MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Back ground

Amba Enterprises is a “Power Engineering Solutions Company” primarily into the manufacturing of Transformers Cores & Lamination and stamping for rotating machines, the key USP of Amba Enterprises is that it assures the client of the reduction in transmission loss, Amba Enterprises is one of the largest players in the manufacturing of Transformers Cores & Laminations in India.

Indian Scenario

The last couple of years have amply demonstrated the resilience of the Indian economy vis-à-vis the economies of the ‘developed nations’. This has resulted in a renewal of confidence of the global investors in the Indian story. If we add to this the strong GDP growth and the measures taken by the government to boost economy, the Indian scenario looks excellent in the coming years.

India’s energy sector is one of the most critical components of an infrastructure that affects India’s economic growth and therefore is also one of the largest industries in India. India has the 5th largest electricity generating capacity and is the 6th largest energy consumer amounting for around 3.4 % of global energy consumption. India’s energy demand has grown at 3.6 % pa over the past 30 years. The consumption of the energy is directly proportional to the progress of manpower with ever growing population, improvement in the living standard of the humanity and industrialization of the developing countries. Very recently smart grid technology can attribute important role in energy scenario. Smart grid refers to electric power system that enhances grid reliability and efficiency by automatically responding to system disturbances. This paper discusses the new communication infrastructure and scheme designed to integrate data.

Indian Power

The Indian Engineering sector has witnessed a remarkable growth over the last few years driven by increased investments in infrastructure and industrial production. The engineering sector, being closely associated with the manufacturing and infrastructure sectors, is of strategic importance to India's economy.

India's manufacturing sector has the potential to touch US\$ 1 trillion by 2025. There is potential for the sector to account for 25-30 per cent of the country's GDP. Business conditions in the Indian manufacturing sector continue to remain positive.

The Indian power sector itself has an investment potential of US\$ 250 billion in the next 4-5 years, providing immense opportunities in power generation, distribution, transmission and

equipment, according to Mr Piyush Goyal, Union minister of coal, power and renewable energy

Operating Results of the Company

The financial statements have been prepared in compliance with the requirements of the Companies Act 2013 and Accounting Standards (AS) notified by the companies (Accounting Standards) Rules, 2006. The salient features of the company performance are:-

- Total Sales of Rs.100,91,20,924/-
- Net profit of Rs 1,36,13,804/-
- Earnings per share for the year of Rs 1.08 of Rs. 5/share which was Rs. 0.88 previous year.

With a net worth Rs.17,14,03,355/- as on March 31, 2020, Amba Enterprises Limited counts among the top Indian Power Ancillary manufacturing companies.

Outlook for the Company

In the coming year, the company plans to continue to consolidate its business of Lamination by concentrating on the Lamination required for higher rating transformers and on the customers having pan India presence as well as global presence. The company has already moved from manual process to automation by installing state-of-art slitting machines and cut-to-length line. These machines will further help the company in achieving growth in market share, profitability, and increased customer acceptance and above all, lowest electrical losses. The stamping business of the company is doing well and the board is hopeful that the growth in this business shall be better than the previous year. Internal controls and their adequacy. The internal audit was carried out by an independent firm of Chartered Accountants who conduct the audit on the basis of Annual Audit Plan. The process includes review and evaluation of effectiveness of the existing process, controls and compliance. It also ensures adherence to policies and systems, and mitigation of the operational risk perceived for each area under audit. Significant observations including recommendations for improvement of the business process were reviewed by the management before reporting to the audit committee which reviewed the internal audit reports and status of implementation of the agreed action plan.

Internal Control System

Your company maintains an internal control system in different areas like purchases, billing for the jobs etc. Moreover there are internal auditors who make consistent monitoring to have proper and sufficient care for maintenance of adequate accounting records required for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities.

Risk and Concerns

The Company has to mainly depend on the foreign suppliers for import of Electrical Steel. Any delay in procurement of the same would impact the financials of the Company. However, the company has over the past 2 decades tied up with almost all the major global players and has developed a strong relationship with these suppliers. Further, fluctuations in the prices of Electrical steel would also have an impact on the bottom line of the company.

