Board of Directors

**Financial
Performance**

Dear Shareholders,

I wish everybody good health and safety. The whole world is going through unprecedented challenging times. At the start of the year 2020, nobody imagined that the world would be a different place to live in three months. With the onset of the COVID-19 Pandemic, ways of living have changed and we are still searching the right way ahead. But we are all determined to overcome these testing times and continue to create value for our shareholders.

The Company started FY 20-21 with an Order Book of 2x FY20 which could have been better but for reduced bidding activity for road projects at the Centre.

Today, when we are looking at deep recession, and having gone through the initial lock down phase for controlling the Pandemic, the Government is looking forward to unlocking the economy and what better thrust to the economy than by continuing government spending through infra sector. The budget also continued to emphasise on road infra

and accordingly the company is prepared to take up new projects in the ensuing biddings.

In the year gone by, the company achieved Commercial Operations Date of its first HAM project of Kharar Ludhiana. We could also bag new HAM projects of value Rs.2,035.50 Crore taking the total to 11 HAM projects in our portfolio. The Company stands at an order book of Rs.8,981 Crore at the end of this financial year, which includes Roads, Bridges, Railways, Power T&D etc.

The company's revenue increased marginally by 5% since the revenue was affected due to outbreak of COVID-19 and lockdown in last 10 days of March 2020. However, in spite of the same, the Company earned a robust profit after tax of Rs.387.14 Crore with an increase in PAT by 35.28% Y-o-Y.

The Company is committed to face squarely the challenges brought by

nature and perform outstandingly. It will continue to seek support from its shareholders and other stakeholders like lenders and vendors.

I thank the Board members, the Stakeholders including the Shareholders, Private Equity Partners, Lenders including EXIM Bank, Ministry of Surface Road Transport and Highways, National Highway Authority of India and other State Road Development Corporations / Boards, State Power Generation and Distribution Authorities, Vendors and Employees for all the support and participation in helping us pursue our growth path.

With best wishes

INDUSTRY OVERVIEW

India is one of the fastest growing emerging economies and infrastructure is a foremost pillar to impetus the growth. India aspires to become \$5 trillion economy by 2025, for faster growth to meet the target, more supply-side reforms are needed. Creating new and upgrading existing infrastructure will be key to raising India's competitiveness. It is estimated that India needs to spend \$ 4.5 trillion on infrastructure by 2030 to realize the vision of a \$5 trillion economy by 2025, and to continue an escalated trajectory until 2030.

Over the years, the Government's thrust through various policies and support has ensured to build a proficient infrastructure in India. To give further impetus to the sector the Government of India has introduced 'National Infrastructure Pipeline' (NIP), an investment plan of Rs.111 lakh Crore for enhancing infrastructure in identified sectors for a period of five years from 2020-25. During the fiscals 2020 to 2025, sectors such as Energy (24%), Roads (18%), Urban (17%), and Railways (12%) amount to around 70% of the projected capital expenditure in infrastructure in India.

India has the second-largest road network globally, consisting of National Highways, Expressways, State Highways, Major District Roads, Other District Roads and Village Roads. The total road network in India is at 5.9 million km; National Highways account for 2% of the total road network and carries over 40% of total traffic.

Over the years, Government has made incessant efforts to boost the growth in road sector for which it has identified issues that impacts the sector and addressed the bottlenecks through appropriate policy interventions. The NIP outlines ~1,820 projects (with the length of 89,304 km) to be implemented in 2020-25, in Road Sector, which include Projects like construction of new expressways such as Delhi–Mumbai Expressway, Bengaluru–Chennai Expressway, etc. The total capital outlay by State and Center estimated to be at around Rs.20.30 Lakh Crore which would be made between FY2020 to FY2025.

The Government of India is looking to expand the national highways network to over 200,000 kilometers under its 'Bharatmala Pariyojana' plan, which aims to build 66,100 km of economic corridors, border and coastal roads, and expressways to boost the highway network. Under phase-I of Bharatmala, development of around 24,800 kms are being considered. In addition, Bharatmala Pariyojana Phase-I also includes 10,000 kms of balance road works under NHDP, taking the total to 34,800 kms at an estimated cost of Rs.5.35 tn. Bharatmala Phase-I is to be implemented over a five years period of i.e. 2017-18 to 2021-22. As on January 2020, total project of 12,178 km has been awarded, out of the 34,800 km length to be covered under the Phase-I, with completion target of 2021-22. However, to achieve the ambitious target of Bharatmala Pariyojana Phase-I, project award is expected to gather momentum.

During financial year 2019-20, construction of highways was at 10,237 kilometers, which is ~28 Km per day. The rate of construction of national highways has more than doubled since FY 2015. In FY 2019-20, National Highway Authority of India (NHAI) has achieved 3,979 Km of highway construction, representing ~18% growth over the last year, when 3,380 Km were constructed. This is the highest ever highway construction achieved by NHAI in a financial year. For FY 2020-21, Government has targeted construction of 11,000 km which is same as FY 2019-20.

Projects Trend – Total Awarded and Constructed (in Kms)

Source: Industry

Post peak ordering of 17,055 Km by NHAI in financial year 2017-18, there has been a slowdown in order awards in last two years, primarily due to lower government spending, liquidity constraints and delay in land acquisition by NHAI, as to avoid project delays, the projects which has achieved 80% land acquisition are only been awarded by NHAI. In FY 2019-20, all the awarding agencies has bid out road works for 8,912 Km, which is ~60% higher than the last financial year. The awarding activity started picking up in the second half of the financial year, but got impacted in the latter half of the March'20 due to Global pandemic crisis Covid-19.

Impact of COVID-19

The unprecedented pandemic Covid-19 has impacted the construction sector in India. Due to Nationwide lockdown, ongoing construction activity has come to a grinding halt across the country; the toll-collection was been revoked during the lockdown which led to working capital pressure on the sector. Also, the disruption of supply chain and labor migration may pose the challenge in short-term. To combat the impact of global pandemic Covid-19 on the sector, Government has announced several measures as follow:

- **To ease working capital:**
 - o Government has recommended releasing retention money to the proportion of work already executed in accordance to the contract specification and further retention money may not be deducted by the bill raised by the contractor from the period from 3 months upto 6 months. For HAM/BOT contracts, performance guarantee may be released on pro-rata basis of that as provided in the contract, if concessionaire is not in breach of contract
 - o Relaxation in Schedule H - Monthly payment to be provided to the Contractor for the work done and accepted as per specification of the contractor during the month under EPC/HAM Contract
- Extension of 3 to 6 months is provided to the contractor / concessionaire for meeting their obligations under contract

- **BOT/TOT concessionaire:** Before Commercial Operation Date (CoD), the concession of BOT contract to be extended by 3 to 6 months. Further, for loss in collection of user fee, the concession period shall be extended by period in accordance with till the time daily collection is below 90% of the average daily fee
- **Force Majeure Clause:** For all national tolling contracts, loss in collection of fee may be compensated in accordance with contract
- **Moratorium of 6 months for term loans from all institutes**

These measures are expected to provide urgent relief to the players in the infrastructure sector in the view of prevailing situation due to Covid-19. Also, with partial lifting of lockdown which enabled to resume construction activities threw green shoots towards revival. Presently, awarding activity has slowed-down due to lock-down and constrained spending on account of Covid-19, with the economic revival, the awarding activity will start to gain momentum.

BUDGET 2020-21

Road infrastructure has been a key government priority with the sector receiving strong budgetary support over the years. In Union Budget 2020-21, honorable Finance Minister provided impetus to further enable the development of infrastructure; the Government has announced National Infrastructure Pipeline (NIP), an infrastructure investment plan till FY25 which entails investment worth Rs102.5 lakh Crore with highest investment in roads, urban infrastructure, railways and power. NIP consists of more than 6,500 projects across sectors. Under the Union Budget 2020-21, budgetary support of Rs.1.70 lakh Crore is been provided for development of transport infrastructure in FY 2020-21.

To boost the liquidity of the sector, the Central Government has provided support of Rs.22,000 Crore in the form of equity infusion to Infrastructure Finance Companies such as NIIF and IIFCL. This support will enable the financial institutions to leverage and provide the financial support over Rs.1 lakh Crore to various upcoming projects. Also, Government plans to monetize at least twelve lots of highway bundles of over 6000 Km before 2024.

Additionally, to drive investment in priority sectors from sovereign wealth funds of foreign government, the Finance Ministry has proposed a grant of 100% tax exemption on interest, dividend and capital gains. This will help in faster asset monetization and support funding for future awards.

In Union Budget 2020-21, the Government has announced to undertake projects to accelerate the development of highways, which includes development of 2,500 Km access control highways, 9,000 Km of economic corridors, 2000 Km of coastal and land port roads and 2,000 Km of strategic highways.

COMPANY OVERVIEW

During the financial year 2019-20 annual standalone revenue stood at Rs.4,082.36 Crore, with 3.71% growth over Rs.3,936.34 Crore recorded in financial year 2018-19.

FY 2019-20 had witnessed prolonged rain across the Country. At many project sites, historical rainfall was witnessed. Projects in Gujarat, Andhra Pradesh, Bihar and Uttar Pradesh were affected due to heavy rains and water logging. Unprecedented heavy flood at Narmada River had entirely disturbed the project execution work and Project was standstill. Rain was witnessed during the period June 2019 till December 2019. Further, at the end of the financial year, nationwide outbreak of COVID 19 had forced Government of India to put entire Country in Lockdown. These major events have affected execution, transportation and supply of material to various projects. Due to these reasons toll collection revenue was also reduced. All these situational events had impacted the revenue during the year.

During the year, your Company successfully received an Appointment Date for Three (3) Road HAM projects i.e. Belgaum-Khanapur Road HAM project, Mallasandra Karadi Road HAM project & Karadi Banwara Road HAM project in Karnataka.

Also, during the year the Company has signed Concession Agreement for Three (3) HAM projects i.e. Bettadahalli Shivamogga Road and Banwara Bettadahalli Road HAM Projects in Karnataka and Kandi Ramsanpalle Road HAM project in Telangana. The Company is in the process of Debt tie-ups for all the three (3) HAM projects and expects to do Financial Closure in near term.

SUCCESSFUL PROJECT EXECUTION

The Company recorded the revenue growth of around 3.71% Year-on-Year in the Financial Year 2019-20; delayed appointment date coupled with elongated rains had impacted the execution work. It was further impacted by the lockdown imposed due to Global Pandemic COVID-19. Execution work came at grinding halt from March 25, 2020 to April 20, 2020. The execution work has started at all the project site post the partial relaxation in the Lockdown, and expects execution to pick-up gradually. During the financial year 2019-20, standalone BOT division recorded a marginal decrease in Toll Collection to Rs.30.04 Crore from Rs.31.68 Crore recorded in financial year 2018-19.

KEY PROJECTS WON AND OTHER DEVELOPMENTS

Ashoka Concessions Limited, a Subsidiary of the Company, was successful in winning two Road HAM projects worth Rs.2,035 Crore under Bharatmala Pariyojana in Telangana & Karnataka.

The Company is well placed with the funds and resourcing for the funding of the ongoing projects and upcoming projects.

The Company is fully compliant to the terms of the engagement with the various agencies.

CHALLENGES RISKS & CONCERNS

- **Industry/ policy risk:** The Company's business is highly dependent on road and bridge projects in India undertaken or awarded by Government Authorities and other entities funded by the Government. Any change in Government policies resulting in a decrease in the amount of road and bridge projects undertaken or a decrease in private sector participation in road and bridge projects adversely affects our business and results of operations. Our business may be affected by changes in interest rates, changes in Government policy, taxation, exchange rates and controls, social and civil unrest and political, economic or other developments in or affecting India.
- **Project risk:**
 - Infrastructure projects involve agreements that are long-term in nature (as much as three years in EPC contracts and around 30 years in Design, Build, Finance, Operate and Transfer (DBFOT) road projects. All long term projects have inherent risks associated with them and involve variables that may not necessarily be within our control. These include inflation, interest rates movements, liquidity, commodity and oil prices, governance, construction delays, material shortages, unanticipated cost increases, cost overruns, inability to negotiate satisfactory arrangements with joint venture partners and disagreements with our joint venture partners/associated/investors.
 - We are increasingly bidding for large-scale infrastructure projects. There are various risks associated with the execution of large-scale projects. Managing large-scale integrated projects may also increase the potential relative size of cost overruns and

negatively affect our operating margins. In addition, we may need to execute large-scale projects through joint ventures with other companies, which expose us to the risk of default by our Joint Venture Partners/ associates.

- We are increasingly bidding and bagging large-scale infrastructure projects. There is huge requirement of funds for the execution of the same and the funding can be a concern for the same on both the fronts of Equity and Debt. There may be delay in the arrangement of the same which may expose to increase in financial cost and financial leverage.
- **Traffic risk:** The Company's business depends substantially on accuracy of traffic estimates. Any material decrease in actual traffic volume and our forecast could have material adverse effect on cash flows, results of operation and financial condition.
- **Input and labour cost risk:** Cost of Input materials such as Petroleum Products (Bitumen, Diesel, Furnace Oil) depends upon the International Market for Oil. As Petroleum Products are a major raw material, any change in the oil prices affects the overall cost of the projects. The availability of labour for execution of projects is also a major risk factor.
- **Inflationary impacts:** Our toll revenues are a function of Toll rates and Traffic Growth and the Toll rates are impacted by Wholesale Price Index (WPI). In view of the lower inflationary trends, WPI has been quite low leading to low toll rate increases. Also any changes in the WPI components and method of calculation of the same may have impact on toll rates.

HUMAN RESOURCES DEVELOPMENT

The Company believes that its continued success will depend on its ability to attract and retain key personnel with relevant skills and experience. The attrition rate among the Top Management of the Company has been negligible in last many years. The Company has robust process of human resource development. The Company had 2951 permanent employees as on March 31, 2020 at various levels. The Company has a HR Policy in place and encouraging working environment. The Company has continued to focus on various aspects like employee training, welfare and safety thereby maintaining a constructive relationship with employees.

OVERVIEW OF THE STANDALONE FINANCIAL STATEMENTS

1. The stand-alone income for FY20 is Rs.4082.36 Crore as against Rs.3,936.34 Crore in FY19.
 - a) The increase in income has been mainly on account of Contract revenues which increased from Rs.3,589.01 Crore in FY19 to Rs.3,763.13 Crore in current year

mainly on account of contract revenue of annuity EPC and third party EPC projects. Further toll collection marginally decreased to Rs.30.04 Crore in FY20 as compared to Rs.31.68 Crore in FY19 mainly on account of nationwide lockdown due to outbreak of COVID-19 at the end of FY20.

