Dear Sir/Madam,

**Sub: Corrigendum to the AGM Notice dated 13<sup>th</sup> May, 2022**

Pursuant to Regulation 47 of the Securities & Exchange Board of India (Listing Obligation & Disclosure Requirements) Regulations, 2015, we enclose a copy of the newspaper clipping of Notice which appeared on 19<sup>th</sup> August, 2022, in the Business Standard- English daily and Mumbai Lakshadeep - Marathi daily in respect of the corrigendum to notice of the 48<sup>th</sup> Annual General Meeting of the Company.

Kindly take the same on record.

Sincerely,  
For Alkem Laboratories Limited

  
**Manish Narang**  
**President - Legal, Company Secretary & Compliance Officer**

# Hard decisions on third aircraft carrier

The lack of a consensus on key technical aspects is delaying the construction of an indigenous aircraft carrier

AJAI SHUKLA  
New Delhi, 18 August

A fortnight ago, an opinion column in this newspaper argued for the early construction of a second indigenous aircraft carrier (IAC-2) for the Indian Navy. The first indigenous carrier, IAC-1, which has been constructed by Cochin Shipyard Ltd, will soon be commissioned as *INS Vikrant*. Alongside *INS Vikramaditya*, which was bought from Russia in 2014, the Navy will then operate two 44,000-tonne carriers.

**INS Vikramaditya, India's only aircraft carrier, which would be joined this month by the newly built INS Virat**

The proposed 65,000-tonne IAC-2, which would take at least another decade in construction, would be the fleet's third carrier. With one of those under repair or refit at any given time, the Navy would still have two carriers available and ready for operations.

The measure of an aircraft carrier's power is its air wing. A carrier roughly embarks one aircraft for each 1,000 tonnes of displacement. Both *Vikramaditya* and *Vikrant* displace 44,000 tonnes, allowing each to embark 25-30 fixed wing aircraft, along with 10 helicopters of various kinds. The planned third carrier — the 65,000-tonne IAC-2 — would pack significantly more air power. It would go into battle with 54 fighters (three squadrons of 18 fighters each), enough aircraft for fleet air defence, as well as strikes ashore.

In addition, IAC-2 would embark about 10 helicopters, for anti-submarine warfare (ASW), airborne early warning (AEW) and casualty evacuation tasks. Its larger size would also allow it to embark tactical airborne early warning (AEW) aircraft, such as the Northrop Grumman E-2C Hawkeye — a priceless asset in the air battle.

IAC-2 would be imposing enough on the basis of its integral air power alone. But, in fact, IAC-2 would not fight alone. It would

be the flagship of a carrier battle group (CBG) that would also include submarines, destroyers, frigates and corvettes, in addition to its own weaponry. These capital warships would give the CBG formidable anti-submarine, anti-surface and anti-aircraft firepower.

Yet, there are several reasons the Ministry of Defence (MoD) has not ordered the building of IAC-2. First, there is no consensus within the military on the need for a third carrier. The proposal to build one had been publicly questioned by the former Chief of Defence Staff (CDS), the late General Bipin Rawat; and by successive Indian Air Force (IAF) chiefs. Given this opposition, the Navy has a difficult task ahead to convince the other two services, as well as elements in the Navy itself, that India needs a third, large, expensive carrier.

**If you can't lose it, you can't use it:** Second, the Navy faces a major hurdle in obtaining the budget needed for what critics now bill as a "₹100,000-crore carrier". In fact, that figure is overblown. The cost of IAC-1 has come to about ₹20,000 crore; and the MoD Cost Committee has fixed the cost of IAC-2 at ₹40,000

crore. That caters for IAC-2's larger size (65,000 tonnes, to *INS Vikrant*'s 44,000 tonnes), for its more sophisticated and expensive weapons and sensors, and for inflation. The purported ₹100,000 crore figure also includes the cost of an entire air wing, including fighters, helicopters and combat support aircraft. The Navy will have already paid for two air wings — 45 MiG-29K/KUB fighters were bought a decade back, while another 57 multi-role carrier-borne fighters (MRCBF) are currently being acquired. Since only two CBGs would be sailing at any given time (with the third carrier in the dockyard), the Navy needs only two air wings, not three.