Disclosure by the Management

Your board has not received any disclosure by the management relating to any material, financial and commercial transactions where any of the managerial staff has personal interest that may have a potential conflict with the interest of the company at large.

Cautionary Statement

Statements in the Management Discussion and Analysis, describing the Company's objective, projections and estimates, are forward looking statements and progressive within the meaning of applicable security laws and regulations. Actual results may vary from those expressed or implied, depending upon economic conditions, Government Policies and other incidental/related factors. This MD&A provides analysis of the operating performance of the company's two business segments, as well as a discussion of cash flows, the impact of risks and outlook for the business, Additional information about the company. This discussion and analysis is the responsibility of management. The Board of Directors carries out its responsibilities for review of this disclosure principally through its Audit Committee, comprised exclusively of independent directors. The Audit Committee has reviewed and approved this disclosure and it has also been approved by the Board of directors.

The management of the company is presenting herein the overview, opportunities and threats, initiatives by the Company and overall strategy of the company and its outlook for the future. This outlook is based on management's own assessment and it may vary due to future economic and other future developments in the country.

Your Directors further state that during the year under review, there were no cases filed pursuant to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

Independent Auditors' Report

To the Members of Amba Enterprises Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Amba Enterprises Limited** (“the Company”), which comprise the Balance Sheet as at March 31, 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information. (herein after referred to as “financial statement”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and its profit (including other comprehensive income) its cash flows and the changes in equity for the year ended on that date.

Basis of Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor’s Responsibility for the Audit of the Financial Statements Section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter

We draw attention to notes in the financial results which explain that COVID-19 has caused significant disruptions in the business operations of companies across India and has caused significant accounting and auditing challenges. One such challenge being inability for the Company to conduct a physical verification of inventories for the year-end 31st March, 2020 due to Government having imposed restrictions during the lockdown on account of health, travel and safety concerns.

The Company's management, however, conducted physical verification of inventories on dates other than the date of financial statements but prior to the date of the board meeting to be held for the purpose of adopting the financial results at certain locations (factories and warehouses) and has made available the documents in confirmation thereof. Inventories, being material to the financial statements/results of the Company, the Standard on Auditing (SA) 501, Audit Evidence - Specific Considerations for Selected items, cast a duty on us to obtain sufficient appropriate audit evidence regarding the existence and condition of inventories.

We have performed alternate audit procedures based on documents and other information made available to us, to audit the existence of inventories as per the Guidance provided by the Standard on Auditing (SA) 501, Audit Evidence - Specific Considerations for Selected items, and have obtained sufficient appropriate audit evidence to issue our unmodified opinion on these financial results.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Description of Key Audit Matter

The key audit matter	How the matter was addressed in our audit
Inventory Valuation:	Our procedures included:
<ul style="list-style-type: none"> • The Company has significant balances of inventory as on 31 March 2020 (refer note 8 to the Ind AS financial statements) • Inventories are valued at lower of cost or net realizable value (NRV). Cost is determined using First-In First-Out cost method • Valuation of inventories can be subjective due to inherent uncertainty due to volatility in prices of raw material and volatility in prices of finished goods due to changes in consumer demands • Determination of whether inventory will be realized for value less than cost requires management to exercise judgement and apply assumption • Because of size, inherent uncertainty in volatility in prices of raw material, assumption and complexities involved in inventory valuation, this is considered key audit matter. 	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> • Obtaining understanding of production process and testing of key controls over recognition and measurement of inventory • Obtaining management’s calculation and relevant supporting for inventory valuation, validated mathematical accuracy of production costs and agreed the same with financial statements • Assessing reasonableness of assumption and judgements applied by management in inventory valuation including evaluating consistencies with management’s prior period estimations • Comparing historical trend of prices of raw material and finished goods to determine appropriateness of valuation of inventory

Evaluation of direct tax and indirect tax litigations (as described in note 37 of the accompanying Ind AS financial statements)

