is of the opinion that the share exchange ratio contained in the Valuation Report is fair and reasonable.

(ii) Accordingly, the Audit Committee do hereby unanimously recommend the Scheme for favourable consideration by the Board of Directors of the Company.

It will prevent cost duplication, overlapping of administrative responsibilities and multiplicity of records, legal and regulatory compliances generally involved with running two separate entities and more particularly due to the listed status of both the companies involved. It will enable a dedicated management to focus and accelerate growth of the amalgamated entity.

## 1. Purpose of the engagement

This valuation has been done pursuant to the scheme of Amalgamation ("Scheme" or "merger") under sections 230 to 232, read with and other applicable enabling provisions of the Companies Act, 2013 and provisions of other applicable laws, for amalgamation of Gallantt Ispat Limited ("GIL" or "Transferor Companies No. 1") - a promoter Group Entity, AAR Commercial Co. Limited ("AAR" or "Transferor Companies No. 2") - Hipoline Commerce private Limited ("HIPOLINE" or "Transferor Companies No. 3") - a promoter Group Entity, Lexi Exports Private Limited ("LEXI" or "Transferor Companies No.4") and Richie Credit and Finance Private Limited ("RICHIE" or "Transferor Companies No. 5") with Gallantt Metal Limited ("GML" or "Transferee Company" or the "Company").

**Slump Sale:** The Board of GML has approved acquisition of 18 MW Power Plant Unit of Gallantt Ispat Limited under Slump Sale and this is a part of the Scheme of Amalgamation as approved by the Board of Directors of GML.

The business of the Transferor Companies and the Transferee Company can be combined and carried forward conveniently with combined strength. The amalgamation will enable the Transferee Company to consolidate its line of business by restructuring and re-organizing its business activities. The proposed amalgamation will enable the companies to broaden their business activities under the roof of the Transferee Company. It will result in economies of scale including reduction in overhead expenses relating to management and administration in better and more productive utilization of various resources. The aforementioned transaction will enable the establishment of a larger company with larger resources and larger capital base leading to further development of the business of the company concerned. The said scheme will strengthen and consolidate the position of the amalgamated company and will enable the company to increase its profitability. It will be beneficial for the Company concerned, the shareholders, employees and all concerned.

Under the circumstances, it is considered desirable and expedient to reorganize and restructure the business of GML by amalgamating the business of GIL, AAR, HIPOLINE, LEXI & RICHIE with effect from 1st April 2019, subject to shareholders' consents, statutory and other approvals. The proposed amalgamation will be on going concern basis and by way of offer of shares of GML to the shareholders of GIL, AAR, HIPOLINE, LEXI & RICHIE in the ratio of their present equity holdings.

For this purpose, an exercise has been undertaken to estimate the fair market value of the equity shares of GIL, AAR, HIPOLINE, LEXI, RICHIE & GML and to decide the number of shares to be issued by GML to the shareholders of all the transferor companies.

The arrangement will also result in better, efficient and more productive utilization of manpower and other resources. The merger of Transferor Companies GIL, AAR, HIPOLINE, LEXI & RICHIE with GML will enable GML to undertake business to be carried out by all the transferor companies in future under a single umbrella of management having greater focus and attention in an efficient manner.

The valuation of shares is done on the basis of internationally accepted pricing methodology on arm's length basis. Given the above requirement, the Company has requested us to compute and conclude the fair value of equity shares of the Company on a 'going concern' basis.

Slump Sale:** The management and board of GIL has proposed that effective from opening of the business hour on April 01, 2019, GIL will sell and transfer 18 MW Power Plant to Gallantt Metal Limited on "Slump Sale" basis at a consideration of Rs. 35.00 Crores as a going concern. Slump Sale of the said Power Plant is a part of "Scheme of Amalgamation and Slump Sale" under Section 230 to 232 of the Companies Act, 2013. Sale and Transfer of Power Plant through Slump Sale is a measure of strategic tax planning of the amalgamated entity.
- 2. Gallantt Metal Ltd (GML),** the Transferee Company, is a pioneer in the Steel and Power sector and is having its footprints spanning across Gujarat, Maharashtra and Rajasthan.
- 3. Gallantt Ispat Ltd (GIL),** the Transferor Company 1, is a pioneer in the Steel, Power and Agro sector and has gained its presence and is having its footprints spanning across Uttar Pradesh, Bihar, Jharkhand and Delhi NCR.
- 4. AAR Commercial Company Limited (AAR)** is one of the Transferor Companies in this Scheme of Amalgamation and Slump Sale. Presently, AAR is engaged in the business of investing in Industrial Enterprises and advancing of loan and investments as permitted by the Memorandum of Association of the Company but is not carrying out Banking activities. AAR has plan to develop and complete real estate project. It is exploring further opportunities and has in the meantime deployed its funds in investment in securities of the GIL. GIL inter alia engaged in the business of real estate and the AAR is also exploring opportunities in the real estate sector. AAR holds major portion (17.62%) of the equity share capital of GIL. GIL and GML are under same Promoter Group. Thus, the amalgamation may ensure focused management in a single combined entity thereby resulting in efficiency of management and maximizing overall shareholder value.
- 5. Hipoline Commerce Private Limited (HIPOLINE)** is a Non-Banking Financial Company and is forming part of the Promoter and Promoter Group of Transferee Company and it holds 11.17% shareholding in the Transferee Company i.e. GML. Amalgamation of HIPOLINE with GML may result in clarifying and making transparent the shareholding of the Transferee Company. The amalgamation may bring in advantages of synergy in operations and economies of scale. The pooling of resources of companies may create strong financial structure and facilitate resource mobilisation and achieve better cash flows.
- 6. Lexi Exports Private Limited (LEXI) and Richie Credit & Finance Private Limited (RICHIE)** holds 14.671% and 6.173% shareholding respectively in the Transferee Company under the Public Category. Amalgamation of LEXI and RICHIE with the Transferee Company may result in clarifying and making transparent the shareholding of the Transferee Company. Also, the amalgamation may bring in advantages of synergy in operations and economies of scale. The pooling of resources of companies may create strong financial structure and facilitate resource mobilisation and achieve better cash flows.

7. The management believes that the proposed amalgamation will bring in advantages of synergy in operations and economies of scale. The pooling of resources of companies will create strong financial structure and facilitate resource mobilisation and achieve better cash flows. The combined net worth in a single entity shall facilitate in attracting funds from strategic investors and/or financial institutions at competitive rates. Thus, the synergies created by the merger will increase the operational efficiency and integrate business functions of the amalgamated entity and help to pursue inorganic and organic growth opportunities of such business. It will also lead to more efficient utilisation of capital and create a consolidated base for future growth of the amalgamated entity.
8. The management believes that the amalgamation will also result in administrative and operational rationalisation and efficiencies, reduction in overheads and other expenses and optimal utilisation of various resources. It will prevent cost duplication, overlapping of administrative responsibilities and multiplicity of records, legal and regulatory compliances generally involved with running two separate entities. It will enable a dedicated management to focus and accelerate growth of the amalgamated entity.
9. The management believes that the amalgamation will result in not only pooling of efficient human resources and putting them to optimum utilisation for the growth of the merged entity but also attracting efficient manpower by the merged entity.
10. The assets of the amalgamated entity may far exceed its liability and rights of the creditors of the Transferor Companies and the Transferee Company are not expected to be prejudiced in any way.
11. The Scheme is expected to be in the larger interest of the public shareholders of the GIL and AAR and Transferee Company as amalgamation of the two companies will lead to cancellation of inter-corporate cross shareholdings of the Transferee Company and Transferor Companies as well. These may result into reduced combined paid-up capital leading to higher earnings per share.
12. The Scheme envisages transfer of entire undertaking of the Transferor Companies as a going concern to the Transferee Company and is in the interest of its shareholders, creditors, employees and all concerned.
13. In view of the aforesaid, the Board of Directors of the Transferor Companies and the Transferee Company have considered and proposed the amalgamation of the entire undertaking and business of the Transferor Companies with the Transferee Company in order to benefit the stakeholders of both the companies. Accordingly, the Board of Directors of the Transferor Companies and the Transferee Company have formulated this Scheme of Amalgamation for the transfer and vesting of the entire undertaking and business of the Transferor Companies with and into the Transferee Company pursuant to the provisions of Section 230 to 232 and other relevant provisions of the Companies Act, 2013.