**The Technology Perspective and Capability Roadmap of 2018 (TPCR-18) is silent on the type of carrier the IAC-2 should be**

India's tri-service planners believe that the MRCBF's being evaluated for carrier deck operations — Boeing's F/A-18E/F Super Hornet and Dassault's Rafale — have only a "limited affordability". That leads to a "we cannot afford to lose it" mindset and, hence, to the conclusion, "we cannot afford to use it". The Navy must acquire only platforms that it can afford to lose

and, therefore, to use.

Third, the Navy has unwisely embraced the British and French notion that carriers must be a muscular 65,000 tonnes for the traditional carrier mission of obtaining sea control over a designated oceanic space. Instead of starting with size, naval planners must first identify the carrier's operational role. This flows out of the National Security Strategy (NSS), which is framed by the National Security Council. The NSS dictates the carrier's mission capabilities, from which emerge its size, design, weapons and sensors.

Instead of that derivative process, South Block planners have committed themselves to advice from a US-India "joint working group" (JWG) on carrier design. This is going ahead with a US Navy-style "power projection carrier", with formidable air power, as well as surface and sub-surface strike capability within the CBG. There has been little examination of whether the Navy's requirements would be better met by a French-type "strike carrier", which had an air wing built around the *Etendard*/Super *Etendard* surface strike aircraft, with a few F-8 Crusaders for fighter-type roles that involved protecting the strike aircraft.

The French "shore strike" model is relevant for the Navy, since one of its vital objectives is to keep the service relevant by influencing the all-important land battle. The newest French carrier, *Charles de Gaulle*, services this objective by embarking the Rafale multi-role fighter, which has both air defence and shore-strike capability.

The Technology Perspective and Capability Roadmap of 2018 (TPCR-18), which projects future weapons profiles, is silent on the type of carrier the IAC-2 should be. All that the TPCR-18 says is: Aircraft Carrier, Quantity 01.

**Ignoring an aircraft carrier pedigree:** Fourth, the Navy has failed to live up to its 60-year-old pedigree of operating aircraft carriers. Both IAC-1 and *INS Vikramaditya* should be carrying at least 44 aircraft, going by the benchmark of one aircraft for every 1,000 tonnes of carrier. However, both vessels are short of that benchmark because the Navy — ignoring its own design capability — has contracted with a Russian design bureau for designing the aviation complex

es of both *INS Vikramaditya* and IAC-1.

Fifth, Indian test pilots complain that the Navy has blindly accepted US statements that the E-2C Hawkeye cannot be launched from a ski-jump. They say the US firms have a vested interest in perpetuating that myth, in order to put a catapult as the launch system on IAC-2.

Perfected by the US Navy since World War II, a conventional catapult has a steam-driven piston system along the flight deck, which "catapults" the aircraft to 200 km per hour, fast enough to get airborne.

The catapult that the Indian Navy is considering for IAC-2 uses a powerful electromagnetic field to accelerate the fighter to take-off speed. Developed by General Atomics and called the "electromagnetic aircraft launch system" (EMALS), this is on the latest US Navy carriers, starting from the USS Gerald R Ford.

Both current Indian carriers operate as STOBAR (short take-off but arrested recovery) vessels, but it remains to be decided whether IAC-2 would be a STOBAR carrier, or a CATOBAR (catapult assisted take-off, but arrested recovery) vessel. The possibility of putting an EMALS-assisted CATOBAR system on IAC-2 is being discussed in the JWG.

Finally, IAC-2's size and specifications would depend upon whether the Indian Navy has an operational role for twin-seat Super Hornets, which would make it worth putting in the additional crew requirements that would be needed.