<p>The Company's unsettled tax positions includes matters under dispute which involves significant judgment to determine the possible outcome of these disputes. These provisions are estimated using a significant degree of management judgement in interpreting the various relevant rules, regulations and practices. Provision for tax is also based on the presumption of significant estimates and assumptions on the allowability / disallowability of claims at the assessment level. Hence, it is considered as a Key Audit Matter.</p>	<p>Our audit procedures amongst others included the following:</p> <ul style="list-style-type: none"> • Obtained list of direct tax and indirect tax litigations as at March 31, 2020 from management. • Obtained understanding of the key uncertain tax provisions and also obtained information of completed tax assessments and demands/ refunds received by the Company during the financial year 2019-20; • Involved our experts to assess the management's assessment of the possible outcome of the disputes relating to direct tax and indirect tax litigations. • Our experts also considered legal precedence and other rulings in evaluating management's position on these uncertain direct tax and indirect tax litigations. • Discussed the matters with the management to understand the possible outcome of these disputes. • Critically reviewed the processes and controls in place over tax assessments and demands / refunds through discussions with the management's internal experts / external consultants and Corporate Overview Statutory Reports Financial Statements Annual Report 2019-20 reviewed the communications with those charged with governance pertaining to this issue. • Assessed whether the Company's disclosures in Note 37 to the financial statements - Contingent liabilities and commitments, adequately disclose the relevant facts and circumstances and potential liabilities of the Company. • For those matters where management concluded that no provisions should be recorded, considered the adequacy and completeness of the Company's disclosures.
---	---

Our audit procedures did not reveal material variations.

Information Other than the Financial Statements and Auditor's Report thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditor's report thereon.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's management and Board of Directors are also responsible for overseeing the Company's financial reporting process

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance,

but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143 (11) of the Act, we give in the "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid Financial Statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**". Our Report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) with respect to the other matters to be included in the Auditors Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors is in accordance with the provisions of Section 197 of the Act.

3. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- a) The Company has disclosed the impact of pending litigations as at 31 March 2020 on its financial position in its Financial Statements - Refer Note 37 to the Financial Statements.
- b) The Company did not have any material long-term contracts including derivative contracts for which there were any material foreseeable losses during the year ended 31 March 2020.
- c) The requirement to transfer amounts to the Investor Education and Protection Fund is not presently applicable to the company.

ANNEXURE “B” TO INDEPENDENT AUDITORS’ REPORT – 31ST MARCH 2020

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013

We have audited the internal financial controls with reference to financial statements of Amba Enterprise Limited (“the Company”) as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls over to financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial reporting issued by the Institutes of Chartered Accountant of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as “the Act”).

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (“the Guidance Note”) and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference of Ind AS financial statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to Ind AS financial statements include those policies and procedures that; (1) pertain to the maintenance of records that, in reasonable details accurately and fairly reflect the transaction and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Reporting

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, read together with Note 45 to the financial statements and our observations under paragraph Emphasis of Matter of our main report, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as of 31st March, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

NOTES TO THE FINANCIAL STATEMENTS

1. COMPANY OVERVIEW

Amba Enterprises is a public Limited Company incorporated in India having its registered office at Mumbai Maharashtra, India. The Company is engaged in the manufacturing and selling of Coil, Transformer Lamination Sheet and related products.

The financial statements for the year ended 31st March 2020 are approved for issue in accordance with resolution of the directors on 30th June 2020.

2. Basis of preparation

a) Statement of compliance

These financial statements are prepared in accordance with the Indian Accounting Standards (referred to as “Ind AS”) prescribed under section 133 of the Companies Act, 2013 (“the Act”) read with Companies (Indian Accounting Standards) Rules as amended from time to time and other relevant provisions of the Act.

The financial statements are authorized for issue by the Board of Directors of the Company at their meeting held on 30th June, 2020.

Details of the Company’s significant accounting policies are disclosed in Note 3.

b) Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company’s functional and presentation currency. All values are rounded to nearest rupees except when otherwise stated and the currency of the primary economic environment in which the company operates.

c) Historical cost convention

The financial statements have been prepared under the historical cost convention with the exception of certain assets and liabilities that are required to be carried at fair values by Ind AS.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

d) Use of estimates and critical accounting judgments

The preparation of the company’s financial statements requires management to makes judgments, estimates and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an ongoing basis, revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