## 8. Approach and methodology

Valuation is not an exact science and is dependent on various factors such as specific nature of business, economic life cycle in which the industry and company is operating, past financial performance of the business, future growth potential of the business, business model, management of the company, relevance of technology in the business model, liquidity of equity and much more. The results of the valuation exercise may vary significantly depending on the basis used, the specific circumstances and the judgement of the valuer. In respect of going concerns, certain valuation techniques have evolved over time and are commonly in vogue.

### 8.1 Valuation as per International Valuation Standards

*As per International Valuation Standards (IVS), "Valuers are not required to use more than one method for the valuation of an asset, particularly when the valuer has a high degree of confidence in the accuracy and reliability of a single method, given the facts and circumstances of the valuation engagement. However, valuers should consider the use of multiple approaches and methods and more than one valuation approach or method should be considered and may be used to arrive at an indication of value, particularly when there are insufficient factual or observable inputs for a single method to produce a reliable conclusion."*

**IVS 105 – Valuation Approaches and Bases** describes three main approaches to Valuation such as:

1. Market Approach
2. Income Approach
3. Cost Approach

**IVS 105 states that "Although no one approach or method is applicable in all circumstances, price information from an active market is generally considered to be the strongest evidence of value. Some bases of value may prohibit a valuer from making subjective adjustments to price information from an active market. Price information from an inactive market may still be good evidence of value, but subjective adjustments may be needed." While we have used the price inputs for valuation of GML, GIL and AAR, that are listed but since these are infrequently traded shares, we have applied other methods of valuation as well.**

#### **Market Approach**

Stock exchange quotations reflect the value of shares or the value of investment in a quoted stock. Value of equity shares under this method is computed based on historical average of market price quotations of company's shares on stock exchanges. GML, GIL and AAR are listed on stock exchange. Therefore, we have used this method for valuation of the Companies.

Another variation of Market Approach of valuation is Comparable Companies' Multiples Method. The CCM method uses multiples derived from valuations of comparable companies, as manifested through stock market valuations of listed companies. It is based on the principle that 'comparable

transactions/market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation'. The relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. The commonly used trading multiples in pricing analysis are Enterprise Value (EV) to Sales ratio (EV/Sales) or Market Capitalization / Sales ratio, Enterprise Value to EBITDA ratio (EV/EBITDA), and Price Earning ratio (P/E ratio).

We have also used the P/E multiple approach for the purpose of valuation. The underlying idea of this approach is a valuation theory that similar assets sell at similar prices. We have used comparable companies in the same industry and have arrived at the median P/E representing the industry standard. Consequently, we have arrived at the value of the companies by multiplying the respective earnings.

This method is relevant where separate set of buyers and sellers are involved. Since in this case, the purpose of the merger is to integrate six companies under the same umbrella of management, which will result in improvement of operational and administrative efficiency and create requisite infrastructure for obtaining good business, this method has been used.

### **Income Approach**

Value of the business using Income approach is estimated based on the earning capacity of the entity or net present value of cash flows earned from the business. Profit Earnings Capacity Value (PECV) Method or Discounted Cash Flow (DCF) Method is used to estimate the value of the entity using Earning Approach. Whereas DCF Method estimates the value of business by the cash flows which are forecasted to be earned in future, PECV method capitalizes future maintainable profits (based on past trends and expected change in business activities) to estimate the value of the business.

We have used Discounted Cash Flow Method (DCF Method) for the purpose of valuation of Transferee Company, Viz Gallantt Metal Limited and Transferor Companies, viz. Gallantt Ispat Limited and AAR Commercial Company Limited because each of the companies have positive revenues and fluctuating profits. Based on the financial projections given by the management, the companies are expected to generate positive free cash flows in the future years. The process of amalgamation or merger has been initiated with a view to bringing operations of the six companies under one umbrella and strengthening their long-term viability.

### **Cost Approach**

Value of a business entity using Cost Approach is estimated using either net book value or replacement value or realizable value. Audited Balance Sheets of GML, GIL, AAR, HIPOLINE, LEXI & RICHIE are available as at 31-03-2019. Market value of the fixed assets and quoted investments held by the companies as at 31-03-2019 are also available for HIPOLINE, LEXI & RICHIE. Thus, we have used Net Asset Value method for all the companies and have adjusted them for changes in fair value of assets. Calculation of net asset value and value of equity shares of the companies are as at 31-03-2019.

## 8.2 Valuation as per SEBI (ICDR) Regulations

### 8.2 Valuation as per Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (SEBI ICDR Regulations)

As per the SEBI (ICDR) Regulations pricing rules for frequently traded shares states that "if the equity shares of the issuer have been listed on a recognised stock exchange for a period of twenty six weeks or more as on the relevant date, the price of the equity shares to be allotted pursuant to the preferential issue shall be not less than higher of the following:

a. the average of the weekly high and low of the volume weighted average price of the related equity shares quoted on the recognised stock exchange during the twenty-six weeks preceding the relevant date; or

b. the average of the weekly high and low of the volume weighted average prices of the related equity shares quoted on a recognised stock exchange during the two weeks preceding the relevant date."

Further, SEBI (ICDR) Regulations defines frequently traded shares "means the shares of the issuer, in which the traded turnover on any recognised stock exchange during the twelve calendar months preceding the relevant date, is at least ten per cent of the total number of shares of such class of shares of the issuer"

On applying the above pricing methodology as per SEBI (ICDR) Regulations, we observed that the shares of the Transferee Company, Gallantt Metal Limited (listed), and two listed Transferor Companies (Gallantt Ispat Limited and AAR Commercial Company Limited) are not frequently traded turnover during the twelve calendar months preceding the relevant date since the turnover in shares is less than ten per cent of the total number of shares.

