A copy of the draft Letter of Appointment for Independent Directors is available for inspection at the Corporate Office of the Company during business hours on any working day. The Board considers that association of the Independent Directors would be of immense benefit to the Company considering their expertise and experience and it is desirable to avail services of these Independent Director.

None of the Independent Director hold by himself / herself or for any other person on a beneficial basis, any shares in the Company. None of the Directors who are proposed to be reappointed is related to any Director or Key Managerial Personnel of the Company or their relatives. Except for the appointee Director for the purpose of his/ her own resolution, none of the Directors or Key Managerial Personnel of the Company or their relatives is concerned or interested, financially or otherwise, in the resolutions set out at Item Nos. 4 to 5 of the Notice.

Brief profiles of Sri Beni Gopal Daga and Sri Dipak Dey including nature of his expertise, are annexed to this notice.

This Explanatory Statement together with the accompanying Notice of the AGM may also be regarded as a disclosure under Regulation 36(3) of the Listing Regulations and Secretarial Standard on General Meetings (SS-2) of ICSI. For detailed information please refer to the Corporate Governance Report and Profile of Directors forming part of this Report.

The Board recommends the Special Resolution set out at Item No. 4 & 5 for the approval of Members.

Item No.6 & 7

The Board of Directors, on the recommendation of Nomination and Remuneration Committee, appointed Sri Jagpal Singh (DIN : 06964314) as an Additional Director of the Company, with effect from 28th May 2019 under Sections 149, 150 and 152 of the Companies Act, 2013. Sri Jagpal Singh shall hold office upto the date of forthcoming Annual General Meeting and is eligible to be appointed as an Independent Director.

The Company has received notice under Section 160 of the Companies Act, 2013 from Sri Jagpal Singh signifying his candidature as an Independent Director of the Company. The Company has also received a declaration of independence from him. In the opinion of the Board, Sri Jagpal Singh fulfils the conditions as set out in Section 149(6) and Schedule IV of the Companies Act, 2013 and Listing Regulations, of being eligible for appointment as Independent Director. Sri Jagpal Singh is not disqualified from being appointed as a Director in terms of Section 164 of the Companies Act, 2013 and has given his consent to act as a Director. A copy of the draft Letter of Appointment for Independent Director is available for inspection at the Corporate Office of the Company during business hours on any working day.

A brief profile of Sri Jagpal Singh, including nature of his expertise, is annexed to this notice.

The Board considers that his association would be of immense benefit to the Company and it is desirable to avail services of Sri Jagpal Singh as an Independent Director. Accordingly, the Board recommends the resolution in relation to appointment of Sri Jagpal Singh as an Independent Director for period upto 5 (five) consecutive years with effect from 28th May 2019 for the approval by the members of the Company.

Further as per the Regulation 17(1A) of the Listing Regulations, appointment or continuation of a Non-Executive Director after attaining age of 75 years also requires approval of Members of the Company by way of Special Resolution. Sri Jagpal Singh shall attain age of 75 (seventy five) years during the proposed term and in view of the same, Board of Directors, recommends passing of Special Resolutions under Item No. 7 for his continuation as Director.

Except Sri Jagpal Singh, being an appointee, none of the Directors or Key Managerial Personnel of the Company or their relatives is concerned or interested, financially or otherwise, in the resolution set out at Item No. 6 & 7 of the Notice.

The Board recommends the Special Resolution set out at Item No. 6 & 7 for the approval of members.

MANAGEMENT DISCUSSION AND ANALYSIS

INDIAN ECONOMY

During the fy 2018-19, the Indian economy grew at a rate of 7% against a projected rate 7.2%. Despite the subdued growth, the United Nations expects the Indian population of 1.3 billion to keep growing and surpass China by 2024, which in turn would provide the much needed thrust towards the GDP of our nation. India moved of 23 places in the World Bank's "Ease of doing business index 2018" to 77th position. This was mainly on account of reforms in the area of starting a business, getting electricity, construction permits, getting credit, paying taxes and trading across borders.

Despite being a mixed year on various fronts, the return of a stable government and hopes of a normal monsoon, the India growth story still remains intact going ahead.