It is noteworthy that the Defence R&D Organisation is developing the indigenous twin-engine deck-based fighter (TEDBF) as a single-seat fighter. The future lies in "manned-unmanned teaming" (MUM-T), which is the joint operation of manned and "unmanned airborne assets" (UAS) towards a shared mission objective.

MUM-T UAS is increasingly regarded as one of the key innovations that will define future airpower. The system will incorporate smart, connected and modular UAS, connected by a distributed network of intelligence that will act as force multipliers for the manned aircraft. Overall, it is expected to enhance the team's capabilities, while keeping the pilot out of harm's way, but still in control.

# Health ministry's draft guidelines may help nurses' work conditions

SHIVA RAJORA  
New Delhi, 18 August

In line with the World Health Organisation's (WHO's) global strategy on "Human Resources for Health: Workforce 2030", the Ministry of Health and Family Welfare (MoHFW) issued draft guidelines earlier this month to improve the working conditions of all categories of nurses in all healthcare institutions across India. The WHO's global strategy calls for a safe and healthy work environment for nurses in order to ensure quality nursing care.

The MoHFW draft guidelines are open for comments from the public and other stakeholders on the ministry's website till August 31.

## What do the draft guidelines say?

The proposals include provisions of basic amenities like separate washrooms and changing rooms for the nursing staff, annual health check-ups, necessary immunisation, adequate infrastructure, personal protective equipment and well-equipped work stations within the healthcare establishments.

In line with the provisions of the Maternity Benefit (Amendment) Act, 2017, the guidelines provide for paid maternity leave and other authorised leave and allowances along with a creche facility for the newborns. These also recommend that all healthcare establishments may, as far as possible, provide accommodation to their nursing staff within or near their premises.

In addition to this, the guidelines call for capping a work day at eight hours and not exceeding 40 hours a week, among other measures. Taking care of mental and emotional exhaustion of the people involved in nursing, the draft guidelines recommend promoting flexible working hours and shift duties, and practising routine transfer or rotation of nurses from high-demand settings to low-demand settings.

Recognising that the nursing profession requires extreme care and diligence, the draft guidelines call upon the healthcare establishments to provide induction training to the newly recruited nurses and identify designated resting rooms for nurses working for a prolonged duration.

To sternly deal with issues of harass-

ment of the nursing staff, the healthcare establishments will have to establish internal complaints committees in accordance with the provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

## Why were the new guidelines needed?

WHO had designated 2020 as the "International Year of the Nurse and the Midwife" in recognition of their role during the pandemic and their central role in achieving universal health coverage.

India's nursing workforce is about half of its active health workforce, which was estimated at 3.04 million in 2017-18 by the National Sample Survey Office (NSSO).

Still, the sector is dogged by structural challenges like weak regulation, gap in education and training, and the actual services rendered by them. This leads to poor quality of training, inequitable distribution of workload, inequitable pay and non-standardised practices in health institutions.

The draft guidelines are an important move to address some of these issues. India reportedly still needs an additional 2.4 million nurses to meet the WHO norm of four nurses for every 1,000 patients, and since most of the nursing education institutions are private and weakly regulated, the quality of training of nurses is diminished leading to severe gaps in the provision of care services.

## What to expect?

Speaking over the phone to *Business Standard*, Shalini (*she uses only her first name*), a nurse at a private hospital in Delhi, expressed "hope" that these new guidelines would change things for the better. She spoke of how the medical units "lack even basic amenities like water supply, disinfectants and dressing rooms". She added that floating of norms regarding workload and minimum wages is rampant in the sector, which is marred by severe staff shortage leading to erratic work hours, thus causing intense emotional and mental exhaustion.

With these new draft guidelines being put out, she hopes that the medical institutions will take note and the harsh work conditions that hundreds of thousands like her face might ease in the future.

