HUL profit jumps 19% on demand recovery

Profit in the third quarter rose to ₹1,921 crore from ₹1,616 crore a year ago

Suneera Tandon

Hindustan Unilever Ltd (HUL) recorded an 18.8% rise in standalone net profit for the December quarter from a year earlier as India's top fast-moving consumer goods company gained from a sustained recovery in demand during the festive season and calibrated price increases in select products.

India losses narrow to ₹7,270 crore on standalone basis in FY20

Domestic consumer growth, excluding the impact of the merger of GSK CH and the acquisition of VWash, grew at 7% during the December quarter.

India. Health, hygiene, and nutrition, which form 80% of HUL's portfolio, continue to grow in double digits even as the company reported a significant improvement in discretionary and out-of-home categories that were impacted in the initial months of the lockdown.

Domestic consumer growth, excluding the impact of the merger of GSK CH and the acquisition of VWash, grew at 7% during the quarter, led by 4% volume growth, the maker of Lux soaps and Knorr soups said. The performance indicates an increase in demand for packaged household goods, as well as easing of supply constraints during the quarter.

The market trajectory is in the right direction as supply-side constraints cool off, rural demand remains "very resilient" because of government interventions and mobility improves across markets, chairman and managing director Sanjiv Mehta said.

HUL has come back to "impressive" growth in the December quarter, said Anees Roy at Edelweiss Securities.

HUL's business spanning soaps to packaged tea is a proxy for consumption in

IMPRESSIVE SHOW

STANDALONE revenue for the quarter jumped 21% to ₹1,921 crore from ₹1,616 crore a year ago

Demand in rural markets continue to charge ahead of urban markets where mobility restrictions and slower sales through large format or modern trade had affected sales earlier during the fiscal, HUL said.

The performance shows better demand for packaged goods, and easing of supply constraints in Q3

"The good bit is that urban demand, which was negative earlier, has moved to a positive territory, albeit still at a low level," said Mehta, adding that he expects urban demand to shift to a faster growth trajectory helped by mobility in large cities linked to a faster roll-out of covid-19 vaccines.

HUL on Wednesday announced the appointment of Ritesh Tiwari as executive director, finance, and chief financial officer and a member of the board, HUL, with effect from 1 May 2021. Tiwari succeeds Sriniwas Phatak who is set to move to the company's headquarters in London as EVP, financial control and risk management.

Sabyasachi sells 51% stake to ABFRL

Shuchi Bansal, shuchi.b@livemint.com, NEW DELHI

Aditya Birla Fashion and Retail Ltd (ABFRL) on Wednesday signed a definitive agreement to acquire 51% stake in Indian luxury designer label Sabyasachi, a brand owned by Sabyasachi Mukherjee, the Mumbai-based retailer said.

Sabyasachi Mukherjee.

The company will infuse ₹398 crore for 51% interest in the label run by Sabyasachi Couture, a partnership firm, engaged in the business of manufacturing, distribution and sale of designer apparel, jewellery and accessories under its own brand 'Sabyasachi', it said in a filing to the stock exchanges.

The Sabyasachi brand has strong Indian roots and global appeal, ABFRL said. It enjoys a strong franchise in India, the US, the UK and West Asia. The ABFRL platform will complement brand Sabyasachi in its journey to becoming a global luxury house out of India, it said.

Sabyasachi will be ABFRL's third investment in an Indian ethnic wear brand since mid-2019. In July 2019, the company announced a partner-

ship with leading fashion designers Shantanu & Nikhil with the acquisition of a 51% stake in Finesse International Design Pvt. Ltd, their company that makes bespoke apparel for men and women under the brand name Shantanu & Nikhil.

In June 2019, ABFRL—which retails brands such as Louis Philippe, Van Heusen, Allen Solly and Peter England—acquired ethnic apparel and lifestyle retailer Jaypore for ₹100 crore. The deal was intended to help ABFRL tap the fast-growing ethnic apparel market.

The stake in Sabyasachi will add weight to ABFRL's growing ethnic wear portfolio. It will accelerate the

company's strategy to capture a large share of the ethnic wear market through a comprehensive and attractive portfolio of brands, across key consumer segments, usage occasions and geographies, ABFRL said. ABFRL expects to build a large ethnic wear business over the next few years to complement its strong and diverse portfolio in the western wear segment of the Indian apparel market.

"We believe that over the next few years, ethnic wear is going to be an increasingly important category as young and confident Indians rediscover their culture and heritage. The Sabyasachi brand, through its emphasis on excellence in design and craftsmanship, has set new benchmarks and captivated the imagination of the sophisticated global Indian consumer... Over the next few years, ABFRL intends to craft a portfolio that addresses the entire gamut of ethnic wear segments: value, premium and luxury," ABFRL managing director Ashish Dikshit said.

The proposed acquisition is subject to statutory approvals. ABFRL is part of the Aditya Birla Group. It is a pure-play fashion house with a network of 3,025 stores and a revenue of ₹8,758 crore in FY19-20.

Realty sentiment improves in Dec quarter

Renu Yadav, renuy@livemint.com, NEW DELHI

The realty sector is finally turning optimistic with a sentiment index score of 54 in the December quarter, with a positive demand outlook for the next six months, according to a survey by Knight Frank-Ficci-Nareco.

Real estate sales in the June 2020 quarter had crashed nearly 80% compared to the same quarter in 2019, following the pandemic, hurting customer sentiments. Subsequently, a recovery in demand for residential and office space helped lift sentiments. Residential sales picked up during the three months ended December on the back of attractive payment schemes from developers, low interest rates, and a cut in stamp duty by Maharashtra and Karnataka governments. With the Future Sentiment Score witnessing a surge from 52 points in the September quarter to 65 in the December quarter, the sector expects demand to pick up further.

"Geographically, the western part of the country saw the sharpest jump in Future Sentiment Index. This zone's future sentiment jumped to 66 points in Q4 2020 from 47 points in Q3 2020. With respect to stakeholders, both developers and non-developers banks, non-bank lenders and private equity funds recorded an improvement in Future Sentiment score in Q4 2020," the report added.