Significant judgments and estimates relating to the carrying values of assets and liabilities include useful lives of property, plant and equipment and intangible assets, impairment of property, plant and equipment, intangible assets and investments, provision for employee benefits and other provisions, recoverability of deferred tax assets, commitments and contingencies.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment is included in the following notes:

- Note 3.11 – recognition of deferred tax assets
- Note 3.15 and 41 – measurement of defined benefit obligations: key actuarial assumptions;
- Notes 3.16 and 37 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 3.05 and 3.14– impairment of financial and non financial assets.
- Note 3.01 and 3.02 – management estimate for useful life of plant and machinery, electrical installation and intangible assets.
- Note 30 – Fair Value Measurement of Financial Instruments.

e) Current vs. non Current classification

The Company has ascertained its operating cycle as twelve months for the purpose of Current / Non-Current classification of its Assets and Liabilities

For the purpose of Balance Sheet, an asset is classified as current if:

- expected to be realized in the Company's normal operating cycle;
- the asset is intended for sale or consumption;
- the asset is held primarily for the purpose of trading;
- the asset is expected to be realized/settled within twelve months after the reporting period;
- the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;

All other assets are classified as non-current

Similarly, a liability is classified as current if:

- expected to be settled in the Company's normal operating cycle
- the liability is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period;
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting date.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

f) Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal of the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstance and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1--- Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 --- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 ---- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Company's Management has set policies and procedures for recurring and non-recurring fair value measurement of financial assets, which includes valuation techniques and input to use for each case.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities based on the nature, characteristics and risk of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions (Note 30 and Note 2.d)
- Quantitative disclosures of fair value measurement hierarchy (Note 30)
- Investment properties (Note 3.10)
- Financial instruments (including those carried at amortized cost) (Note 31)

3. Significant accounting policies

3.01 Property, plant and Equipment(PPE)

(i) Recognition and measurement

All other items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises:

- Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipments.

Property, plant and equipment which are not ready to intended use as on the date of Balance sheet are disclosed as Capital work-in-progress.

Any gain or loss on disposal of an item of PPE is recognized in statement of Profit and Loss.

(ii) Subsequent expenditure

- Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.
- Material items such as spare parts, stand-by equipment and service equipment are classified as PPE when they meet the definition of PPE as specified in Ind AS 16- Property plant and Equipment.
- All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

3.02 Depreciation

- i.
 - a. Depreciation is systematic allocation of the depreciable amount of PPE over its useful life and is provided in a straight-line-basis over the useful lives as prescribed in Schedule II to the Act or as per technical assessment.
 - b. Depreciable amount for PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which PPE is expected to be available for use by the company.
 - c. where a significant component (in terms of cost) of an asset has an estimated economic useful life shorter than that of its corresponding assets, the components depreciated over its shorter life.
 - d. The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of property, plant and equipment over estimated useful lives which are different from the useful life prescribed in schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.
- i. Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition and in case of Projects from the date of commencement of commercial production.
- ii. Depreciation on assets sold, discarded or demolished during the year is being provided upto the month in which such assets are sold, discarded or demolished.

3.03 Intangible Assets

Intangibles are recognized when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets acquired separately are measured on initial recognition at cost. After initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

Gains or losses arising from de-recognition of an intangible assets are measured as the differences between the net disposal proceeds and the carrying amount of the assets and are recognized in the statement of profit and loss when the asset is derecognized.

Amortization methods, estimated useful lives and residual value:

Intangible assets are amortized on a straight line basis over their estimated useful lives.

The amortization period, residual value and the amortization method are reviewed at least at each financial year end. If the expected useful life of the

asset is significantly different from previous estimates, the amortization period is adjusted prospectively.

3.04 Revenue Recognition

i. Sale of goods

Revenue is recognized upon transfer of control of promised goods to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods.

Revenue from the sale of goods is recognized at the point in time when control is transferred to the customer which is usually on dispatch / delivery of goods, based on contracts with the customers.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Accruals for discounts/incentives and returns are estimated (using the most likely method) based on accumulated experience and underlying schemes and agreements with customers.