**The guidelines call for capping a work day at eight hours and not exceeding 40 hours a week, among other measures**

**CORRIGENDUM**

**Subject : Corrigendum to the statement related to "Gold Loan in 5 minutes" under Gold Loan Mela Scheme published in newspapers in the month of June and July 22**

This refers to our earlier advertisements/publications regarding using the statement "Gold Loan in 5 minutes" under Gold Loan Mela Scheme published in newspapers in the month of June and July 22. In this connection, we would like to clarify that the loan approval happens in 5 minutes and not the entire customer onboarding journey. The word approval was inadvertently missed in the advertisement.

**NOTICE TO MEMBERS SEEKING NOMINATIONS FOR ELECTION OF DIRECTORS TO THE BOARD OF DIRECTORS**

In accordance with Article 24 of the Articles of Association of the Company and subject to the provisions of the Companies Act, 2013 along with the relevant Rules made thereunder, the Board of Directors of the Company hereby invites nominations/candidatures from the Members for election of Directors.

Nominations/candidatures are invited from the Members on account of retirement by rotation of following Directors who being eligible, have offered themselves for re-appointment as well as due to resignation of an Author-Composer Director representing Region-East:

Sl No	Nomination/ candidature from Region	Member Category	Remarks
1	South	Author	Due to retirement by rotation of Mr. Upadrashta Vidya Sagar (DIN: 08304251) at ensuing 52nd Annual General Meeting of the Company who being eligible, has offered himself for re-appointment at the ensuing 52nd AGM.
2	West	Publisher Owner	Due to retirement by rotation of Mr. Sumit Chatterjee (DIN: 02269713) representing Sony Music India Private Limited, at ensuing 52nd Annual General Meeting of the Company who being eligible, has offered himself for re-appointment at the ensuing 52nd AGM.
3	South	Publisher Owner	Due to retirement by rotation of Mr. Aditya Gupta (DIN: 02815692) representing Aditya Music (India) Pvt. Ltd at ensuing 52nd Annual General Meeting of the Company who being eligible, has offered himself for re-appointment at the ensuing 52nd AGM.
4	South	Author	Due to retirement by rotation of Mr. Sahithi Cherukupalli (DIN: 07769259) at ensuing 52nd Annual General Meeting of the Company who being eligible, has offered himself for re-appointment at the ensuing 52nd AGM.
5	East	Author	Due to resignation of Syed Ahmed as Director of the Company on 29th December, 2021.

For the facility of members, the Company has completed dispatch on 17th August, 2022 and complete set of documents consisting of format of Notice of Nomination and other statutory disclosure documents viz.

(a) Form MBP -1 being Notice of Interest in other entities by Director and List of Relatives;  
(b) Form DIR-8 being Intimation by Director; and  
(c) Form DIR-2 being consent to act as Director of company  
(d) Format of Profile of Candidate

The desirous members are required to furnish the above nomination notice along with other requisite documents as mentioned above on or before 31st day, of August, 2022, before the closure of business hours i.e. 06.00 PM along with a Security Deposit of Rs. 1 Lac by way of demand draft in favour of "The Indian Performing Right Society Limited", in accordance with Section 160 of the Companies Act, 2013. The security deposit shall be refunded to the concerned member only if he secures at least 25% affirmative votes out of the total votes cast on his respective resolution for election as Director else the same shall be forfeited by the Company.