INDUSTRY STRUCTURE AND DEVELOPMENT

The government has reiterated its steadfast commitment to modernizing the functionalities of Indian logistics with a key focus on infrastructure development. With a view to improving supply chain efficiencies and enhancing connectivity to help logistics players tap the underleveraged markets in the country's hinterlands, key infrastructure development projects have been rolled out. This points towards a better infrastructure in the future which will provide better connectivity and hence better growth. The logistics industry of India is currently estimated to be around US\$ 160 Billion. According to rating agency ICRA, The sector is forecasted to witness a growth of 8-10% over the medium term. Along with the infra boost, some of the key drivers in order to achieve this going ahead would be :

Friendly Policies & Regulatory Approvals

Key reform measures and policy interventions like the unveiling of the Goods and Services Tax, (GST), relaxed FDI regulations and granting of infra status has boosted the core competencies of the Indian logistics industry. GST was a game-changer for Indian logistics. It laid the foundation for the setting up of large format multi-modal logistics parks along key consumption and industrial centres which can function as freight aggregation and distribution hubs.

Technology Assistance

The emergence of new-age empowering technologies like artificial intelligence, internet of things, and machine learning will disrupt the conventional workings of the country's logistics sector. The impact of these technologies is anticipated to enhance productivity across the supply chain spectrum and streamline operational processes. These technologies will largely play an enabling role in boosting efficiencies of supply networks, reduce wastages and lead to supply chain optimization.

haratmala Pariyojana

the government through its plan of "**Bharatmala Pariyojana**" outlays a total investment of ₹5.35 lakh Cr to lay 83677 km of roads and highways all over the country. The plan includes National Corridors, Economic Corridors and is expected to be completed by 2022. The ambitious project holds the promise of strengthening the countrywide road network and improving connectivity with the interior and backward areas of the country. In addition to this, the high-speed, freight-only Dedicated Freight Corridor Project aims at decongesting a heavily saturated road network and reducing freight transit times from industrial heartlands in north India to ports on the eastern and western coast of the country.

BUSINESS STRATEGY & OPPORTUNITIES

Since independence, the Indian logistics industry has not received the much needed attention and credit it deserved. Despite being one of the sunrise sectors for decades with abundance potential, the sector still lacks optimal utilization of resources. However in the recent past, much needed awareness has fallen on this sector. We can see a lot of startups entering the sector offering services like never before. With the advancements in technologies we can surely say that there's a lot more to come. Logistics plays a vital role in strengthening the economy. It is the lifeline for every other commercial sector. Going ahead, as India steps towards a new era of

growth, a few opportunities worth tapping are as follows:

3P Logistics

This area of service has been lying untapped for a very long time. However with the advancement in e-commerce and vendors racing up to provide the fastest door to door services, the scope for 3PL has widen like never before. 3P Logistics is rising as a key driver of development for e-trade players as they try to create centre abilities as retailers while outsourcing their logistical necessities.

Monsoon

India is mainly an agricultural country with over 70% of its people directly related to farming. Monsoon is essential for quite a few crops in India. The production of oil seeds and grains gets a boost when rainfall is normal. Kharif crop which is sown in March depends on Monsoon rains. States of Gujarat and Rajasthan sow peanuts just before the rains arrive. This is also the season for paddy plantation in Uttar Pradesh. Paddy is dependent on rainfall for good harvesting. Monsoon influences many other crops across the country. Soya bean, Sugarcane, cotton, rice and millet are some of the crops that flourish when rainfall is good. In case of normal rains we can surely expect a hike in agricultural production and also an increase in their transportation, exports etc. Players in this sector can contemplate the future and keep a keen eye on this of services.

The next global manufacturing hub

A couple of decades ago, India was considered to be a third world country with limited economic potential. The idea of outsourcing saw countries like India and China gain substantial recognition in the field of Information Technology services. After having achieved dominance in the services related sector, India is now looking forward towards becoming a global manufacturing hub. The "Make in India" initiative, special concessions towards multi-national companies for setting up manufacturing bases, cheap labour along with a thriving population would ensure the rise of many manufacturing hubs requiring services in the field of logistics.

