UP TENDER CANCELLATION Solar energy body seeks Centre's intervention over issues in state

Says cancellation of tender may lead to negative impact on FDI investments

DEEPA JAINANI
Lucknow, June 2

THE NATIONAL SOLAR Energy Federation of India (NSEFI), an umbrella organisation for solar energy stakeholders in India, has drawn the attention of Union power minister RK Singh to the challenges being faced by solar de-

velopers in Uttar Pradesh, where secured bids were cancelled without any "valid reason".

Seeking the minister's intervention in directing the Uttar Pradesh government to retract the letter sent by UPNEDA to developers intimating them that the bids have turned infructuous, the letter seeks his office to direct the state government to instead issue the letters of intent (LoI) for the bidders who had won the reverse auction. In a letter to the minister, the chairman of NSEFI, Pranav R

Mehta, has said that after a reverse auction process is completed, the onus is on the bidding agency, which in this case was UPNEDA.

As per the RfP, UPNEDA had to issue the LoIs before May 15, 2020, which it failed to do and instead requested the developers to extend the timelines for the bid period validity.

Stating that the developers have been keen to implement the project and had hence accepted the request of UPNEDA to extend the bid period validity to enable it to issue the LoIs,

the letter states that the current validity of the EMDs is till June 30, 2021.

"It is very wrong on the part of UPNEDA to conclude that no action has been taken by our members for the bid period extension. There is no basis for UPNEDA's statement that says our bids became time barred and infructuous because we didn't take any action, while all the way it was UPNEDA whose inaction led to this," the letter states, adding that the bids are valid and not liable to be cancelled merely because UPNEDA has not fulfilled its part of obligations.

CIL sees demand revival with rise in May offtake

FE BUREAU
Kolkata, June 2

PUBLIC SECTOR MINER Coal India (CIL) sees demand revival with coal offtake touching 55 million tonne in May, a 38%

growth compared to the same month last fiscal. This is a clear signal of demand growth as never before in the month of May CIL could push this much volume. The highest volume that the company pushed so

far during May was 52.8 MT in FY19, when CIL witnessed the highest ever offtake of 608 MT for the entire fiscal. The offtake has been spurred by the growth in demand from the power sector, 41% up at 44

MT during May this fiscal, compared to the same month a year before. The highest ever dispatches for the month of May could be achieved despite a formidable workforce getting Covid affected.

MTAR TECHNOLOGIES LIMITED

✓ Revenue of ₹ 247.74 Cr up by 13.57% ✓ EBITDA of ₹ 83.09 Cr up by 33.72%
