FMCG industry sees recovery on urban buying: NielsenIQ

'Customers buying smaller packs as both traditional kirana stores and modern supermarkets clock business'

SHARLEEN D'SOUZA
Mumbai, 2 August

Consumption of fast-moving consumer goods (FMCG) like packaged foods, beverages, and toiletries revived in the April-June quarter in urban markets but was negative in rural India as people opted for smaller packs, said NielsenIQ on Tuesday.

Overall volumes recovered to minus 0.7 per cent from minus 4.1 per cent in the quarter ended March. The FMCG market grew 10.9 per cent in the quarter ended June compared to 6 per cent in the January-March quarter.

"The industry also observes positive momentum in volume along with price-led growth," NielsenIQ said in a press statement.

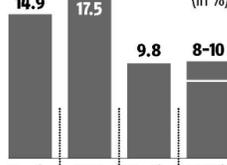

Modern trade comprising hypermarkets and supermarkets continued to clock volume growth (7.8 per cent in April-June over 5.5 per cent in January-March). Traditional trade comprising kirana stores recovered as well (from minus 4.9 per cent in January-March to minus 1.5 per cent in April-June).

Unit growth for the entire sector bounced back to 8.9 per cent in the quarter ended June from 1.5 per cent in the quarter ended March, indicating consumers are buying smaller packs and more units. "Overall, this quarter sees a consumption revival across categories in FMCG, primarily led by a jump in unit growth. Urban markets have turned towards a positive consumption growth, and rural markets are follow-

ing closely," said Satish Pillai, managing director, NielsenIQ India. "This beats the last two quarters of consumption decline and highlights the onset of cautious optimism among consumers. Also, the consumption recovery and promising macro factors support NielsenIQ's forecast of double-digit growth for 2022" he said.

"Within both foods and non-foods, there is a drop in average pack size growth and consumers continue to prefer smaller packs which is evident by the high unit growth. Grammage reduction is also a catalyst for this behavior to a great extent. Manufacturers and retailers must keep an eye on the changing consumer preferences and manage their portfolio accordingly by ensuring availability of small packs in maximum stores", said Sonika Gupta, customer success lead (India), NielsenIQ.

The foods segment has seen a positive volume growth of 1.8 per cent in the April-June quarter as non-foods continue to be negative, there is a marginal uptick (minus 6.4 per cent in April-June versus minus 9.6 per cent in January-March). Non-essential personal care categories, such as perfumed deodorants and colognes, recorded more than 40 per cent volume growth, on the back of summer season. Skin creams, coconut oil, hair dyes, and talcum powder too had positive volume growth over the same period last year.

NielsenIQ forecasted that the FMCG sector would grow 8-10 per this year, considering government policies, inflationary pressures, and other macroeconomic factors. "The first half of the year had an 8 per cent value growth, indicating an overall positive outlook for 2022. This is echoed in the forecast for the year with the industry slated for a double-digit growth rate for the full year of 2022," said Rajesh S Shirali, data science market and client engagement lead, NielsenIQ India. In 2021, India's FMCG market grew 17.5 per cent.

SpiceJet: Cleared all outstanding AAI dues

PRESS TRUST OF INDIA
New Delhi, 2 August

SpiceJet on Tuesday said it has entered into an agreement with the Airports Authority of India (AAI) and cleared all outstanding principal dues of the airport operator.

"With this, SpiceJet will no longer remain on 'cash and carry' at AAI-run airports across the country and will revert to advance payment mechanism for daily flight operations," the airline's statement noted.

The Centre-run AAI had in 2020 put SpiceJet on a 'cash and carry' basis as the carrier was unable to clear its previous dues.

In the 'cash and carry' model, the airline has to make daily payments to the AAI for various charges — navigation, landing, parking,

and others — to operate flights. SpiceJet said on Tuesday: "In another big boost for the airline, AAI will release SpiceJet's ₹50 crore bank guarantee following the airline clearing all its principal dues. This will result in additional liquidity for the airline." SpiceJet has been making losses for the last four years. It incurred net losses of ₹316 crore, ₹934 crore and ₹998 crore in 2018-19, 2019-20 and 2020-21, respectively.

In the April-December period of 2021, the airline

posted a net loss of ₹1,248 crore. The airline is yet to declare results for January-March period of 2022.

Aviation regulator DGCA had on July 27 ordered SpiceJet to operate not more than 50 per cent of its flights, which were approved for summer schedule, for a period of eight weeks.

On July 6, the Directorate General of Civil Aviation (DGCA) had issued a show-cause notice to SpiceJet following at least eight incidents of technical malfunction in its aircraft since June 19.