The Company does not expect to have any contracts where the period between the transfer of goods and payment by customer exceed one year. Hence, the company does not adjust revenue for the time value of money.

ii. Interest income

Revenue is recognized on a time proportion basis taking into account the amount outstanding on effective interest rate.

iii. Dividend income

Dividend income is accounted for when Company's right to receive the income is established.

iv. Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

v. Difference between the sale price and carrying value of investment is recognized in statement of profit and loss on sale/ redemption on investment on trade date of transaction.

vi. Other Income

Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

3.05 Impairment of non financial assets

At the end of each reporting period, the Company reviews the carrying amounts of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

The recoverable amount is higher of the asset's/cash-generating unit's net selling price or value in use, i.e. the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss is recognized in the statement of profit and loss if the carrying amount of an asset/cash-generating unit exceeds its estimated recoverable amount. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized or relates to the change in the estimate of the recoverable amount in the previous periods. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

3.06 Expenditure during construction period:

Expenditure/Income during construction period (including financing cost related to Borrowed funds for construction or acquisition of qualifying PPE) is included under capital work-in-progress, and the same is allocated to the respective PPE on the completion of their construction. Advances given towards as acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other non- current Assets".

3.07 Foreign currency transactions

A. Functional and Presentation Currency :

The financial statements of the Company are presented in Indian rupees (INR), which is the functional currency of the Company and the presentation currency for the financial statements.

B. Transactions and Balances :

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at exchange rates prevailing on reporting date are generally recognized in Statement of profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

3.08 Borrowing cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale.

Qualifying assets are an assets that necessarily take a substantial period of time to get ready for their intended use or sale. All other borrowing costs are recognized as an expense in the period in which they are incurred.

3.09 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Ministry of Corporate Affairs (MCA) has vide notification dated March 30, 2019 has mandated applicability of Ind AS 116 (Leases) from April 1, 2019.

Company as a Lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-Use Assets

The Company recognises right-of-use assets ("RoU Assets") at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any

remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in Note no 3.05 Impairment of non-financial assets.

(ii) Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. Lease liabilities has been presented under the head “ Financial Liabilities”.

(iii) Short - term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term

Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the lessee, the contract is classified as a finance lease. All other lease are classified as operating lease. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Under Ind AS 17

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as Operating Leases

Finance Leases:

Lease arrangements in which substantially all risks and rewards of ownership of the under-lying assets are transferred to the Company, are classified as finance lease.

Assets held under finance leases are initially recognized at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability.

Operating leases:

The leases which are not classified as finance lease are operating leases.

Lease arrangements where the risks and rewards of ownership of an asset substantially vest with the lessor are recognized as operating leases. Lease rentals under operating leases are recognized in the Statement of Profit and Loss on a straight-line basis over the lease term unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

3.10 Investment Properties

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

The Company, based on technical assessment made by management, depreciates the building over estimated useful lives of 60 years. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period or loss as incurred.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

3.11 Income Tax

Income tax expense comprises of current and deferred tax. It is recognized in Statement of profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

(i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognized amounts; and
- b) intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously

(ii) Deferred Tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets and Deferred tax liabilities are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax relating to items recognized outside profit or losses are recognized as a part of these items (either in other comprehensive income or in equity).

Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

3.12 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

3.13 Inventories

Inventories are valued at the lower of cost and net realizable value.

Costs incurred in bringing each product to its present location and conditions are accounted for as follows:

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on FIFO Basis.

- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity. Cost is determined on FIFO Basis.
- Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on FIFO Basis.

Waste / Scrap:

Waste / Scrap inventory is valued at NRV.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

3.14 Financial instruments

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

(i) Initial Recognition:

Financial assets and financial liabilities are initially measured at fair value. Transaction

costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in Statement of Profit and Loss.

(ii) Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- The entity's business model for managing the financial assets and
- The contractual cash flow characteristics of the financial asset.

Amortized Cost:

A financial asset shall be classified and measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- In case of financial assets at amortized costs, interest income, foreign exchange gain or loss and impairment are recognized in Statement of Profit and Loss.

Fair Value through OCI:

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment by investment basis.

Fair Value through Profit or Loss:

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through OCI.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

(iii) Classification and Subsequent Measurement: Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVPTL if it is classified as held for trading or it is a derivative or it is designated as such on initial recognition. Financial Liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gain and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognized in profit or loss.

