# Agenda

① Market Review

② Strategic Overview

③ Financial Performance

# Market Review

भारतीय साधारण बीमा निगम  
General Insurance Corporation of India

# How Reinsurance Works?

# Reinsurance Industry - Role

**GIC Re has been playing a key role in the Indian reinsurance market and able to maintain about 60% share in the Indian reinsurance market.**

1 Reinsurance is the foundation for economic growth through risk transfer mechanism

2 The risks flow through insurers to reinsurers

3 Insurance is written on the strength of reinsurance support

4 Reinsurer insulates himself from the insurer's adverse financial performance

5 Reinsurers have devices to guard against anti-selection

## Reinsurance support aims at

- 1 Providing insurers capacity to write more: **proportional**
- 2 Providing insurers protection against bottom line volatility: **non-proportional – major risks**
- 3 Providing insurers protection against balance sheet protection: **non-proportional - catastrophe**

# Global Scenario

- The global reinsurance market size is expected to grow from \$574.27 billion in 2022 to \$895.40 billion in 2027 at a CAGR of 9.1%.
- Reinsurance rates rose sharply in the January 2023 renewals in response to losses due to the war, high inflation and increasing natural catastrophe claims.
- A.M. Best has maintained its stable outlook for the global reinsurance sector on the back of positive rate momentum across a broad range of non-life classes of business
- In the current environment, marked by years of accumulating catastrophic losses, investment market losses, and significant losses expected as a result of the pandemic, there is potential for further price increases

### Gross Written Premium\* growth, by region

\* The conversion into EUR is based on 2020 exchange rates.

Source: A.M. Best; National financial supervisory authorities, insurance associations and statistical offices, Thomson Reuters, Allianz Research; Valuates Report; The Business Research Company ;Precision reports

# Reinsurance industry in India

GIC Re is the largest player in India and leads most of the domestic companies' treaty programmes and facultative placements

Gross written premiums of general insurance industry in 2022-23: ₹2,56,912.14 crore

Net retention of general insurers increased from 70.82% in 2020-21 to 71.85% in 2021-22

Insurance penetration remained unchanged at 4.20% in 2021-22

Crop insurance has become the third largest line of non-life business, after health and motor insurance

# Domestic Operating Environment

India's general insurance market is estimated to grow at a compound annual growth rate (CAGR) of 9.9% during 2021-2026.

Reinsurance premiums in India is expected to touch Rs 989.75 billion by 2025

GIC Re expected to maintain market leadership going forward on strong financials, adequate capacity and expertise

## Budget 2023

- The cabinet has increased allocation towards Ayushman Bharat by 12% to Rs 7,200 crores in the recently concluded budget session which is likely to boost the healthcare sector.

# Combined Ratio – Indian non-life insurance

### Combined Ratio - Overall

### Combined Ratio (Split by Type of Insurer)

# Strategic Overview

भारतीय साधारण बीमा निगम  
General Insurance Corporation of India

# Competitive Strategy Pillars

## Prudent Underwriting

- Geographical Diversification
- Lines of Business Diversification
- Continued focus on Risk Selection
- Deployment of Modelling and Pricing Techniques and Tools

## Efficient Asset Management

- Healthy Investment Income
- Diversified Investment Portfolio
- Effective Asset Liability Management

## Exposure Management

- Modelling accumulation of exposures
- Rebalancing the risk portfolio
- Well-rated retrocession counterparties

## Effective Risk Management

- Conservative Claim Reserving
- Following best practices such as conducting stress test to assess resilience

## Talent Management

- Recruitment of Experts
- Low attrition rate

## Dominant Indian market position

- Continued Obligatory cessions & Order of Preference
- Long term relationship with the market
- Well-positioned to exploit all opportunities

# Strategic Approach

- GIC Re to leverage its position of 15<sup>th</sup> rank based on the scale it affords and excellent credit rating domestically.
- The Company stands to benefit from price hardening in select segments / geographies.
- Indian market with its unprecedented growth, particularly in agriculture and health affords an opportunity to leverage GIC Re balance sheet.
- Solvency pressures on Indian insurance market players could lead to higher reinsurance cessions, growing the reinsurance market size which would provide GIC Re an opportunity to sustain its market share.
- Phased adoption of modelling capabilities to ensure better exposure management and deriving value extraction from it.
- Greater volatility countered through conservative reserving.
- Continued focus on underwriting profitability through
  - Class-specific evaluation
  - Weeding out the contracts with inadequate pricing
  - Incentivisation based on individual company / contract performance
- Industry Performance
  - Adoption of IIB rates and resultant increase in price as a factor.
  - Listing of insurers will lead to greater bottom line focus.
  - Leverage Lloyd's platform to expand GIC Re presence in international markets.
