### **Year Ended March 31, 2023**

Financial highlights for the year ended March 31, 2023, on a consolidated basis, are summarized below:

- Revenue from operations for FY23 grew 31.6% to Rs 7977.32 cr as compared to Rs 6064.08 cr in FY22.
- EBIDTA (excluding other income) for FY23 improved to Rs 492.78 cr (EBITDA margin 6.2% of revenue) as compared to Rs 346.47 cr (EBITDA margin 5.7% of revenue) in FY22 due to the impact of scale.
- As already reported, till Q2FY23, the Company had been following the Written Down Value method of accounting depreciation and it switched over to the straight-line method of depreciation effective Q3FY23. This led to a lower depreciation charge for the year by Rs 18.11 cr (Net of tax Rs. 13.55 cr).
- PBT before exceptional items grew 53.3% to Rs 384.57 cr in FY23 as compared to Rs 250.90 cr in FY22.
- Tax expense for FY23 was Rs 154.69 cr as compared to Rs 82.90 cr in FY22. It is pertinent to note that tax expense for FY23 also includes the Capital Gain tax of Rs 31.57 cr incurred on the profit from sale of Thane Property.
- Net profit for FY23 grew to Rs 261.45 cr (excluding the profit on sale of Thane land parcel) as compared to Rs 168.00 cr in FY22.

- In view of the record revenue and profits earned by the company, a dividend of Rs 12 per share is recommended by the Board of Directors of the Company.
- The Board has recommended an issue of Bonus shares in the ratio of 1:1, that is, one bonus equity share of Rs. 2/- each for every fully paid-up equity share of Rs. 2/- each, subject to the approval of shareholders.
- Carried-forward order book as of March 31, 2023, grew by 55.0% to a record Rs 5042.27 cr, as compared to Rs 3253.30 cr as of March 31, 2022.
- Capital Employed as of March 31, 2023, increased to Rs 1538.27 cr as compared to Rs 1087.68 cr as of March 31, 2022, primarily owing to the capital investments for manufacturing capacity expansion projects, at its existing plants as well as the new plant at Sri City set up by the wholly owned subsidiary Blue Star Climatech Limited. Higher inventory holding to prepare for the upcoming season also contributed to this increase.
- In spite of the increase in Capital employed due to major investments in manufacturing capacities and additional working capital to fund the revenue growth, good operating cash flows ensured that the net borrowing as of March 31, 2023, stood at a reasonable Rs 204.43 cr (debt equity ratio of 0.15 on a net basis) as compared to a net borrowing of Rs 67.14 cr (debt equity ratio of 0.07 on a net basis) as of March 31, 2022.
- As reported earlier, in an extraordinary gesture, Mr. Ashok M Advani, Chairman Emeritus & Promoter of the company announced a personal grant of Rs 100 crores towards the research and development activities of the company. The grant would be staggered over an estimated 5-year period and was given with a view to significantly accelerate, broaden, and sustain investments in the technology and product development of our air conditioning and refrigeration products to meet the rapidly changing needs of the Indian and international markets.

## **1. Electro-Mechanical Projects business**

The government's thrust on infrastructure development and enhanced private capex led to a strong uptick in enquiries and order finalizations. We continued to witness healthy order inflows across segments including buildings, metro railways, factories, and data centers.

With significant orders secured for railway electrification, we have been successfully expanding our presence in the railway segment, thereby further consolidating our position in the Projects Business Space.

Major orders were received during the quarter from a prominent data center player from Pune and West Central Railway (Kota Division)

Carried-forward order book of the Electro-Mechanical Projects business was at Rs 3892.86 cr as on March 31, 2023, as compared to Rs 2294.58 cr as on March 31, 2022, a growth of 69.7%.

## **2. Commercial Air Conditioning Systems**

The government, industrial and healthcare sectors continued to offer significant opportunities. We also witnessed increased traction from the hospitality sector. This coupled with our expanded product portfolio and channel expansion enabled growth in revenue during the quarter.

Additionally, demand from tier 3, 4 and 5 cities continued to be encouraging with significant and high value orders from these towns.

We continued to maintain our number 1 position in Conventional and Inverter Ducted Air Conditioning Systems as well as Scroll Chillers and second position in VRFs and Screw Chillers.