- b) Income from sales activities has decreased as compared with last year from Rs.174.67 Crore to Rs.103.50 Crore. The decrease in sales was mainly due to reduction in real estate activities and lowering down of business scale. Other operating revenue has increased to Rs.40.76 Crore from Rs.25.27 Crore mainly on account of scrap sale, Sale of other construction material.
 - c) Further, other income has increased from Rs.115.69 Crore to Rs.144.93 Crore mainly on account of interest income on loan given to SPV companies, deposits with bank and other interest income.
2. EBITDA increased to Rs.730.56 Crore in FY20 from Rs.630.88 Crore in FY19, mainly on account of increase in overall turnover, value engineering in material consumption and reduction in finance cost.
 3. Reduction in Effective Tax Rate to 27% from 31%.
 4. Depreciation and Finance Expenses -
 - a. Depreciation cost has increased by Rs.34.86 Crore to Rs.111.13 Crore in FY20 from Rs.76.27 Crore in FY19, increase in depreciation on construction assets procured capitalized during previous financial year;
 - b. Financial Expenses have decreased by 5.77% to Rs.85.45 Crore in FY20 from Rs.90.68 Crore in FY19, Mainly due to lower utilisation of bank limits and timely recovery of receivables from customers.
 5. As at 31st March 2020, the Net Worth stood at Rs.2,598.94 Crore as against Rs.2,212.03 Crore in previous year.
 6. The Gross Debt as at 31st March 2020 stood at Rs.433.45 Crore resulting in Debt/Equity Ratio of 0.17, which is well within acceptable standards of the industry. Net Worth is considered at Rs.2,806.34 Crore including Rs.207.40 Crore of obligation towards investment in Subsidiary.

OVERVIEW OF THE CONSOLIDATED FINANCIAL STATEMENTS

Key highlights for the quarter & year ended March 31, 2020.

- Yearly Turnover for FY2020 increased to Rs.5,152.21 Crore against Rs.5,007.23 Crore in FY 2019, mainly due to EPC business ;

- PBT Increased to Rs.326.24 Crore in FY2020 against Rs.130.62 Crore in FY2019 showing 149% increase Y-o-Y;
- **Revenue for Q4FY2020** - marginally down to Rs.1609.12 Crore in Q4FY20 from Rs.1624.05 Crore in Q4FY2019;
- **EBIDTA for Q4FY2020** increased by 20.55% as compared to the previous corresponding period from Rs.414.84 Crore to Rs.500.12 Crore;
- **PBT for Q4FY2020** increased to Rs.179.84 Crore from Rs.54.81 Crore in FY2019, showing substantial increase of more than 200%;
- Debt Equity ratio is improved to 10.59 as at 31st March 2020 against 14 on 31st March 2019;
- Total comprehensive profit attributable to owners (after adjustment of minority interest) is Rs. 163.37 Crore for FY20 as against loss of Rs. 34.08 Crore during the year FY19. The major reason for profit during FY 19-20 is the charge of CCD obligation was recorded upto 6th July 2019 only as per agreement, amounting to Rs. 44.37 Crore as against Rs. 122.44 Crore of FY 18-19;
- Additional reason for increase in profitability is there are no exceptional items during FY2020 vis-à-vis FY2019 of Rs.60.13 Crore; and
- As per accounting treatment in the previous years, amount contributed by investors in ACL was treated as a part of Non-Controlling Interest but under IND AS due to variability on account of conversion of CCDs, this investment in CCDs is considered as financial obligation and is valued on each reporting period. In previous years, some portion of this financial liability was classified under 'Non-Controlling Interest, which now has been re-classified under 'Financial Liability' as 'Obligation towards investment in Subsidiary' recorded this obligation as financial liability at its fair value as at April 1, 2016, March 31, 2017, March 31, 2018, March 31, 2019 and March 31, 2020 amounting to Rs.1,066.68 Crore, Rs.1,184.81 Crore, Rs.1,359.19 Crore, Rs.1,481.63 Crore and Rs.1,526.00 Crore, respectively. On account of this treatment, there is a substantial decrease in the Net Worth of the Company. However, in the year of conversion of CCDs, this obligation will get reversed and correspondingly Net Worth will increase.

Future Outlook

The global economy is witnessing challenges arising due to Covid-19 Pandemic and the Road Infrastructure sector is not isolated. The Pandemic, and the ensuing lockdown has adversely impacted the sector primarily attributable to the halting of construction activities across the country, lack of availability of labour, stoppage of toll collection, amongst others.

The government has announced various measures to protect/safeguard liquidity, compensate contractors for the losses experienced during lockdown and provide additional loans for a smooth resumption of operations.

The Union Minister for Road Transport & Highways and MSMEs, in his communication dated April 07, 2020, has set a target of constructing roads worth Rs.15 lakh Crore in the next two years.

We expect many opportunities in the near and long term for the infrastructure sector in India. The government's ambitious infrastructure development programmes provide significant opportunities to boost economic development in the sector in coming years.

With relaxation in the lockdown restrictions, the construction activity has resumed at major projects sites by following the social-distancing norms and other health and hygiene measures. The operations are ramping up gradually across the sector. The economic activity has started to pick-up pace with toll collections also beginning to limp back to normalcy.

Toll revenues have gradually revived to reach over 70-75% pre-covid levels, led by improving commercial traffic even when many cities or state sections are not allowing traffic movement freely, and expect to reach pre-COVID collections in the coming months.

Our order book – which is Rs.8,981 Crore, ensuring strong visibility for the EPC segment for foreseeable future. We are well confident and also geared up to win BOT / HAM projects in the upcoming bids, which will ensure a steady growth in execution as well as our revenues in the long term.

We will continue to strive and remain focused on creating more value for all by venturing into new areas of infrastructure.

CY & Associates, Cost Accountants, (Firm Registration No. 000334) as the Cost Auditors for the financial year 2020-21 on the recommendations made by the Audit Committee to conduct the audit of cost records of the Construction segment of the Company.

The remuneration proposed to be paid to the Cost Auditors, subject to the ratification by the members at the ensuing AGM, would not exceed Rs.5,40,000/- (Rupees Five Lakh Forty Thousand only) plus applicable taxes and reimbursement of out of pocket expenses.

The consent has been received from M/s. CY & Associates, Cost Accountants, to act as the Cost Auditors of your Company for the financial year 2020-21 along with a certificate confirming their independence. Further pursuant to the provisions of the Act, the remuneration payable to the Cost Auditors is required to be placed before the Members in a general meeting for their ratification. Accordingly, a Resolution seeking Members' ratification for the remuneration payable to M/s CY & Associates, Cost Accountants, is included in the Notice convening the 27th Annual General Meeting.

Secretarial Auditors

Pursuant to the provisions of Section 204 of the Act read with the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, your Company had appointed M/s. S. Anantha & Ved LLP (LLPIN: AAH8229) Practising Company Secretaries to conduct the Secretarial Audit of your Company. The Secretarial Audit Report is annexed herewith as **Annexure – IV** to the Board's Report.

There are no observations / remarks or qualifications in the Secretarial Audit Report for FY2019-20 except the following:

- **Remark:** Delay in filing of E-forms with the Ministry of Corporate Affairs in few instances in respect of which the Company paid the additional fee and complied with the requirement.
- **Reply:** There was delay in filing few e-forms due to circumstances beyond control. However such forms were filed with additional filing fees as prescribed under the Act and compliance has been regularized. The necessary steps have been taken to avoid delay in filing of e-forms with MCA in future.
- **Remark:** The Company had received an e-mail from National Stock Exchange of India Limited (NSE) on 04th July, 2019; intimating that as per Regulation 44 of SEBI (Listing Obligations and Disclosure Requirements)

Regulations, 2015, the listed entity shall submit to the stock exchange, within 48 hours of conclusion of its General Meeting, details regarding the voting results in the format specified by SEBI. However the Company has submitted the voting results of the Postal Ballot concluded on 01st July, 2019 after 48 hours of conclusion.

- **Reply:** In this connection, the Company had submitted the reply on 6th July, 2019 to NSE clarifying the reasons for the delay in submission of postal ballot result which were beyond the control of the Company. Due to heavy rains in Mumbai, Government of Maharashtra declared a holiday and the process of compiling data got delayed due to this unexpected interruption. This had resulted in slight delay in submission to NSE. NSE has not further communicated to the Company in this regard.

Reconciliation of share capital audit:

SECRETARIAL AUDIT REPORT
[Pursuant to Section 204 (1) of the Companies Act, 2013 and Rule No.9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014]
For the Financial Year ended March 31, 2020

To
 The Members
Ashoka Buildcon Limited
 S. No. 861, Ashoka House
 Ashoka Marg, Vadala
 Nashik - 422 011

We have conducted the Secretarial Audit of the Compliance of applicable Statutory Provisions and the adherence to good corporate practices by Ashoka Buildcon Limited (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the Corporate Conducts/Statutory Compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended March 31, 2020, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We further report that the compliance with the applicable laws is the responsibility of the management of the Company and our report constitutes an independent opinion. Our report is neither an assurance for future viability of the Company nor a confirmation of efficient management by the Company.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2020 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment (*Not Applicable for the year under review as there were no instances of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings during the year under review, however with respect to the earlier investments necessary Annual compliances viz.: Filing of Annual Return on Foreign Liabilities and Assets and Annual Performance Report has been done*);
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (*Not Applicable for the year under review*);
 - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Securities and Exchange Board of India (Share based Employee Benefits) Regulations, 2014 (*Not Applicable for the year under review*);

- (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client (*Not Applicable for the year under review*);
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; (*Not Applicable for the year under review*) and
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 and Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018. (*Not Applicable for the year under review*).
- (vi) Other laws applicable specifically to the Company:

Based on the information provided by the Company, there are no specific laws applicable to the Company for the year under review except as follows:-

- (a) The Indian Tolls Act, 1851; and
- (b) The National Highways Act, 1956.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India; and
- (ii) SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. as mentioned above subject to the following observation:

- a. *There was delay in filing of E-forms with the Ministry of Corporate Affairs in few instances in respect of which the Company paid the additional fee and complied with the requirement.*
- b. *The Company had received an e-mail from National Stock Exchange of India Limited (NSE) on 04th July, 2019; intimating that as per Regulation 44 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the listed entity shall submit to the stock exchange, within 48 hours of conclusion of its General Meeting, details regarding the voting results in the format specified by the SEBI. However, the Company has submitted the voting results of the Postal Ballot concluded on 01st July, 2019 after 48 hours of conclusion.*

In this connection, the Company had submitted the reply on 06th July, 2019 to NSE clarifying the reasons for the delay in submission of postal ballot results. NSE has not further communicated to the Company in this regard.

We further report that:-

Based on the information provided by the Company, its officers and authorized representatives during the conduct of the audit, and also on the review of compliance reports by the respective Department Heads / Company Secretary / CEO / KMP taken on record by the Board of Directors of the Company, in our opinion, adequate systems and processes and control mechanism exist in the Company to monitor and ensure compliance with applicable general laws like labour laws, competition law, environmental laws and all other applicable laws, rules, regulations and guidelines. The Company has responded to notices for demands, claims, penalties etc. levied, if any, by various statutory / regulatory authorities and initiated actions for corrective measures, wherever necessary.

We further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. No change in the composition of the Board of Directors took place during the period under review, except Mr. Michael Pinto (DIN:00021565) retired as a Director of the Company w.e.f. April 01, 2019 on account of not seeking appointment for the second term as an Independent Director. The Board of Directors at their meeting held on 23rd March, 2020, approved the appointment of Two Additional Directors with effect from 01st April, 2020.

Adequate notice along with agenda were given seven days in advance to all directors to schedule the Board Meetings, and detailed notes on agenda were generally sent in advance, and a system exists for seeking and obtaining further information and clarifications

on the agenda items before the meeting for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views, if any, are captured and recorded as part of the minutes.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1

1. **Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/ No.**

No, it covers group companies also.

Does it extend to the Group/Joint Ventures/ Suppliers/ Contractors/NGOs /Others?

The Company has the Policy relating to ethics, bribery titled as Code of Conduct for Board of Directors and Senior Management. The Business Ethics and Code of Conduct serves as the guiding philosophy for all employees, suppliers, customers, NGOs and others who have dealings with the Company. Fair and just business dealings free from any extraneous consideration ought to be followed by all employees in their day to day work life. The policy applies to all employees.

The Company has also in place a Whistle Blower Policy / Vigil Mechanism which seeks to empower employees and directors to raise any genuine concerns within the group. The Employees can utilise any mode of communication to which they can communicate their concern to the Senior Management.

Further the Audit Committee of the Company oversees Vigil Mechanism of the Company pursuant to the provisions of the Companies Act, 2013. The Chairman of the Audit Committee has exclusive access to designated email ID viz. whistleblower@ashokabuildcon.com

2. **How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.**

No genuine concerns were received by different functionaries / stakeholders in the Company during the year under review. 9 (nine) Shareholder grievances were received and none of the complaints is pending as on March 31, 2020. No whistle blower complaint has been received during the year by the Audit Committee or its Chairman on designated email ID.

Principle 2

Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

1. **List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.**

The Company is an infrastructure developer. Ashoka also creates power distribution network for Power Transmission for State owned Electricity Boards. The Company also started execution of City Gas Distribution network in specified Geographical Areas as awarded by PNGRB.

We design roads and highways such that it minimizes use of natural resources and also redesign roads to avoid unnecessary cutting of trees and to protect environment.

We endeavor to minimize the adverse consequences and to maximize the benefit for the society at large mainly local population.

We are also constructing rain water harvesting infrastructure. The Company is committed towards protecting the environment and is an ISO: 14001:2015 and ISO 14064-1 compliant company, which encompasses monitoring and measurement of Green House Gas Emissions.

Ashoka also takes safety as a matter of utmost importance and it continues to make efforts to reduce accidents on the roads maintained by it. About 212 lessons have been conducted during the year under review covering 81086 participants. The Company has reached out to over 6, 12,400 students, truck drivers and other road users cumulatively since year 2013.

2. **For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):**

a. **Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain?**

b. **Reduction during usage by consumers (energy, water) achieved since the previous year.**

- The Company is focused on recycling of existing road material and usage of materials such as pond ash and fly-ash to preserve natural resources from stone quarry & soil burrow.

- The Company has initiated and implemented the necessary steps to use rain water for ground water recharge through road friendly rainwater harvesting mechanisms.
- The Company installs Solar based road furniture such as blinkers etc. at its projects to save consumption of electrical energy. Major consumption of electricity / power requirement of one of the offices of the Company at Nashik is taken care by Solar Energy.
- **CGD**
- Deployment of recycling plants for reuse of RAP from existing bituminous pavements.
- Using Reinforced wall construction instead of RCC retaining wall, leading to large economy in construction cost.
- The Company uses resources such as artificial sand instead of natural sand. Also, use of fly ash reduces the cement consumption which ultimately reduces cost for the consumers and the consumer gets good quality of cohesive and durable mix.
- Using Reinforced wall construction instead of RCC retaining wall.

c. Does the Company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

The Company has the procedures in place for sustainable sourcing. All the construction material like sand and aggregates are regularly procured locally eliminating unnecessary transportation. It is not possible to procure Bitumen, Steel and Cement locally, in such cases the nearest possible source is explored for procurement.

d. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

Ashoka does use local vendors for pre-cast works such as kerb, drain cover etc., production of RCC Hume Pipes, for procuring road furniture such as

CORPORATE GOVERNANCE REPORT

A. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Corporate Governance is the application of best management practices, compliance of laws & adherence to ethical standards to achieve the Company's objective of enhancing stakeholders' value and discharge of social responsibility. Your Company believes that Corporate Governance is a prerequisite for attaining sustainable growth in this competitive world. It involves a set of relationships between a Company's Management, its Board, Shareholders and Stakeholders. It is one of the key elements in improving the economic efficiency of the enterprise. Credibility generated by sound Corporate Governance enables an enterprise in enhancing the confidence of the investors – both domestic and foreign.

The Board of Directors ('The Board') is responsible for and committed to sound principles of Corporate Governance in the Company. The Board plays a crucial role in overseeing how the Management serves the short term and long-term interests of shareholders and other stakeholders. This belief is reflected in our governance practices, under which we strive to maintain an effective, informed and independent Board. We keep our governance practices under continuous review and benchmark ourselves to best practices.