(iv) Impairment of financial assets:

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognized a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk.

(v) Derecognition of financial assets and financial liabilities:

Financial assets

The Company de-recognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial assets.

If the Company enters into transactions whereby it transfers assets recognized on its balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

Financial Liabilities

The Company derecognized a financial liability when the contractual obligations are discharged or cancelled, or expire.

The Company also derecognizes financial liabilities when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognized in profit or loss.

(vi) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

Derivates are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in statement of Profit and Loss immediately. During the year the company has not entered in any derivative contracts.

3.15 Employee Benefits

Short-term employee benefit:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability after deducting any amount already paid.

Long-term employee benefit:

- I) No provision has been considered in accounts towards future payment of gratuity to the employees as the same is proposed to be accounted on cash basis. No provision has been made towards accrued leave wages which is continued to be accounted on cash basis.
- II) The company has adopted PAY-AS-YOU-GO method for payment of other retirement benefits if any payable to the employees.

3.16 Provisions, Contingent Liabilities and Contingent Assets :

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the present value, wherever the Company can estimate the time of settlement, of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The increase in the provisions due to passage of time is recognized as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Where the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognized

3.17 Earnings per share

a) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to equity shareholders of the Company
- by the weighted average number of equity shares outstanding during the financial year

b) Diluted earnings per share

- Diluted earning per share computed using the weighted average number of equity and dilutive equity equivalent share outstanding during the period.

3.18 Dividend distribution to equity shareholder

Annual dividend distribution to the shareholder is recognized as a liability in the period in which the dividends are approved by the shareholders. Dividend payable and corresponding tax on dividend distribution is recognized directly in other equity.

3.19 Derecognition of Financial Liabilities:

The Company de-recognizes financial liabilities when and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability de-recognized and the consideration paid and payable is recognized in the statement of profit and loss.

3.20 Statement of Cash Flows :

Cash flows are reported using the indirect method, whereby profit or loss before tax is adjusted for the effects of transaction of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

Cash and cash equivalents (including bank balances) shown in the Statement of cash flows exclude items which are not available for general use as at the date of balance sheet.

3.21 Segment reporting policies

The main business of the Company is manufacturing and selling of Coil, Transformer Lamination Sheet and related products and all other related activities revolve around the main business and as such there are no separate reportable segments as specified in Accounting Standard (IND AS - 108) on "Operating Segments".

30. Financial instruments- Fair values and Risk management.

The significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 2f to the financial statements.

A. Financial assets and liabilities

The carrying value of financial instruments by categories as of March 31, 2020 is as follows:

Particulars	As at 31 st March, 2020	As at 31 st March, 2019
Financial Assets at amortized cost #		
Trade Receivables	11,68,99,856	19,97,50,414
Other Financial Assets	11,35,338	92,978
Cash and Cash Equivalents	4,21,933	14,14,024
Bank Balance other than Cash & Cash Equivalents	2,04,58,640	52,020,958
Financial Assets at fair value through profit or loss		
Investments	Nil	Nil
Financial Assets at fair value through other comprehensive income		
Investments (Non-Current)	38,99,650	1,000
Total	14,28,15,417	25,32,79,374
Financial Liabilities at amortized cost #		
Term Loan from Banks	44,10,877	46,65,796
Cash Credits/Working Capital Borrowing	1,54,76,335	98,83,571
Trade Payables	1,57,11,931	14,31,25,110
Other Financial Liabilities	16,81,476	13,56,607
Fair Value Hedging Instruments		
Derivative Liability/(Asset)	Nil	Nil
Total	3,86,26,741	15,90,31,084

Financial assets and financial liabilities, fair value is same as amortized cost.

B. Fair Value Hierarchy:

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1__ Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2__ Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as price) or indirectly (i.e. derived from prices).
- Level 3__ Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in same instrument nor are they based on available market data.

Particulars	Fair Value	
	As at 31 st March, 2020	As at 31 st March, 2019
Finance at fair value through other comprehensive income		
Investments –Level 3	38,99,650	1,000

The management assessed that fair value of cash and bank balances, trade receivables, trade payables, cash credits and other financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The investments included in Level 2 of fair value hierarchy have been valued using quotes available for similar assets and liabilities in the active market. The investments included in Level 3 of fair value hierarchy have been valued using the cost approach to arrive at their fair value. The cost of unquoted investments approximate the fair value because there is a range of possible fair value measurements and the cost represents estimate of fair value within that range.