Therefore, we have applied the methods of valuation provided for infrequently traded shares. In this respect SEBI (ICDR) Regulations, 2018 states that "Where the shares of an issuer are not frequently traded, the price determined by the issuer shall take into account the valuation parameters including book value, comparable trading multiples, and such other parameters as are customary for valuation of shares of such companies. Provided that the issuer shall submit a certificate stating that the issuer is in compliance of this regulation, obtained from an independent valuer to the stock exchange where the equity shares of the issuer are listed"

Regulation 156 of the SEBI ICDR Regulations specifies that issue of equity shares to shareholders of an unlisted entity pursuant to a National Company Law Tribunal approved scheme shall conform with the pricing provisions of preferential issue specified under Regulation 165 of the ICDR Regulations. Further, as stated hereinabove, Regulation 165 specifies that the price determined by the issuer for infrequently traded listed shares shall take into account the valuation parameters including book value, comparable trading multiples, and such other parameters as are customary for valuation of shares of such companies. In the Proposed Amalgamation inter-alia, Hipoline Commerce Private Limited, Lexi Exports Private Limited and Richie Credit & Finance Private Limited are unlisted entities proposed to be amalgamated with Gallantt Metal Limited (listed entity) together with Gallantt Ispat Limited and AAR Commercial Company Limited (both listed entities).

We have, in the capacity of Independent Valuer, accordingly, given due cognizance to the applicable SEBI ICDR Regulations while arriving at the fair valuation and hereby certify that the issuer is in compliance of the SEBI ICDR Regulation with regard to the pricing of shares.

GML has reported a Revenue from operations at Rs 1,063.79 Crores grew by 25.69% on year to year basis (standalone) and Profit after tax stood at Rs 71.63 Crores thereby recorded a growth of 45.19% in Net Profit on year to year basis (standalone). As part of the Gallantt Group, GML has also strengthened the internal operations by upgrading technology, streamlining processes and rationalization of human resources.

Each of the team members brings valuable business insight to the overall operational and management process of the company. The advisory board is pioneered with industry veterans having skills and technical expertise to work alongside the management to achieve business goals. The GML's team is working towards a common goal to supersede over its competitors and create value proposition for shareholders. GML has strong base of reputed Customers like Emami, Reliance, Adani, Sanghi Cement etc.

**Plant Capacities:** The plant capacity of GML is as follows.

GALLANTT METAL LIMITED				
Facilities	Unit	Existing Capacity	Proposed Expansion	Total Capacity
Sponge Iron	MTPA	225,000	148,500	373,500
Steel Melt Shop	MTPA	282,000	147,000	429,000
Rolling Mill	MTPA	274,980	147,420	422,400
Power Plant	MW	33	18	51

As mentioned in Part 8.2, since the shares of GML are infrequently traded, we have not taken the market value of GML for valuation purposes.

#### 9.3.1 Valuation based on Cost Approach:

While calculating the value of GML under Cost approach, we have taken the Net Asset Value of GML and adjusted it for the changes in the Fair Value of assets.

The value of GML under Cost Approach is summarised as under:

Particulars	Amount (INR Lakhs)
Value of Assets	56,374.58
Less: Value of Liabilities	8,227.12
<b>Book Value of Equity</b>	<b>48,147.46</b>
Adjustments for Fair Value *	18,519.14
<b>Adjusted Book Value of Equity</b>	<b>66,666.60</b>

\* We have adjusted the book value of Investments against fair value of investments (Shares of Gallantt Ispat Ltd). Although we have calculated the value of GIL using other means subsequently in this report, we have taken the market value of GIL as per stock price information from the Stock Exchanges. Since the GIL and GML invest in each other, using the fair value of GIL in GML would create a circularity. Hence, we have first calculated the value of GML and have taken the market value of GIL (INR 21.85 per share) instead of calculated Fair Value of GIL for calculation of Fair Value of Investments of GML. Further, we have obtained fair value of other assets through representations from the management and Valuation Report on Land & Building and Plant & Machinery obtained from respective registered valuers.

### 9.3.2 Valuation Based on Market Approach

We have conducted the valuation of GML based on Market Approach using the Price/Earnings of comparable companies that are traded in the stock market. ### 9.3.3 Valuation Based on Income Approach

We have used the discounted cash flow method to value GML under the Income Approach. The company has shown stellar results in the past and continues to generate positive cash flows. Accordingly, we have valued GML on a going concern basis.

The Free Cash Flow (FCF) approach is the most preferred Discounted Cash flow method for determining the current value of a company using future cash flows adjusted for time value. Free Cash Flow approach leads us to the 'Control perspective' of an acquirer who would like to be in a position to change the firm's policies. Free Cash Flow to the Firm (FCFF) is used to value the firm as a whole (including, shareholders and bondholders). Using FCFF approach, the value of the firm is defined as a FCFF discounted at the Weighted Average Cost of Capital (WACC). The FCFF discounted at WACC gives us the value of the firm's operating assets. We can still find out the Total Value of the Firm that is used for acquisition purposes by adding Non-Operating Assets.

We have used management provided projections around future revenues and expenses and have adjusted them wherever considered necessary to arrive at the Free Cash Flow to the firm. Our key assumptions for FCF valuation are as follows:

**Two stage DCF model:**

Our DCF model has been classified in two stages; explicit forecast period (till FY 2024) and the long-term terminal growth. Revenues and Expenses along with Balance sheet has been projected till 2024 and we have assumed a long-term terminal growth beyond 2024.

**Calculation of discount rate:**

We have used Weighted Average Cost of Capital (WACC) as the discount rate which is the weighted average of the Target Debt (0 percent) and Target Equity (100 percent) in the capital structure of the company.

Given the target of NIL debt, our Cost of Debt is NIL.

For Calculation of Cost of Equity (Ke), we have used Capital Asset pricing Model (CAPM) and have assumed a risk-free rate (Rf) of 6.38 percent which is represented by the long term government bond yield. Our Market Return (Rm) assumption is 15.21 percent which is the long return of BSE SENSEX. For Calculation of Beta (B), we have taken a one year price of GML ("GALLANTT") on NSE and compared with NSE return over the same period. Our Beta arrived at was 0.80. Accordingly, our Cost of Equity is calculated as:

$$\begin{aligned} Ke &= Rf + (Rm - Rf) * B \\ Ke &= 6.38\% + (15.21\% - 6.38\%) \times 0.80 \\ Ke &= 13.38\% \end{aligned}$$

Accordingly, our Weighted Average Cost of Capital is 13.38 percent.

$$[WACC = 13.38\% \times 1.0 + 0\% \times 1.0]$$

**Calculation of Free Cash Flows:**

For the explicit forecast period till 2024, we have assumed Revenues and profits as projected by the management. The Profit After Tax margins are between 2.7 percent and 6.7 percent which is considered to be plausible.

For the purposes of calculation of Free Cash Flows, we have taken the Firm Value approach as follows:

$$\text{FCFF} = \text{PAT} + \text{NCC} + \text{Interest} (1 - t) - \text{FCI} - \text{WCI}$$

PAT = Profit After Tax (or Net Income)

NCC = Non-Cash Charges E.g. Depreciation, Provisioned Expenses

t = Marginal Tax Rate

FCI = Fixed Capital Investment (Net Capital Expenditure)

WCI = Working Capital Investment (Changes in Non-Cash Working Capital)

#### Terminal Value:

We have assumed that the long-term growth rate of Free Cash Flows will be 7 percent.

#### Calculation of Value of Equity

After considering the Free Cash Flows for the explicit forecast period and terminal value discounted at WACC, we have added back Cash and deducted Debt to arrive at the Equity Value of Operating Assets.

#### 10.3.4 Valuation based on Income Approach

We have used the discounted cash flow method to value GIL under the Income Approach. The company has shown stellar results in the past and continues to generate positive cash flows. Accordingly, we have valued GIL on a going concern basis.