B. BOARD OF DIRECTORS

(i) Board Membership Criteria

The members of the Board of Directors of your Company possess the required expertise, skill and experience to effectively manage and direct your Company to attain its organizational goals. They are the persons with vision, leadership qualities, proven competence and integrity and with a strategic bent of mind.

Each member of the Board of Directors of your Company ensures that his/her personal interest does not run in conflict with your Company's interests. Moreover, each member uses his/her professional judgment to maintain both the substance and appearance of independence and objectivity.

(ii) Composition of the Board

The Composition of the Board as on 31st March, 2020 is in conformity with Regulation 17 of the Listing Regulations as well as the Companies Act, 2013. The Board of Directors is chaired by Executive Promoter Chairman and has an optimum combination of Executive, Non-Executive and Independent Directors. None of the Non-Executive Independent Directors have any material pecuniary relationships or transactions with the Company. A declaration to this effect is also submitted by all the Non-Executive Directors at the beginning of each financial year.

The Board of Directors of your Company has an optimum combination of Executive and Non-executive and Independent Directors to have a balanced Board Structure. Independent Auditor's Report to The Members of Ashoka Buildcon Limited

INDEPENDENT AUDITOR'S REPORT

To the Members of Ashoka Buildcon Limited

Report on the Audit of the Standalone Ind AS Financial Statements Opinion

We have audited the accompanying standalone Ind AS financial statements of Ashoka Buildcon Limited ("the Company"), which comprise the Balance sheet as at March 31, 2020, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Emphasis of Matter

We draw attention to Note 59 of the standalone Ind AS financial statements, which describes uncertainties and possible effects of COVID-19 on the operations of the Company. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements for the financial year ended March 31, 2020. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
(a) Revenue recognition for long term construction contracts <i>(as described in note 32(A) of the standalone Ind AS financial statements)</i>	
The Company's significant portion of business is undertaken through long term construction contracts. Revenue from these contracts is recognized over the period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers. Due to the nature of the contracts, revenue recognition involves usage of percentage of completion method which is determined based on proportion of contract costs incurred to date compared to estimated total contract costs, which involves significant judgments, identification of contractual obligations and the Company's rights to receive payments for performance completed till date, changes in scope and consequential revised contract price and recognition of the liability for loss making contracts.	Our audit procedures included the following: <ul style="list-style-type: none"> • Read the Company's revenue recognition accounting policies and assessed compliance with the policies in terms of Ind AS 115; • We performed test of controls over revenue recognition with specific focus on determination of progress of completion, recording of costs incurred and estimation of costs to complete the remaining contract obligations through inspection of evidence of performance of these controls; • We performed tests of details, on a sample basis, and read the underlying customer contracts for terms and conditions, performed review of costs incurred with estimated costs to identify significant variations and assess whether those variations have been considered in estimating the remaining costs to complete and consequential determination of stage of completion, which formed the basis of revenue recognition under the input method; • We assessed the management's evaluation process to recognize revenue over a period of time, status of completion for projects and total cost estimates; • We tested contracts with exceptions including contracts with low or negative margins, contracts with significant changes in planned cost estimates, contracts with significant contract assets and contract liabilities, and significant overdue net receivable positions for contracts and tested these exceptions with its correlation with the underlying contracts, documents for the triggers during the period; • We tested that the contractual positions and revenue for the year are presented and disclosed in compliance of Ind AS 115 in the Standalone Ind AS financial statements.

Independent Auditor's Report to the Members of Ashoka Buildcon Limited

Key audit matters	How our audit addressed the key audit matter
Impairment of Company's Interest in subsidiaries and joint ventures (as described in note 04 of the standalone Ind AS financial statements)	
<p>As per requirement of Ind AS 36 "Impairment of assets", the management regularly reviews whether there are any indicators of impairment of the investments in subsidiaries and where impairment indicators exist, the management estimates the recoverable amounts of the investments, being higher of fair value less costs of disposal and value in use. The value in use of the underlying businesses is determined based on the discounted cash flow projections. Significant judgements are required to determine the key assumptions used in the discounted cash flow models, such as revenue growth, major maintenance expenditure, discount rate, traffic growth and toll rates based on management's view of future business prospects including any possible impact arising out of the pandemic on these estimates. Accordingly, the impairment of the Company's interest in subsidiaries, was determined to be a key audit matter in our audit of the standalone Ind AS financial statements.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • Assessed the Company's accounting policies with respect to impairment in accordance with Ind AS 36 "Impairment of assets"; • We performed the test of control over the management assessment of impairment indicators of interest in subsidiaries and joint ventures and where impairment indicators exist, the control over the management estimate for the recoverability of these investments. • We performed following test of details; <ul style="list-style-type: none"> o We have obtained management's impairment assessment; o We assessed the assumptions around the key drivers of the cash flow forecasts including major maintenance expenditure, traffic growth, toll rates, discount rates and expected revenue growth rates based on management's view of future business prospects including any possible impact arising out of the pandemic on these estimates; o We discussed potential changes in key drivers as compared to previous year / actual performance with management in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable; o We obtained and analysed sensitivity analysis on the assumptions used by the management including scenarios built into these models for varied potential impact on account of pandemic; o We tested the arithmetical accuracy of the models.
Disputed Tax Matters (as described in note 52(d) of the standalone Ind AS financial statements)	

Key audit matters	How our audit addressed the key audit matter
<p>The Company has disclosed disputed tax matters Rs. 16,267.40 lakhs in Note 52(d) of the Standalone Financial Statements.</p> <p>Tax litigation exposures have been identified as a key audit matter due to:</p> <ul style="list-style-type: none"> • Significance of these amounts; • Significant judgement and assumptions required by management in assessing the exposure of each case to evaluate whether there is a need to set up a provision and measurement of exposures as well as the disclosure of contingent liabilities; • Assessment orders were received in the financial year 2018-19 for the financial years 2010-11 to 2016-17, pursuant to the search proceedings by treating certain sub-contractors payments as non-genuine. <p>We focused on this matter because of the potential financial impact on the financial statements. Additionally, the treatment of tax litigation requires significant judgement due to the complexity of the cases and, timescales for resolution.</p>	<p>Our audit procedures include the following:</p> <ul style="list-style-type: none"> • Obtained understanding and assessed the internal control environment relating to the identification, recognition and measurement of provisions for disputed tax matters; • Obtained the summary of disputed tax matters from management and assessed management's position through discussions on both the probability of success in significant cases, and the magnitude of any potential loss; • Read evidence to corroborate management's assessment of the risk profile in respect of tax disputed matters; • We verified additional documents submitted by the Company during the year to the tax authorities in support of the response to the income tax assessment orders under section 153A for the financial years 2010-11 to 2016-17; • We involved our tax specialists to assist us in evaluating tax positions taken by the management; • We assessed the disclosures relating to the disputed tax matters as mentioned in Note 52(d) of the Standalone Ind AS financial statements.

We have determined that there are no other key audit matters to communicate in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Independent Auditor's Report to the Members of Ashoka Buildcon Limited

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that

an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Independent Auditor's Report to the Members of Ashoka Buildcon Limited

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;

ANNEXURE 1 TO THE INDEPEDENT AUDITORS' REPORT

ANNEXURE 1 - STATEMENT ON MATTERS SPECIFIED IN PARAGRAPHS 3 AND 4 OF THE COMPANIES (AUDITOR'S REPORT) ORDER, 2016

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) All fixed assets have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given by the management the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company except for title deed in case of two buildings (Gross Block of Rs.151.64 Lakhs, Net Block Rs.123.51 Lakhs), for which transfer deed is yet to be executed in the name of the Company.
- (ii) The management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such physical verification.
- (iii) The Company has granted loans to eighteen companies covered in the register maintained under section 189 of the Companies Act, 2013. In our opinion and according to the information and explanations given to us, the terms and conditions of the grant of such loans are not prejudicial to the Company's interest.
- (a) The Company has granted loans to eighteen companies covered in the register maintained under section 189 of the Companies Act, 2013. The schedule of repayment of principal and payment of interest has been stipulated for the loans granted and the repayment / receipts are regular.
- (b) There are no amounts of loans granted to companies, firms or other parties listed in the register maintained under section 189 of the Companies Act, 2013 which are overdue for more than ninety days.
- (iv) In our opinion and according to the information and explanations given to us, provisions of section 185 and 186 of the Companies Act 2013 in respect of loans to directors including entities in which they are interested and in respect of loans and advances given, investments made and, guarantees, and securities given have been complied with by the Company.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to road and other infrastructure projects, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, goods and service tax, cess and other material statutory dues have been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases.
- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, service tax, sales-tax, duty of custom, duty of excise, value added tax, goods and service tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- (c) According to the records of the Company, the dues of income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, goods and service tax and cess on account of any dispute, are as follows:

ANNEXURE 2 TO THE INDEPENDENT AUDITORS' REPORT

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF ASHOKA BUILDCON LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Ashoka Buildcon Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these standalone

financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these standalone financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone financial statements may

ANNEXURE 2 TO THE INDEPEDENT AUDITORS' REPORT

become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these standalone financial statements and such internal financial controls over financial reporting with reference to these standalone financial statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE 01: SIGNIFICANT ACCOUNTING POLICIES**A. General Information**

Ashoka Buildcon Limited ("the Company") is a public limited company domiciled in India and incorporated on May 13, 1993 under the provision of Companies Act, 1956. The registered office of Company is located at S.No. 861, Ashoka House, Ashoka Marg, Vadala, Nashik, Maharashtra 422011. Shares of the Company are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE).

Company is presently engaged in the business of construction of infrastructure facilities on Engineering, Procurement and Construction Basis (EPC) and Built, Operate and Transfer (BOT) Basis and Sale of Ready Mix Concrete. The Company has promoted Special Purpose Vehicles (SPVs) for some of its projects, wherein 'Toll Collection Rights' are received in exchange of the Construction Cost. For this, the SPVs significantly engage the services of the Company for contract related activities due to inherent execution capabilities / expertise and experience of the Company.

The financial statements were approved for issue by The Board of Directors on June 15, 2020.

B. Summary of Significant Accounting Policies**1. Basis of preparation**

The Company's financial statements have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013 (as amended from time to time).

These financial statements include Balance sheet, Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows and notes, comprising a summary of significant accounting policies and other explanatory information and comparative information in respect of the preceding period.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Derivative financial instruments,
- Certain other financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments).

2. Presentation of financial statements

The financial statements (except for Statement of Cash Flow) are prepared and presented in the format prescribed in Division II – Ind AS Schedule III ("Schedule III") to the Companies Act, 2013.

The Statement of Cash Flow has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash flows".

Amounts in the financial statements are presented in Indian Rupees in Lakhs as per the requirements of Schedule III. "Per share" data is presented in Indian Rupees upto two decimals places.

Current versus Non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

3. Fair Value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities that entity can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the

lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

4. Foreign Currency

a. Functional and presentation currency

The financial statements of the Company are presented using Indian Rupee (₹), which is also our functional currency i.e. currency of the primary economic environment in which the company operates.

b. Transactions and balances

Foreign currency transactions are translated into the respective functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

5. Property, Plant and Equipment (PPE)

PPE is recognized when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All items of PPE are stated at cost net of tax/duty credits availed, if any, less accumulated depreciation and cumulative impairment. Cost includes expenditure that is directly attributable to the acquisition and installation of such assets, if any. Subsequent expenditure relating to Property, Plant and Equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred.

Items such as spare parts and servicing equipment are recognised as PPE if they meet the definition of property, plant and equipment and are expected to be used for more than one year. All other items of spares and servicing equipments are classified as item of Inventories.

PPE not ready for the intended use on the date of the Balance Sheet is disclosed as “Capital Work-In-Progress” and carried at cost, comprising of directly attributable costs and related incidental expenses.

Decommissioning cost, if any, on Property Plant and Equipment are estimated at their present value and capitalized as part of such assets.

Depreciation methods, estimated useful lives and residual value

Depreciation has been provided on the written down value method, as per the useful lives specified in Schedule II to the Companies Act, 2013, or in the case of assets where the useful life was determined by technical evaluation carried out by the management’s expert, in order to reflect the actual usage of the assets. The asset’s useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period. The useful lives of PPE are as under:

Type of Asset with Useful Life

Sr. No.	Category of assets	Sub-category of assets	Useful life as per Schedule II	Useful life adopted by the company
1	Plant and equipment	Concreting, Crushing, Pilling Equipment & Road Making Equipment	12	10
		Cranes with capacity of Less than 100 Tonne	15	15
		Cranes with capacity of Less than 60 Tonne	9	9
		Material Handling/Pipeline/Welding	12	9
		Earth Moving equipment	9	9
2	Office and equipment	Office and equipment	5	5
3	Computers and data processing equipment	End user devices	3	3
		Server	6	3
4	Furniture and Fixture	Furniture and Fixture	10	10
5	Vehicle	Motor buses, motor lorries and motor cars other than those used in a business of running them on hire	8	8
		Motor cycles, scooter and other mopeds	10	10
6	Buildings	Buildings other than factory building	60	60
		Temporary/Portable structure	3	3
7	General Laboratory Equipment		10	3
8	Plant & Equipment	Centering materials are depreciated on a Straight Line Basis over Useful life which has been defined as Four Years		

The Company, based on assessment made by technical expert and management estimate, depreciates certain items of building, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

6. Intangible assets

a. Intangible Assets Under Service Concession Arrangements (Appendix C to Ind AS 115 – Revenue from Contracts with Customers)

In respect of Public to Private Arrangements (PPA), on a Built-Operate-Transfer (BOT) basis, Intangible Assets i.e. Right to collect toll/tariff are recognised when the Company has been granted rights to charge a toll/tariff from the users of such public services and such rights do not confer an unconditional right on the Company to receive cash or another Financial Asset and when it is probable that future economic benefits associated with the rights will flow to the Company and the cost of the asset can be measured reliably.

The Company constructs or upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure (operation services) for a specified period of time. These arrangements may include infrastructure used in a public-to-private service concession arrangement for its entire useful life.

Under the Concession Agreements, where the Company has received the right to charge users of the public service, such rights are recognised and classified as “Intangible Assets” in accordance with Appendix C to Ind AS 115 – Service Concession Arrangements. Such right is not an unconditional right to receive consideration because the amounts are contingent to the extent that the public uses the service and thus are recognised and classified as intangible assets. Such an intangible asset is recognised by the Company at cost (which is the fair value of the consideration received or receivable for the construction services delivered) and is capitalized when the project is complete in all respects and when the subsidiary companies receives the completion certificate from the authority as specified in the Concession Agreement.

An asset carried under concession arrangements is derecognised on disposal or when no future economic benefits are expected from its future use or disposal.

Service Concession Arrangements that meet the definition of an Intangible Asset are recognised at cumulative construction cost, including related margins. Till completion of construction of the project, such arrangements are recognised as “Intangible Assets Under Development” and are recognised at cumulative construction cost, including related margins.

b. Other Intangible assets

Intangible assets are recognized when it is probable that future economic benefits attributable to the assets will flow to the Company and the cost of the asset can be measured reliably. Such Intangible Assets acquired by the Company are measured at cost less accumulated amortisation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition and installation of such assets.

Amortisation

The intangible rights which are recognised in the form of right to charge users of the infrastructure asset are amortised by taking proportionate of actual revenue received for the year over Total Projected Revenue from project to Cost of Intangible assets i.e. proportionate of actual revenue earned for the year

over Total Projected Revenue from the Intangible assets expected to be earned over the balance concession period as estimated by the management.