31. Financial Risk Management:

The Company's principal financial liabilities comprises of borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the company's operations. The company's principal financial assets include trade and other receivables, investments and cash and cash equivalents and bank balances other than cash & cash equivalents that are derived directly from its operations.

The Company is exposed primarily to fluctuations in credit, liquidity and market risks, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which covers risks associated with the financial assets and financial liabilities. Company's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the company.

The sources of risks which the company is exposed to and their management are given below:

Risk	Exposure Arising From	Measurement	Management
A. Market risk			
1) Foreign Exchange Risk	Committed commercial transaction Financial Liabilities not denominated in INR	There are no major foreign exchange transaction	Foreign exchange transaction are in the nature of current payments and effected at current exchange rate
2) Interest Rate	Borrowings at variable rates	Sensitivity Analysis, Interest rate movements	Interest rate Diversification
3) Commodity Price Risk	Movement in prices of commodities	Sensitivity Analysis, Commodity price tracking	Active inventory management, Sales Price linked to purchase price
B. Credit Risk	Trade receivables, Investments, Loans	Aging analysis, Credit Rating	Credit limit and credit worthiness monitoring, Criteria based approval process
C. Liquidity Risks	Borrowings and Other Liabilities and Liquid investments	Rolling cash flow forecasts	Adequate unused credit lines and sufficient Bank FDRs
D. COVID-19 Risk	Financial Assets & Liabilities	Impairment testing	Efficient and optimum use of resources and maintaining liquidity position to meet any unforeseen developments

A. Market Risk Management:

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the market price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings.

The Company has designed risk management frame work to control various risk effectively to achieve the business objectives. This includes identification of risk, its assessments, control and monitoring at timely intervals.

1. Foreign Currency Risk:

Foreign Currency Risk is the risk that the fair value of future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities which is very minimal. The details of foreign currency exposures not hedged by Derivative Instruments are as under :

Outstanding foreign currency exposure as at	As at 31st March, 2020	As at 31st March, 2019
Trade Payables		
₹USD	40,800	40,800

Foreign Currency Sensitivity on unhedged exposure

Since the exposure is not significant, 1% increase in foreign exchange rates will have negligible impact on profit before tax.

2. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in Market Interest Rates. The Company's exposure to the risk of changes in Market Interest Rates relates primarily to the Company's short term debt obligations with floating interest rates.

The table below illustrates the impact of a 50 basis points increase in interest rates on interest on financial liabilities assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year

INR Interest Rate Exposure:

Particulars	Total borrowings	Floating rate borrowings
Total as at 31 st March 2020	2,01,27,131	4,02,895
Total as at 31 st March 2019	1,47,54,900	98,83,571

Interest rate sensitivities for unhedged exposure (impact on increase in 50 bps):

Particulars	As at 31st March 2020	As at 31st March 2018
INR	2,014	49,417

Note: If the rate is decreased by 50 bps profit will increase by an equal amount. Interest rate sensitivity has been calculated assuming the borrowings outstanding at the reporting date have been outstanding for the entire reporting period.

3. Commodity price risk

The Company is affected by the price volatility of certain commodities. Its operating activities require the on-going purchase or continuous supply of raw materials. Therefore, the Company monitors its purchases closely to optimize the price.

B. Credit Risk Management:

Credit risk is the risk that counter party will not meet its obligations under a financial instrument or customer contract, leading to financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of credit worthiness as well as concentration of risks.

Financial instruments that are subject to concentrations of Credit Risk principally consist of investments classified as loans and receivables, trade receivables, loans and advances, cash and cash equivalents, bank deposits and other financial assets. None of the other financial instruments of the Company result in material concentration of Credit Risk.

As per simplified approach, the Company makes provision of expected credit losses on trade receivables using a provision matrix to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

Trade Receivables

Customer Credit Risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company has a detailed review mechanism of overdue trade receivables at various levels in the organisation to ensure proper attention and focus on realisation.

