Jyotiswarup Raiturkar takes charge as Chief Technology Officer of Angel Broking Limited

Jyotiswarup brings with him 20+ years of experience in building high scale online/e-commerce products for brands like Walmart Labs, Goibibo, Samsung Research and Microsoft

Mumbai, July 29, 2021: At a time, when Angel Broking seeks to make bigger strides in the fintech space, it has appointed Jyotiswarup Raiturkar as its Chief Technology Officer (CTO).

At Angel Broking, Jyotiswarup will lead the technology development and engineering teams. He brings over two decades of technology leadership experience in creating high-volume B2C products and product transformations. He joins the Angel Broking team following a very successful stint at Walmart Labs', where he was instrumental in modernising the e-commerce platform for their global market' and their next-gen hyper-personalized apps. Prior to Walmart, Jyotiswarup held various senior tech leadership positions at Mint (Intuit's money managing app); and Goibibo. He has in the past, also worked at Microsoft on Windows platform and Samsung on multimedia frame work.

Jyotiswarup has served as Chief Architect at Walmart Labs' and Goibibo and Director Engineering at 8KPC and has nurtured several cross-geographical teams and fostered a culture of engineering excellence as a capable leader and mentor.

Jyotiswarup has a Masters degree in Computer Science from Illinois Institute of Technology Chicago, following a Bachelor's degree in Computer Science and Engineering from NIT, Nagpur.

About Angel Broking Limited:

Angel Broking Limited (ABL) (NSE: ANGELBRKG, BSE: 543235) is the largest listed retail stock broking house in India, in terms of active clients on NSE. ABL is a technology-led financial services company providing broking and advisory services, margin funding, loans against shares and distribution of third-party financial products to its clients under the brand "Angel Broking". Recently, ABL board has decided to transition the business under a new Master brand "Angel One" to appeal to new age customers and to support new businesses other than broking in future. The broking and allied services are offered through (i) online and digital platforms and (ii) network of Authorized Persons.

ABL extensively uses Artificial Intelligence and Machine Learning to create a superior digital experience. ABL has built a host of digital properties like Angel Broking Mobile App, Angel BEE Mobile App, 'ARQ Prime' a rule-based investment engine, 'SmartAPI' a free-to-integrate API platform, 'Smart Money' an investor education platform, 'SmartStore' a marketplace for fintech products, learning platform and social forums for over 5 million clients.