OUTLOOK

Your Company continues with its plans to

- Consolidate its activities relating to logistics and to create a strong base of operations.
- Devise strategies to bring operational efficiency, cost effective services and to face economic slowdown and competition.
- Fine tune the operating structure, and improve the customer focus and increase the Company's competitive advantage. The new structure usher an era of efficiency and growth.

Your company will continue to focus on its key businesses by exploiting its core competence. In order to be a leading edge Company, a well-crafted strategy has been adopted entailing capitalizing on the strong brand equity, optimising costs and improving operational efficiencies at all the levels. These endeavors should facilitate superior margins, despite the forecast of a challenging business environment in the immediate future.

he company expects a growth of around 5-10% with better economic conditions and with the positive impact with implementation of GST. It aims to sustain the growth momentum of its road business and focus on the dedicated container service model. It also aims to get growth from existing clients who are ramping up capacity as well as tap new customers and new segments.

Your Company is also in process of developing required infrastructure viz. warehouses, transshipment hubs, logistic parks etc required for multimodal transportation, composite supply chain solutions including end to end logistic services and has also initiated process of alliance with strategic partners by making joint venture agreements. However changes due to implementation of new GST regime has affected the selection of locations and there has been delay in implementation of the same resulting into termination of one such proposed arrangement.

RISKS AND CONCERNS

In today's highly unpredictable business environment, it is vital to take a holistic view of risk and compliance. Like any other Company having national business interests, your company is also exposed to business risks, which may be internal as well as external. To ensure our long-term corporate success, it is essential that risks are identified, analyzed and then mitigated by means of appropriate control measures. A strong and independent Internal Audit function at the corporate level carries out risk focused audits enabling identification of areas where risk management processes may need to be improved.

Here are some of the key risks faced by the Company and actions deployed for mitigation.

Industry Risks

- Economic Slowdown may affect Company's performance.
- Over dependence on one line of business can threaten viability in the event of a sectoral downturn.
- Efficiency in Internal Systems and Procedures.

Your company offers logistic and road transportation services to a diverse range of industries. It keeps a close watch on the economic environment and timely actions are accordingly taken. These measures help us mitigate the cyclical risks. Also, our internal systems and processes are constantly reviewed and revamped as per industry best practices.

Underutilization of Assets and Infrastructure

- The underutilization of assets and resources, resulting in an adverse impact on profitability in competitive or recessionary market and poor economic conditions.

The systems are being streamlined and integrated across all the branches for effective matching of availability of any underutilized asset/ resources, primarily vehicles at one branch with corresponding requirements for the same by another branch.

Legal Risks

- Threat of damage and loss of cargo due to accidents and hijacking of trucks.
- Risk of pilferage leading to shortages in delivery of cargo.

All the vehicles of the company are comprehensively insured for damages arising out of accidents. The entire fleet of Company's owned vehicles is fitted with modern technology tracking tools like GPS in vehicles to ensure safety of vehicle and cargo. Locks and seals secure trucks before dispatch that can only be broken at the point of unloading. Verification of truck drivers is a necessary compliance and trucks are engaged from reliable market sources.

HR Risks

- Failure to attract & retain talent may adversely affect the Company's performance.
- Failure to implement an effective succession planning for key positions.
- Failure to continuously update employee's skills sets in line with current and future requirements.

Attrition trends are analyzed on annual basis and course correction is taken accordingly. The retention ratio of your company's employee is very high due to continued focus of the management in continued engagements and confidence building measures.

Quality Risks

- Poor service may increase competition risk.

Your Company continuously upgrades its services through technology upgradation, business process re-engineering and by imparting training to its employees at all levels on regular basis.

Liquidity Risks

- A delay in receivables could stretch the Company's working capital resources.

In your Company, the continuous endeavor is to shift towards shorter transaction cycles. The Company has an in built process of credit approval and monitoring with a pre-defined responsibility and accountability at various levels.

Competition Risks

- Unhealthy price cuts and discounts by niche players at state and zonal levels for short haul movements who enjoy cost advantage due to lack of regulatory compliances.
- Increasing trends of e-auctions and entry of start-ups and large MNC Logistic companies with huge resources and latest technologies into the business may reduce the business share of the company.