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:

Particulars	As at 31st March, 2020	As at 31st March, 2019
No Past due	6,67,97,017/-	13,22,92,286/-
Past due 1-360 days	4,30,94,485/-	6,21,42,070/-
Past due 361-720 days	61,68,904/-	36,92,437/-
Past due more than 720 days	8,39,450/-	16,23,621/-

Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Management believes that the unimpaired amounts that are past due are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk.

Financial assets that are neither past due nor impaired:

Cash and cash equivalents, financial assets carried at fair value are neither past due nor impaired. Cash and cash equivalents with banks has high credit rating assigned by international and domestic credit-rating agencies. Financial assets carried at fair value are investments in equity shares. With respect to Trade Receivables and other financial assets that are past due but not impaired, there are no indications as of 31st March, 2020. Trade Receivables and other financial assets that are neither past due nor impaired relate to new and existing customers and counter parties with no significant defaults in past.

Financial Instruments and Cash Deposits

The Company held cash and cash equivalents and bank deposits with banks and financial institutions. The credit worthiness of such banks and financial institutions is evaluated by the management on an on-going basis and is considered to be good. The cash surpluses of the Company are short term in nature and are invested in Fixed Deposit with Nationalized / Scheduled Commercial banks. Hence, the assessed Credit Risk is low.

C. Liquidity Risk Management:

The Company monitors its risk of shortage of funds using cash flow forecasting models. These models consider the maturity of its financial investments, committed funding and projected cash flows from operations. The Company's objective is to provide financial resources to meet its business objectives in a timely, cost effective and reliable manner and to manage its capital structure. A balance between continuity of funding and flexibility is maintained through continued support from lenders and trade creditors.

During the year, the Company has made repayment of principal and interest on borrowings on or before due dates. The Company did not have any defaults of principal and interest as on the reporting date.

The table below summarizes the maturity profile of the Company's financial liability based on contractual undiscounted payment and financial assets based on contractual undiscounted receipts

Particulars	Less than 1 Year	1-5 Year	More than 5 Year	Total
As at 31st March 2020				
Borrowings	1,57,16,254	44,10,877	-	2,01,27,131
Trade Payables	1,57,11,931	-	-	1,57,11,931
As at 31st March 2019				
Borrowings	1,00,89,104	46,65,796	-	1,47,54,900
Trade Payables	14,31,25,110	-	-	14,23,51,020

D. COVID-19 Risk

The spread of COVID-19 has affected the business from mid-March 2020, which culminated into suspension of plant operations, post imposition of national lock down. The Company had taken various measures in consonance with Central and State Government advisories to contain the pandemic, which included closing of manufacturing facilities, warehouses and adopting work from home policy for employees across locations. Pursuant to the relaxed lockdown guidelines by Central and State Governments, the Company has resumed its manufacturing operations as allowed in strict compliance with Government advisories.

Given the uncertainty of quick turnaround to normalcy post lifting of the lock down, the Company has carried out a comprehensive assessment of possible impact on its business operations, financial assets, contractual obligations and its overall liquidity position, based on the internal and external sources of information and application of reasonable estimates. The Company does not foresee any significant incremental risk to the recoverability of its assets or in meeting its financial obligations over the foreseeable future. Since the situation is continuously evolving, the impact assessed may be different from the

estimates made as at the date of approval of these financial Statements. Management will continue to monitor any material changes arising due to the impact of this pandemic on financial and operational performance of the Company and take necessary measures to address the situation

34. CAPITAL MANAGEMENT

a) Risk management

The aim of capital structure management is to maintain the financial flexibility needed to further develop the Company's business portfolio and take advantage of strategic opportunities. The objectives of the Company's financing policy are to secure solvency, limit financial risks and optimize the cost of capital.

The Company's capital structure is managed using equity and debt ratios as a part of Company's financial planning.

Generally a mix of commercial paper program and bank loans is used for short term financing while group loans are used for financing funding requirements. The goal is to optimize the Company's capital cost financing conditions.

For the purposes of the Company's capital management, capital includes issued capital, share premium and all other equity reserves attributable to the equity holders

The Company monitors capital on the basis of the following ratios:
