Smooth-coated otters spotted in Kharghar creek

Navi Mumbai :

Birdwatchers spotted a pair of endangered smooth-coated otters in Navi Mumbai's Kharghar creek while on a birding trip on Friday afternoon. The species, whose presence around Konkan coast has been previously documented, are listed as "vulnerable" as per the International Union for Conservation of Nature's (IUCN) red list of threatened species globally. They are also protected under Schedule 2 of the Wildlife (Protection) Act, 1972.

The otters were spotted and photographed by birders S Ramprasad and Sanjeev Balsara near Sector-16 in Kharghar, which is a popular birding area. "We were excited and took some pictures before the creatures disappeared. They were very fast-moving" said Ramprasad, whose pictures were later corroborated by researchers at Bombay Natural History Society (BNHS).

Navi Mumbai-based environmentalist BN Kumar, who runs NatConnect Foundation and has been campaigning for the creation of a biodiversity protection plan, said, "This sighting is all the more reason for authorities to take stock of and find measures to protect such wildlife. We have created a list of 20 areas across the Mumbai Metropolitan Region (MMR) including Kharghar creek, that require a higher level of protection. We will present our findings to BNHS for their consideration this week."

According to the BKC police, the boy was angry that the university had not released the results for BA students and sent the emails on July 9 and 10.

A police official said, "It's a prank email. The student was very angry that results were not released. We have registered an FIR under Section 505 (Statements conducing to public mischief) of the Indian Penal Code at the BKC police station. The cyber police were alerted who traced the boy. He is said to be from Mumbai. Appropriate action will be taken against him."

# Anti-terror cell, bomb squad activated on occasion of independence day

Mumbai :

On the eve of Independence Day, the Mumbai Police said that all necessary arrangements have been made in preparation for August 15. The police in the city, which has historically been the site of a series of coordinated terrorist attacks, are attempting to leave no stones unturned in security arrangements ahead of the highly-anticipated Independence Day celebrations on Sunday. According to a press release issued by the Mumbai Police

and seen by news agency ANI, all police stations are on high alert while the anti-terror cell and bomb squads across all stations have also been activated to ensure sufficient security arrangements for Independence Day.

All police stations will maintain a high degree of alert in the form of static deployment and patrolling to prevent any untoward incident on Independence Day, the Mumbai Police said. The anti-terror cell (ATC) and beat officers in all police stations have been activated to gather

intelligence, according to the cops.

Moreover, extra security arrangements will be kept at important government offices such as the mantralaya (ministry) for the official flag hoisting function. The authorities will also be carrying out anti-sabotage measures such as frisking people. The bomb detection and disposal squads will also be deployed to check the premises for any suspected terrorist activity.

Meanwhile, the Maharashtra government has allowed a few more relaxations in coronavirus

disease (Covid-19)-related protocols for Independence Day. While all fully vaccinated passengers will be able to travel in local trains in the Mumbai Metropolitan Region (MMR) from August 15, shops, malls, and restaurants have also been permitted to operate till 10pm. However, with the likelihood of a third wave of the coronavirus pandemic hitting the state, the government also made it clear that the entire state will be put under immediate lockdown if the demand for oxygen reaches 700 metric tonnes (MT) on a daily basis.

## Forced sex in marriage can't be called illegal, says Mumbai Court

Mumbai

A Mumbai court on Friday (August 13, 2021) observed that forced sex in a marriage can't be called illegal. While hearing the grievance of a woman who reportedly suffered paralysis due to forcible sex by her husband, Mumbai Additional Sessions judge Sanjashree J Ghart said that the man cannot be held responsible for the same.

"It is very unfortunate that the young girl suffered paralysis."

However, the applicants (husband and family) cannot be held responsible for the same. Looking into the nature of allegations made against the applicants, custodial interrogation is not required. The applicants are ready to cooperate during the course of the investigation," the session court's order read.

The case pertains to the couple who got married in November 2020 following which

the woman had complained that her husband had started having sex with her against her will. She also reportedly alleged that she had suffered paralysis below her waist due to this.

In her complaint, the woman also stated that her in-laws had put restrictions on her, taunted, abused and had also demanded dowry. However, the husband and his family refuted the allegations and had claimed protection from arrest.

## Kingfisher House in Mumbai sold to Saturn Realtors for Rs 52 crore

Mumbai

Kingfisher House, the erstwhile headquarters of the now-defunct Kingfisher Airlines Ltd in Mumbai, which was founded by fugitive businessman Vijay Mallya, has been sold to Hyderabad-based Saturn Realtors at Rs 52.25 crore — about one-third of its reserve price of Rs 135 crore.

Situated near the Chhatrapati Shivaji Maharaj International Airport at Santacruz in Mumbai,

Kingfisher House had failed to attract a buyer for the eighth time during an auction in November 2019. The

money received from the sale will go to the lenders that have already recovered Rs 7,250 crore through the auction of shares of fugitive businessman Vijay Mallya, former promoter of Kingfisher Airlines.

Kingfisher Airlines owes about Rs 10,000 crore to a consortium of banks in India led by the State Bank of India (SBI). Mallya is facing extradition proceedings in the UK and was declared a fugitive economic offender in India in 2019.

## 3,000 Mumbai buildings have built rain water harvesting units in 14 years: BMC

Mumbai :

Over 3,000 buildings in Mumbai have constructed rain water harvesting units in the last 14 years, revealed a BMC data after Shiv Sena MLA Dilip Lande sought details of building projects that have complied with the rules.

As per the Development Control Regulations (DCR) in 2007, the Maharashtra government had made it compulsory to construct such units while constructing new buildings or redeveloping buildings proposed on more than 300 square metre plots.

According to the data provided by the Brihanmumbai Municipal Corporation (BMC), from June 6, 2007 to May 31, 2021, more than 3,000

newly-constructed buildings or redeveloped projects have complied with the rule.

A BMC official said only after a developer submits a report of completed rain water harvesting units in construction projects, they are issued the full occupation certificate (OC).

Once the units are ready, it is the housing society or developer's responsibility to ensure that they remain in working condition.

However, Under the new Development Control and Promotion Regulations (DCPR), 2034, BMC has changed the rule and said new construction or redevelopment on plots having more than 500 square metre area should construct rain water harvesting units.

## BMC gets 170,000 doses, vaccination to resume on Saturday after 2-day break

Mumbai Vaccination will resume in the city on Saturday from 9am to 5pm, after a two days break, as Brihanmumbai Municipal Corporation (BMC) received 170,000 vaccine doses on Thursday night. These were distributed to vaccination centres on Friday.

The vaccination drive was suspended in the city on Thursday and Friday, due to a shortage in vaccine doses. BMC last received 45,000 vaccine doses on August 7, and 100,005 vaccine doses on August 3, which were distributed to vaccine centres on August 4. Hence, the drive was suspended on August 4, which is last Wednesday as well. Mangala

Gomare, executive health officer of BMC's public health department, said, "We have received 170,000 doses on Thursday night. Vaccination can resume in the city on Saturday." On August 5, when vaccination centres opened after a one day break due to a shortage of vaccines, 100,669 beneficiaries were vaccinated in the city, of which 35,691 received their second dose. However, on August 6, as some vaccination centres were closed due to a shortage of doses, the total number of beneficiaries vaccinated came down to 43,231, of which 14,392 received their second dose.

## Implementation of hawkers' policy stalled over corporators' demand to be in TVC

Mumbai

The implementation of hawkers' policy in the city is stalled as the Brihanmumbai Municipal Corporation (BMC) is yet to receive a reply from the urban development department regarding the involvement of corporators in the Town Vending Committee (TVC).

In the law committee meeting held in October 2020, corporators demanded to make them members in zonal TVCs and passed a resolution. Since there is no provision of involving corporators in TVCs in Street

Vendors (Protection of Livelihood and Regulation of Street Vending) Act, 2014, the BMC sought clarity from the urban development department.

"We had written a letter to the urban development department as the corporators' demand will require amendment in the Street Vending Act. We are awaiting their response. The outbreak of Covid-19 has also delayed the process," said a senior official from BMC.

Implementation of the policy has been pending for the past five years. After the Street

Vendors (Protection of Livelihood and Regulation of Street Vending) Act got passed in 2014, the BMC distributed 1,28,443 forms among hawkers

to be filled and returned to the civic body. Around 99,435 hawkers submitted their forms and 15,361 were found to be eligible. Under the Act, the

corporation has to conduct the survey every five years.

The civic body had also published 85,891 hawking pitches on about 1,366 roads across Mumbai and invited suggestions and objections from the citizens in 2018. The hawking pitches are a proposed designated space of one square meter by one square meter for hawkers to conduct their business. After hearing the suggestions and objections, the BMC reduced the hawking pitches to 30,832 on 404 roads across the city.