Your Company continues to follow suitable strategies to positively modify its risk profile by eliminating and

significantly reducing key business risks and developing and implementing strategies to achieve that maximum possible degree of insulation from broad macroeconomics risks. Timely technology upgradation and proper training of manpower is done to further minimize such risks.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company has an internal control system commensurate with its size and nature of business and to meet the following objectives:

- Efficient utilisation and protection of resources.
- Compliance of statutory and internal policies and procedures.
- Completeness, accuracy, promptness of the reports generated for all the transactions in the Company.

FINANCIAL RESULTS AND COMPANY'S OPERATIONS

The company effective April 2018 got registered under Goods & Services Act (GST) and opted to operate under Forward Charge Mechanism. During the year under review, your company witnessed a fall of 4.5% in its turnover which is recorded at ₹ 5214 Lacs as against ₹ 5462 Lacs in the previous financial year. This was mainly attributed towards freight rate adjustment by customers while the physical volumes remained constant to mildly dull. The intensity and competition from earlier established Start-ups continues to be an area of concern leading to price war in order for wider market penetration.

At the earnings level, the company reported a loss of ₹ 168 lacs as against a profit of ₹31 lacs. This was entirely in the H2 of the year under review. Due to non-operation of key bridge(s) used to service an important lane accounting for significant revenue, various diversion were taken which coupled with severe congestion arising out of high traffic on unconventional routes led to an unprecedented increase in cost. Going ahead with motoring services back to usual on this lane, normalcy in operations has been observed.

Borrowing from institutional lenders for fleet acquisition were serviced with commitment. The Net worth of your company has been recorded at ₹ 1121 lacs as against ₹ 1234 lacs in the previous fiscal. No material changes and commitments have occurred after the close of the financial year till the date of this Report, which affect the financial position of the Company.

HUMAN RESOURCE MANAGEMENT

Your Company believes that constant training and development, and continuous learning, is necessary for ensuring retention of the best talent besides providing the Company a sustainable platform for growth in the business environment. Training programmes have been devised to develop cross-functional skills. The objective is to provide your Company's people with an opportunity to address areas, not only relevant to their job profile, but also for their all round development. The Company employs 56 persons.

OVERVIEW

Large numbers of players, international as well as local, are setting up their shops in Logistics and hope to get a share of this emerging new economy business.

Your company has an edge over other players, by virtue of having strong information technology back-up and better understanding of Indian roads, local laws, customer needs etc. Your Company, being a pioneer and trendsetter in road transport and logistic industry, will always play a vital role in this industry.

Independent Auditors' Report

TO THE MEMBERS OF COASTAL ROADWAYS LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of **Coastal Roadways Limited** ("the Company"), which comprise the Balance Sheet as at **31st March 2019**, and the Statement of Profit and Loss (including Other Comprehensive Income) and Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the 'Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') prescribed under Section 133 of the Act, of the state of affairs (financial position) of the Company as at 31st March 2019, and its profit (financial performance including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters.

SI No	Key Audit Matters	How our audit addressed the Key Audit Matters

Information Other than the Standalone Financial Statements and Our Report thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

That Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of the misstatement in the standalone financial statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statement may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effects of any identified misstatements in the standalone financial statement.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE TO THE MEMBERS OF COASTAL ROADWAYS LIMITED, ON THE STANDLONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2019

Annexure - B

Independent Auditor's Report on the Internal Financial Controls under Clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 (the "Act")

In conjunction with our audit of the standalone financial statements of **Coastal Roadways Limited** (the "Company") as at and for the year ended 31 March 2019, we have audited the internal financial controls over financial reporting of the Company as of that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31.03.2019

1. CORPORATE AND GENERAL INFORMATION

Coastal Roadways Limited (“CRL” or “the Company”) was incorporated as a Public Limited Company in India under the Companies Act 1956. The Company’s principal business is road transportation of goods. CRL is listed with BSE.

2. BASIS OF PREPARATION AND PRESENTATION OF FINANCIAL STATEMENT

2.1. Statement of Compliance

These financial statements have been prepared in accordance with the Indian Accounting Standards (“Ind AS”) as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (“the Act”), read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), other relevant provisions of the Act and other accounting principles generally accepted in India.

2.2. Basis of Measurement

The Company maintains accounts on accrual basis following the historical cost convention, except for Certain Financial Assets and Liabilities which are measured at Fair value/ Amortised cost (refer accounting policy regarding financial instruments and for Defined Benefit Plans – plan assets are measured at fair value.

2.3. Functional and Presentation Currency

The Financial Statements are presented in Indian Rupee (INR), which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates. All financial information presented in INR has been rounded off to the nearest lakhs as per the requirements of Schedule III, unless otherwise stated.

2.4. Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires judgements, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized.

2.5 Presentation of Financial Statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 (“the Act”). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 “Statement of Cash flows”. The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended).

2.6 Operating Cycle for current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company’s normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1. The Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

2.7 Measurement of Fair Values

A number of the Company’s accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy.

External valuers are involved for valuation of significant assets & liabilities. Involvement of external valuers is decided by the management of the company considering the requirements of Ind AS and selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

3. ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all the periods presented in the financial statements.

3.1. CASH AND CASH EQUIVALENTS

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents includes cash on hand, term deposits and other short-term highly liquid investments, net of book overdrafts, if any, as they are considered an integral part of the Company's cash management.

3.2. INCOME TAX

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Current and deferred tax is recognised in the statement of profit & loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Current Tax:

Current tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the taxation authorities using the tax rates (and tax laws) that have been enacted or substantively enacted, at the end of the reporting period.

Deferred Tax

Deferred Tax assets and liabilities is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes (i.e., tax base). Deferred tax is also recognized for carry forward of unused tax losses and unused tax credits.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period. The Company reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or that entire deferred tax asset to be utilized. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Deferred tax relating to items recognized outside the Statement of Profit and Loss is recognized either in other comprehensive income or in equity. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

3.3. PROPERTY, PLANT AND EQUIPMENT

TANGIBLE ASSETS

Recognition and Measurement:

Property, plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost, less any accumulated depreciation and accumulated impairment losses (if any).

Cost of an item of property, plant and equipment acquired comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting any trade discounts and rebates, any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located.

In case of self-constructed assets, cost includes the costs of all materials used in construction, direct labour, allocation of directly attributable overheads, directly attributable borrowing costs incurred in bringing the item to working condition for its intended use, and estimated cost of dismantling and removing the item and restoring the site on which it is located. The costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling items produced while bringing the asset to that location and condition are also added to the cost of self-constructed assets.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Profit or loss arising on the disposal of property, plant and equipment are recognized in the Statement of Profit and Loss.

Subsequent Measurement:

Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

Major Inspection/ Repairs/ Overhauling expenses are recognized in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria are satisfied. Any Unamortized part of the previously recognized expenses of similar nature is derecognized.

Depreciation and Amortization:

Depreciation on Property, Plant & Equipment is provided under Straight Line Method at rates determined based on the useful life of the respective assets and the residual values in accordance with Schedule II of the Companies Act, 2013 or as reassessed by the Company based on the technical evaluation.

In case of asset Vehicles, depreciation has been provided on Straight Line Method method at the rates determined considering the useful lives of 10 to 12 years which is based on technical assessment carried out by the OEMs and the management believes that the useful lives as considered above best represent the period over which the respective assets shall be expected in use.

Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Disposal of Assets

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between net disposal proceeds and the carrying amount of the asset and is recognized in the statement of profit and loss.

Capital Work in Progress

Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest on amount borrowed for acquisition of qualifying assets and other expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

Intangible Assets

Computer Softwares and licenses are recognised as Intangible Assets and stated at cost which is amortised over useful life of the same.

3.4. LEASES

Determining whether an arrangement contains a lease

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as lessor

Finance Lease

Leases which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item are classified and accounted for as finance lease. Lease rental receipts are apportioned between the finance income and capital repayment based on the implicit rate of return. Contingent rents are recognized as revenue in the period in which they are earned.

Operating Lease

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease except where scheduled increase in rent compensates the Company with expected inflationary costs.

Company as lessee

Finance Lease

Finance Leases, which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease Payments under such leases are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly to the statement of profit and loss. Lease management fees, legal charges and other initial direct costs are capitalized. If there is no reasonable certainty that the Company will obtain the ownership by the end of lease term, capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Operating Lease

Assets acquired on leases where a significant portion of risk and reward is retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on a straight-line basis over the lease term, except where scheduled increase in rent compensates the Company with expected inflationary costs.

3.5. REVENUE RECOGNITION

Revenue is recognised based to the extent it is probable that the economic benefit will flow to the company and revenue can be reliably measured regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excludes taxes & duties collected on behalf of the Government and is reduced for deductions, penalties and rebates or similar allowances deducted by customers.

Freight income is accounted for on actual delivery of consignments by the Company to the customers and unqualified acknowledgements are obtained from them. Generally, the contracts are Fixed-price, thus the associated costs can be reliably measured. Freight and Vehicle Trip Expenses are accounted when vehicles deliver the consignments to the Company at destination. However, withholding taxes (TDS, TCS etc) are accounted for on receipt of corresponding payment or information of such deductions, whichever is earlier.

Other Income:

Interest Income: For all debt instruments measured either at amortized cost or at fair value through other comprehensive income (FVTOCI), interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset.

Dividend Income: Dividend income is accounted in the period in which the right to receive the same is established.

Other Income: Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

3.6. EMPLOYEE BENEFITS

Short Term Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period.

Other Long Term Employee Benefits

Post Employment Benefits

The Company operates the following post employment schemes:

Defined Contribution Plan

Defined contribution plans such as Provident Fund, Employee State Insurance etc. are charged to the statement of profit and loss as and when incurred.

Defined Benefit Plans

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The benefits are discounted using the government securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation.

Remeasurements of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in other comprehensive income. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to the statement of profit and loss.

3.7. FOREIGN CURRENCY TRANSACTIONS

Foreign currency (other than the functional currency) transactions are translated into the functional currency using the spot rates of exchanges at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are generally recognized in profit or loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those qualifying assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings, the balance is presented in the Statement of Profit and Loss within finance costs.

Non monetary items are not retranslated at period end and are measured at historical cost (translated using the exchange rate at the transaction date).

3.8. BORROWING COSTS

Borrowing Costs consists of interest and other costs that an entity incurs in connection with the borrowings of funds. Borrowing costs also includes foreign exchange difference to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition or construction of a qualifying asset are capitalized as a part of the cost of that asset that necessarily takes a substantial period of time to complete and prepare the asset for its intended use or sale.

Transaction costs in respect of long term borrowing are amortized over the tenure of respective loans using Effective Interest Rate (EIR) method. All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

3.9. FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Recognition and Initial Measurement:

All financial assets are initially recognized when the company becomes a party to the contractual provisions of the instruments. A financial asset is initially measured at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Classification and Subsequent Measurement:

For purposes of subsequent measurement, financial assets are classified in four categories:

- o Measured at Amortized Cost;
- o Measured at Fair Value Through Other Comprehensive Income (FVTOCI);
- o Measured at Fair Value Through Profit or Loss (FVTPL); and
- o Equity Instruments designated at Fair Value Through Other Comprehensive Income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

Measured at Amortized Cost: A debt instrument is measured at the amortized cost if the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade receivables, cash and bank balances, loans and other financial assets of the company.

Measured at FVTOCI: A debt instrument is measured at the FVTOCI if the objective of the business model is achieved by both collecting contractual cash flows and selling the financial assets and the asset's contractual cash flows represent SPPI.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on remeasurement recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognized in the statement of profit and loss in investment income.

Measured at FVTPL: FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss. Equity instruments which are, held for trading are classified as at FVTPL.

Equity Instruments designated at FVTOCI: For equity instruments, which has not been classified as FVTPL as above, the company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. In case the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment.

