FUTURES PRICES OFFER A BENCHMARK

Futures don't cause odd turmeric price swings: NCDEX panel

SANDIP DAS
New Delhi, September 12

THE TURMERIC PRODUCT Advisory Committee (PAC), set up by the National Commodity and Derivatives Exchange (NCDEX), has stated that futures trading ensures transparent price discovery for all the stakeholders in the commodity value chain, and futures prices provide a benchmark for the physical trade as well.

Stating that the amount of transparency that the derivatives market brings to the system is 'unmatchable', the PAC, set up under the Securities and Exchange Board of India's (Sebi) guidelines, in its report submitted to the finance ministry, said turmeric price being discovered on NCDEX is for single-standard grade, while the crop that comes to the physical market for sales varies in quality.

"The prices of the turmeric quality traded in physical and bourses do not show any unusual fluctuations, while futures prices help participants in the value chain in hedging prices," Punam Chand Gupta, a Nizamabad-based turmeric trader and chairman of the committee, told FE.

The PAC's report comes in the wake of the demand of some turmeric traders from Maharashtra and Vidarbha regions of Maharashtra to ban futures trading of the commodity, as they feel it leads to speculative trading. It stated that the average variations in prices is about 30% between the minimum and maximum prices, at times going up to 80% because of quality variation in the crops.

The committee had held a meeting last month in Mumbai to review the product and the recent concern of Maharashtra and Vidarbha traders.

"Turmeric future price is a benchmark price for farmers and helps masala (spice) companies and exporters in procurement by giving them a fair idea about the future price predictions," Ankit Agarwal, director, Amar Agarwal Foods India, Erode, Tamil Nadu, said.

He said there was a spike in prices earlier this year because of reports of possible crop

OUTPUT AT 0.46 M TONNE IN 2022

■ Turmeric spot price was quoted at ₹7,372 a quintal on September 8 on NCDEX while future price for October 20, 2022, was ₹7,092 a quintal

■ Nizamabad (Telangana), Basmat (Maharashtra) and Erode (Tamil Nadu) are the key markets for the turmeric trade

■ Turmeric sowing

commences with the onset of the monsoon in June, harvesting is carried out February onwards. Maharashtra, Telangana and Andhra Pradesh are the major producers of the spice variety in the country

■ Turmeric production was at 0.46 million tonne in 2022, which is an increase of more than 9% from the previous year

losses. But after harvesting of the crop, from April onwards prices have been stable. "Prices have been reverting to normal range of ₹7,000-8,000 a quintal from the spiked prices of ₹10,500-10,700 a quintal prevailed earlier this year," Agarwal said.

Turmeric spot price was quoted at ₹7,372 a quintal on September 8 on NCDEX while future price for October 20, 2022 was ₹7,092 a quintal.

Nizamabad (Telangana), Basmat (Maharashtra) and Erode (Tamil Nadu) are the key markets for the turmeric trade.

Parivartan Organic Farmers Producer Company, based in Karanja, Washim district, Maharashtra, has stated that through futures trade they have been able to hedge future price risk and advocated against restricting turmeric future trade.

According to trade sources, less than 1% of the commodity is traded on the commodity

bourse.

"The price discovery for any commodity on the exchange platform is entirely a work of market forces, and the exchange has absolutely no role in it," Arun Raste, MD & CEO, NCDEX, said.

Raste said the PAC of the exchange for any product has representation from value-chain segments, spread across geographies and production centres, and the PAC's opinion and suggestions are taken into account for the design of a new contract.

Turmeric sowing commences with the onset of the monsoon in June, harvesting is carried out February onwards. Maharashtra, Telangana and Andhra Pradesh are the major producers of the spice variety in the country.

Turmeric production was at 0.46 million tonne in 2022, which is an increase of more than 9% from the previous year.

Samsung's ₹900-cr PLI invoices stuck as govt differs on claim

Samsung is also eligible but is yet to submit its invoices for FY22. For the contract manufacturers of Apple, FY22 is the first year of PLI as the government rolled over the tenure of the scheme by a year for companies which were not able to meet the first year - FY21 - targets due to Covid-19 disruptions in supply chain. A total of 10 firms - five global and five local - have been selected for the PLI scheme which started in August, 2020. These firms were required to meet the set target for incremental sales of goods in FY21 over the base year of FY20.

Industry sources said that Samsung was able to clock incremental sales of around ₹15,000 crore during the year (FY21) over the base period, which was also the ceiling for availing the incentive.

The total outlay for smartphone PLI over five years is ₹40,951 crore and the incentive ranges around 4-6% annually. For FY21, the total incentive was of ₹5,334 crore. The threshold for qualifying for the incentive

SANDIP DAS
New Delhi, September 12

THE SOLVENT EXTRACTORS' Association (SEA) of India, a body of edible oil manufacturers, on Monday demanded lifting of ban on futures trade in soy oil and crude palm oil (CPO) on the commodity exchanges imposed on December, 2021, to ensure risk management and price discovery mechanism.

