Dear Sir/Madam,

**Subject: Subsidiary Updates- Announcement for further installation of Solar Roof top plant – Move towards Green Initiative**  
**Ref: Announcement under Regulation 30 (3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015**

We are pleased to announce that Starbigbloc Building Material Limited, a material subsidiary of the Company dedicated to the Green Initiative and committed to fostering a sustainable environment while reducing carbon footprint, will install an 800 KW solar rooftop power project. Additionally, a 1350 KW solar rooftop system will be installed at our newly established facility under the joint venture viz. Siam Cement Bigbloc Construction Technologies Private Limited.

This initiative is part of our commitment to the Green Initiative, aimed at fostering a sustainable environment and reducing carbon footprint. Previously, we successfully installed a rooftop solar power project of 700 KW at our Umargaon Plant and 625 KW at our Wada Plant. With the new order for an additional 2150 KW our total solar capacity will now reach approximately 3475 KW across the Company and its subsidiaries.

This initiative not only promotes clean energy but also results in significant operational cost savings while enhancing our green energy footprint. We look forward to making significant strides in reducing our environmental impact through these installations.

Details required given below as Annexure 1

Please take note of this development for your records.

Thanking You  
Yours Faithfully,

**For BIGBLOC CONSTRUCTION LIMITED**