Formats of above mentioned documents can also be downloaded from the website of the Company [www.iprs.org](http://www.iprs.org)

**For information of Shareholders of the Company  
Corrigendum to the Notice of the 48<sup>th</sup> Annual General Meeting  
scheduled to be held on 25<sup>th</sup> August 2022 through video  
conferencing/other audio-visual means**

Alkem Laboratories Limited ("the Company") had issued a notice dated 13<sup>th</sup> May, 2022 ("AGM Notice") for convening the 48<sup>th</sup> Annual General Meeting ("AGM") of the shareholders of the Company scheduled to be held on Thursday, 25<sup>th</sup> August, 2022 through Video Conferencing ("VC")/ Other Audio-Visual Means ("OAVM"). The AGM notice has already been circulated to all the shareholders of the Company in compliance with the provisions of the Companies Act, 2013 read with the rules made thereunder ("AGM Notice") and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Subsequent to the issuance and circulation of the AGM Notice, the Company was informed that Mr. Balmiki Prasad Singh, Executive Director has expressed his unwillingness to offer himself for reappointment as a Director of the Company at the AGM of the Company on grounds of his health. Accordingly, the ordinary business appearing under Item No. 3 in the AGM Notice reading as:

*"to appoint a Director in place of Mr. Balmiki Prasad Singh (DIN: 00739856), who retires by rotation and being eligible, offers himself for re-appointment"*

shall not be taken up for the consideration and voting by the shareholders of the Company at the AGM. Accordingly, Item No. 3 of the AGM Notice stands withdrawn and shall be deemed deleted from the AGM Notice and the Annual Report and the AGM Notice stands modified to this extent.

This Corrigendum to the AGM Notice shall form an integral part of the AGM Notice dated 13<sup>th</sup> May, 2022 circulated to all the shareholders of the Company. Other contents of the AGM Notice remain unchanged. Accordingly, all shareholders, stock exchanges, depositories, registrar and share transfer agent, agencies appointed for e-voting, other authorities, regulators and all other concerned persons are requested to take note of the above deletion.

The Corrigendum is available on the website of the Company ([www.alkemlabs.com](http://www.alkemlabs.com)) and has been communicated to the stock exchanges where the equity shares of the Company are listed.

नंद किशोरा ,चित्त चकोरा  
गोकुळ कान्हा मनमोहन तु  
कृष्णा कृष्णा हरे कृष्णा  
राधे कृष्णा कृष्णा कृष्णा  
कृष्णा कृष्णा हरे कृष्णा राधे  
कृष्णा कृष्णा कृष्णा।।

त्यानंतर वेगवेगळे

'गोविंदा' मंडळे त्या ठिकाणी येतात. गोविंदा म्हणजे जणू श्रीकृष्ण आणि त्यांचे संवगडीच ! उंच उंच मनोरे (थर) लावून वर बांधलेली दहीहंडी फोडण्याचा ते प्रयत्न करतात. यशस्वी प्रयत्न करणाऱ्या गोविंदांमंडळाला बक्षिस दिले जाते. दहीहंडीतील काला सर्वजण 'प्रसाद' म्हणून खातात. हंडीचे खापर सुद्धा 'सुख-समृद्धीसाठी' घरात जपून ठेवण्याची प्रथा आहे.

कंसच्या बंदिशाळेत श्रावण महिन्यात वद्य अष्टमी या तिथीला वसुदेव व देवकी यांच्या पोटी श्रीकृष्णचा जन्म झाला. श्रीकृष्णचा जन्म अष्टमीला गोकुळात झाला म्हणून या दिवसाला 'गोकुळाष्टमी' असेही म्हणतात. अष्टमीला मध्यरात्री झालेल्या कृष्णजन्माच्या आनंदप्रित्यर्थ दुसऱ्या दिवशी म्हणजेच श्रावण वद्य नवमीला गोपाळकाल्याचा उत्सव साजरा केला जातो.

