Blue Cloud Softech Solutions Secures Letter of Intent for AI Services from Renascent Logic Private Limited

[Hyderabad, Telangana, December 19, 2024] – Blue Cloud Softech Solutions Ltd (BCS), a leading AIoT solutions provider listed on the BSE, has received a Letter of Intent (LOI) for delivering advanced Artificial Intelligence services to Renascent Logic Private Limited. The project, valued at ₹105.00 lacs, highlights the growing adoption of Blue Cloud's flagship AI products in diverse sectors.

The scope of the LOI includes deploying cutting-edge AI offerings such as **Access Genie**, **Blura**, **BluHealth**, **EduGenie**, and the **BioSter** sterilization solution. These innovative technologies are designed to revolutionize identity management, communication, healthcare, education, and infection control.

Product Highlights

1. AccessGenie:

A state-of-the-art Unified AIoT Identity Management Platform, Access Genie integrates seamlessly with existing ID management systems used in financial institutions. It employs advanced multi-biometric recognition technologies such as fingerprint, facial, iris, and voice recognition. With real-time anomaly detection and secure workflows, Access Genie enhances cyber security, operational efficiency, and compliance.

2. Blura:

An AI-powered communication platform that transforms employee engagement by delivering personalized updates. Blura's customizable interface ensures seamless internal communication, fostering productivity and connection across organizations.

3. **BluHealth:**

A pioneering mobile application designed for proactive health management. BluHealth offers non-invasive health screenings using AI-enabled facial health vitals technology. Fully compliant with HIPAA and GDPR, it supports telehealth integration and delivers real-time health insights.

4. **EduGenie:**

An AI-enabled Learning Management System that tailors educational experiences through adaptive learning pathways. EduGenie connects instructors and students globally, creating a collaborative ecosystem for education and knowledge sharing.

5. **BioSter:**

A revolutionary sterilization product leveraging Photocatalytic Oxidation (PCO) to enhance infection control. Safe and maintenance-free, BioSter eliminates harmful pathogens and VOCs in indoor spaces without toxic chemicals, making it ideal for hospitals, classrooms, and homes.

Chairman's Vision

Speaking on the occasion, **Ms. Janaki Yarlagadda**, Chairman of Blue Cloud Softech Solutions Ltd, emphasized the transformative role of AI:

“AI is the catalyst for a new frontier across every sector, driving innovation and efficiency. As we integrate AI into our daily lives, we empower individuals and organizations to unlock remarkable potential. This technology not only enhances productivity but also enriches the human experience, allowing us to focus on creativity, empathy, and progress. The future is bright, and we must responsibly use AI as it leads the way for mankind.”