Derecognition:

The Company derecognizes a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

Impairment of Financial Assets:

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS – 109 requires expected credit losses to be measured through a loss allowance. The company recognizes impairment loss for trade receivables that do not constitute a financing transaction using expected credit loss model, which involves use of a provision matrix constructed on the basis of historical credit loss experience. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Financial Liabilities

Recognition and Initial Measurement:

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent Measurement:

Financial liabilities are measured subsequently at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

Derecognition :

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

3.10. EARNINGS PER SHARE

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit attributable to equity holders adjusted for the effects of potential equity shares by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares

3.11. IMPAIRMENT OF NON FINANCIAL ASSETS

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value being higher of value in use and net selling price. Value in use is computed at net present value of cash flow expected over the balance useful lives of the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (Cash Generating Units – CGU).

An impairment loss is recognized as an expense in the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

3.12. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Contingent Liabilities

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events but is not recognized because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Company discloses the existence of contingent liabilities in Other Notes to Financial Statements.

Contingent Assets

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

3.13. NON CURRENT ASSET HELD FOR SALE

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Non-current assets are not depreciated or amortised.

4. SIGNIFICANT JUDGEMENTS AND KEY SOURCES OF ESTIMATION IN APPLYING ACCOUNTING POLICIES

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. Information about Significant judgements and Key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:

Recognition of Deferred Tax Assets: The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits.

Useful lives of depreciable/amortisable assets: Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to actual normal wear and tear that may change the utility of plant and equipment.

Classification of Leases: The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

Defined Benefit Obligation (DBO): Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, medical cost trends, anticipation of future salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate. However, any changes in these assumptions may have a material impact on the resulting calculations.

Provisions and Contingencies: The assessments undertaken in recognising provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgement by management regarding the probability of exposure to potential loss.

Impairment of Financial Assets: The Company reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication of impairment. If recoverable amount is less than its carrying amount, the impairment loss is accounted for.

Allowances for Doubtful Debts: The Company makes allowances for doubtful debts through appropriate estimations of irrecoverable amount. The identification of doubtful debts requires use of judgment and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.

Fair value measurement of financial Instruments: When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The input to these models are taken from observable markets where possible, but where this not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

35. EMPLOYEE BENEFITS

Employee benefits of short term nature comprising annual encashment of unavailed leave of upto 30 days for each year and medical expenses are recognised as expenses as and when they accrue. Post employment long term benefits are funded through defined contribution and defined benefit plans as detailed below :

DEFINED CONTRIBUTION PLAN

The Company makes contribution towards provident fund to a defined contribution retirement plan for qualifying employees. The Provident Fund plan is operated by duly constituted and approved independent trustees/government. Under the said scheme the Company is required to contribute a specific percentage of pay roll costs in respect of eligible employees to the retirement benefit scheme to the fund the benefits.

DEFINED BENEFIT PLAN
Gratuity

The Company makes annual contribution of gratuity to gratuity funds duly constituted and administered by independent trustees and funded with Life Insurance Corporation of India/ independent trust for the qualifying employees. The scheme provides for a lump sum payment to vested employees upon retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service. Vesting occurs upon completion of 5 years of continuous service.

The present value of defined obligation and related current cost are measured using the projected unit credit method with actuarial valuation being carried out at each balance sheet date.

Asset Volatility	The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. Most of the plan asset investments is in fixed income securities with high grades and in government securities. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimise risk to an acceptable level. A portion of the funds are invested in equity securities and in alternative investments which have low correlation with equity securities. The equity securities are expected to earn a return in excess of the discount rate and contribute to the plan deficit. The group has a risk management strategy where the aggregate amount of risk exposure on a portfolio level is maintained at a fixed range. Any deviations from the range are corrected by rebalancing the portfolio. The group intends to maintain the above investment mix in the continuing years.
Changes in Bond Yield	A decrease in bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.
Inflation Risk	In the pension plans, the pensions in payment are not linked to inflation, so this is a less material risk.
Life Expectancy	The pension and medical plan obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plans' liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

The Gratuity Scheme is invested in a Group Unit Linked Gratuity Plan managed by Life Insurance Corporation of India and the Independent Administered Gratuity Fund. The information on the allocations of fund managed by Life Insurance Corporation of India into major assets classes and expected return on each major classes are not readily available. The expected rate of return on plan assets is based on the assumed rate of return provided by Company's actuary.