As required, total Projected Revenue reviewed by the management at the end of each financial year and accordingly, the total projected revenue is adjusted to reflect any changes in the estimates which lead to the actual collection at the end of the concession period.

Right to collect tariff on Hydro project is amortised on a Straight Line basis over the concession period.

Amortisation on Software has been provided on the written down value method, as per the useful lives specified in Schedule II to the Companies Act, 2013.

7. Impairment of Non-Financial Assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount and the impairment loss is recognized in the Statement of Profit and Loss. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assumptions of the time value of money and the risks specified to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

8. Non-current assets held for sale

The Company classifies non-current assets and disposal groups as ‘Held For Sale’ if their carrying amounts will be recovered principally through a sale rather than through continuing use and sale is highly probable i.e. actions required to complete the sale indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn.

Non-current assets held for sale and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised.

9. Financial instruments

Initial Recognition

Financial instruments i.e. Financial Assets and Financial Liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial instruments are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial instruments (other than financial instruments at fair value through profit or loss) are added to or deducted from the fair value of the financial instruments, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial instruments assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

Financial Assets

Subsequent Measurement

All recognised financial assets are subsequently measured at amortized cost using effective interest method except for financial assets carried at fair value through Profit and Loss (FVTPL) or fair value through Other Comprehensive Income (FVOCI).

a. Equity investments in Subsidiaries, Associates and Joint Venture

The Company accounts for its investment in subsidiaries, joint ventures and associates and other equity investments in subsidiary companies at cost in accordance with Ind AS 27 - 'Separate Financial Statements'.

Investment in Compulsory Convertible Debentures of subsidiary company is treated as equity investments, since they are convertible into fixed number of equity shares of subsidiary.

Investment made by way of Financial Guarantee contracts in subsidiary, associate and joint venture companies are initially recognised at fair value of the Guarantee.

b. Equity investments (other than investments in subsidiaries, associates and joint venture)

All equity investments falling within the scope of Ind-AS 109 are mandatorily measured at Fair Value through Profit and Loss (FVTPL) with all fair value changes recognized in the Statement of Profit and Loss.

The Company has an irrevocable option of designating certain equity instruments as FVOCI. Option of designating instruments as FVOCI is done on an

instrument-by-instrument basis. The classification made on initial recognition is irrevocable.

If the Company decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument are recognized in Statement of Other Comprehensive Income (SOI). Amounts from SOI are not subsequently transferred to profit and loss, even on sale of investment.

c. Investment in preference shares

Investment in preference shares are classified as debt instruments and carried at amortised cost if they are not convertible into equity instruments and are not held to collect contractual cash flows. Other Investment in preference shares which are classified as debt instruments are carried at FVTPL.

Investment in convertible preference shares of subsidiary, associate and joint venture companies are treated as equity instruments and carried at cost. Other Investment in convertible preference shares which are classified as equity instruments are mandatorily carried at FVTPL.

d. De-recognition

A financial asset is primarily derecognized when the rights to receive cash flows from the asset have expired, or the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and with that a) the Company has transferred substantially all the risks and rewards of the asset, or b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

e. Impairment of financial assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all trade receivables and/or contract assets that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Financial Liabilities

Classification

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Subsequent measurement

Loans and borrowings are subsequently measured at amortised cost using Effective Interest Rate (EIR), except for financial liabilities at fair value through profit or loss. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. Amortisation arising on unwinding of the financial liabilities as per EIR is included as a part of Finance Costs in the Statement of Profit and Loss.

Financial liabilities recognised at FVTPL, including derivatives, are subsequently measured at fair value.

a. Compound financial instruments

Compound financial instruments issued by the company is an instrument which creates a financial liability on the issuer and which can be converted into fixed number of equity shares at the option of the holders.

Such instruments are initially recognised by separately accounting the liability and the equity components. The liability component is initially recognised at the fair value of a comparable liability that does not have an equity conversion option. The equity component is initially recognised as the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. The directly attributable transaction costs are allocated to the liability and the equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of the compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not re-measured subsequently.

b. Financial guarantee contracts

Financial guarantee contracts are initially recognised as a liability at fair value. The liability is subsequently measured at carrying amount less amortization or amount of loss allowance determined as per impairment requirements of Ind AS 109, whichever is

higher. Amortisation is recognised as finance income in the Statement of Profit and Loss.

c. De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Re-classification of financial instruments

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets, such as equity instruments designated at FVTPL or FVOCI and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets.

10. **Cash dividend and non-cash distribution to equity holders**

The Company recognises a liability to make cash or non-cash distributions to its equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

Dividends paid/payable are recognised in the year in which the related dividends are approved by the Shareholders or Board of Directors as appropriate.

11. **Earnings per share**

The Company's Earnings per Share ('EPS') is determined based on the net profit attributable to the shareholders' of the Company.

Basic earnings per share is calculated by dividing the profit from continuing operations and total profit, both

attributable to equity shareholders of the company by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share is computed using the weighted average number of common and dilutive shares outstanding during the year including share based payments, except where the result would be anti-dilutive.

12. Revenue recognition

A) REVENUE

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. The normal credit term is 30 to 90 days upon delivery.

Revenue from construction contracts

Performance obligation in case of long - term construction contracts is satisfied over a period of time, since the Company creates an asset that the customer controls as the asset is created and the Company has an enforceable right to payment for performance completed to date if it meets the agreed specifications.

Revenue from long term construction contracts, where the outcome can be estimated reliably and 5% of the project cost is incurred, is recognized under the percentage of completion method by reference to the stage of completion of the contract activity.

The stage of completion is measured by input method i.e. the proportion that costs incurred to date bear to the estimated total costs of a contract. The percentage-of-completion method (an input method) is the most faithful depiction of the company's performance because it directly measures the value of the services transferred to the customer.

The total costs of contracts are estimated based on technical and other estimates. In the event that a loss is anticipated on a particular contract, provision is made

for the estimated loss. Contract revenue earned in excess of billing is reflected under as "contract asset" and billing in excess of contract revenue is reflected under "contract liabilities".

Retention money receivable from project customers does not contain any significant financing element, these are retained for satisfactory performance of contract.

In case of long - term construction contracts payment is generally due upon completion of milestone as per terms of contract. In certain contracts, short-term advances are received before the performance obligation is satisfied.

The major component of contract estimate is "budgeted cost to complete the contract" and on assumption that contract price will not reduce vis-à-vis agreement values. While estimating the various assumptions are considered by management such as:

- Work will be executed in the manner expected so that the project is completed timely;
- Consumption norms will remain same;
- Cost escalation comprising of increase in cost to complete the project are considered as a part of budgeted cost to complete the project etc.

Due to technical complexities involved in the budgeting process, contract estimates are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Service Contracts

For service contracts (including maintenance contracts) in which the company has the right to consideration from the customer in an amount that corresponds directly with the value to the customer of the company's performance completed to date, revenue is recognized when services are performed and contractually billable.

Revenue recognition under Service Concession Arrangements

In case of entities involved in construction and maintenance of roads, revenue are recognised in line with the Appendix C to Ind AS 115 – Service Concession Arrangements. The revenue is recognized in the period of collection which generally coincide as and when the traffic passes through toll plazas.

Dividend and Interest Income

Dividend income is recognised when the right to receive payment is established. Interest income is recognised using the effective interest method.

Income from profit from partnership firms and AOPs

Income from share of profit/loss in partnership firm/ Limited Liability Partnership is recognised only when the profit is ascertained and there is certainty as to amount of income.

Warranty Obligation

The Company provides for contractual obligations to periodically service, repair or rectify any defective work during the defect liability period as well as towards contractual obligations to restore the infrastructure at periodic intervals. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognized as finance cost. The same is reviewed at each balance sheet date and adjustments if any to the carrying amount is provided for accordingly.

In case of service concession arrangement classified as financial assets, expenses recognized in the period in which such costs are actually incurred.

Variable Consideration

The nature of the Company's contracts gives rise to several types of variable consideration, including claims, unpriced change orders, award and incentive fees, change in law, liquidated damages and penalties. The company recognizes revenue for variable consideration when it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. The company estimates the amount of revenue to be recognized on variable consideration using the expected value (i.e., the sum of a probability-weighted amount) or the most likely amount method, whichever is expected to better predict the amount.

The Company's claim for extra work, incentives and escalation in rates relating to execution of contracts are recognized as revenue in the year in which said claims are finally accepted by the clients. Claims under arbitration/ disputes are accounted as income based on final award. Expenses on arbitration are accounted as incurred.

Before including any amount of variable consideration in the transaction price, the Company considers whether the amount of variable consideration is constrained. The Company determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

B) CONTRACT BALANCES**Contract Assets**

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract assets represent revenue recognized in excess of amounts billed and include unbilled receivables. Unbilled receivables, which represent an unconditional right to payment subject only to the passage of time, are reclassified to accounts receivable when they are billed under the terms of the contract.

Trade Receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in point 9 of Accounting Policies – Financial Instruments.

Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Contract liabilities include unearned revenue which represent amounts billed to clients in excess of revenue recognized to date and advances received from customers. For contracts where progress billing exceeds, the aggregate of contract costs incurred to date plus recognised profits (or minus recognised losses, as the case may be), the surplus is shown as contract liability and termed as unearned revenue. Amounts received before the related work is performed are disclosed in the balance sheet as contract liability and termed as advances received from customers.

13. Inventories

Inventory of Raw Materials, Stores and spares and land are valued at cost or net realizable value whichever is

lower. Cost includes all non-refundable taxes and expenses incurred to bring the inventory to present location. Cost is determined using weighted average method of valuation.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

14. **Borrowing costs**

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

a. Borrowing cost under Service Concession Arrangements

Borrowing costs attributable to the construction of qualifying assets under service concession arrangement classified as intangible asset, are capitalised to the date of its intended use.

Borrowing costs attributable to concession arrangement classified as financial assets are charged to Statement of Profit and Loss in the period in which such costs are incurred.

b. Other borrowing costs are charged to Statement of Profit and Loss in the period in which they are incurred.

15. **Provisions & Contingencies**

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events for which it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated as at the balance sheet date. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Other Litigation claims

Provision for litigation related obligation represents liabilities that are expected to materialise in respect of matters in appeal.

Onerous contracts

A provision for onerous contracts is measured at the

present value of the lower expected costs of terminating the contract and the expected cost of continuing with the contract. Before a provision is established, the Company recognises impairment on the assets with the contract.

Contingencies

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. Information on contingent liabilities is disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefit is remote.

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

16. **Provision for Defect liability period/Resurfacing obligations**

The Company provides for contractual obligations to periodically service, repair or rectify any defective work during the defect liability period as well as towards contractual obligations to restore the infrastructure at periodic intervals. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. The same is reviewed at each balance sheet date and adjustments if any to the carrying amount is provided for accordingly.

In case of service concession arrangements classified as financial assets, expenses recognised in the period in which such costs are actually incurred.

17. **Leases**

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i. **Right-of-use assets**

The Company recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease

liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis from the commencement date to the end of lease term.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies of Impairment of non-financial assets.

ii. Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

iii. Short term leases and leases of low value of assets

The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment. It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases

and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

18. Taxes

Income tax expense for the period is the tax payable on the current period's taxable income based on the applicable income tax rate and changes in deferred tax assets and liabilities attributable to temporary differences. The current income tax charge is calculated in accordance with the provisions of the Income Tax Act 1961.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted at the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences and brought forward losses only if it is probable that future taxable profit will be available to realise the temporary differences.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed

to be carried forward. In the year in which the Company recognizes MAT credit as an asset, it is created by way of credit to the statement of profit and loss and shown as part of deferred tax asset. The Company reviews the “MAT credit entitlement” asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

19. Employee benefits

a. Short-term obligations

All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits. These are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

b. Post-employment obligations i.e.

- Defined benefit plans and
- Defined contribution plans.

Defined benefit plans:

The employees’ gratuity fund scheme, managed by Life Insurance Corporation (LIC) is a defined benefit plan. The present value of obligation is determined based on actuarial valuation carried out as at the end of each financial year using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows. The discount rate used for determining the present value of the obligation under defined benefit plans, is based on the market yield on government securities, of a maturity period equivalent to the weighted average maturity profile of the related obligations at the Balance Sheet date.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in the statement of profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined contribution plans:

The Company’s contribution to provident fund, employee state insurance scheme, superannuation fund and National Pension Scheme (NPS) are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made and when services are rendered by the employee.

20. Interest in Joint Arrangements

As per Ind AS 111 - Joint Arrangements, investment in Joint Arrangement is classified as either Joint Operation or Joint Venture. The classification depends on the contractual rights and obligations of each investor rather than legal structure of the Joint Arrangement.

In case of Joint Operation

The Company recognises its direct right to assets, liabilities, revenue and expenses of Joint Operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings and are included in the segments to which they relate.

21. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company’s cash management.

22. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker, who regularly monitors and reviews the operating result for following operating segments of the Company:

- i. “Construction & Contract Related Activity”, includes Engineering, Procurement and Construction activity of infra projects;
- ii. “Built, Operate and Transfer (BOT)” includes Annuity to develop infra developer under BOT & Annuity
 - i. “Sale of Goods” consist mainly Sale of construction material which includes RMC and Real estate

23. Significant accounting judgments, estimates & assumptions

The preparation of the Company's financial statements requires management to make estimates and assumptions that affect the reported values of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions.

The key assumptions concerning future and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Significant Estimates in Application of Ind AS 115

The Company applied the following estimates that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Project revenue and costs

The percentage-of-completion method places considerable importance on accurate estimates of the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenue, contract risks, including technical, political and regulatory risks, and other judgement. The Company re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

Determining method to estimate variable consideration and assessing the constraint

Before including any amount of variable consideration in the transaction price, the Company considers whether the amount of variable consideration is constrained. The Company determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

Other Significant Accounting judgements, estimates and assumptions

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

Significant management judgment is required to determine the amount of deferred tax assets (including MAT credit) that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Employee benefit plans

The cost of defined benefit gratuity plan and other post-employment benefits are determined using actuarial valuations.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

Further details about gratuity obligations are given in Note 47.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flows (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Impairment of financial assets

The impairment provision for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Impairment of subsidiaries and associates

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget generally covering a period of the concession agreements using long terms growth rates and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Allowance for uncollectible trade receivables

Trade receivables do not carry interest and are stated at their nominal values as reduced by appropriate allowances for estimated irrecoverable amounts. Estimated irrecoverable amounts are based on the aging of the receivable balances and historical experiences. Individual trade receivables are written off when management deems them not be collectible.

24. Transition to Ind AS 116 Leases

The Ministry of Corporate Affairs ("MCA") through the Companies (Indian Accounting Standards) Amendment Rules, 2019 has notified Ind AS 116 Leases ('Ind AS 116') which replaces the existing lease standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for recognition, measurement, presentation and disclosure of leases for both lessees and lessors.

Effective April 1, 2019, the Company has adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on the date of initial application i.e. April 1, 2019. The Company has used the modified retrospective approach for transitioning to Ind AS 116 with right-of-use asset recognized at an amount equal to the lease liability. Accordingly, comparatives for the year ended March 31, 2019 have not been retrospectively adjusted.