Some of the major orders received during the quarter were from L&T (Kolkata), Microsoft (Hyderabad), etc. to name a few.

### **3. International Business**

Despite the global slowdown, business and economic activities in the Middle East markets continued to remain upbeat. We witnessed growth across all segments and territories with increasing demand for our new range of air conditioning and refrigeration products.

The projects business at Qatar de-grew on account of restrictions imposed in the run up to the FIFA World Cup. However, we are witnessing an increase in inflow of enquiries and it is expected to return to a growth path next year. The operations of the joint venture at Malaysia continued to be impacted owing to a slowdown in construction and order finalizations amidst weak macroeconomic conditions in the country.

In order to expand our international presence, we have incorporated wholly owned subsidiaries in North America and Europe.

We continue to invest in R&D, product portfolio expansion and brand building in the different markets in which we are present.

### **Segment II: Unitary Products**

Segment II revenue grew 22.3% to Rs 1267.72 cr in Q4FY23 as compared to Rs 1036.67 cr in Q4FY22. Segment results improved to Rs 106.95 cr (8.4% of revenue) in Q4FY23 as compared to Rs 72.05 cr (7.0% of revenue) in Q4FY22. The rejigged product portfolio, Total Cost Management initiatives and benefit of scale resulted in improvement in margins for the quarter.

Revenue for the year grew by 38.8% to Rs 3626.93 cr in FY23 as compared to Rs 2612.24 cr in FY22. Consequently, segment results improved to Rs 282.31 cr (7.8% of revenue) in FY23 as compared to Rs 155.86 cr (6.0% of revenue) in FY22.

#### **1. Cooling and Purification Products business**

With the early onset of summers across some parts of the country, we witnessed a surge in demand for our room air conditioners and registered a growth of 20% as compared to the same quarter last year.

We estimate that we grew faster than the market and ended the year with a market share of 13.5%.

We further consolidated our position in the room air conditioner market segment with the launch of our new range of affordable Room ACs. With these new models, we now have an extensive product range catering to all segments at multiple price points.

## **2. Commercial Refrigeration business**

The commercial refrigeration business continued to witness traction across all segments with an uptick in demand from the food and healthcare sectors. With a substantial pickup in travel and out-of-home consumption, we witnessed strong demand from hotels, restaurants and QSRs.

We also witnessed a growth in demand for our kitchen refrigeration equipment, driven by the revival of the hospitality sector and continued growth in demand for our supermarket refrigeration products from the retail segment.

We continued to maintain our leadership position in Deep Freezers, Storage Water Coolers and Modular Cold Rooms.

Some of the major orders received during the quarter were from Bihar State Milk Co-operative Federation, Kwaliti Walls, Reliance Retail and DMart to name a few.

## **Segment III: Professional Electronics and Industrial Systems**

Segment III revenue grew 33.4% to Rs 103.49 cr in Q4FY23 as compared to Rs 77.60 cr in Q4FY22. Segment result was Rs 19.83 cr (19.2% of revenue) in Q4FY23 as compared to Rs 14.34 cr (18.5% of revenue) in Q4FY22.

Segment result was Rs 50.50 cr (15.1% of revenue) in FY23 as compared to Rs 42.49 cr (17.2% of revenue) in FY22, partially impacted by planned investments in business development, marketing, and other initiatives for future growth.

With the revival of private capex cycle, revenue grew across all lines of businesses. Apart from MedTech products and solutions, demand for the non-destructive testing solutions also gained momentum during the quarter.

Major orders were bagged from JSW Steel Limited, Tirumala Hospitals, Maruti Suzuki, Bharat Heavy Electricals Limited, HDFC Bank to name a few.

## **III. BUSINESS OUTLOOK**

Robust demand across businesses enabled us to end the year on a high note with a healthy revenue and margin profile. In addition to bridging our product portfolio gaps and higher levels of localization, we will continue to invest in expanding our distribution footprint, enhancing R&D capabilities and brand building.

With the weather forecast indicating a strong summer combined with strong carry forward order book for our B2B businesses, we are optimistic about the prospects for Q1FY24 and FY24.