The Free Cash Flow (FCF) approach is the most preferred Discounted Cash flow method for determining the current value of a company using future cash flows adjusted for time value. Free Cash Flow approach leads us to the 'Control perspective' of an acquirer who would like to be in a position to change the firm's policies.

Free Cash Flow to the Firm (FCFF) is used to value the firm as a whole (including, shareholders and bondholders). Using FCFF approach, the value of the firm is defined as a FCFF discounted at the Weighted Average Cost of Capital (WACC). The FCFF discounted at WACC gives us the value of the firm's operating assets. We can still find out the Total Value of the Firm that is used for acquisition purposes by adding Non-Operating Assets.

We have used management provided projections around future revenues and expenses and have adjusted them wherever considered necessary to arrive at the Free Cash Flow to the firm. Our key assumptions for FCF valuation are as follows:

##### Two stage DCF model:

Our DCF model has been classified in two stages; explicit forecast period (till FY 2024) and the long-term terminal growth. Revenues and Expenses along with Balance sheet has been projected till 2024 and we have assumed a long-term terminal growth beyond 2024.

##### Calculation of discount rate:

We have used Weighted Average Cost of Capital (WACC) as the discount rate which is the weighted average of the Debt (13.37 percent) and Equity (86.83 percent) in the capital structure of the company.

We have taken Pre-Tax cost of Debt as 8.5 percent and adjusted with a 25 percent tax rate to arrive at a Post Tax Cost of Debt of 6.38 percent.

For Calculation of Cost of Equity (Ke), we have used Capital Asset pricing Model (CAPM) and have assumed a risk-free rate (Rf) of 6.38 percent which is represented by the long-term government bond yield. Our Market Return (Rm) assumption is 15.21 percent which is the long return of BSE SENSEX. For Calculation of Beta (B), we have taken a one-year price of GIL ("GALLISPAT") on NSE and compared with NSE return over the same period. While the Beta arrived at was 0.40, we

have taken an additional unsystematic risk premium of 5 percent because the company does not trade high volumes in the market.

The Cost of Equity is calculated as:

$$K_e = R_f + (R_m - R_f) * B + \text{Adjusted Unsystematic Risk Premium}$$

$$K_e = 6.38\% + (15.21\% - 6.38\%) \times 0.40 + 5\%$$

$$K_e = 14.87\%$$

Consequently, our Weighted Average Cost of Capital is.

$$WACC = 14.87\% \times 0.8683 + 6.38\% \times 0.1367$$

$$WACC = 13.75\%$$

#### Calculation of Free Cash Flows:

For the explicit forecast period till 2024, we have assumed Revenues and profits as projected by the management. The Profit Before Tax Margins are consistent with management projections and range from 8.6 percent to 17.6 percent over the explicit forecast period while the Profit After Tax margins are between 7.1 percent and 14.5 percent which is considered to be plausible.

In our calculation of Free Cash Flows, we have included the effect of Brand value of INR 274.62 crore that's embedded in the Free cash flows of GIL.

For the purposes of calculation of Free Cash Flows, we have taken the Firm Value approach as follows:

$$FCFF = PAT + NCC + \text{Interest} (1 - t) - FCI - WCI$$

PAT = Profit After Tax (or Net Income)

NCC = Non-Cash Charges E.g. Depreciation, Provisioned Expenses

t = Marginal Tax Rate

FCI = Fixed Capital Investment (Net Capital Expenditure)

WCI = Working Capital Investment (Changes in Non-Cash Working Capital)

#### Terminal Value:

We have assumed that the long-term growth rate of Revenues will be 7 percent. We have further assumed that in the long run, Depreciation will be offset by Capital Expenditure and hence these numbers set off each other. Working Capital would be 20 percent of Revenues and Interest will be maintained.

#### Value of Non Operating Assets

The Discounted Cash Flow Method typically values the operating assets that are used to generate cash flows. However, there are non operating assets (e.g. Land and Investments) that may drive further valuation of the company. In case of GIL, we have added the difference between the fair value and book value of Investments and Land to arrive at the total Value of Equity.

### Calculation of Value of Equity

After considering the Free Cash Flows for the explicit forecast period and terminal value discounted at WACC, we have added back Cash and deducted Debt to arrive at the Equity Value of Operating Assets.

### 11.3.3 Valuation based on Income Approach

We have used the discounted cash flow method to value AAR under the Income Approach. The company has shown stellar results in the past and continues to generate positive cash flows. Accordingly, we have valued AAR on a going concern basis.

The Free Cash Flow (FCF) approach is the most preferred Discounted Cash flow method for determining the current value of a company using future cash flows adjusted for time value. Free Cash Flow approach leads us to the 'Control perspective' of an acquirer who would like to be in a position to change the firm's policies. Free Cash Flow to the Firm (FCFF) is used to value the firm as a whole (including, shareholders and bondholders). Using FCFF approach, the value of the firm is defined as a FCFF discounted at the Weighted Average Cost of Capital (WACC). The FCFF discounted at WACC gives us the value of the firm's operating assets. We can still find out the Total Value of the Firm that is used for acquisition purposes by adding Non-Operating Assets.

We have used management provided projections around future revenues and expenses and have adjusted them wherever considered necessary to arrive at the Free Cash Flow to the firm. Our key assumptions for FCF valuation are as follows:

#### **Two stage DCF model:**

Our DCF model has been classified in two stages; explicit forecast period (till FY 2024) and the long-term terminal growth. Revenues and Expenses along with Balance sheet has been projected till 2024 and we have assumed a long-term terminal growth beyond 2024.

#### **Calculation of discount rate:**

We have used Weighted Average Cost of Capital (WACC) as the discount rate which is the weighted average of the Target Debt (0 percent) and Target Equity (100 percent) in the capital structure of the company.

We have arrived at a Post Tax Cost of Debt of 6.38 percent by adjusting it with a 25 percent tax rate. But as given the target of debt is NIL, our Cost of Debt will be NIL.

For Calculation of Cost of Equity (Ke), we have used Capital Asset pricing Model (CAPM) and have assumed a risk-free rate (Rf) of 6.38 percent which is represented by the long-term government bond yield. Our Market Return (Rm) assumption is 15.20 percent which is the long return of BSE SENSEX. For Calculation of Beta (B), we have taken a one-year price of AAR ("AAR") on NSE and compared with NSE return over the same period. Our Beta arrived at was 1. Accordingly, our Cost of Equity is calculated as:

$$\begin{aligned} K_e &= R_f + (R_m - R_f) * B \\ K_e &= 6.38\% + (15.20\% - 6.38\%) * 1 \\ K_e &= 16.20\% \end{aligned}$$

Accordingly, our Weighted Average Cost of Capital  
WACC = 16.20% x 1.0 + 6.38% x 0  
WACC = 16.20%

**Calculation of Free Cash Flows:**

For the purposes of calculation of Free Cash Flows, we have taken the Firm Value approach as follows:

**FCFF = PAT + NCC + Interest (1 – t) – FCI – WCI**

- PAT = Profit After Tax (or Net Income)
- NCC = Non-Cash Charges E.g. Depreciation, Provisioned Expenses
- t = Marginal Tax Rate
- FCI = Fixed Capital Investment (Net Capital Expenditure)
- WCI = Working Capital Investment (Changes in Non-Cash Working Capital)

**Terminal Value:**

We have assumed that the long-term growth rate of Free Cash Flows will be 7 percent.

**Value of Non Operating Assets**

The Discounted Cash Flow Method typically values the operating assets that are used to generate cash flows. However, there are non operating assets (e.g. Land and Investments) that may drive further valuation of the company. In case of AAR, the company has substantial investment in GIL. Accordingly, we have added the difference between the fair value and book value of Investments in GIL to arrive at the total Value of Equity.

**Calculation of Value of Equity**

After considering the Free Cash Flows for the explicit forecast period and terminal value discounted at WACC, we have added back Cash and deducted Debt to arrive at the Equity Value of Operating Assets.

Our assessment and observations did not reveal substantial operations of AAR on DCF basis. This is in line with our discussions with the management. Hence our Free Cash Flows are similar to the Profits After Tax of the Company.

### 12.3. Valuation of Hipoline Commerce Private Limited

#### 12.3.1 Valuation based on Cost Approach:

While calculating the value of Hipoline under Cost approach, we have taken the Net Asset Value of Hipoline and adjusted it for the changes in the Fair Value of assets.

The investments in quoted shares have been revalued using the fair market values as on the valuation date. We have observed that most of these quoted investments are not frequently traded on the respective stock exchanges.

Hipoline has investments in a number of unquoted investments totalling to INR 244.75 Lakhs. Based on the representations received from the management, it is difficult to obtain the financial statements of these companies. However, as per the management, there is no reason to believe that there would be a significant change in the value of these investments from their cost of acquisition. Accordingly, we have valued the unquoted investments at cost.

The value of Hipoline under Cost Approach is summarised as under:

<b>Particulars</b>	<b>Amount (INR Lakhs)</b>
Value of Assets	3,879.16
Less: Value of Liabilities	127.12
<b>Book Value of Equity</b>	<b>3,752.05</b>
Less: Book Value of Investments	3,669.49
Add: Fair Value of Investments	5,768.66
<b>Adjusted Book Value of Equity</b>	<b>5,851.22</b>

#### 12.3.2 Valuation based on Income and Market Approach:

Hipoline is a private company and operates as a Non-Banking Finance Company under RBI. Based on the representations received from the management, the company does not have active NBFC operations. Given the nature of operations, we did not observe any comparable companies that are traded which could be used for valuation of Hipoline under Market Approach. Accordingly, we have not valued the company under Market Approach.

Since the operations of Hipoline does not allow us to forecast the future cash flows with reasonable certainty, we believe that using the Income approach would significantly jeopardise our valuation assessment. Accordingly, we have not valued Hipoline under Income Approach.

**Note: Rationale for not using Income Approach and Market Approach for HIPOLINE, LEXI and RICHIE**  
HIPOLINE, LEXI and RICHIE are private companies and operate as Non-Banking Finance Companies under RBI. Based on the representations received from the management of the respective companies, these companies do not have active or substantial NBFC operations.

Given the nature of operations, we did not observe any comparable companies that are traded which could be used for valuation of HIPOLINE, LEXI and RICHIE under Market Approach. Accordingly, we have not valued these companies under Market Approach.

Since the operations of HIPOLINE, LEXI and RICHIE does not allow us to forecast the future cash flows with reasonable certainty, we believe that using the Income approach would significantly jeopardise our valuation assessment. Accordingly, we have not valued these companies under Income Approach.

### Addendum to Valuation Report dated 17-Jan-2020 for Share Exchange Ratio for amalgamation of Transferor companies with Gallantt Metal Ltd

We wish to clarify that the aforesaid Valuation Report was prepared after considering the impact of the Proposed Slump Sale in the Draft Scheme of Merger shared with us.

Our Report Section 7.1 (Rationale for the amalgamation – Slump Sale) states the following:

*The management and board of GIL has proposed that effective from opening of the business hour on April 01, 2019, GIL will sell and transfer 18 MW Power Plant to Gallantt Metal Limited on "Slump Sale" basis at a consideration of Rs. 35.00 Crores as a going concern. Slump Sale of the said Power Plant is a part of "Scheme of Amalgamation and Slump Sale" under Section 230 to 232 of the Companies Act, 2013. Sale and Transfer of Power Plant through Slump Sale is a measure of strategic tax planning of the amalgamated entity.*

The reference of Rs 35 Crore was taken into account after referring to the Valuation Report (dated 14-Jan-2020) of Mr Debasish Ghosh, a Registered Valuer registered with IBBI. This report was made available to us by the management, during the course of our valuation exercise. We have relied on the valuation conducted by the Registered Valuer and have found the number to be plausible based on our assessment.

Mr Debasish Ghosh has considered the Cost Approach (Reproduction Cost Method) to value the Plant as a whole. The summary of the valuation is as follows:

	Book Value	Current Reproduction Cost	Depreciation	Depreciated Value	Slump Sale Value
Power Plant & Machinery	300,759,469	1,232,936,519	325,881,755	907,054,763	274,538,311
Land (5000 Sq Mtr) (Based on Market Rates)		3,350,000			3,350,000
Buildings (Coal Yard and TG)	33,726,037	142,091,934	31,497,045	110,594,889	71,886,678
Value of 18MW Plant For Slump Sale					349,774,989
Value (Rounded off)					35 Crore

[Please refer to the attached detailed report for calculation and the report from the Registered Valuer Mr Debasish Ghosh]

This addendum should be read along and as part of the aforesaid valuation and not in isolation.

Note - The useful life of power plant machinery asset is considered as 25 years as per current practice. The current reproduction cost as calculated = Rs 123 crores which is approx 6.8 crores/MW which is justified for a new thermal power plant in present days.

However, as per WDV figure provided by the merged company, the per MW cost = 300759469/18 = Rs 1.67 crores And estimated per MW slumpsale value = 272116429/18= Rs 1.51 crores which is justified by the above per MW WDV figure.

An obsolescence factor of 70% is applied over depreciated reproduction cost to arrive at the slumpsale value for items of no 1 to 30, for remain items obsolescence factor of 65% is applied. This factor is applied to cover up Technological and economic obsolescences

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the **Companies Act, 2013** ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its profit (or Loss)\* and cash flows for the year ended on that date.

**Basis for opinion**

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Material Uncertainty Related to Going Concern (include only is applicable)**

The Company's net worth is positive and the borrowings from banks and financial institutions have been classified by the lenders as standard assets during the year. There are no factors suggesting any doubt on the Company's ability to continue as a going concern. Pending the resolution of the above uncertainties, the Company has prepared the aforesaid statement on a going concern basis.

**Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Reporting of key audit matters as per SA 701, Key Audit Matters are not applicable to the Company as it is an unlisted company.