श्रीकृष्ण गोकुळात लहानाचे मोठे झाले. गोकुळात असताना ते आपल्या संवगड्यासह रानात गाथी चारायला घेऊन जात असत. रानात जाताना ते सर्वजण दुपारच्या जेवणासाठी आपापल्या शिदोऱ्या सोबत घेऊन जात असत. दुपारी भूक लागल्यावर श्रीकृष्ण आणि संवगडी एकत्रित जेवायला बसत असत. श्रीकृष्ण स्वतः सर्वांच्या शिदोऱ्या एकत्रित करायचे म्हणजेच काला करायचे आणि सर्वांना वाटायचे. 'गोपाल' म्हणजे गाथीचे पालन करणारे. 'काला' म्हणजे एकत्र मिसळणे. पोहे, दही, ताक, ज्वारीच्या लाह्या, आंब्याचे लोणचे, चण्याची डाळ, साखर, फळांचे तुकडे टाकून 'काला' तयार केला जातो. मग दोरीच्या साह्याने हे मडके उंचावर बांधले जाते.

बाळगोपाळ श्रीकृष्णाच्या जन्मानिमित्ताने दहीहंडी मोठ्या धुमधडाक्यात साजरी केली जाते. श्रीकृष्णाला बालपणी दही, दूध, लोणी या पदार्थांची आवड होती. कृष्णपारसून दह्याचे रक्षण व्हावे यासाठी यशोदा दह्याची हंडी उंच ठिकाणी किंवा शिखावर ठेवत असे पण श्रीकृष्ण तिथपर्यंत पोहचण्यात यशस्वी होत असे. यासाठी त्याचे, मित्र त्याला मदत करत असत. या घटनेची आठवण म्हणून सर्वत्र दहीहंडीचा उत्सव साजरा केला जातो.

दहीहंडीच्यावेळी तरुण एक संघ तयार करून त्यात सहभागी होतात. विविध मंडळे या उत्सवादरम्यान उंचावर दह्याने भरलेली हंडी (छोट्या आकाराचे मडके) लावतात. ही हंडी तरुणांची विविध मंडळे फोडण्याचा प्रयत्न करतात. हा एक प्रकारचा खेळ आहे. ज्यात बक्षिसही दिले जाते. यावेळी गोविंदा आला रे च्या घोषणांनी आजूबाजूचा परिसर दुमदुमून जातो. भारतातील विविध ठिकाणे वेगवेगळ्या धार्मिक परंपरेनुसार दहीहंडी साजरी करण्यात येते.

श्रीकृष्ण जन्माष्टमीच्या दुसऱ्या दिवशी दहीहंडीचे आयोजन केले जाते. या दिवशी मातीच्या मडक्यात दही, लोणी, मिठाई, फळे इत्यादी भरून एका उंच ठिकाणी हे मडके टांगले जाते. हंडी फोडण्यासाठी विविध तरुण मंडळी प्रयत्न करतात. दहीहंडी फोडण्यासाठी विविध मंडळातील तरुण एक दुसऱ्याच्या पाठीवर चढून मानवी मनोरा तयार करतात. या मनोऱ्याच्या सर्वात वरच्या थरावर असतो त्याला गोविंदा म्हणतात. तो सर्व थर पार करता आपला तोल सांभाळत हंडी फोडतो. हंडी फोडणाऱ्या मंडळाला विविध भेटवस्तू देऊन गौरविण्यात येते. मुलांप्रमाणेच मुली देखील धाडस दाखवून थरांवर थर लावून हंडी फोडतात.

श्रीकृष्णाने काजमंडळात गाथी चारताना स्वतःची व संवगड्यांच्या घरून आणलेल्या शिदोऱ्या एकत्र करून त्या खाद्यपदार्थांचा काला करून सर्वासह भक्षण करत

एकत्रित करून जो पदार्थ तयार होतो, त्याला काला असे म्हणतात. हा 'काला' श्रीकृष्णाला खूप आवडायचा असे म्हटले जाते.

गोकुळात सर्वांचा दूध, दही ताक करून विकण्याचा व्यवसाय होता. सर्वजण या गोष्टी मथुरेत विकायला घेऊन जात असत. श्रीकृष्णाला मात्र हे मान्य नव्हते. दूध, दही ताक, लोणी, हे सर्व आपल्या संवगड्यांना मिळावे, ते सर्व धष्टपुष्ट व्हावेत अशी त्यांची इच्छा होती. श्रीकृष्णाला स्वतःलाही दूध, दही, ताक, लोणी प्रिय होते. म्हणूनच ते आणि त्यांचे मित्र शिकाळ्यावरचे दूध, दही चोरून खात असत अशी आख्यायिका आहे.