The above approach has resulted in a recognition of a right-of-use asset of Rs.1,979.94 Lakhs and a lease liability of Rs.1,887.48 Lakhs on the date of initial application, including right-of-use asset amounting to Rs.92.46 Lakhs which were recognized as finance lease asset under erstwhile lease standard. The Impact on the profit for the year ended is not material.

Further details about Leases are given in Note 46.

- 1) Trade receivables are non interest bearing and are generally on terms of 30 to 90 days in case if sale of products and in case of long term construction contracts, payment is generally due upon completion of milestone as per terms on contract. In certain contracts, advances are received before the performance obligation is satisfied
- 2) The Company applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on trade receivables and contract assets. The Company follows the simplified approach for recognition of impairment allowance on trade receivables and contract assets. The application of the simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment allowance based on lifetime ECLs at each reporting date. ECL impairment loss allowance (or reversal) recognized during the period is recognized in the Statement of Profit and Loss. The amount is reflected under the head "Other expenses" in the Statement of Profit and Loss.

3) Movement in impairment allowances on trade receivables (non current and current) and contract assets

Nature and purpose of Reserves**Securities Premium :**

Securities Premium is used to record the premium on issue of shares and utilised in accordance with the provisions of the Companies Act, 2013.

General Reserve :

General Reserve is used from time to time to transfer profits from Retained Earnings for appropriation purposes. As the General Reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in General Reserve will not be reclassified subsequently to Statement of Profit and Loss.

Debenture Redemption Reserve :

The Company had created a Debenture Redemption Reserve at the time of issue of Non Convertible Debentures out of the profits which are available for payment of dividend to be utilised for Redemption of these Debentures. During the current year, the Company has redeemed all the outstanding Non Convertible Debentures, and transferred the balance of Debenture Redemption Reserve to the General Reserve.

Retained Earning :

Retained Earnings are the profits of the Company earned till date net of appropriation

Note 41 : Capital management

The primary objective of the Company's capital management is to maximise the shareholder value. For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company.

Debt is defined as long-term borrowings, current maturities of long-term borrowings, short-term borrowings and interest accrued thereon (excluding financial guarantee contracts).

Capital includes equity attributable to the equity holders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the year ended March 31, 2020 and March 31, 2019.

Note 44 : Financial risk management objectives and policies

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company has exposure to the following risks arising from financial instruments:

- (A) Credit risk:
 (B) Liquidity risk: and
 (C) Market risk:

(A) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances.

The Company's customer profile include public sector enterprises, state owned companies, group entities, individual and corporates customer. General payment terms include mobilisation advance, monthly progress payments with a credit period ranging from 45 to 90 days and certain retention money to be released at the end of the project. In some cases retentions are substituted with bank/corporate guarantees. The Company has a detailed review mechanism of overdue customer receivables at various levels within organisation to ensure proper attention and focus for realisation.

Credit risk on trade receivables and unbilled work-in-progress is limited as the customers of the Company mainly consists of the government promoted entities having a strong credit worthiness. The provision matrix takes into account available external and internal credit risk factors such as companies historical experience for customers.

(B) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of committed credit lines. Management regularly monitors the position of cash and cash equivalents vis-à-vis projections. Assessment of maturity profiles of financial assets and financial liabilities including debt financing plans and maintenance of Balance Sheet liquidity ratios are considered while reviewing the liquidity position.

The Company's maximum exposure relating to financial guarantees and financial instruments is noted in Note 20, 21, 22, 26, 27 & 28 and the liquidity table below:

Note 46 : Leases**Disclosures pursuant to Ind AS 116 "Leases"**

Effective April 1, 2019, the Company has adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on the date of initial application i.e. April 1, 2019. The Company has used the modified retrospective approach for transitioning to Ind AS 116 with right-of-use asset recognized at an amount equal to the lease liability adjusted for any prepayments/accruals

recognised in the Balance Sheet as on March 31, 2019. Accordingly, comparatives for the year ended March 31, 2019 have not been retrospectively adjusted. There is no impact on retained earnings as on April 1, 2019.

The Company also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relied on its assessment of whether leases are onerous immediately before the date of initial application
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months of the date of initial application
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease
- Applied the standard only to contracts that were previously identified as leases applying Ind AS 17 at the date of initial application.

The Company has lease contracts for various items of plant, machinery, land, building, vehicles and other equipment used in its operations. Leases of land generally have lease terms between 1 to 80 years, while Building, Plant and machinery, motor vehicles and other equipment generally have lease terms between 1 and 5 years. Generally, the Company is restricted from assigning and subleasing the leased assets.

The Company has elected not to apply the requirements of Ind AS 116 to short term leases of all the assets that have a lease term of twelve months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight line basis over the lease term.

The Company had total cash outflows for leases of ₹ 1,135.69 Lakhs for the year ended March 31, 2020.

Refer Note 2A for additions to right-of-use assets and the carrying amount of right-of-use assets as at March 31, 2020.

The effective interest rate for lease liabilities is 10%,

The maturity analysis of lease liabilities are disclosed in Note 44(b).

Note 56: Assessments of Ashoka Buildcon Limited for Assessment Year 2011-12 to Assessment Year 2017-18 were re-opened/taken-up by the Income Tax Department, consequent upon the search action dated April 5, 2016, against the Company. These assessments were completed on December 31, 2018. In these assessments, Income Tax Authorities have made certain additions. Accordingly, the Company is in appeal against the said dis-allowances and has challenged such dis-allowances before the first appellate authority. The appeal before the first appellate authority is pending and the Company has made the necessary submissions to the Income Tax Authorities. Hearings are in progress and outcome of appeal is not yet decided.

Note 57: Ashoka Concessions Limited (ACL), a subsidiary company, had issued Compulsorily Convertible Debentures (CCD) to its investors and to the Company (Parent) which has been classified as equity instrument in the separate financial statements of ACL. The Company has agreed additional terms with the investors and assumed obligations towards investors which would be settled through the some portion of equity shares to be received from ACL on conversion of CCDs held by parent Company. Accordingly the said obligations has been recognised at its fair value as at March 31, 2020 and March 31, 2019 amounting to ₹ 20,740 Lakhs, and ₹ 18,990 Lakhs respectively.

Note 58: GVR Infra Projects Limited (GVR), one of the customers and joint venture partner for certain road annuity project, had been admitted for insolvency petition by National Company Law Tribunal (NCLT) under Insolvency and Bankruptcy Code, 2016 (IBC). The Company's receivable from GVR included Trade debtors (net) – ₹ 3,448 Lakhs and Loans Receivable - ₹ 2,503 Lakhs. The insolvency proceedings are ongoing and the outcome would be determined on completion of the proceedings. Considering the uncertainties involved in the outcome of IBC proceedings, the Company had charged to the Statement of Profit & Loss for the year ended March 31, 2019, an amount of ₹ 4,702.34 Lakhs and disclosed it as an exceptional item and the balance amount of ₹ 1,248.95 Lakhs, has been charged to the Statement of Profit & Loss for the year ended March 31, 2020.

Note 59: COVID Impact

The outbreak of coronavirus (COVID-19) pandemic, globally and in India, is causing significant disturbance and slowdown of economic activity. Execution of EPC contracts undertaken by the Company were temporarily suspended during nationwide lockdown. Business operations were resumed in a phased manner in line with directives from the Authorities.

The Company has considered internal and external sources of information up to the date of approval of these standalone financial statements, in assessing the recoverability of its investments in and loans given to subsidiaries, liquidity, financial position and operations of the Company including impact on estimated construction cost to be incurred towards projects under execution and based on the management's assessment, there is no material impact on the standalone financial statements of the Company.

Considering the uncertainties involved in estimating the impact of this pandemic, the future impact of this pandemic may be different from those estimated as on the date of approval of these standalone financial statements.

Note 60: Events after reporting period

No subsequent events have been observed which may require an adjustment to the Balance Sheet.

Note 61: Previous year comparatives

Previous year's figures have been regrouped/reclassified, wherever necessary, to conform to current year classification.

As per our report of even date attached.

Independent Auditor's Report to The Members of Ashoka Buildcon Limited

INDEPENDENT AUDITOR'S REPORT

To the Members of Ashoka Buildcon Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying consolidated Ind AS financial statements of Ashoka Buildcon Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") its associate and joint ventures comprising of the consolidated Balance sheet as at March 31 2020, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, associate and joint ventures, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associate and joint ventures as at March 31, 2020, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements' section of our report. We are independent of the Group, associate, joint ventures in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Emphasis of Matter

We draw attention to Note 66 of the consolidated Ind AS financial Statements, which describes the management

assessment of uncertainties related to COVID-19 and its consequential financial impact on its assets as at March 31, 2020 and operations of the Group. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements for the financial year ended March 31, 2020. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated Ind AS financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
Revenue recognition for long term construction contracts (as described in note 37(A) of the consolidated Ind AS financial statements)	
<p>The Group's significant portion of business is undertaken through long term construction contracts. Revenue from these contracts is recognized over a period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers.</p> <p>Due to the nature of the contracts, revenue recognition involves usage of percentage of completion method which is determined based on proportion of contract costs incurred to date compared to estimated total contract costs, which involves significant judgments, identification of contractual obligations and the Group's rights to receive</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • Read the Group's revenue recognition accounting policies and assessed compliance with the policies in terms of Ind AS 115; • We performed test of controls over revenue recognition with specific focus on determination of progress of completion, recording of costs incurred and estimation of costs to complete the remaining contract obligations through inspection of evidence of performance of these controls;

Key audit matters	How our audit addressed the key audit matter
<p>Impairment of Licenses to collect toll (intangible assets) (as described in note 03 and 61 of the consolidated Ind AS financial statements)</p> <p>As of March 31, 2020, the Group had recognized INR 7,26,059.55 lakhs of Licenses to Collect toll of road infrastructure projects, relating to those made by infrastructure concession operators within the scope of Appendix C of Ind AS 115, Service Concession Arrangements.</p> <p>As per requirement of Ind AS 36 “Impairment of assets”, the management regularly reviews whether there are any indicators of impairment of Licenses to Collect toll of road infrastructure projects and where impairment indicators exist, the management estimates the recoverable amounts of the assets, being higher of fair value less costs of disposal and value in use.</p> <p>The value in use of the underlying businesses is determined based on the discounted cash flow projections. Significant judgements are required to determine the key assumptions used in the discounted cash flow models, such as toll revenue, major maintenance expenditure and discount rates based on management’s view of future business prospects including any possible impact arising out of the pandemic on these estimates.</p> <p>Accordingly, the impairment of the “Licenses to Collect Toll” was determined to be a key audit matter in our audit of the Consolidated Ind AS financial statements.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • Assessed the Group’s accounting policies with respect to impairment in accordance with Ind AS 36 “Impairment of assets”; • We performed the test of control over the management assessment of impairment indicators of Licenses to Collect toll of road infrastructure projects and where impairment indicators exist, the control over the management estimate for the recoverability of these assets; • We performed following test of Details • We have obtained management’s impairment assessment; • We assessed the assumptions around the key drivers of the cash flow forecasts including toll revenue, major maintenance expenditure and discount rates; • We discussed potential changes in key drivers as compared to previous year / actual performance with management in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable; • With the support of internal valuation specialist, we assessed the appropriateness of the valuation methodology and the reasonableness of the key assumptions adopted in the cash flow forecasts for select assets; and • We obtained and analysed sensitivity analysis on the assumptions used by the management including scenarios built into these models for varied potential impact on account of pandemic.

Key audit matters	How our audit addressed the key audit matter
<p>Disputed Tax Matters (as described in note 54 (d) of the consolidated Ind AS financial statements)</p> <p>The Group has disclosed disputed tax matters of ₹ 16,489.76 lakhs in Note 54(d) of the Consolidated Financial Statements. Tax litigation exposures have been identified as a key audit matter due to:</p> <ul style="list-style-type: none"> • Significance of these amounts; • Significant judgement and assumptions required by management in assessing the exposure of each case to evaluate whether there is a need to set up a provision and measurement of exposures as well as the disclosure of contingent liabilities; <p>We focused on this matter because of the potential financial impact on the financial statements. Additionally, the treatment of tax litigation requires significant judgement due to the complexity of the cases and, timescales for resolution.</p>	<ul style="list-style-type: none"> • We have assessed the adequacy of the disclosures in accordance with Ind AS 36 “Impairment of assets” <p>Our audit procedures include the following:</p> <ul style="list-style-type: none"> • Obtained understanding and assessed the internal control environment relating to the identification, recognition and measurement of provisions for disputed tax matters; • Obtained the summary of disputed tax matters from management and assessed management’s position through discussions on both the probability of success in significant cases, and the magnitude of any potential loss; • Read evidence to corroborate management’s assessment of the risk profile in respect of tax disputed matters; • We verified additional documents submitted by the Group during the year to the tax authorities in support of the response to the income tax assessment orders under section 153A for the financial years 2010-11 to 2016-17; • We involved our tax specialists to assist us in evaluating tax positions taken by the management; • We assessed the disclosures relating to the disputed tax matters as mentioned in Note 54(d) of the Standalone Ind AS financial statements.

Other Information

The Holding Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated Ind AS financial statements and our auditor’s report thereon.

Independent Auditor's Report to the Members of Ashoka Buildcon Limited

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its associate and joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its associate and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and of its associate and joint ventures and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and of its associate and joint ventures are responsible for assessing the ability of the Group and of its associate and joint ventures to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its associate and joint ventures are also re-

sponsible for overseeing the financial reporting process of the Group and of its associate and joint ventures.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate and joint

Independent Auditor's Report to the Members of Ashoka Buildcon Limited

ventures to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate and joint ventures of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements for the financial year ended March 31, 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements and other financial information, in respect of 29 subsidiaries, whose Ind AS financial statements include total assets of ₹ 4,00,027.49 lakhs as at March 31, 2020, and total revenues of ₹ 2,06,890.76 lakhs and net cash inflows of ₹ 10,936.06 lakhs for the year ended on that date. These Ind AS financial statement and other financial

information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion, in so far as it relates amounts and disclosures included in respect of these joint ventures, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid joint ventures, is based solely on such unaudited financial statements and other unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements and other financial information are not material to the Group.

Our opinion above on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, associate and joint ventures, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

ANNEXURE I TO THE INDEPENDENT AUDITORS' REPORT

ANNEXURE I TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF ASHOKA BUILDCON LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Ashoka Buildcon Limited as of and for the year ended March 31, 2020, we have audited the internal financial controls over financial reporting of Ashoka Buildcon Limited (hereinafter referred to as the "Holding Company") and its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on, "the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these consolidated financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Financial Statements

A company's internal financial control over financial reporting with reference to these consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these consolidated financial statements to future periods are subject to

ANNEXURE I TO THE INDEPEDENT AUDITORS' REPORT

the risk that the internal financial control over financial reporting with reference to these consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls over financial reporting with reference to these consolidated financial statements and such internal financial controls over financial reporting with reference to these consolidated financial statements were operating effectively as at March 31, 2020, based on “the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated financial statements insofar as it relates to these 30 subsidiary companies,

1 associate companies and 5 joint ventures, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

We also have audited, in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India as specified under section 143(10) of the Act, the consolidated financial statements of the Holding Company, which comprise the Consolidated Balance Sheet as at March 31, 2020, and the Consolidated Statement of Profit and Loss and Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information, and our report dated June 15, 2020 expressed an unqualified opinion on those financial statements.