Actuarial Assumptions

Particulars	2018-19	2017-18
Financial Assumptions		
Discount Rate	7.50%	7.60%
Salary Escalation Rate	5.00%	5.00%
Demographic Assumptions		
Mortality Rate (% of IALM 06-08)	100.00%	100.00%
Normal retirement age	58 years	58 years
Withdrawal Rate	2.00%	2.00%

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

At 31st March 2018, the weighted average duration of the defined benefit obligation was 7 years. The distribution of the timing of benefits payment i.e., the maturity analysis of the benefit payments is as follows:

Expected Cash flows over the next	2018-19	2017-18
1 year	10,54,697	2,73,106
2 to 5 years	12,90,280	20,11,294
6 to 10 years	14,09,563	13,98,880
More than 10 years	32,72,158	29,44,914

The Company expects to contribute ₹ 3,06,887/- (previous year ₹ 4,63,316/-) to its gratuity fund in 2019-20.

Sensitivity Analysis :

The sensitivity analyses below have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

Particulars	2018-19	2017-18
Present Defined Benefit Obligation at the end of the year	34,94,946	34,94,946
Effect on DBO due to 1% increase in Discount Rate	36,11,128	32,77,240
Effect on DBO due to 1% decrease in Discount Rate	41,01,289	37,41,968
Effect on DBO due to 1% increase in Salary Escalation Rate	40,32,179	36,82,843
Effect on DBO due to 1% decrease in Salary Escalation Rate	36,61,918	33,11,916

36. SEGMENT REPORTING

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. Based on the management approach as defined in Ind AS 108, the Chief Operating Decision Maker evaluates the Company's performance based on only one segment i.e. road transportation of goods and services incidental thereto.

Total Financial Liabilities	9,67,32,966	9,67,32,966	5,76,14,784	5,76,14,784

The management assessed that the fair values of cash and cash equivalents, trade receivables, trade payables, short term borrowings, and other financial liabilities approximates their carrying amounts largely due to the short-term maturities of these instruments.

For Financial assets and liabilities that are measured at fair value, the carrying amounts are equal to their fair values.

The fair value of the financial assets and financial liabilities is included at the amount at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

The fair values for loans, security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as Level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risks, which has been assessed to be insignificant.

The fair values of non-current borrowings are based on the discounted cash flows using a current borrowing rate. They are classified as Level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including own credit risks, which was assessed as on the balance sheet date to be insignificant.

40. FINANCIAL RISK MANAGEMENT

Financial risk management of the Company has been receiving attention of the top management of the Company. The management considers finance as the lifeline of the business and therefore, financial management is carried out meticulously on the basis of detailed management information systems and reports at periodical intervals extending from daily reports to long-term plans. Importance is laid on liquidity and working capital management with a view to reduce over-dependence on borrowings and reduction in interest cost. Various kinds of financial risks and their mitigation plans are as follows:

Credit Risk

Credit risk is the risk that counterparty will not meet its obligations leading to financial loss. The Company has an established credit policy and a credit review mechanism. Credit exposure is undertaken only with large reputed business houses and with no history of default against payments. Based on the business model, macro economic environment of the business and past trends, the management has determined nil percentage for any class of financial asset under expected credit loss.

Liquidity Risk

The Company determines its liquidity requirement in the short, medium and long term. This is done by drawings up cash forecast for short term and long term needs.

The Company manages its liquidity risk in a manner so as to meet its normal financial obligations without any significant delay or stress. Such risk is managed through ensuring operational cash flow while at the same time maintaining adequate cash and cash equivalent position. The management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity monitoring future cash flow and liquidity on a regular basis. Surplus funds not immediately required are invested in fixed deposit which provide flexibility to liquidate. Besides, it generally has certain prompt payment and bill purchase agreements with customers/their bankers which can be assessed as and when required; such credit facilities are reviewed at regular basis.