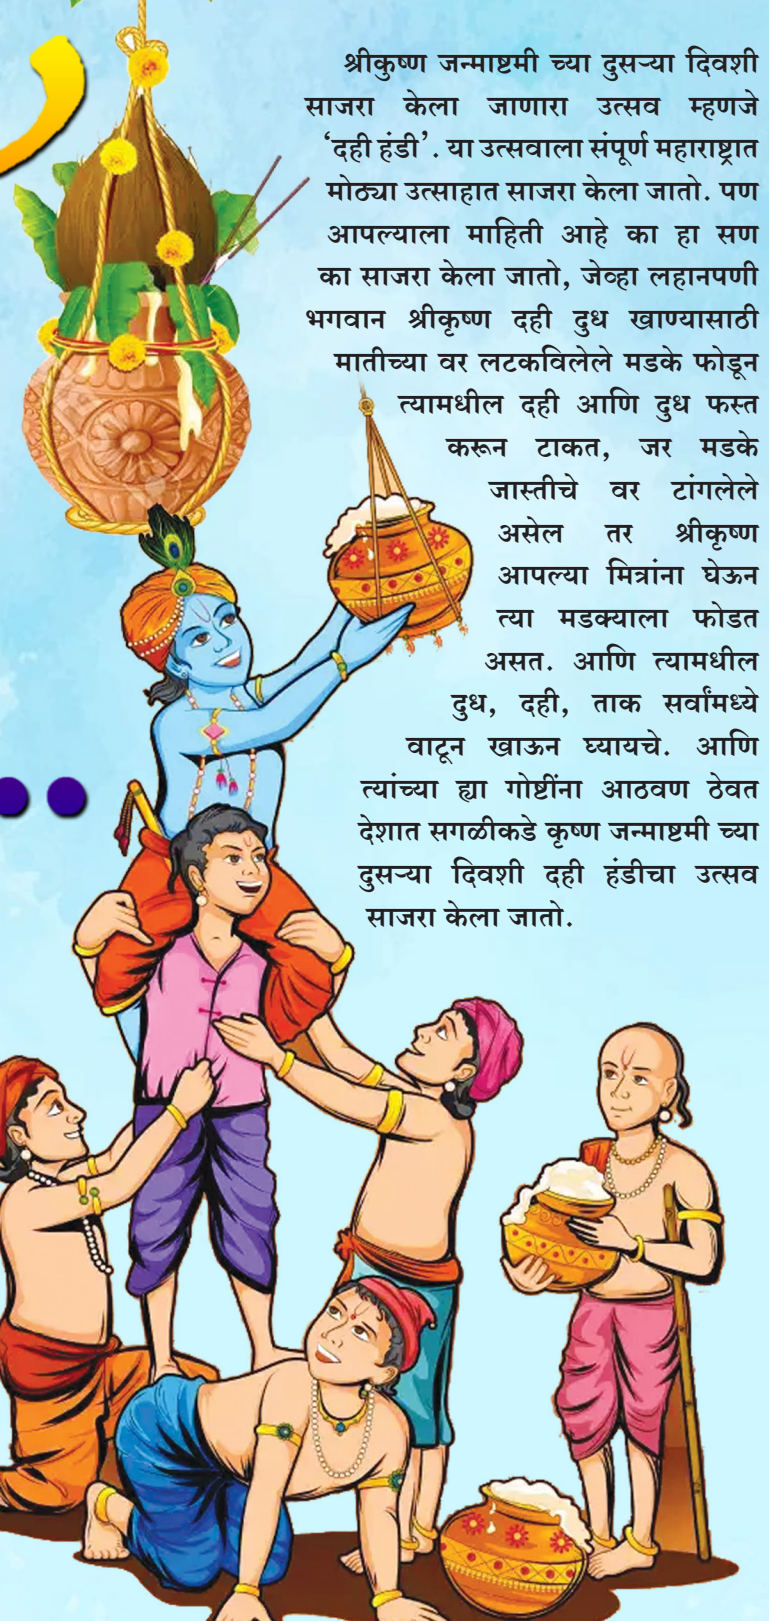

संपूर्ण भारतभर गोपाळकाल्याचा सण मोठ्या उत्साहाने साजरा केला जातो. यानिमित्ताने दहीहंडी फोडण्याचा खेळ घेतला जातो. एक मातीचे मडके घेतले जाते. रंग देऊन, फुलांचे हार घालून हे मडके छान सजवतात. त्यामध्ये दूध, दही, लाह्या, साखर, फळांचे तुकडे टाकून 'काला' तयार केला जातो. मग दोरीच्या साह्याने हे मडके उंचावर बांधले जाते.

असे. या कथेला अनुसरून पुढे गोकुळाष्टमीच्या दुसऱ्या दिवशी काला करण्याची व दहीहंडी फोडण्याची प्रथा पडली.

आपल्या देशातील दही हंडी साजरी करण्याचा आनंद हा पाहण्याजोगा असतो, आपल्या देशातील दही हंडी हि विशिष्ट प्रकारे साजरी केल्या जाते. महाराष्ट्रात पुणे, मुंबई आणि बरेच ठिकाणी दहीहंडीला साजरे केल्या जाते.

दहीहंडी साजरी करण्यासाठी सुरुवातीला एक मातीचे मडके घेतात त्या मध्ये दूध, दही, ताक, आणि काही फळांना कापून टाकले जाते, त्या मडक्याला एखाद्या उंच ठिकाणी दोरीवर मधोमध टांगले जाते. आणि नंतर बाळ गोपाळ आपल्या मंडळा नुसार एक टीम बनवून त्या मडक्या पर्यंत पोहचण्यासाठी प्रयत्न करतात.