The Company has promoted Special Purpose Vehicles (SPVs) for some of its projects, wherein 'Toll Collection Rights' are received in exchange of the Construction Cost. For this, the SPVs significantly engage the services of the Company for contract related activities due to inherent execution capabilities / expertise and experience of the Company.

The financial statements were approved for issue by The Board of Directors on June 15, 2020.

B. Significant Accounting Policies

a) Basis of preparation

The consolidated financial statements of the group have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013 (as amended from time to time).

These financial statements include Balance sheet, Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash flows and notes, comprising a summary of significant accounting policies and other explanatory information and comparative information in respect of the preceding period.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Derivative financial instruments,
- Certain other financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments).

b) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at March 31, 2020. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

In certain subsidiaries, the company shareholders have entered into an agreement to subscribe to the equity shares of those subsidiaries in a predetermined ratio. As a result, the Company's share of Net Worth in these subsidiaries which was in excess of its investment is added to "NCI Reserve" under Reserves and Surplus.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31, 2020.

Consolidation Procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- The Build, Operate and Transfer (BOT) contracts are governed by service concession agreements with government authorities (grantors). These contracts are executed through special purpose vehicles (SPV) incorporated for this purpose. Under these agreements, the SPV's (operator

does not own the road, but gets "Toll Collection Rights" or "Receivable under service concession arrangements" against Construction Services rendered. As per the principals of Appendix C – "Service Concession Arrangements" to Ind AS 115, such rights have been recognized as either intangible assets or financial assets in the financial statements of the SPV basis type of rights gets. Since the construction revenue earned by the operator is considered as exchanged with the grantor against toll collection rights, profit from such contracts is considered as realised. Accordingly, where work are sub-contracted to the Parent and/or fellow subsidiaries/ associates the intra group transactions pertaining to the BOT contracts and the profits thereon are taken as realized and not eliminated.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

c) Summary of Significant Accounting Policies

1. Business Combinations and Goodwill

In accordance with Ind AS 101 provisions related to first time adoption, the Group has elected to apply Ind AS accounting for business combinations prospectively from April 01, 2015. As such, previous GAAP balances relating to business combinations entered into before that date, including goodwill, have been carried forward. The same first time adoption exemption is also used for associates and joint ventures.

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and

Discontinued Operations are measured in accordance with that standard.

- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Business combinations arising from transfers of interests in entities that are under the common control are accounted at pooling of interest method. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

Goodwill on consolidation as on the date of transition represents the excess of cost of acquisition at each point of time of making the investment in the subsidiary over the Group's share in the net worth of a subsidiary. For this purpose, the Group's share of net worth is determined on the basis of the latest financial statements, prior to the acquisition, after making necessary adjustments for material events between the date of such financial statements and the date of respective acquisition. Capital reserve on consolidation represents excess of the Group's share in the net worth of a subsidiary over the cost of acquisition at each point of time of making the investment in the subsidiary. Goodwill arising on consolidation is not amortised, however, it is tested for impairment annually. In the event of cessation of operations of a subsidiary, the unimpaired goodwill is written off fully.

2. Investment in Joint Ventures

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining whether significant

influence or joint control are similar to those necessary to determine control over the subsidiaries. The Group's investments in its joint venture is accounted for using the equity method. Under the equity method, the investment in a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the joint venture since the acquisition date. Goodwill relating to the joint venture is included in the carrying amount of the investment and is not tested for impairment individually. The statement of profit and loss reflects the Group's share of the results of operations of the joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. If an entity's share of losses of the joint venture equals or exceeds its interest in the joint venture, the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture. If the joint venture subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised. The aggregate of the Group's share of profit or loss of a joint venture is shown on the face of the statement of profit and loss. The financial statements of the joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group. After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in the joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the joint venture and its carrying value, and then recognises the loss as 'Share of profit of joint venture' in the statement of profit or loss.

3. Presentation of consolidated financial statements

The consolidated financial statements of the Group (except for Statement of Cash Flow) are prepared and presented in the format prescribed in Division II – Ind AS Schedule III ("Schedule III") to the Companies Act, 2013.

The Statement of Cash Flow has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash flows".

Amounts in the financial statements are presented in INR (Indian National Rupees) in Lakhs in as per the requirements of Schedule III. "Per share" data is presented in INR upto two decimals places.

4. Current versus Non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred Tax

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating Cycle

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

5. Fair Value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities that entity can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

6. Foreign Currency

• Functional and presentation currency

The financial statements of the Group are presented using Indian National Rupee (₹), which is also our functional currency i.e. currency of the primary economic environment in which the Group operates.

• Transactions and balances

Foreign currency transactions are translated into the respective functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

7. Property, Plant and Equipment (PPE)

PPE is recognized when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All items of PPE are stated at cost net of tax/duty credits availed, if any, less accumulated depreciation and cumulative impairment. Cost includes expenditure that is directly attributable to the acquisition and installation of such assets if any. Subsequent expenditure relating to Property, Plant and Equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred.

Items such as spare parts and servicing equipment are recognised as PPE if they meet the definition of property, plant and equipment and are expected to be used for more than one year. All other items of spares and servicing equipments are classified as item of Inventories.

PPE not ready for the intended use on the date of the Balance Sheet is disclosed as "Capital Work-In-Progress" and carried at cost, comprising of directly attributable costs and related incidental expenses.

Decommissioning cost, if any, on Property Plant and Equipment are estimated at their present value and capitalized as part of such assets.

Depreciation methods, estimated useful lives and residual value

Depreciation has been provided on the written down value method, as per the useful lives specified in schedule II to the Companies Act, 2013, or in the case of assets where the useful life was determined by technical evaluation carried out by the management's expert, in order to reflect the actual usage of the assets. The asset's useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period. The useful lives of PPE are as under:

Type of Asset with Useful Life

Sr. No.	Category of assets	Sub-category of assets	Useful life as per schedule II	Useful life adopted by the Group
1	Plant and equipment	Concreting, Crushing, Pilling Equipment & Road Making Equipment	12	10
		Cranes with capacity of More than 100 Tonne	20	20
		Cranes with capacity of Less than 100 Tonne	15	15
		Material Handling/Pipeline/Welding	12	9
		Earth Moving equipment	9	9
		Mother Compressor, Online & booster compressor	10	10
		Plant & Machinery other than Compressors and Pipeline (CGS, Dispensers, Skids, Firefighting equipment)	15	15
		Cascades	20	20
		Pipeline (MDPE and Steel)	25	25
2	Office and equipment	Office and equipment	5	5
3	Computers and data processing equipment	End user devices	3	3
		Server	6	3
4	Furniture and Fixture / Signages	Furniture and Fixture / Signages	10	10
5	Vehicle	Motor buses, motor lorries and motor cars other than those used in a business of running them on hire	8	8
		Motor cycles, scooter and other mopeds	10	10
6	Buildings	Buildings other than factory building	60	60
		Temporary/Portable structure	3	3
7	General Laboratory Equipment		10	3
8	Plant & Equipment	Centering materials are depreciated on a Straight Line Basis over Useful life which has been defined as Four Years		

The Group, based on assessment made by technical expert and management estimate, depreciates certain items of building, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

8. Intangible assets

- Intangible Assets Under Service Concession Arrangements (Appendix A of “Ind AS 115 – Revenue from Contracts with Customers)

In respect of Public to Private Arrangements (PPA), on a Built-Operate-Transfer (BOT) basis, Intangible Assets i.e. Right to collect toll/tariff are recognised when the Company has been granted rights to charge a toll/tariff from the users of such public services and such rights do not confer an unconditional right on the Company to receive cash or another Financial Asset and when it is probable that future economic benefits associated with the rights will flow to the Company and the cost of the asset can be measured reliably.

The Group constructs or upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure (operation services) for a specified period of time. These arrangements may include infrastructure used in a public-to-private service concession arrangement for its entire useful life.

Under the Concession Agreements, where the Group has received the right to charge users of the public service, such rights are recognised and classified as “Intangible Assets” in accordance with Appendix C-‘Service Concession Arrangements’ of Ind AS 115- ‘Revenue from Contracts with Customers’. Such right is not an unconditional right to receive consideration because the amounts are contingent to the extent that the public uses the service. The asset is recognised by the Group at cost (which is the fair value of the consideration received or receivable for the construction services delivered) and is

capitalized when the project is complete in all respects and when the subsidiary companies receives the completion certificate from the authority as specified in the Concession Agreement.

An asset carried under concession arrangements is derecognised on disposal or when no future economic benefits are expected from its future use or disposal.

Service Concession Arrangements that meet the definition of an Intangible Asset are recognised at cumulative construction cost, including related margins. Till completion of construction of the project, such arrangements are recognised as “Intangible Assets Under Development” and are recognised at cumulative construction cost, including related margins.

- Premium Capitalization

Under some of the concession agreements, the Group has contractual obligation to pay premium (concession fees) to National Highway Authority of India (“NHAI”), Grantor, over the concession period. Such obligation has been recognised on a discounted basis as ‘Intangible assets – License to Toll Collection’ and corresponding obligation for committed premium is recognised as liabilities.

- Other Intangible assets

Intangible assets are recognized when it is probable that future economic benefits attributable to the assets will flow to the Group and the cost of the asset can be measured reliably. Such Intangible Assets acquired by the Group are measured at cost less accumulated amortisation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition and installation of such assets.

Amortisation

The intangible rights which are recognised in the form of right to charge users of the infrastructure asset are amortized by taking proportionate of actual revenue received for the year over Total Projected Revenue from project to Cost of Intangible assets i.e. proportionate of actual revenue earned for the year over Total Projected Revenue from the Intangible assets expected to be earned over the balance concession period as estimated by the management.

As required, total Projected Revenue reviewed by the management at the end of the each financial year and accordingly, the total projected revenue is adjusted to reflect any changes in the estimates which lead to the actual collection at the end of the concession period.

Right to collect tariff on Hydro project is amortised on a Straight Line basis over the concession period.

Amortisation on Software has been provided on the written

down value method, as per the useful lives specified in Schedule II to the Companies Act, 2013.

9. Impairment of Non-Financial Assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset’s fair value less costs of disposal and value in use

10. Non-current assets held for sale

The Group classifies non-current assets and disposal groups as ‘Held For Sale’ if their carrying amounts will be recovered principally through a sale rather than through continuing use and sale is highly probable i.e. actions required to complete the sale indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn.

Non-current assets held for sale and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised.

11. Financial instruments

Initial Recognition

Financial instruments i.e. Financial Assets and Financial Liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments. Financial instruments are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial instruments (other than financial instruments at fair value through profit or loss) are added to or deducted from the fair value of the financial instruments, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial instruments assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

Financial Assets

Subsequent Measurement

All recognised financial assets are subsequently measured at amortized cost using effective interest method except for financial assets carried at fair value through Profit and Loss (FVTPL) or fair value through other comprehensive income (FVOCI).

- Equity investments in Subsidiaries and Joint Venture

The Group accounts for the investment in subsidiaries and joint ventures and other equity investments in subsidiary companies at cost in accordance with Ind

AS 27 - 'Separate Financial Statements'.

Investment in Compulsory Convertible Debentures of subsidiary company is treated as equity investments, since they are convertible into equity shares of subsidiary.

Investments in debt instruments issued by subsidiary company are classified as "Other Equity Investments" if they meet the definition of equity.

Investment made by way of Financial Guarantee contracts in subsidiary, associate and joint venture companies are initially recognised at fair value of the Guarantee. They are not re-measured subsequently.

- Equity investments (other than investments in subsidiaries and joint venture)

All equity investments falling within the scope of Ind-AS 109 are mandatorily measured at Fair Value through Profit and Loss (FVTPL) with all fair value changes recognized in the Statement of Profit and Loss.

The Group has an irrevocable option of designating certain equity instruments as FVOCI. Option of designating instruments as FVOCI is done on an instrument-by-instrument basis. The classification made on initial recognition is irrevocable.

If the Group decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument are recognized in Statement of Other Comprehensive Income (SOI). Amounts from SOI are not subsequently transferred to profit and loss, even on sale of investment.

- Investment in preference shares

Investment in preference shares are classified as debt instruments and carried at Amortised cost if they are not convertible into equity instruments and are not held to collect contractual cash flows. Other Investment in preference shares which are classified as Debt instruments are carried at FVTPL.

Investment in convertible preference shares of subsidiaries and Joint Venture companies are treated as equity instruments and carried at cost. Other Investment in convertible preference shares which are classified as equity instruments are mandatorily carried at FVTPL.

- Financial Assets Under Service Concession Arrangements (Appendix C of "Ind AS 115 – Revenue from Contracts with Customers")

The Group constructs or upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure (operation services) for a specified

period of time. These arrangements may include infrastructure used in a public-to-private service concession arrangement for its entire useful life.

The Group recognises the considerations given by the grantor i.e. National Highway Authority of India ('NHAI') in accordance with Appendix C- 'Service Concession Arrangements' of Ind AS 115- 'Revenue from Contracts with Customers'. The Group recognises a financial asset to the extent that it has an unconditional contractual right to receive cash or another financial asset from or at the direction of the grantor of the contract for the construction services; the grantor has little, if any, discretion to avoid payment, usually because the agreement is enforceable by law.

- De-recognition

A financial asset is primarily derecognized when the rights to receive cash flows from the asset have expired, or the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and with that a) the Group has transferred substantially all the risks and rewards of the asset, or b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

- Impairment of financial assets

The Group assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Group recognises lifetime expected losses for all trade receivables and/or contract assets that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Financial Liabilities

Classification

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Subsequent measurement

Loans and borrowings are subsequently measured at amortised cost using Effective Interest Rate (EIR), except for financial liabilities at fair value through profit or loss. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that

are an integral part of the EIR. Amortisation arising on unwinding of the financial liabilities as per EIR is included as a part of Finance Costs in the Statement of Profit and Loss.

Financial liabilities recognised at FVTPL, including derivatives, are subsequently measured at fair value.

- **Compound financial instruments**

Compound financial instruments issued by the Group is an instrument which creates a financial liability on the issuer and which can be converted into fixed number of equity shares at the option of the holders.

Such instruments are initially recognised by separately accounting the liability and the equity components. The liability component is initially recognised at the fair value of a comparable liability that does not have an equity conversion option. The equity component is initially recognised as the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. The directly attributable transaction costs are allocated to the liability and the equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of the compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not re-measured subsequently.

- **Financial guarantee contracts**

Financial guarantee contracts are initially recognised as a liability at fair value. The liability is subsequently measured at carrying amount less amortization or amount of loss allowance determined as per impairment requirements of Ind AS 109, whichever is higher. Amortisation is recognised as finance income in the Statement of Profit and Loss.

- **De-recognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Re-classification of financial instruments

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no

reclassification is made for financial assets, such as equity instruments designated at FVTPL or FVOCI and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets.

12. Cash dividend and non-cash distribution to equity holders

The Group recognises a liability to make cash or non-cash distributions to its equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

Dividends paid/payable are recognised in the year in which the related dividends are approved by the Shareholders or Board of Directors as appropriate.

13. Earnings per share

The Group's Earnings per Share ('EPS') is determined based on the net profit attributable to the shareholders' of the Group.

Basic earnings per share is calculated by dividing the profit from continuing operations and total profit, both attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share is computed using the weighted average number of common and dilutive shares outstanding during the year including share based payments, except where the result would be anti-dilutive.

14. Revenue recognition

A) Revenue

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, except for the agency services below, because it typically controls the goods or services before transferring them to the customer.

