PRESS RELEASE

Cyient Set to Inaugurate Warangal's Largest Development Center

The new center will propel the growth of Cyient's Communications business supported by local talent from Warangal and can accommodate 800 associates.

Hyderabad/Warangal, India, January 06, 2020: Cyient, a global engineering and technology solutions company, today announced the opening of its new Development Center in Warangal. The center will be inaugurated on January 07, 2020 by **Mr. K.T. Rama Rao**, Hon'ble Minister for IT, Municipal Administration & Urban Development, Industries, and Commerce, Government of Telangana in the presence of **Mr. BVR Mohan Reddy**, Founder and Executive Chairman, Cyient and **Mr. Krishna Bodanapu**, Managing Director & CEO, Cyient and other senior officials of the company.

Cyient's development center is the largest in Warangal and will serve as a showcase for this culturally rich city to attract more IT investments. Cyient had already taken the lead in Warangal by setting up its incubation center back in 2016. The company currently employs 200 engineers in its center and will be hiring 600 more in a phased manner with most of the talent being sourced locally.

The new state-of-the-art facility can accommodate 600 Cyient engineers on a total built-up area of around 60,000 sq. ft. The company is also constructing a second tower to accommodate an additional 200 engineers.

Commenting on the development, **Mr. Krishna Bodanapu, Managing Director & CEO, Cyient** said, *"We are delighted to expand our footprint in Warangal, a city that has a rapidly evolving talent ecosystem. With the strong momentum and growth in our Communications business, we look forward to leveraging our presence here to support customers globally while delivering on our commitment to support inclusive growth in our local communities."*

"We also look forward to partnering with the Government to help realize the 'Digital Telangana' vision by providing our technical expertise in extending high-speed broadband connectivity for rural areas through T-Fiber initiative" he added.

Cyient's Warangal Development Center supports telecom customers globally with plan & design and engineering services for their mobile and fixed-line networks. The company works with several of the largest communications service providers in the US, Europe and Asia-Pacific region helping them accelerate the deployment of 5G networks, expand fiber-to-the-home coverage and implement digital solutions to enhance customer experience.

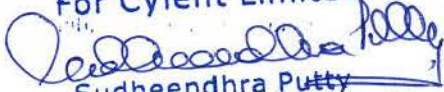

About Cyient

Cyient (Estd: 1991, NSE: CYIENT) is a global engineering and technology solutions company. As a Design, Build, and Maintain partner for leading organizations worldwide, Cyient takes solution ownership across the value chain to help customers focus on their core, innovate, and stay ahead of the curve.