**Information other than the financial statements and auditors' report thereon**

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Only if, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Management's responsibility for the financial statements**

The Company's board of directors are responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's financial reporting process.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a

material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.  
We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Annexure "B" to the Independent Auditor's Report**

(Referred to in paragraph 2 (f) under 'Report on other legal and regulatory requirements' section of our report to the Members of Hipoline Commerce Private Limited of even date)

**Report on the internal financial controls over financial reporting under clause (i) of sub – section 3 of section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Ganesh Laxmi Processors Private Limited ("the Company") as at March 31, 2019, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management's responsibility for internal financial controls**

The board of directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the standards on auditing prescribed under Section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those standards and the guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement in the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

**Meaning of internal financial controls over financial reporting**

201, Ratnadeep Chambers, 24 Carat, Ring Road, Surat – 395001 [ssmusurat@gmail.com](mailto:ssmusurat@gmail.com) 8141569797

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

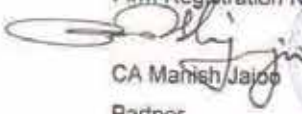

#### **Limitations of internal financial controls over financial reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management of override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion and according to the information and explanations given to us, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**LEXI EXPORTS PRIVATE LIMITED**  
**INDEPENDENT AUDITOR'S REPORT**

**To The Members of  
LEXI EXPORTS PRIVATE LIMITED**

**Report on the Audit of the Standalone Financial Statements**

We have audited the accompanying Standalone Financial Statements of **Lexi Exports Private Limited** ("the company"), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss and statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

**Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its profit, and its cash flows for the year ended on that date.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

**Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information obtained at the date of this auditor's report is information included in the Directors' Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Companies (Accounting Standards) Rules, 2006 (as amended) specified under Section 133 of the Act, read with the Companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Company's internal financial controls system in place.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The financial statements have been prepared on accrual basis under the historical cost convention except stated otherwise.

The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year except stated otherwise.

**14.3 SIGNIFICANT ACCOUNTING POLICIES:**

**14.3.1 Use of Accounting Estimates:**

The preparation of the financial statements in conformity with Indian GAAP requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenditure during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results materialise.

**14.3.2 Revenue Recognition:**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

**Interest Income:**

**14.3.4 Employee Benefits:**

**Short Term Employee Benefits**

These are recognized at the undiscounted amount as expense for the year in which the related service is rendered.

Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**14.3.6 Provisions:**

A provision is recognised when the company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. The Company makes provisions on Standard Assets in accordance with the RBI Guidelines

**14.3.7 Contingent Liabilities & Contingent Assets:**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. The company does not recognise the contingent liability but discloses its existence in the financial statements. Contingent assets are neither recognised nor disclosed in the financial statements.

**14.3.8 Taxes on Income:**

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the provisions of Income Tax Act, 1961.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income originating during the year and reversal of timing differences for the earlier years. Deferred Tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date.

Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. If the company has carry forward of unabsorbed depreciation or carry forward losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidences that they can be realised against future taxable profits. At each reporting date, the company re-assesses unrecognised deferred tax assets of earlier years and recognizes it to the extent that it has become reasonably or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off.

**RICHIE CREDIT & FINANCE PRIVATE LIMITED**  
**INDEPENDENT AUDITOR'S REPORT**

**To The Members of**  
**RICHIE CREDIT & FINANCE PRIVATE LIMITED**

**Report on the Audit of the Standalone Financial Statements**

I have audited the accompanying Standalone Financial Statements of **Richie Credit & Finance Private Limited** ("the company"), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss and statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

**Opinion**

In my opinion and to the best of my information and according to the explanations given to me, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its profit, and its cash flows for the year ended on that date.

**Basis for Opinion**

I conducted my audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. My responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to my audit of the financial statements under the provisions of the Act and the Rules thereunder, and I have fulfilled my other ethical responsibilities in accordance with these requirements and the Code of Ethics. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion on the standalone financial statements.

**Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information obtained at the date of this auditor's report is information included in the Directors' Report, but does not include the standalone financial statements and my auditor's report thereon.

My opinion on the standalone financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the standalone financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or my knowledge obtained during the course of my audit or otherwise appears to be materially misstated.

If, based on the work I have performed on the other information obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information; I am required to report that fact. I have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Companies (Accounting Standards) Rules, 2006 (as amended) specified under Section 133 of the Act, read with the Companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

My objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Company's internal financial controls system in place.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

##### **15.2 BASIS OF PREPARATION OF FINANCIAL STATEMENTS**

The financial statements of the company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply in all material respects with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and Companies (Accounting Standards) Amendment Rules, 2016. The financial statements have been prepared on accrual basis under the historical cost convention except stated otherwise.

The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year except stated otherwise.

##### **15.3 SIGNIFICANT ACCOUNTING POLICIES:**

###### **15.3.1 Use of Accounting Estimates:**

The preparation of the financial statements in conformity with Indian GAAP requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenditure during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results materialise.

###### **15.3.2 Revenue Recognition:**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

###### **Interest:**

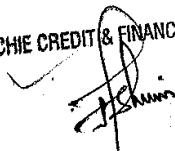

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable rate of interest.

###### **15.3.3 Investments:**

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

#### 15.3.4 Borrowing Cost:

Borrowing costs include interest; amortization of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds by the company to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss and that attributable to the acquisition and construction of qualifying assets is added to the cost, up to the date when such assets are ready for their intended use.

#### 15.3.5 Earnings per share:

Basic Earnings per share are calculated by dividing the net profit /loss for the period attributable to equity shareholders (after deduction of taxes and preference dividend, if any) by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

#### 15.3.6 Provisions:

A provision is recognised when the company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. The Company makes provisions of on Standard Assets in accordance with the RBI Guidelines.

#### 15.3.7 Contingent Liabilities & Contingent Assets:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. The company does not recognise the contingent liability but discloses its existence in the financial statements. Contingent assets are neither recognised nor disclosed in the financial statements.

#### 15.3.8 Taxes on Income:

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the provisions of Income Tax Act, 1961.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income originating during the year and reversal of timing differences for the earlier years. Deferred Tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date.

Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. If the company has carry forward of unabsorbed depreciation or carry forward losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidences that they can be realised against future taxable profits. At each reporting date, the company re-assesses unrecognised deferred tax assets of earlier years and recognizes it to the extent that it has become reasonably or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off.

**INDEPENDENT AUDITORS' REPORT**

To  
The Members of HIPOLINE COMMERCE PRIVATE LIMITED

**Report on the audit of the financial statements**

We have audited the accompanying financial statements of HIPOLINE COMMERCE PRIVATE LIMITED ("the Company"), which comprise the balance sheet as at September 30, 2020, and the Statement of Profit and Loss and statement of cash flows for the half year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

**Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the **Companies Act, 2013** ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at September 30, 2020, and its profit and cash flows for the half year ended on that date.

**Basis for opinion**

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

On the basis of our assessment of the impact of the outbreak of COVID-19 on business operations of the entity, the entity's management have concluded that no adjustments are required at this stage.

**Material Uncertainty Related to Going Concern (include only is applicable)**

The Company's net worth is positive and there are no borrowings from banks and financial institutions. There are no factors suggesting any doubt on the Company's ability to continue as a going concern but except for the amalgamation in process the company will close soon. Pending the resolution of the above uncertainties, the Company has prepared the aforesaid statement on a going concern basis.

**Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

201, Ratnadeep Chambers, 24 Carat, Ring Road, Surat – 395001 [ssmusurat@gmail.com](mailto:ssmusurat@gmail.com) 8141569797

Reporting of key audit matters as per SA 701, Key Audit Matters are not applicable to the Company as it is an unlisted company.