- **Revenue Recognition under Service Concession Arrangements**

In case of entities involved in construction and maintenance of Roads, revenue are recognised in line with the Appendix C to Ind AS 115 – Revenue from Contracts with Customers. The revenue is recognized in the period of collection which generally coincide as and when the traffic passes through toll plazas.

- **Revenue from construction contracts.**

Performance obligation in case of long - term construction contracts satisfied over a period of time, since the Group creates an asset that the customer controls as the asset is created and the Group has an enforceable right to payment for performance completed to date if it meets the agreed specifications.

Revenue from long term construction contracts, where the outcome can be estimated reliably and 5% of the project cost is incurred, is recognized under the percentage of completion method by reference to the stage of completion of the contract activity.

The stage of completion is measured by input method i.e. the proportion that costs incurred to date bear to the estimated total costs of a contract. The percentage-of-completion method (an input method) is the most faithful depiction of the Group's performance because it directly measures the value of the services transferred to the customer.

The total costs of contracts are estimated based on technical and other estimates. In the event that a loss is anticipated on a particular contract, provision is made for the estimated loss. Contract revenue earned in excess of billing is reflected under as "contract asset" and billing in excess of contract revenue is reflected under "contract liabilities".

Retention money receivable from project customers does not contain any significant financing element, these are retained for satisfactory performance of contract.

In case of long - term construction contracts payment is generally due upon completion of milestone as per terms of contract. In certain contracts, short-term advances are received before the performance obligation is satisfied.

The major component of contract estimate is "budgeted cost to complete the contract" and on assumption that contract price will not reduce

vis-à-vis agreement values. While estimating the various assumptions are considered by management such as:

- Work will be executed in the manner expected so that the project is completed timely;
- Consumption norms will remain same;
- Cost escalation comprising of increase in cost to complete the project are considered as a part of budgeted cost to complete the project etc.

Due to technical complexities involved in the budgeting process, contract estimates are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

- **Service contracts.**

For service contracts (including maintenance contracts) in which the Group has the right to consideration from the customer in an amount that corresponds directly with the value to the customer of the Group's performance completed to date, revenue is recognized when services are performed and contractually billable. For all other service contracts, the Group recognizes revenue over time using the cost-to-cost percentage-of-completion method. Service contracts that include multiple performance obligations are segmented between types of services. For contracts with multiple performance obligations, the Group allocates the transaction price to each performance obligation using an estimate of the stand-alone selling price of each distinct service in the contract.

When it is probable that total contract costs will exceed total contract revenue, expected loss, if any, on a contract is recognised as expense in the period in which it is foreseen, irrespective of the stage of completion of the contract.

- **Variable consideration.**

The nature of the Group's contracts gives rise to several types of variable consideration, including claims and unpriced change orders; award and incentive fees; change in law; and liquidated damages and penalties. The Group recognizes revenue for variable consideration when it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. The Group estimates the amount of revenue to be recognized on variable consideration using the expected value (i.e., the sum of a probability-weighted amount) or the most likely amount

method, whichever is expected to better predict the amount.

The Group's claim for extra work, incentives and escalation in rates relating to execution of contracts are recognized as revenue in the year in which said claims are finally accepted by the clients. Claims under arbitration/disputes are accounted as income based on final award. Expenses on arbitration are accounted as incurred.

Before including any amount of variable consideration in the transaction price, the Group considers whether the amount of variable consideration is constrained. The Group determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

- **Warranties Obligation.**

The Company provides for contractual obligations to periodically service, repair or rectify any defective work during the defect liability period as well as towards contractual obligations to restore the infrastructure at periodic intervals. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognized as finance cost. The same is reviewed at each balance sheet date and adjustments if any to the carrying amount is provided for accordingly.

In case of service concession arrangement classified as financial assets, expenses recognized in the period in which such costs are actually incurred.

- **Annuity Income under Service Concession Arrangements**

Revenue from annuity based projects is recognised in the Statement of Profit and Loss over the concession period of the respective projects based on the implicit rate of return embedded in the projected cash flows. Such income is duly adjusted for any variation in the amount and timing of the cash flows in the period in which such variation occurs.

- **Sale of Goods**

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods.

Sale of Natural Gas is recognized on supply of gas to customers by metered/assessed measurements as no significant uncertainty exists regarding the measurability or collectability of the sale consideration. Revenue on sale of Compressed Natural Gas (CNG) is recognized on sale of gas to consumers from retail outlets.

- Income from share of profit/loss in partnership firm / Limited liability partnerships is recognised only when the profit/income is ascertained and there is certainty as to amount of income.
- Interest income is recognized on a time proportion basis, by reference to the principal outstanding and the applicable EIR.
- Dividend is recognised when the Group's right to receive the payment is established.

B) Contract Balances

Contract Assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract assets represent revenue recognized in excess of amounts billed and include unbilled receivables. Unbilled receivables, which represent an unconditional right to payment subject only to the passage of time, are reclassified to accounts receivable when they are billed under the terms of the contract.

Trade Receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in point 11 of Accounting Policies – Financial Instruments.

Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the

customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Contract liabilities includes unearned revenue which represent amounts billed to clients in excess of revenue recognized to date and advances received from customers. For contracts where progress billing exceeds, the aggregate of contract costs incurred to date plus recognised profits (or minus recognised losses, as the case may be), the surplus is shown as contract liability and termed as unearned revenue. Amounts received before the related work is performed are disclosed in the balance sheet as contract liability and termed as advances received from customers.

15. Inventories

Inventory of Raw Materials, Stores and spares and land are valued at cost or net realizable value whichever is lower. Cost includes all non-refundable taxes and expenses incurred to bring the inventory to present location. Cost is determined using weighted average method of valuation.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

16. Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

- Borrowing cost under Service Concession Arrangements

Borrowing costs attributable to the construction of qualifying assets under service concession arrangement classified as intangible asset, are capitalised to the date of its intended use.

Borrowing costs attributable to concession arrangement classified as financial assets are charged to Statement of Profit and Loss in the period in which such costs are incurred.

- Other borrowing costs are charged to Statement of Profit and Loss in the period in which they are incurred.

17. Provisions & Contingencies

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events for which it is probable that an outflow of resources will

be required to settle the obligation and the amount can be reliably estimated as at the balance sheet date. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Other Litigation claims

Provision for litigation related obligation represents liabilities that are expected to materialise in respect of matters in appeal.

Onerous contracts

A provision for onerous contracts is measured at the present value of the lower expected costs of terminating the contract and the expected cost of continuing with the contract. Before a provision is established, the Group recognises impairment on the assets with the contract.

Contingencies

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. Information on contingent liabilities is disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefit is remote.

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

18. Provision for Defect Liability Period (DLP) / Resurfacing obligations

The Group provides for contractual obligations to periodically service, repair or rectify any defective work during the defect liability period as well as towards contractual obligations to restore the infrastructure at periodic intervals. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. The same is reviewed at each balance sheet date and adjustments if any to the carrying amount is provided for accordingly.

In case of service concession arrangements classified as financial assets, expenses recognised in the period in which such costs are actually incurred.

19. Leases

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and

leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i. Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis from the commencement date to the end of lease term.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies of Impairment of non-financial assets.

ii. Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

iii. Short term leases and leases of low value of assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment. It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Group as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

20. Taxes

Income tax expense for the period is the tax payable on the current period's taxable income based on the applicable income tax rate and changes in deferred tax assets and liabilities attributable to temporary differences. The current income tax charge is calculated in accordance with the provisions of the Income Tax Act 1961.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted at the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences and brought forward losses only if it is probable that future taxable profit will be available to realise the temporary differences.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the Group will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be

carried forward. In the year in which the Group recognizes MAT credit as an asset, it is created by way of credit to the statement of profit and loss and shown as part of deferred tax asset. The Group reviews the “MAT credit entitlement” asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

21. Employee benefits

Short-term obligations

All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits. These are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post-employment obligations i.e.

- Defined benefit plans and
- Defined contribution plans.

Defined benefit plans:

The employees’ gratuity fund scheme, managed by Life Insurance Corporation (LIC) is a defined benefit plan. The present value of obligation is determined based on actuarial valuation carried out as at the end of each financial year using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows. The discount rate used for determining the present value of the obligation under defined benefit plans, is based on the market yield on government securities, of a maturity period equivalent to the weighted average maturity profile of the related obligations at the Balance Sheet date.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in the statement of profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined contribution plans:

The Group’s contribution to provident fund, employee state insurance scheme, superannuation fund and National Pension Scheme (NPS) are considered as defined contribution plans and are charged as an expense as they

fall due based on the amount of contribution required to be made and when services are rendered by the employee.

22. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group’s cash management.

23. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker, who regularly monitors and reviews the operating result for following operating segments of the Group:

- i. Construction & Contract Related Activity
- ii. BOT
- iii. Sale of Goods

24. Transition to Ind AS 116 Leases

The Ministry of Corporate Affairs (“MCA”) through the Companies (Indian Accounting Standards) Amendment Rules, 2019 has notified Ind AS 116 Leases (‘Ind AS 116’) which replaces the existing lease standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for recognition, measurement, presentation and disclosure of leases for both lessees and lessors.

Effective April 1, 2019, the Group has adopted Ind AS 116 – Leases and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method. The Group has recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate at the date of initial application and right of use asset at an amount equal to the lease liability adjusted for any prepayments/accruals recognised in the balance sheet as on March 31, 2019. The above approach has resulted in a recognition of a right-of-use assets of ₹ 2,132.94 Lakhs and a lease liability of ₹ 1,945.48 Lakhs on the date of initial application i.e. April 1, 2019, including right-of-use asset amounting to ₹187.46 Lakhs which were recognised as finance lease asset under erstwhile lease standard. There is no impact on retained earnings as on April 1, 2019.

Further details about leases are given in Note 50.

A. Arbitration related to intangible asset under development

As per the Service Concession Agreement entered by one of the Subsidiary Company, it has assumed an obligation to construct the road amidst 7.944 km of Forest Area. The Subsidiary has incurred costs amounting to INR 1,626.66 Lakhs towards the same. However, statutory clearance for the same is still awaited and construction is not completed as at the reporting date. The amount spent till date has been recognised under Intangible Assets under Development.

The Subsidiary has claimed certain amounts from NHAI which are under arbitration. As all the hearings of the Arbitration proceedings are completed and the management is awaiting final order from the Arbitrator, the management believes that, in view of the claims receivable by the subsidiary and the probability of claims being crystallized, the value of the intangible assets, including those included in the Intangible assets Under Development would be realised and no impairment provision is required.

- *Trade receivable includes dues from NHAI for utility shifting & ancillary work.
- As March 31, 2020, trade receivables has decreased on account of improved collection as compared to March 31, 2019, even though the operations of the Group has increased
- Trade receivables are non interest bearing and are generally on terms of 30 to 90 days in case if sale of products and in case of long term construction contracts, payment is generally due upon completion of milestone as per terms on contract. In certain contracts, advances are received before the performance obligation is satisfied
- The Group applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on trade receivables and contract assets. The Group follows the simplified approach for recognition of impairment allowance on trade receivables and contract assets. The application of the simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment allowance based on lifetime ECLs at each reporting date. ECL impairment loss allowance (or reversal) recognised during the period is recognised in the Statement of Profit and Loss. The amount is reflected under the head "Other expenses" in the Statement of Profit and Loss.
- Movement in expected credit loss allowances on trade receivables (non current and current) and contract assets

Nature and purpose of Reserves

Securities Premium:

Securities Premium Reserve is used to record the premium on issue of shares and utilised in accordance with the provisions of the Companies Act, 2013.

General Reserve :

General Reserve is used from time to time to transfer profits from Retained Earnings for appropriation purposes. As the General Reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, Items included in General Reserve will not be reclassified subsequently to statement of profit and loss.

Debenture Redemption Reserve :

The Company had created a Debenture Redemption Reserve at the time of issue of Non Convertible Debentures out of the profits which are available for payment of dividend to be utilised for Redemption of these Debentures. During the current year, the Company has redeemed all outstanding Non Convertible Debentures, and transferred the balance of Debenture Redemption Reserve to the General Reserve.

Retained Earning :

Retained Earning are the profit of the Group earned till date net of appropriation.

Other Reserve - NCI Reserves :

The Group recognizes gain / loss on changes in the proportion held / attributable by / to non controlling interests in equity and classifies the same in other reserves as NCI Reserves.

** In case of one of the subsidiary company i.e. Ashoka-DSC Katni Bypass Road Ltd., the toll collection rights as per the concession agreement were expired on September 17, 2014. In earlier years, the subsidiary company initiated an arbitration for extension of rights to collect toll, which was awarded in favour of the Subsidiary Company. Subsequently, Ministry of Roads, Transport and Highways (MORTH) had filed an appeal against the arbitration award with Delhi High Court, which during the previous year was concluded in favour of the Subsidiary Company vide Delhi High Court order dated December 22, 2017 and extended the right to collect toll up to February 20, 2020. The Ministry of Roads, Transport and Highways (MORTH) had

Notes to Consolidated Financial Statements for the year ended March 31, 2020

filed an appeal against the said High Court order and further proceedings are pending before larger bench of Delhi High Court. Further the subsidiary company has got extension to collect the toll vide Delhi High Court Order Dated March 12, 2020 on account of claims awarded by arbitration tribunal. This matter is also before the conciliation committee for settlement of claim and until such time, toll collection shall be continued as per original order dated July 17, 2018. Since the final outcome of the said matter is uncertain, the subsidiary company has disclosed the toll revenue collected from September 17, 2014 till balance sheet date in other non-current financial liability and invested the same fixed deposit and mutual funds. These investments are netted off against the said liability.

In Other similar case, i.e. Dewas Bypass Project, which is another subsidiary company of the Group, the subsidiary company has won arbitration award for various claims which has been disputed by the Public Works Department, Dewas before the District court of Dewas. Since the award is disputed, it is not recognised in books of accounts.

Further, in this matter, prior to the finalization of aforesaid award, the High Court of Madhya Pradesh had allowed the extension of 182 days to collect the toll to the subsidiary company. The said extension was expired in previous years, and is now merged with the aforesaid appeal of the Public Works Department, against the arbitration award before the District Court of Dewas. Since, the outcome of the said matter is still awaited, the amount comprising of Toll Revenue and interest on investment as at the balance sheet date is shown as liability and not recognised as an income and corresponding assets are reduced.

In another similar case i.e. Ashoka Infrastructure limited, which is another subsidiary of the group, the subsidiary company is pursuing various claims which are pending before arbitrations, tribunal & at district court. The two different arbitration awards are in favour of the subsidiary company but is disputed by public works department, Government of Maharashtra and amounts / toll collections period are not paid / granted. Since the award is disputed, it is not recognised in the books of account.

Note 44 : Capital Management

The primary objective of the Group's capital management is to maximise the shareholder value. For the purpose of the Group's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Parent.

Debt is defined as long-term borrowings, current maturities of long-term borrowings, short-term borrowings and interest accrued thereon (excluding financial guarantee contracts).

Capital includes equity attributable to the equity holders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Parent may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the period ended March 31, 2020 and March 31, 2019.

Valuation technique used to determine fair value:

- Investments included in Level 1 of Fair Value Hierarchy are based on prices quoted in stock exchange and/or NAV declared by the Funds.

