Labour-Intensive Exports Lost Market Share in 2015-19: FIEO

Study comes as India aims to clock \$400 billion of merchandise exports in FY22

Kirtika Suneja @timesgroup.com New Delhi: India's labour-intensive exports such as leather, garments, gems & jewellery and carpets lost market share globally in the calendar years 2015-19 even as exports of raw material and semi-finished products like metals and chemicals exceeded global imports growth in the five-year period, a study done by the Federation of Indian Export Organisations (FIEO) showed.

sectors that needs to be addressed," said Ajay Sahai, director general, FIEO. The study comes at a time when India aims to clock \$400 billion of merchandise exports in FY22. India's goods exports in FY21 contracted 7.3% on-year to \$290.6 billion.

Economy Added 16.9 Lakh Less Jobs in FY21: SBI Research

Mumbai: Net job creation in the economy fell by 16.9 lakh in FY21 over the previous fiscal, shows an SBI Research analysis of EPFO payroll data. However, the FY21 numbers are better than the FY20 net job creation, which had declined by 28.9 lakh, further cementing the view that the economy is not creating new employment opportunities.

The latest EPFO data shows that net new EPF subscribers stood at 94.5 lakh in FY21, and NPS added 5.82 lakh, taking the cumulative net addition to 100.41 lakh, which is marginally down from 102.33 lakh in FY20. However, according to Soumya Kanti Ghosh, SBI's group chief economic adviser, "this does not represent the correct picture as the data include the number of exited members who re-joined and re-subscribed, and thus not fresh job creation."

Petition Against Twitter for 'Failing' to Comply with New IT Rules

New Delhi: A petition has been filed in the Delhi High Court against Twitter Communication India Pvt Ltd and Twitter Inc. for failing to comply with India's new IT rules that came into effect from Wednesday. The petitioner, Amit Acharya, said the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021 came into force from May 25 and Twitter had been given three months to comply with the rules but it had failed to appoint a Resident Grievance Officer to redress user complaints regarding violation of the provisions of the rules.

US Pips Mauritius as 2nd Largest Source of FDI in 2020-21: DPIIT

New Delhi: The US replaced Mauritius as the second largest source of foreign direct investment into India during 2020-21 with inflows of \$13.82 billion, according to government data. Singapore remained the top source of foreign direct investment (FDI) into the country for the third consecutive fiscal at \$17.41 billion.

Germany (\$667 million), and Cyprus (\$386 million). Overall foreign direct investments into the country grew 19% to \$59.64 billion during 2020-21 amid measures taken by the government for policy reforms, investment facilitation and ease of doing business.

Bellatrix Aerospace Successfully Tests New Hall-effect Thruster

Bengaluru: Space technology startup Bellatrix Aerospace has successfully tested India's first privately developed hall-effect thruster, an electric propulsion engine for micro satellites weighing between 50-500 kg, which it says will be ready for commercial use by the end of this year.

Science, Bengaluru. It is now readying to test its hall-effect thruster in space, for which it has signed an agreement with a European company for the device to be fitted to a satellite which will be launched in the coming months. "We have optimised this propulsion system to specifically cater to the microsatellite segment. There were a lot of challenges in scaling down the technology, both in the plasma physics and the thruster construction," said Rohan M Ganapathy, cofounder and CEO at Bellatrix Aerospace. "It has taken us more than four years to develop this from scratch."

4, Indian Auditors Turns Ugly

Mumbai: The spat between the Big Four professional services firms and Indian auditors over the new RBI guidelines for appointments of statutory auditors has turned nasty with both sides accusing each other of serving self interest and trying to mislead key stakeholders.

The guidelines for commercial banks, NBFs and Housing finance companies are to be implemented in the year 2021-22. The issue has further polarised the Big Four and Indian audit firms and a study of the presentations, FAQs and detailed impact notes being shot off to the regulators, companies and industry associations from both sides point towards widely differing views on key contentious issues.

Then, the Indian auditors point at the concentration risk of a Big Four but the data support that argument. According to Prime database data, the Big Four firms do less than 25% of the listed private banks after rotation (Bandhan, AU Small Bank, CSB Bank, DSB Bank and IDFC Bank). However, 75 Indian audit firms work with 141 listed public sector banks (Big four don't audit PSU banks). Out of the 196 listed NBFs and HFCS, the Big Four firms do less than 22% of the total audits.