**Information other than the financial statements and auditors' report thereon**

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Only if, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Management's responsibility for the financial statements**

The Company's board of directors are responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's financial reporting process.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.  
We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on other legal and regulatory requirements**

## OBJECT OF THE ISSUE

### To amalgamate with a listed company:

Hipoline Commerce Private Limited is the Promoter Shareholder of the Transferee Company and holding 11.169 % shares in the Transferee Company and the proposed amalgamation will bring into advantages of clarifying and making transparent shareholding of the Transferee Company.

### The brief of the rationale for the Scheme is as follows:

- i. The Transferee Company is a pioneer in the Steel and Power sector and is able to attract the best talents available in the industry. The Transferee Company is having its footprints spanning across Gujarat, Maharashtra and Rajasthan. In the same way, The Transferor Company 1 is a pioneer in the Steel, Power and Agro sector and has its presence in and is having its footprints spanning across Uttar Pradesh, Bihar, Jharkhand and Delhi NCR.
- ii. The Transferor Company No. 1 and Transferee Company are under same Promoter Group. Thus, the amalgamation of the two companies operating in similar sectors with strengths in different geographies will ensure focused management in a single combined entity thereby resulting in efficiency of management and maximising overall shareholder value.
- iii. The Transferor Company No. 2 has plan to enter new business and to develop and complete real estate project. It is exploring further opportunities in the real estate sector and has in the meantime deployed its funds in investment in securities of the Transferor Company No. 1. The Transferor Company No. 1 is also inter alia engaged in the business of real estate. The Transferor Company 2 holds significant portion (17.62%) of the equity share capital of the Transferor Company No. 1. The amalgamation into the Transferee Company of the Transferor Company No. 1 and the Transferor Company No. 2 will lead to consolidation of the real estate business.
- iv. Transferor Company No. 3 is forming part of the Promoter and Promoter Group of Transferee Company. Amalgamation of Transferor Company No. 3 with the Transferee Company would result in clarifying and making transparent the shareholding of the Transferee Company. Other Transferor Companies No. 4 and 5 are also holding shareholding of Transferee Company. The proposed amalgamation of Transferor Companies No. 4 and 5 will also bring in advantages of clarifying and making transparent shareholding of the Transferee Company.
- v. The amalgamation will bring in advantages of synergy in operations and economies of scale. The pooling of resources of companies will create strong financial structure and facilitate resource mobilisation and achieve better cash flows. The combined net worth in a single entity shall facilitate in attracting funds from strategic investors and/or financial institutions at competitive rates. Thus, the synergies created by the merger will increase the operational efficiency and integrate business functions of the amalgamated entity and help to pursue inorganic and organic growth opportunities of such business. It will also lead to more efficient utilisation of capital and create a consolidated base for future growth of the amalgamated entity.

- vi. The amalgamation particularly of the Transferor Company No. 1 and the Transferee Company will also result in administrative and operational rationalisation, organisational efficiencies, reduction in overheads and other expenses and optimal utilisation of various resources. It will prevent cost duplication, overlapping of administrative responsibilities and multiplicity of records, legal and regulatory compliances generally involved with running two separate entities and more particularly due to the listed status of both the companies involved. It will enable a dedicated management to focus and accelerate growth of the amalgamated entity.
- vii. The amalgamation will result in not only, pooling of efficient human resources and putting them to optimum utilisation for the growth of the merged entity but also attracting efficient manpower by the merged entity.
- viii. The amalgamation will enable greater realization of the potential of the businesses of the Transferor and Transferee Companies in the amalgamated entity and have beneficial results for all concerned.
- ix. The assets of the amalgamated entity will far exceed its liabilities and rights of the creditors of the Transferor Companies and the Transferee Company shall not in any way be prejudiced.
- x. The Scheme shall also be in the larger interest of the public shareholders of the Transferor Companies No. 1 and 2 and Transferee Company as amalgamation of the three companies and other companies forming part of this Scheme will lead to cancellation of inter-corporate cross shareholdings of the Transferee Company and Transferor Companies as well. This will result into reduced combined paid-up capital leading to higher earnings per share.
- xi. The Scheme also envisages Slump Sale of entire Power Plant Undertaking of the Transferor Company No. 1 as a going concern to the Transferee Company and will thereby preserve the entitlement of the said Power Plant Undertaking to the tax holiday available to the said Undertaking for being engaged in an identified priority area.
- xii. In view of the aforesaid, the Board of Directors of the Transferor Companies and the Transferee Company have considered and proposed the Slump Sale of the Power Plant Undertaking of Transferor Company No. 1 to the Transferee Company and amalgamation of the entire undertaking and business of the Transferor Companies with the Transferee Company in order to benefit the stakeholders of all the companies. Accordingly, the Board of Directors of the Transferor Companies and the Transferee Company have formulated this Scheme of Slump Sale and Amalgamation for the transfer and vesting of the Power Plant Undertaking of Transferor Company No. 1 and the entire undertaking and business of the Transferor Companies with and into the Transferee Company pursuant to the provisions of Sections 230 to 232 and other relevant provisions of the Companies Act, 2013.

#### OBJECT OF THE ISSUE

**To amalgamate with a listed company:**

Lexi Exports Private Limited is holding shares of the Transferee Company in public category representing 14.671 % shares in the Transferee Company and the proposed amalgamation will bring into advantages of clarifying and making transparent shareholding of the Transferee Company.

**The rationale for the Scheme is as follows:**

- i. The Transferee Company is a pioneer in the Steel and Power sector and is able to attract the best talents available in the industry. The Transferee Company is having its footprints spanning across Gujarat, Maharashtra and Rajasthan. In the same

way, The Transferor Company 1 is a pioneer in the Steel, Power and Agro sector and has its presence in and is having its footprints spanning across Uttar Pradesh, Bihar, Jharkhand and Delhi NCR.

- ii. The Transferor Company No. 1 and Transferee Company are under same Promoter Group. Thus, the amalgamation of the two companies operating in similar sectors with strengths in different geographies will ensure focused management in a single combined entity thereby resulting in efficiency of management and maximising overall shareholder value.
- iii. The Transferor Company No. 2 has plan to enter new business and to develop and complete real estate project. It is exploring further opportunities in the real estate sector and has in the meantime deployed its funds in investment in securities of the Transferor Company No. 1. The Transferor Company No. 1 is also inter alia engaged in the business of real estate. The Transferor Company 2 holds significant portion (17.62%) of the equity share capital of the Transferor Company No. 1. The amalgamation into the Transferee Company of the Transferor Company No. 1 and the Transferor Company No. 2 will lead to consolidation of the real estate business.
- iv. Transferor Company No. 3 is forming part of the Promoter and Promoter Group of Transferee Company. Amalgamation of Transferor Company No. 3 with the Transferee Company would result in clarifying and making transparent the shareholding of the Transferee Company. Other Transferor Companies No. 4 and 5 are also holding shareholding of Transferee Company. The proposed amalgamation of Transferor Companies No. 4 and 5 will also bring in advantages of clarifying and making transparent shareholding of the Transferee Company.
- v. The amalgamation will bring in advantages of synergy in operations and economies of scale. The pooling of resources of companies will create strong financial structure and facilitate resource mobilisation and achieve better cash flows. The combined net worth in a single entity shall facilitate in attracting funds from strategic investors and/or financial institutions at competitive rates. Thus, the synergies created by the merger will increase the operational efficiency and integrate business functions of the amalgamated entity and help to pursue inorganic and organic growth opportunities of such business. It will also lead to more efficient utilisation of capital and create a consolidated base for future growth of the amalgamated entity.
- vi. The amalgamation particularly of the Transferor Company No. 1 and the Transferee Company will also result in administrative and operational rationalisation, organisational efficiencies, reduction in overheads and other expenses and optimal utilisation of various resources. It will prevent cost duplication, overlapping of administrative responsibilities and multiplicity of records, legal and regulatory compliances generally involved with running two separate entities and more particularly due to the listed status of both the

companies involved. It will enable a dedicated management to focus and accelerate growth of the amalgamated entity.