SEA has stated that the ban on futures trade has deprived importers of hedging their price risks in rupee-denominated soy oil and crude palm oil futures on Indian exchanges.

"In recent months, edible oil importers have faced huge financial losses due to abnormal volatility in international and domestic prices on one side and weakening rupee on the other," according to a SEA statement.

India imports 56% of its edible oil requirements. Rus-

was incremental sales of ₹4,000 crore and maximum ₹15,000 crore. According to this, Samsung was entitled to get ₹900 crore (6% of ₹15,000 crore) as incentive from the government for FY21.

The PLI scheme for smartphones has set different targets for global players like Apple and Samsung and Indian players like Dixon. In the first year, global players were required to make an investment of ₹250 crore and manufacture goods worth ₹4,000 crore more than the previous year. The phones made by global players should have an invoice value of over ₹15,000.

In the case of Indian players, the investment target is ₹50 crore and they were required to manufacture phones worth ₹500 crore in the first year.

AI to expand fleet with induction of 30 aircraft

Air India has not bought a single aircraft since 2006 when it placed orders for 68 planes from Boeing and 43 from Airbus.

The company added that 10 long-grounded narrow-body and 6 wide-body aircraft have been returned to service and will

join the operational fleet in early 2023.

Air India further added that the B777-200LRs will join the fleet between December 2022 and March 2023, and will be deployed on routes from Indian metro cities to the US.

After the resumption of regular flights post the easing of the Covid-19 restrictions, there has been a significant spike in demand for the US-India sector but since Air India, the biggest international carrier, was under the sale process, no expansion of routes was done.

Air India clarified that Mumbai will see the addition of flights to San Francisco as well as to both of the New York area's international airports, Newark Liberty and John F Kennedy, while Bengaluru will receive a three times a week service to San Francisco. These aircraft will result in Air India offering premium economy haul flights for the first time.

The four A321 aircraft are expected to join the fleet in the January-March of this year. The 21 A320 will be inducted in the second half of 2023 and will be deployed on domestic sectors as well as to short-haul international destinations.

Commenting on the fleet expansion, Campbell Wilson, CEO and managing director, Air India, said, "After a long time

without significant growth, Air India is delighted to resume expanding its fleet and global footprint".

"These new aircraft, together with existing aircraft being returned to service, address an immediate need for more capacity and connectivity, and mark a strong step forward. Air India has exciting expansion and renewal plans, of which these new aircraft are just the beginning," Wilson added.

Air India's narrow-body fleet currently stands at 70 aircraft, of which 54 are in service; the remaining 16 aircraft will progressively return to service by early 2023. Similarly, the company's wide-body fleet currently stands at 43 aircraft, of which 33 are operational. The rest will return to service by early 2023.

Govt to release extra ₹20K-cr to oil retailers as LPG subsidy

"Correction in crude oil prices may improve marketing profitability of these companies," IICI Direct in a report on September 10.

In the FY23 Budget, the Centre made a provision of ₹5,800 crore for LPG subsidies, including a direct benefit transfer of ₹4,000 crore for domestic use and another ₹800 crore for the poor under the Ujjwala scheme.

Budgetary LPG subsidy came down from ₹24,172 crore in FY20 to ₹11,896 crore in FY21. The subsidy was just ₹241 crore in FY22. Given that other fuels, including petrol and diesel, are decontrolled, the Centre's Budget was almost completely freed from the burden of fuel subsidy in FY22, marking an end to a sticky and politically-sensitive item of revenue expenditure it struggled long to get rid of.

Since June 2020, the subsidies on domestic LPG have been limited to small amounts of freight subsidies for far-flung regions.

The higher fuel subsidies may put further stress on the government finances already under pressure due to about ₹2 trillion additional subsidies announced for FY23, mainly for food and fertiliser. It had also cut excise duty cut on petrol and diesel which will likely result in about ₹85,000 crore revenue loss.

SEA urges lifting of futures trade ban on CPO, soya oil

market is not responsible for edible oil inflation as the same has been proved in the recent run up which had nothing to do with futures market as the same was not operational,"

"India is a major importer of edible oils and hence the supply demand dynamics in the international market directly impacts the domestic prices," SEA said.

Resumption of futures trade on the commodity exchanges would go a long way in improving the supply chain in edible oils and replenishing buffer stocks which had depleted. It has stated that the move would help tackle inflationary pressures in food.

India's annual imports are around 13-14 million tonne (mt). Around 8 mt of palm oil is imported from Indonesia and Malaysia, while other oils, such as soya and sunflower, come from Argentina, Brazil, Ukraine and Russia.