मडक्यापर्यंत पोहचण्यासाठी थरांचा उपयोग केल्या जातो, यादरम्यान गोविंदा आला रे आला ! या गाण्याचा उद्बोध केल्या जातो. आणि या उत्साहात ज्या गोपाळाने त्या मडक्याला फोडले त्याला डोक्यावर घेऊन आनंद व्यक्त करत असतात, सोबतच त्या पूर्ण टीम ला एक बक्षिस सुद्धा देण्यात येते. अश्या प्रकारे दही हंडी चा कार्यक्रम उत्साहात साजरा केल्या जातो.

श्रीकृष्ण जन्माष्टमी च्या दुसऱ्या दिवशी साजरा केला जाणारा उत्सव म्हणजे 'दही हंडी'. या उत्सवाला संपूर्ण महाराष्ट्रात मोठ्या उत्साहात साजरा केला जातो. पण आपल्याला माहिती आहे का हा सण का साजरा केला जातो, जेव्हा लहानपणी भगवान श्रीकृष्ण दही दुध खाण्यासाठी मातीच्या वर लटकविलेले मडके फोडून त्यामधील दही आणि दुध फस्त करून टाकत, जर मडके जास्तीचे वर टांगलेले असेल तर श्रीकृष्ण आपल्या मित्रांना घेऊन त्या मडक्याला फोडत असत. आणि त्यामधील दुध, दही, ताक सर्वांमध्ये वाटून खाऊन घ्यायचे. आणि त्यांच्या ह्या गोष्टींना आठवण ठेवत देशात सगळीकडे कृष्ण जन्माष्टमी च्या दुसऱ्या दिवशी दही हंडीचा उत्सव साजरा केला जातो.