Notes to Consolidated Financial Statements for the year ended March 31, 2020

- Investments included in Level 2 of Fair Value Hierarchy have been valued based on inputs from banks and other recognised institutions such as FIMMDA/FEDAI.
- Investments included in Level 3 of Fair Value Hierarchy have been valued using acceptable valuation techniques such as Net Asset Value and/or Discounted Cash Flow Method.

Note: All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy described as above, based on the lowest level input that is significant to the fair value measurement as a whole.

Note 47 : Financial risk management objectives and policies

The Group’s risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group’s activities.

The Board of Directors has overall responsibility for the establishment and oversight of the Group’s risk management framework.

The Group has exposure to the following risks arising from financial instruments:

- (A) Credit risk:
- (B) Liquidity risk: and
- (C) Market risk:

(A) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group’s receivables from customers and loans and advances.

The Group’s customer profile include public sector enterprises, state owned companies, group entities, individual and corporates customer. General payment terms include mobilisation advance, monthly progress payments with a credit period ranging from 45 to 90 days and certain retention money to be released at the end of the project. In some cases retentions are substituted with bank/corporate guarantees. The Group has a detailed review mechanism of overdue customer receivables at various levels within organisation to ensure proper attention and focus for realisation.

Credit risk on trade receivables and unbilled work-in-progress is limited as the customers of the Group mainly consists of the government promoted entities having a strong credit worthiness. The provision matrix takes into account available external and internal credit risk factors such as companies historical experience for customers.

The exposure to credit risk is as follows :

Investments & Loan

Investments (other than investment in mutual funds) & Loan are with only group companies in relation to the project execution, hence the group believes exposure to credit risk to be minimal.

(B) Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of committed credit lines. Management regularly monitors the position of cash and cash equivalents vis-à-vis projections. Assessment of maturity profiles of financial assets and financial liabilities including debt financing plans and maintenance of Balance Sheet liquidity ratios are considered while reviewing the liquidity position.

The Group's maximum exposure relating to financial guarantees and financial instruments is noted in note no. 23, 24, 25, 26, 31, 32 & 33 and the liquidity table below:

(C) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk:

1. Currency risk
2. Interest rate risk
3. Other price risk such as Commodity risk and Equity price risk.

1. Currency risk

The Group has several balances in foreign currency and consequently the group is exposed to foreign exchange risk. The exchange rate between the rupee and foreign currencies has changed substantially in recent years, which has affected the results of the Group, and may fluctuate substantially in the future. The Group evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

The following table analysis foreign currency risk from financial instruments:

2. Interest Rate Risk

As infrastructure development and construction business is capital intensive, the group is exposed to interest rate risks. The Group's infrastructure development and construction projects are funded to a large extent by debt and any increase in interest expense may have an adverse effect on our results of operations and financial condition. The group current debt facilities carry interest at variable rates with the provision for periodic reset of interest rates. As of March 31, 2020, the majority of the group indebtedness was subject to variable/fixed interest rates.

The interest rate risk exposure is mainly from changes in floating interest rates. The interest rate are disclosed in the respective notes to the financial statement of the group. The following table analyse the breakdown of the financial assets and liabilities by type of interest rate:

49 : Leases

Disclosures pursuant to Ind AS 116 "Leases"

Effective April 1, 2019, the Group has adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on the date of initial application i.e. April 1, 2019. The Group has used the modified retrospective approach for transitioning to Ind AS 116 with right-of-use asset recognized at an amount equal to the lease liability adjusted for any prepayments/accruals recognised in the balance sheet as on 31 March, 2019. Accordingly, comparatives for the year ended March 31, 2019 have not been retrospectively adjusted. There is no impact on retained earnings as on 1 April, 2019.

The Group also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relied on its assessment of whether leases are onerous immediately before the date of initial application
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months of the date of initial application
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease
- Applied the standard only to contracts that were previously identified as leases applying Ind AS 17 at the date of initial application.

The Group has lease contracts for various items of plant, machinery, land, building, vehicles and other equipment used in its operations. Leases of land generally have lease terms between 1 to 80 years, while Building, Plant and machinery, motor vehicles and other equipment generally have lease terms between 1 and 5 years. Generally, the Group is restricted from assigning and subleasing the leased assets.

The Group has elected not to apply the requirements of Ind AS 116 to short term leases of all the assets that have a lease term of twelve months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight line basis over the lease term.

The Group had total cash outflows for leases of ₹ 1,020.14 Lakhs in 31 March 2020.

Refer Note 2A for additions to right-of-use assets and the carrying amount of right-of-use assets as at March 31, 2020.

The effective interest rate for lease liabilities is 10%,

The maturity analysis of lease liabilities are disclosed in Note 47(B).

The principal assumptions used in determining gratuity benefit obligation for the Group's plans are shown below:

Particulars	March 31, 2020	March 31, 2019
Discount rate	6.82%	7.72%
Mortality rate	Indian assured lives mortality (2012 -14) ultimate mortality table	Indian assured lives mortality (2012 -14) ultimate mortality table
Salary escalation rate (p.a.)	7.00%	7.00%
Disability Rate (as % of above mortality rate)	0.00%	0.00%
Withdrawal Rate	1% to 10%	1% to 10%
Normal Retirement Age	58 Years	58 Years
Average Future Service	20	20

The sensitivity analysis below have been determine based on reasonably possible change of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	March 31, 2020		March 31, 2019	
	Increase	Decrease	Increase	Decrease
Salary escalation (100 basis point movement)	1,556.64	1,268.89	1,125.19	949.39
Discount rate (100 basis point movement)	1,399.07	1,406.20	1,037.74	1,026.61
Attrition rate (100 basis point movement)	1,266.27	1,563.48	947.97	1,131.40

The estimates of future salary increases, considered in actuarial valuation, is based on inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The overall expected rate of return on assets is determined based on the market prices prevailing on that date, applicable to the period over which the obligation is to be settled. There has been significant change in expected rate of return on assets due to change in the market scenario.

Note 51 : Segment Reporting

The Group had identified three reportable segments i.e. Construction and Contract Related Activities, BOT/Annuity projects and Sale (including Real Estate). Segments have been identified taking into account the nature of activities of the Company, different risks and returns and internal reporting systems.

The Group does not expect any outflow of economic resources in respect of the above and therefore no provision is made in respect thereof.

There are many interpretative issues relating to the Supreme Court (SC) judgement dated February 28, 2019 on Provident Fund (PF) as regards definition of PF wages and inclusion of certain allowances for the purpose of PF contribution, as well as effective date of its applicability. Having consulted and evaluated impact on its financial statements, the Group has implemented the changes as per clarifications vide the SC judgement dated February 28, 2019, with effect from March 01, 2019 i.e. immediate after pronouncement of the judgement, as part of statutory compliance. The Group will evaluate its position and act, in case there is any other interpretation of the same issues in future.

In consequent upon the search action dated 05.04.2016, the assessments were reopened/taken-up by the Income Tax Departments, in the cases of Ashoka Buildcon Ltd, Viva Highways Ltd & Ashoka Infrastructure Ltd for AY 2011-12 to AY 2017-18 & in the case of Ashoka Concession Ltd for AY 2012-13 to AY 2017-18. These assessments are completed on 31st December, 2018 except in the case of Ashoka Concession Ltd for AY 2014-15 & 2015-16.

- A) Assessments of Ashoka Buildcon Limited, the Parent Company for Assessment Year 2011-12 to Assessment Year 2017-18 were re-opened/taken-up by the Income Tax Department, consequent upon the search action dated April 5, 2016, against the Company. These assessments were completed on December 31, 2018. In these assessments, Income Tax Authorities have made certain additions. Accordingly, the company is in appeal against the said dis-allowances and has challenged such dis-allowances before the first appellate authority. The appeal before the first appellate authority is pending and the Company has made the necessary submissions to the Income Tax Authorities. Hearings are in progress and outcome of appeal is not yet decided.
- B) In the case of Ashoka Concession Limited, a subsidiary company, was subject to search proceedings under Income Tax Act, 1961 in the month April 2016, and consequently had filed revised return under protest for Financial Year (FY) 2011-12 to FY 2016-17. In 2019, the subsidiary company has received assessment orders for these years except for FY 2013-14 and FY 2014-15 for which all the submissions are duly completed. There are no additions made during assessment proceedings and accordingly it has no impact.
- C) In the case of Ashoka Infrastructure Ltd, a subsidiary company, for AY 2011-12 & 2012-13, the income declared in the returns submitted is accepted in the completed assessments. However, for AY 2013-14 to AY 2017-18, income declared in the returns submitted is accepted except with reference to the legal issue of allowing depreciation on Intangible Asset i.e. 'Right to collect toll'. For AY 2013-14 to AY 2016-17, amortisation allowed by the AO is in excess of depreciation claimed by the company. Since the said adjustment to the returned income does not have any adverse effect on the tax liability of company & as the subsidiary company cannot be said as aggrieved by such assessment orders, the subsidiary company has not preferred appeals against the assessment orders for AY 2013-14 to 2016-17. However, for AY 2017-18, the subsidiary company had filed appeal against the assessment order of the AO, disputing the disallowance of depreciation on intangible asset, before the CIT(A). The same is pending.

Notes to Consolidated Financial Statements for the year ended March 31, 2020

D) In the case of Viva Highways Ltd, a subsidiary company, in the assessments additional demand of ₹ 509.85 Lakhs was raised on the subsidiary company and the same was adjusted against MAT Credit available. Against the additional demand, subsidiary company had filed appeal, before the CIT(A). The same is pending.

Note 55 : Events after reporting period

61 Significant accounting judgement, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Notes to Consolidated Financial Statements for the year ended March 31, 2020

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Significant estimates in Application of Ind AS 115

The Group applied the following estimates that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Project Revenue and Costs

The percentage-of-completion method places considerable importance on accurate estimates of the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenues, contract risks, including technical, political and regulatory risks, and other judgments. The Group re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

Determining method to estimate variable consideration and assessing the constraint

Before including any amount of variable consideration in the transaction price, the Group considers whether the amount of variable consideration is constrained. The Group determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

Other Significant Accounting judgements, estimates and assumptions

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

Significant management judgement is required to determine the amount of deferred tax assets (including MAT credit) that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Service Concession Arrangement

The Cash flow model indicates the cash flow to be generated over the project lifecycle. The key inputs of the model comprise of revenue inflows (Toll / annuity), expenses to incurred to earn the revenue, estimations on cost to build and maintain the asset, interest obligations based on financing pattern and other operational efficiencies. These inputs are based on circumstances existing and management judgement / assumption on the future expectations based on current situations. Judgements include management view on expected earnings in future years, changes in interest rates, cost inflation, government policy changes, etc. These input assumptions could affect the reported cash flow from the related assets and accordingly these assumptions are reviewed periodically.

Property, plant and equipment and Intangible Assets

Refer Note 1.B.c.7 for the estimated useful life of Property, plant and equipment. The carrying value of Property, plant and equipment and Intangible Assets has been disclosed in Note 2 and 3.

Amortisation of Intangible assets

The intangible assets which are recognized in the form of Right to collect toll are amortized by taking proportionate of actual revenue received for the year over Total Projected Revenue from project to Cost of Intangible assets. The estimation of total

Notes to Consolidated Financial Statements for the year ended March 31, 2020

projection revenue requires significant assumption about expected growth rate and traffic projection for future. All assumptions are reviewed at each reporting date.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Impairment of financial assets

The impairment provision for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Employee Benefit Plans

The cost of the defined benefit gratuity plan and other post-employment benefits are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

Further details about gratuity obligations are given in Note 50

Impairment of Toll assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget generally covering a period of the concession agreements using long terms growth rates and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Allowance for uncollectible trade receivables

Trade receivables do not carry interest and are stated at their nominal values as reduced by appropriate allowances for estimated irrecoverable amounts. Estimated irrecoverable amounts are based on the aging of the receivable balances and historical experiences. Individual trade receivables are written off when management deems them not be collectible.

64 Investment towards obligation in Subsidiary

Ashoka Concessions Limited (ACL), a subsidiary Group, had issued Compulsorily Convertible Debentures (CCD) to its investors and parent Group which has been classified as equity instrument in the separate financial statements of ACL. Simultaneously, the parent Group had agreed additional terms with the investors and assumed obligations towards investors which would be settled through the some portion of equity shares to be received from ACL on conversion of CCDs held by parent Group. This has been considered as a financial liability and measured at its fair value. The Fair Value as at March 31, 2019 and March 31, 2020 amounts to ₹ 1,48,162.83 Lakhs and ₹ 1,52,600.00 Lakhs respectively. The changes in the Fair Values year on year, have been classified under Finance Cost.

65 Exceptional Items

A) PNG Tollways Limited ('PNG'), an associate of the Group, had terminated its service concession agreement with National Highways Authority of India ('NHAI') and claimed the terminated payment in 2016. Further, the majority partner had claimed shortfall funding from the Group for which arbitration proceeding were going on. During the previous year the said arbitration proceedings was completed and the Group was directed to make payment to majority partner amounting to ₹ 5,733 lakhs along with the interest. Also, subsequent to year-end, NHAI had settled the termination payment which was apportioned between the Group and majority partner after discharging the lender's obligation. Accordingly, the Group

had recognised net amount payable to ₹ 1,311 lakhs in previous year and was disclosed it as an exceptional item. Further in the current year, the Group has entered into a Settlement Agreement ('SA') with majority partner and as a result, an additional interest liability of ₹ 352.71 lakhs has been agreed and accounted as finance cost in these Consolidated financial statements.

- B) GVR Infra Projects Limited (GVR), one of the customers and joint venture partner for certain road annuity project, had been admitted for insolvency petition by National Group Law Tribunal (NCLT) under Insolvency and Bankruptcy Code, 2016 (IBC). The Group's receivable from GVR included Trade debtors (net) – ₹ 3,448 Lakhs and Loans Receivable - ₹ 2,503 Lakhs. The insolvency proceedings are ongoing and the outcome would be determined on completion of the proceedings. Considering the uncertainties involved in the outcome of IBC proceedings, the Group had charged to the Statement of Profit & Loss for the year ended March 31, 2019, an amount of ₹ 4,702.34 Lakhs and disclosed it as an exceptional item and the balance amount of ₹ 1,248.95 Lakhs, has been charged to the Statement of Profit & Loss for the year ended March 31, 2020.

66 COVID Impact

The Outbreak of Coronavirus (COVID-19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. Execution of EPC contracts undertaken by the Group were temporarily suspended during nationwide lockdown. Further, as per the directions of the Ministry of Road Transport & Highways (MoRTH)/National Highway Authority of India (NHAI), operations at the toll plazas of its subsidiaries and associates (the 'Toll SPVs') of the Group were closed down w.e.f. March 26, 2020. The Toll operations were resumed from the April 20, 2020 by ensuring compliance with the preventive measures in terms of guidelines/instructions issued by Government of India (GOI) and which impacted the traffic of the respective Toll SPVs. Further, construction activities were also resumed gradually in the phased manner. The Group believes this is temporary in nature and based on the various initiatives announced by GOI, this may not result in any significant financial impact on the Group.

The management has considered internal and external sources of information up to the date of approval of these consolidated financial statements, in assessing the recoverability of investments and assets, liquidity, financial position and operations of the Group including impact on estimated construction cost to be incurred towards projects under execution and based on the management's assessment, there is no material impact on the consolidated financial statements of the Group. Considering the uncertainties involved in estimating the impact of this pandemic, the future impact of this pandemic may be different from those estimated as on the date of approval of these consolidated financial statements.