- vii. The amalgamation will result in not only, pooling of efficient human resources and putting them to optimum utilisation for the growth of the merged entity but also attracting efficient manpower by the merged entity.
- viii. The amalgamation will enable greater realization of the potential of the businesses of the Transferor and Transferee Companies in the amalgamated entity and have beneficial results for all concerned.
- ix. The assets of the amalgamated entity will far exceed its liabilities and rights of the creditors of the Transferor Companies and the Transferee Company shall not in any way be prejudiced.
- x. The Scheme shall also be in the larger interest of the public shareholders of the Transferor Companies No. 1 and 2 and Transferee Company as amalgamation of the three companies and other companies forming part of this Scheme will lead to cancellation of inter-corporate cross shareholdings of the Transferee Company and Transferor Companies as well. This will result into reduced combined paid-up capital leading to higher earnings per share.
- xi. The Scheme also envisages Slump Sale of entire Power Plant Undertaking of the Transferor Company No. 1 as a going concern to the Transferee Company and will thereby preserve the entitlement of the said Power Plant Undertaking to the tax holiday available to the said Undertaking for being engaged in an identified priority area.
- xii. In view of the aforesaid, the Board of Directors of the Transferor Companies and the Transferee Company have considered and proposed the Slump Sale of the Power Plant Undertaking of Transferor Company No. 1 to the Transferee Company and amalgamation of the entire undertaking and business of the Transferor Companies with the Transferee Company in order to benefit the stakeholders of all the companies. Accordingly, the Board of Directors of the Transferor Companies and the Transferee Company have formulated this Scheme of Slump Sale and Amalgamation for the transfer and vesting of the Power Plant Undertaking of Transferor Company No. 1 and the entire undertaking and business of the Transferor Companies with and into the Transferee Company pursuant to the provisions of Sections 230 to 232 and other relevant provisions of the Companies Act, 2013.

#### OBJECT OF THE ISSUE

##### To amalgamate with a listed company:

Richie Credit & Finance Private Limited is holding shares of the Transferee Company in public category representing 6.173 % shares in the Transferee Company and the proposed amalgamation will bring into advantages of clarifying and making transparent shareholding of the Transferee Company.

##### The brief of the rationale for the Scheme is as follows:

i. The Transferee Company is a pioneer in the Steel and Power sector and is able to attract the best talents available in the industry. The Transferee Company is having its footprints spanning across Gujarat, Maharashtra and Rajasthan. In the same way, The Transferor Company 1 is a

pioneer in the Steel, Power and Agro sector and has its presence in and is having its footprints spanning across Uttar Pradesh, Bihar, Jharkhand and Delhi NCR.

ii. The Transferor Company No. 1 and Transferee Company are under same Promoter Group. Thus, the amalgamation of the two companies operating in similar sectors with strengths in different geographies will ensure focused management in a single combined entity thereby resulting in efficiency of management and maximising overall shareholder value.

iii. The Transferor Company No. 2 has plan to enter new business and to develop and complete real estate project. It is exploring further opportunities in the real estate sector and has in the meantime deployed its funds in investment in securities of the Transferor Company No. 1. The Transferor Company No. 1 is also inter alia engaged in the business of real estate. The Transferor Company 2 holds significant portion (17.62%) of the equity share capital of the Transferor Company No. 1. The amalgamation into the Transferee Company of the Transferor Company No. 1 and the Transferor Company No. 2 will lead to consolidation of the real estate business.

iv. Transferor Company No. 3 is forming part of the Promoter and Promoter Group of Transferee Company. Amalgamation of Transferor Company No. 3 with the Transferee Company would result in clarifying and making transparent the shareholding of the Transferee Company. Other Transferor Companies No. 4 and 5 are also holding shareholding of Transferee Company. The proposed amalgamation of Transferor Companies No. 4 and 5 will also bring in advantages of clarifying and making transparent shareholding of the Transferee Company.

v. The amalgamation will bring in advantages of synergy in operations and economies of scale. The pooling of resources of companies will create strong financial structure and facilitate resource mobilisation and achieve better cash flows. The combined net worth in a single entity shall facilitate in attracting funds from strategic investors and/or financial institutions at competitive rates. Thus, the synergies created by the merger will increase the operational efficiency and integrate business functions of the amalgamated entity and help to pursue inorganic and organic growth opportunities of such business. It will also lead to more efficient utilisation of capital and create a consolidated base for future growth of the amalgamated entity.

vi. The amalgamation particularly of the Transferor Company No. 1 and the Transferee Company will also result in administrative and operational rationalisation, organisational efficiencies, reduction in overheads and other expenses and optimal utilisation of various resources. It will prevent cost duplication, overlapping of administrative responsibilities and multiplicity of records, legal and regulatory compliances generally involved with running two separate entities and more particularly due to the listed status of both the companies involved. It will enable a dedicated management to focus and accelerate growth of the amalgamated entity.

vii. The amalgamation will result in not only, pooling of efficient human resources and putting them to optimum utilisation for the growth of the merged entity but also attracting efficient manpower by the merged entity.

viii. The amalgamation will enable greater realization of the potential of the businesses of the Transferor and Transferee Companies in the amalgamated entity and have beneficial results for all concerned.

ix. The assets of the amalgamated entity will far exceed its liabilities and rights of the creditors of the Transferor Companies and the Transferee Company shall not in any way be prejudiced.

x. The Scheme shall also be in the larger interest of the public shareholders of the Transferor Companies No. 1 and 2 and Transferee Company as amalgamation of the three companies and other companies forming part of this Scheme will lead to cancellation of inter-corporate cross shareholdings of the Transferee Company and Transferor Companies as well. This will result into reduced combined paid-up capital leading to higher earnings per share.

xi. The Scheme also envisages Slump Sale of entire Power Plant Undertaking of the Transferor Company No. 1 as a going concern to the Transferee Company and will thereby preserve the entitlement of the said Power Plant Undertaking to the tax holiday available to the said Undertaking for being engaged in an identified priority area.

xii. In view of the aforesaid, the Board of Directors of the Transferor Companies and the Transferee Company have considered and proposed the Slump Sale of the Power Plant Undertaking of Transferor Company No. 1 to the Transferee Company and amalgamation of the entire undertaking and business of the Transferor Companies with the Transferee Company in order to benefit the stakeholders of all the companies. Accordingly, the Board of Directors of the Transferor Companies and the Transferee Company have formulated this Scheme of Slump Sale and Amalgamation for the transfer and vesting of the Power Plant Undertaking of Transferor Company No. 1 and the entire undertaking and business of the Transferor Companies with and into the Transferee Company pursuant to the provisions of Sections 230 to 232 and other relevant provisions of the Companies Act, 2013.