Milk output to jump 3-fold in 25 yrs: Amul MD

PRESS TRUST OF INDIA
Greater Noida (UP),
September 12

INDIA'S MILK PRODUCTION is expected to jump three-fold to 628 million tonne in the next 25 years with an average annual growth of 4.5%, Amul MD R S Sodhi said on Monday.

The country's milk production was 210 million tonne in 2021, the MD of Gujarat Cooperative Milk Marketing Federation (GCMMF), which markets dairy products under the Amul brand, said.

"Milk production in India is projected to grow at a CAGR of 4.5% to reach 628 million tonne in the next 25 years," he said while giving a presentation on the outlook of the Indian dairy sector over the next 25 years.

Sodhi was speaking at International Dairy Federation World Dairy Summit (IDF WDS) 2022, being organised at India Expo Centre & Mart here during September 12-15.

India's share in global production is estimated to nearly double to 45% in the next 25 years from 23% now.

The demand is also set to increase because of the rising population, Sodhi said.

The demand for milk is expected to rise to 517 million tonne in the next 25 years, leaving an export surplus of 11.1 million tonne, he said.

The GCMMF MD said the per capita availability of milk in India will increase to 852 grams per day in the next 25 years from 428 grams per day in 2021.

POSTAL BALLOT NOTICE AND E-VOTING INFORMATION

NOTICE is hereby given that the Company is seeking approval of its Members by way of special resolutions for-
1. Migration of listing/ trading of equity shares of the Company from BSE SME platform to Main Board of BSE Limited and National Stock Exchange of India Limited.

The postal ballot notice is available on the websites of the Company (<https://anurooppackaging.com/>), KFin Technologies Limited ("Kfintech") (<https://evoting.kfintech.com>) and the stock exchanges where the equity shares of the Company are listed i.e. BSE SME (<https://www.bsesme.com/>).

In compliance with the General Circular No. 14/2020 dated 8th April, 2020, General Circular No. 17/2020 dated 13th April, 2020, General Circular No.22/2020 dated 15th June, 2020, General Circular No. 33/2020 dated 28th September, 2020, General Circular No. 39/2020 dated 31st December, 2020, General Circular No. 10/2021 dated 23rd June, 2021 and General Circular No. 20/2021 dated 8th December, 2021 issued by the Ministry of Corporate Affairs, the Company has sent the postal ballot notice on September 12, 2022 to all the shareholders who have registered their email id with their depository and simultaneously physical postal ballot form is being sent to those members whose email id is not registered and whose names are recorded in the Register of Members of the Company or in the Register of Beneficial Owners maintained by the Depositories as on Friday, September 09, 2022 ("Cut-off date").

The Company has engaged the services of Kfintech to provide remote e-voting facility to its Members. The remote e-voting period commences from 9.00 a.m. (IST) on Thursday, September 15, 2022 and ends at 5.00 p.m. (IST) on Friday, October 14, 2022. The e-voting module shall be disabled by Kfintech thereafter. Voting rights of the Members shall be in proportion to the shares held by them in the paid-up equity share capital of the Company as on Cut-off date. The communication of the assent or dissent of the Members would take place through the remote e-voting system/physical ballot. Only those Members whose names are recorded in the Register of Members of the Company or in the Register of Beneficial Owners maintained by the Depositories as on the cut-off date will be entitled to cast their votes by remote e-voting/physical ballot. Once the vote on the resolution is cast by the Member, he/ she shall not be allowed to change it subsequently.

Members to whom the physical Postal Ballot Form is being sent are requested to carefully read the instructions printed in the attached Postal Ballot form. The Postal ballot form duly completed and signed should be returned in the enclosed self-addressed business reply envelope directly to the Scrutinizer so as to reach the Scrutinizer not later than October 14, 2022. Any postal ballot form received after this date and time shall be treated as if the reply from the shareholders had not been received. If any extraneous paper is found in such envelope the same would not be considered and would be destroyed by the Scrutinizer.

For details relating to e-voting, please refer to the postal ballot notice. In case of any queries, you may refer the Frequently Asked Questions (FAQs) for Shareholders and e-voting user manual for Shareholders available at the download section of (<https://evoting.kfintech.com>). For any grievances connected with facility for voting by electronic means, please contact Mr. Umesh Pandey Corporate Registry at KFinTech, Email: einward.ris@kfintech.com, toll free no.: 1-800-309-4001

The Board of Directors of the Company has appointed Ms. Anjani Kumar Radheshyam Tipathi, Advocate as the Scrutinizer ("Scrutinizer") to conduct the postal ballot in a fair and transparent manner.

The result of the postal ballot will be announced at or before Saturday, October 15, 2022. The said results along with the Scrutinizer's Report would be intimated to the Exchange and will also be uploaded on the Company's website (<https://anurooppackaging.com/>) and of Kfintech (<https://evoting.kfintech.com>).
The said Postal Ballot Notice is also available on the website of the Company at <https://anurooppackaging.com/>.
Kindly take the same on your record.
